SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF OCTOBER 1894.

DURING the last week of September a barometric depression which had formed in the north of the Bay had passed inland near Puri, and had advanced at first in a west-north-westerly direction, and then in a northerly and north-easterly path, and had broken up against the Himalayas, probably to the north of Bihar, on the 2nd of October. This brought up another though rather feeble wave of monsoon winds to Bengal, and hence at the beginning of October rainfall was still being received over a large part of the province. At this time the first barometric depression of the month was formed which, however, was rather feeble in character.

Feeble barometric depression of October 2nd to 6th.—While, however, the first storm was advancing in a north-easterly direction towards the Himalayas, where it broke up on the 2nd, another feeble depression was forming in the Bay. On the 1st pressure had fallen over the whole province, the fall being rather rapid in Orissa, where it exceeded a twentieth of an inch, and where pressure was in defect by amounts ranging up to 0·189 inch at Cuttack. On this day ordinary but rather strong monsoon winds only prevailed over the whole Bay. On the 2nd a further slow to moderate fall of pressure occurred over the whole province, the fall exceeding a twentieth of an inch at the stations in the north-west angle of the Bay, and pressure became below the normal by amounts ranging up to 0·229 inch at Balasore and Saugor Island, and 0·220 inch at False Point and Cuttack. A very decided cyclonic circulation of winds also set up round the north-west angle of the Bay, the centre of the circulation being to the south of Saugor Island and to the east of False Point, but the wind force in connection with this circulation was light. The depression commenced to move in a north-westerly direction almost as soon as it had formed, and the centre of the feeble storm passed between Saugor Island and Balasore on the evening of the 2nd, and at 8 A.M. of the 3rd the centre was between Chaibassa and Balasore, and nearer the former station than the latter. On the 4th the feeble depression had again moved in a north-westerly direction, and was to the west of Hazaribagh, but it was apparently beginning to fill up. On the 5th the small cyclonic storm had advanced about 250 miles in a north-westerly direction, and its centre was near Lucknow, and the depression at the centre of the storm was greater and the gradients were steeper, and the storm was giving heavy rain in the North-West Provinces, though the falls were lighter in Bengal. On the 6th the storm had advanced in a northerly direction, and it had broken up against the Himalayas probably not very far from Naini Tal.

With the formation of the depression on the 2nd and the commencement of its inland advance on the evening of this day, another feeble burst of monsoon winds began to flow over Bengal, and hence from the 3rd instant rainfall again was general over the whole province; this general rainfall continued on the 4th and 5th, while on the 6th it was again becoming decidedly local.

The effects of this depression had to a great extent passed away at the end of the first week in October, and on the 7th pressure was rising; while the moist easterly and south-easterly winds which had flowed over Bengal after the depression were being gradually driven back by an advancing north-westerly wind current, which was making itself felt in Bihar and Chota Nagpur. On the 8th the north-westerly winds had again extended, and the general rainfall had almost ceased, though owing to the interaction which was taking place between the two opposing wind systems some heavy local falls of rain occurred. A partial re-establishment of the moist easterly and south-easterly wind current, however, occurred on the 9th and 10th, but on the 11th and 12th again more or less westerly winds were setting in at some of the western stations, and a feeble tendency to cyclonic circulation of winds was set up in Bihar. Rather general rain therefore again occurred, and on the 12th heavy rainfall was reported in the north of the province. On the 13th the lowest pressure had retreated southwards to Central and South-West Bengal, where an irregular cyclonic circulation of winds existed, and with the southerly movement of the area of disturbance, the area of general rainfall also retreated, and on the 13th moderate general rain was received in all districts. On the 14th the area of lowest pressure had again retreated southwards, and comparatively high pressure was establishing itself in the north of the province, while more or less northerly winds were again setting in over a considerable area. On the 15th, 16th, and 17th, these changes continued, and on the 17th pressure had risen briskly over practically the whole province, and it had become for the first time for a considerable period in excess of the normal, though the excess amounts were small. The area of lowest pressure had again retreated southwards down the Bay. The easterly winds had to a considerable extent retreated from Bengal, and weather became much more settled over the province, though showers were still being received in South-West and North Bengal and Orissa.

In the centre and south of the Bay on this date, the 17th instant, however, conditions had become suspicious, and were favourable for the development of a storm, and about this period the second storm of the month was formed. This was a decidedly more influential storm than the former one, but it was still only of diffused and rather feeble nature.

Feeble diffused cyclonic storm of October 18th to 22nd instant.—The disturbed conditions which existed on the 17th probably concentrated and formed a definite though diffused storm on the 18th, which commenced to move slowly in a west-north-westerly direction, and on the 19th was still a considerable distance from the Madras coast. On the 20th the diffused storm had again advanced in a west-north-westerly direction towards the Coromandel coast, and its centre was still some little distance from the coast and probably opposite Madras. The disturbance was a large one, and it was giving strong winds and squally weather as far north as Coconada. The diffused storm continued its advance, and the centre passed inland a little to the north of Madras, and probably between that station and Nellore, in the early morning of the 21st. The disturbance was of feeble strength near its centre, but at considerable distances from the centre, it was accompanied by very strong winds, specially to the north, and at such stations as Coconada, and Masulipatam, and even in Ceylon at Galle, very strong winds, and at certain times a severe gale of wind, were reported. Decidedly heavy rain was also brought up to the Madras coast during the approach and passage of the depression over the land. The diffused storm apparently either broke up on striking the coast, or it may perhaps have passed across the peninsula in a feeble form, and have afterwards developed into a more severe storm which advanced up the Bombay coast, and filled up in Guzerat on the 27th. At all events so far as the weather in the Bay of Bengal is concerned, on the 22nd it had practically ceased to exist.

The storm as usual brought with it a moderately heavy wave of monsoon winds, and when the depression had passed away this wave began to spread northwards along the west coast of the Bay. On the 22nd this wave had reached Orissa, and moderate general rain was received over that district. On the 23rd the moist south-westerly winds set in over the whole of Bengal, and winds became strong at the head of the Bay, and from about the 23rd rainfall again became general in Bengal, and on the 24th the falls were particularly heavy in Bihar. This heavy precipitation was followed on the 25th by a rapid fall of pressure over the northern half of the province, and a very distinct barometric depression was formed over this area, the defect ranging up to 0·14 inch at Bhagalpur, and the depression was accompanied by a distinct cyclonic circulation of winds. With the formation of the depression further heavy rain was determined to the north of the province, and the depression increased in depth on the 26th and moved more towards North Bengal and Assam, where defects of nearly a quarter of an inch were recorded. A strong westerly element, however, began to set in over the province on this day, and the cyclonic circulation of winds had broken up, and with a rapid increase of pressure recorded on the 27th and 28th the depression disappeared, and a steady northerly wind current set in over Bengal, producing a rapid fall of temperature on the 28th and 29th, when also the sky rapidly cleared and became almost cloudless, and rainfall became almost absent except for one or two local showers in Orissa. Indeed, from about the 28th up till practically the end of the month the conditions in Bengal were those which characterise the commencement of the cold-weather months.

Again, however, conditions in the Bay became disturbed, and a very large though not intense cyclonic storm was formed, the history of which is given below as detailed in the Bengal Weather Report for the week ending the 3rd of November :—

Large but rather diffused cyclonic storm of October 29th to November 4th.—In the Bay the first indications of an important change occurred on the 29th instant, as pressure fell to the south of Burma and the north-easterly winds blowing at Diamond Island began to strengthen rather rapidly. Indeed, it is probable that a barometric depression or storm was forming on this day close to the Andamans or over the Andaman Sea, or it may be even that a depression was crossing into the Andaman Sea from the Gulf of Siam, as was the case three years ago at precisely this season. On the 30th weather continued practically unchanged in Bengal, where temperature was falling, and the whole province was practically rainless. On the other hand the depression in the Bay had developed into a storm, and pressure had fallen moderately at Diamond Island, where wind velocity had increased up to 38 miles an hour at 8 A.M of that day. On this day the storm centre was probably to the west of the Andamans, and it had probably already commenced a westerly or west-north-westerly movement. On the 31st of October again fine and almost cloudless weather with falling temperature and a practical absence of rain obtained in Bengal. In the Bay the storm had moved in a west-north-westerly direction with moderate rapidity, and its centre was probably almost in the middle of the Bay and in about Latitude 14° N. Judging by the indications at the coast stations, it was now a severe storm, for though the centre was a long distance from the Burma coast, and at perhaps about 450 miles from Diamond Island, the wind velocity at that station for the 24 hours from 8 A.M. of the 30th to the 31st had averaged the large amount of 32 miles an hour. On 1st November the influence of the storm was beginning to extend to Bengal; cloud proportion and humidity were increasing rapidly; showers were also beginning to fall in the south-eastern districts; winds had become part of a large cyclonic circulation and were easterly and north-easterly, and strong winds were commencing at the head of the Bay, while pressure was beginning to fall rapidly in Orissa. Temperature had also begun to increase rapidly as it always does when disturbed weather commences. In the Bay the storm had again advanced, and its centre was apparently in about Latitude 15° or 16° N. and Longitude 84° or 85° E. It had therefore advanced in a

north-westerly direction instead of in a west-north-westerly direction as on the previous day. It also, as judged by the coast observation, was still a powerful storm, as at Diamond Island which must have been about 650 miles from the centre of the storm, the high average wind velocity of 32 miles an hour was still registered. The storm had thus moved in a more northerly direction than on the previous day, and it appeared as if it might recurve without crossing the west coast of the Bay, and this supposition was strengthened by the fact that from 8 A.M. of the 1st to 8 P.M. on the same day the storm made very little forward progress. It usually happens that, when storms are recurving, their rate of advance becomes very slow, and hence it appeared probable that the storm would subsequently move in a northerly and north-north-easterly direction towards the head of the Bay. From 8 P.M. of the 1st, however, the storm again advanced in a north-westerly direction, and it crossed the coast to the south of Coconada and between that station and Masulipatam about 6 A.M. of the 2nd, and at 8 A.M. its centre was near Rajahmundry. In its passage inland it gave much less violent winds than were to be expected from the most definite indications of strength which had been given in the outside area of the storm, and even on the 2nd, when the storm had crossed the Madras Coast, the wind velocity in Burma at Diamond Island averaged the large amount of 26 miles an hour. Hence it was certainly a very large storm, though it does not appear to have concentrated mainly towards its centre as most October and November storms do. On the 2nd of November the whole of the southern half of Bengal had become largely influenced by the storm, and strong winds forming part of the large cyclonic circulation were blowing at the head of the Bay, and also at some of the inland stations, and indeed the winds over the whole province were affected by the storm. Skies had become almost overcast and rain had also recommenced and was general in all divisions except Bihar and parts of Assam. On the 3rd the storm had again moved away in a north-westerly direction and was rapidly filling up, and on the 4th it had practically disappeared. In Bengal, however, winds continued to form part of the cyclonic circulation, and fairly general rain was still being received over a a large part of the province up till about the 6th instant, when these abnormal conditions were gradually driven back, and from about the 8th ordinary cold season or north-east monsoon conditions set in over Bengal.

Pressure.—Owing to the influence of the two storms and two depressions of the month, of which the two storms and the first depression were formed in the Bay and influenced the weather in Bengal largely, while the second depression formed over the land in the northern districts of the province, the general pressure for the month has been rather largely in defect. The variations have usually been between 0·04″ and 0·05″, but they are largest in the west of the province, and they range up to about 0·06″ at the extreme western stations of Arrah, Buxar, and Dehree, while on the other hand they are smallest in South-East Bengal, where they have equalled about 0·03″, and at Chittogong pressure was in defect by only 0·004.″

In Assam the mean defect for the whole month has been equal to 0·033.″

Temperature.—Owing to the disturbed weather with moist winds and heavily clouded skies which have prevailed to such an unusual extent in October of the present year, the day temperatures have been distinctly below the normal, and defects have been recorded ranging from about 1° in the south and east of the province up to 3° at the western and north-western stations. On the other hand these conditions have given unusually high night or minimum temperatures, and at the great majority of stations the average minimum temperatures for the month have been in excess by from 2° to 3°. Hence the mean temperature for the month has also been in excess, the usual excess equalling about a degree. On the other hand at the extreme western stations owing to the large defect in the day temperatures the mean temperature has been in very slight defect, and the same has been the case in Assam, where the variation of the mean temperature from the normal has shown a defect of 0·1° only.

Rainfall.—The rainfall during October has been unusually heavy, and the general fall over the whole of the province has been 59 per cent. in excess of the normal. This heavy fall has been of course brought about by the effect of the two storms and the two barometric depressions previously described, and by the fact that the monsoon current was influencing the province almost up to the close of the month. The falls in North Bengal, Bihar, Orissa, and Chota Nagpur have equalled from about seven to seven and-a-half inches, while in South-West Bengal and East Bengal the falls have been from four and-a-half to five and-a-half inches. The falls indeed in Chota Nagpur, Bihar, and North Bengal have been from three and-a-half to four inches in excess of the normal. The average numbers of rainy days also in each division have been much larger than the normal, and in such districts as Chota Nagpur, Bihar, and North Bengal, the actual number of rainy days has been about twice as large as usual.

The following table gives a comparison between the actual monthly and total rainfall and the normal rainfall of the province up to the end of October in the same form as has been employed in the previous monthly abstracts of the present year. The figures represent the ratio of the rainfall of each month of the present year to the normal rainfall expressed as a percentage. The table thus gives a condensed summary of the rainfall data of the year for each meteorological division. The first ten columns give the percentage amount of rainfall received in each month, and the last column the percentage rainfall of the whole period from the 1st of January to the end of October:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	Actual rainfall of first ten months of 1894 expressed as a percentage of the normal fall for the period.
South-West Bengal ...	0	55	42	97	58	104	121	89	82	105	93
North Bengal ...	0	64	16	177	83	77	80	111	136	177	102
East Bengal ...	0	87	164	79	70	95	118	112	76	104	98
Bihar ...	3	163	24	98	29	121	108	126	128	213	119
Orissa ...	30	19	27	128	20	137	154	82	69	112	102
Chota Nagpur ...	3	110	4	144	31	149	138	126	86	241	124

It will be seen that excess rainfall has been recorded in all districts, the excess ranging from 141 per cent. in Chota Nagpur and 113 per cent. in Bihar to 4 and 5 per cent. in East and South-West Bengal. The last column of the table also shows that the rainfall for the year has been in excess in all districts, except South-West and East Bengal, where defects of only 7 and 2 per cent. have been recorded.

The following table gives full data for the comparison of the actual and normal rainfall of the month of October in all districts of the province. The figures are obtained in the manner explained in previous monthly summaries. The first column gives the average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the actual weighted rainfall of the month at the reporting stations in the district. The third column expresses the ratio of the actual district rainfall to the normal as a percentage, and the fourth the same information in a slightly different form :—

Percentage Table for October 1894.

Division.	District.	Normal district rainfall for October.	Actual district rainfall for October 1894.	Percentage of actual to normal rainfall.	Percentage excess (+), defect (−).

The total fall from 1st January to 17th November 1894	48·58
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·44

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. Means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period by stations in the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

or the week ending Saturday, the 17th of November 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 20th November* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 17TH OF NOVEMBER 1894.

DURING the second half of the previous week fine settled weather of ordinary north-east monsoon character had set in rapidly over the province, and the disturbed conditions brought about by the storm at the commencement of the month had disappeared. An unusually rapid fall of temperature had also occurred, and at the close of the week temperature had became rather largely in defect.

Ordinary north-east monsoon weather has prevailed over the whole of Bengal for the whole of the present week, and the changes which have occurred from day to day have been small and of the kind which usually accompany fine settled weather. Thus on the 11th temperature and pressure were increasing slowly, and while pressure was still moderately in excess, the mean temperature was below the normal by amounts ranging between about 6° at the extreme southern stations to a nearly normal temperature in parts of Bihar. Almost similar changes to those on the 11th occurred on the 12th, 13th, 14th, 15th and 16th; and on the 16th pressure had become in excess of the normal by amounts which usually ranged between 0·13″ and 0·14″, while on the other hand the deficiency of temperature had practically disappeared, and temperature for the whole province was nearly normal, slight to moderate excess amounts being registered over the western half and similar defects over the eastern half of the province. On the 17th these changes practically ceased and were almost reversed, and pressure and temperature began to fall slowly, and in the case of the mean temperature slight to moderate defects were registered over practically the whole province. Light to moderate north-westerly, westerly and northerly winds have also prevailed over the province throughout the week, while skies have been either lightly to moderately clouded, or in the western districts almost cloudless. Humidity has also been generally only moderate in amount, and rainfall has been entirely absent from the whole province throughout the week.

Pressure has been above the normal for the whole week, and the excess has averaged from about 0·10″ up to 0·12″, the excess being fairly equally distributed in all districts.

Temperature has been below the normal for the greater part of the week, the defect ranging from 1·7° in North-West Bengal and Chota Nagpur to a defect of only 0·2° in Bihar. For the whole province the defect has equalled 1·1°.

The actual temperatures registered during the week and their variations from the normal temperature for the present season are most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations, it will be seen, have been rather large in both the day and night temperatures, and at the great majority of stations considerable defects have been registered:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 17th of November 1894.

	Normal mean maximum temperature for the week ending 17th November.	Actual mean maximum temperature for the week ending 17th November 1894.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 17th November.	Actual mean minimum temperature for the week ending 17th November 1894.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 17th November.	Actual mean daily temperature for the week ending 17th November 1894.	Variation of actual mean from the normal.

DARJEELING,
The 20th October 1894.

No. 5709A.

GENERAL.—*No.* 5430*A.*—*The 16th November* 1894.—Mr. J. Tweedie, District and Sessions Judge, Patna, is allowed leave for one month and ten days, viz., one month and five days under article 308, and the remaining period under article 306 (*b*) of the Civil Service Regulations, with effect from the 23rd December 1894, or such subsequent date as he may avail himself of it.

No. 5533*A.*—*The 22nd November* 1894.—Mr. D. B. Allen, Magistrate and Collector, Midnapore, is allowed leave for three weeks, under article 291 of the Civil Service Regulations, with effect from the 8th December 1894.

No. 5535*A.*—*The 22nd November* 1894.—Mr. C. H. Bompas, Officiating Joint-Magistrate and Deputy Collector, Midnapore, is appointed to act as Magistrate and Collector of that district, during the absence, on leave, of Mr. D. B. Allen, or until further orders.

No. 5537*A.*—*The 22nd November* 1894.—Mr. Brojendro Coomar Seal, District and Sessions Judge, Burdwan, is allowed furlough for three months, under article 627, section 4 (*c*) of the Civil Service Regulations, with effect from the date on which he may be relieved.

No. 5539*A.*—*The 22nd November* 1894.—Mr. G. Gordon is appointed to act as District and Sessions Judge of Burdwan, during the absence, on furlough, of Mr. Brojendro Coomar Seal, or until further orders, on being relieved of his present appointment as Officiating District and Sessions Judge of Bankura.

This cancels the order of the 9th November 1894 appointing Mr. Gordon to act as District and Sessions Judge of Rangpur.

No. 5545*A.*—*The 22nd November* 1894.—The Hon'ble J. A. Bourdillon, Officiating Secretary to the Government of Bengal, in the Financial and Municipal Departments, is allowed leave for one day, under article 291 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 7th July 1894.

No. 5562*A.*—*The 22nd November* 1894.—Mr. Kedar Nath Roy, Joint-Magistrate and Deputy Collector, is appointed to act as District and Sessions Judge of Noakhali, during the absence, on leave, of Mr. W. H. M. Gun, or until further orders.

No. 5588*A.*—*The 23rd November* 1894.—Mr. G. W. Place, Officiating District and Sessions Judge, Saran, is appointed to act, until further orders, in the first grade of District and Sessions Judges, with effect from the 12th November 1894, *vice* Mr. W. H. M. Gun, on privilege leave.

No. 5590*A.*—*The 23rd November* 1894.—Mr. C. M. W. Brett, Officiating Additional District and Sessions Judge, 24-Parganas and Hooghly, is appointed to act, until further orders, in the first grade of District and Sessions Judges, with effect from the 15th November 1894.

No. 5600*A.*—*The 23rd November* 1894.—Mr. J. Posford, District and Sessions Judge, Faridpur, on leave, is appointed to act as District and Sessions Judge of Patna, during the absence, on leave, of Mr. J. Tweedie, or until further orders.

No. 5604*A.*—*The 23rd November* 1894.—Mr. R. Nathan, substantive *pro tempore* Joint-Magistrate and Deputy Collector, on furlough, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and his services are placed temporarily at the disposal of the Revenue Department of this Government.

No. 5613*A.*—*The 23rd November* 1894.—Babu Gobind Chandra Das, Deputy Magistrate and Deputy Collector, Jalpaiguri, is allowed leave for seven days, under article 291 of the Civil Service Regulations, in extension of the leave granted to him under the orders of the 14th May 1894.

No. 5617*A.*—*The 23rd November* 1894.—Babu Suresh Chunder Das, Deputy Magistrate and Deputy Collector, Midnapore, is allowed leave for three months, under article 369 of the Civil Service Regulations, with effect from the afternoon of the 19th September 1894.

No. 5619*A.*—*The 23rd November* 1894.—In modification of the order of the 20th August 1894, it is hereby notified that Mr. J. Whitmore, District and Sessions Judge, Birbhum, was on leave for thirty-five days, viz., thirty days under article 308 of the Civil Service Regulations, and the remaining period under article 306 (*b*) of the same Regulations, with effect from the 27th August 1894.

No. 5622*A.*—*The 24th November* 1894.—Babu Rajani Prosad Niyogi, Special Excise Deputy Collector, Mymensingh, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

No. 5627*A.*—*The 26th November* 1894.—Babu Annada Prasada Basu, Deputy Magistrate and Deputy Collector, Nadia, is vested with the powers of a Collector under Act I of 1894 in that district.

No. 5630*A.*—*The 26th November* 1894.—Mr. H. P. Peterson, I.C.S., is allowed leave for three months, under article 366 of the Civil Service Regulations, with effect from the 9th November 1894, in continuation of the furlough granted to him under the order of the 18th December 1893.

No. 5646*A.*—*The 26th November* 1894.—The services of Mr. E. P. Chapman, Assistant Magistrate and Collector, are placed at the disposal of the Government of India in the Home Department.

This cancels the order of the 20th November 1894, appointing Mr. E. P. Chapman to act in the first grade of Joint-Magistrates and Deputy Collectors, and posting him to the head-quarters station of the district of Lohardaga.

No. 5685*A.*—*The 27th November* 1894.—Babu Banka Bihari Baksi, Sub-Deputy Collector, Pirojpur, Backergunge, is appointed to act, until further orders, as a Deputy Magistrate and Deputy Collector, with effect from the 2nd December 1894, and is posted to the head-quarters station of that district.

No. 5693*A.*—*The 27th November* 1894.—Mr. F. F. Lyall, Assistant Magistrate and Collector, Muzaffarpur, held charge of the Hajipur sub-division of that district from the afternoon of the 12th to the forenoon of the 19th November 1894.

No. 5691*A.*—*The 27th November* 1894.—Babu Suresh Chandra Das, Deputy Magistrate and Deputy Collector, Midnapore, on leave, is transferred to the head-quarters station of the Hazaribagh district.

No. 5699*A.*—*The 27th November* 1894.—Maulvi Mohiuddin Ahmed, Officiating Deputy Magistrate and Deputy Collector, Gaya, held charge of the Nawadah sub-division of that district from the afternoon of the 16th to the afternoon of the 30th October 1894, and again from the forenoon of the 10th to the afternoon of the 17th November 1894.

No. 5704*A.*—*The 27th November* 1894.—Maulvi Syed Faizuddin Hosain, Deputy Magistrate and Deputy Collector, Netrakona, Mymensingh, is vested with the powers of a Collector under Act I of 1894 in that sub-division.

No. 5712*A.*—*The 27th November* 1894.—The services of Babu Bihari Lal Sarkar, Officiating Deputy Magistrate and Deputy Collector, Midnapore, are placed at the disposal of the Financial Department of this Government for employment on Excise work in that district.

No. 5715*A.*—*The 27th November* 1894.—Babu Nabin Chandra Kar, Deputy Magistrate and Deputy Collector, is posted to the head-quarters station of the Midnapore district.

No. 5175*L.R.*—*The 23rd November* 1894.—Babu Ganendra Nath Pal, Deputy Magistrate and Deputy Collector, is appointed to perform the functions of a Collector under section IV of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Backergunge.

No. 5203*L.R.*—*The 23rd November* 1894.—Babu Annada Prasada Basu, Deputy Magistrate and Deputy Collector, is appointed to perform the functions of a Collector under section IV of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Nadia.

POLICE.—*No.* 5707*A.*—*The 27th November* 1894.—Mr. R. F. G. Faussett, Assistant Superintendent of Police, Gaya, is promoted to the first grade of Assistant Superintendents of Police, with effect from the 21st November 1894, *vice* Mr. E. H. D'Oyly, resigned.

OPIUM.—*No.* 5541*A.*—*The 22nd November* 1894.—The services of Mr. F. Baker, I.C.S., are replaced at the disposal of the Government of the North-Western Provinces and Oudh, with effect from the 16th November 1894.

ECCLESIASTICAL.—*No.* 5608*A.*—*The 23rd November* 1894.—The Rev. J. G. S. Syme, Chaplain of Dum-Dum, is appointed temporarily to be Chaplain of Berhampore, with effect from the date on which he may take over charge. This cancels the order of the 29th October 1894, placing the services of the Rev. J. G. S. Syme at the disposal of the Government of the Punjab.

No. 5611*A.*—*The 23rd November* 1894.—The Rev. H. T. Ottley, Chaplain of St. Stephen's Church, Kidderpore, is allowed leave for three months, under article 656, Civil Service Regulations, with effect from the 15th December 1894, or from any subsequent date on which he may avail himself of it.

No. 5701*A.*—*The 27th November* 1894.—The services of the Rev. J. G. S. Syme, Chaplain of Berhampore, are placed temporarily at the disposal of the Government of India in the Home Department.

EDUCATION.—*No.* 5548*A.*—*The 22nd November* 1894.—Babu Chandra Mohan Mozumdar, Assistant Inspector of Schools, Presidency Division, is allowed leave for six months, under article 369 of the Civil Service Regulations, with effect from the 1st November 1894.

No. 5550*A.*—*The 22nd November* 1894.—Babu Mati Lal Maitra, Deputy Inspector of Schools, 24-Parganas, is appointed to act as Assistant Inspector of Schools, Presidency Division, during the absence, on leave, of Babu Chandra Mohan Mozumdar, or until further orders.

No. 5552*A.*—*The 22nd November* 1894.—Babu Madhu Sudan Sinha, B.A., Officiating Deputy Inspector of Schools, 24-Parganas, is appointed to act in class IV of the Sub-Educational Service, during the absence, on deputation, of Babu Mati Lal Maitra, or until further orders.

The following notifications are republished from the *Assam Gazette*:—

No. 7518*G.*—*The 12th November* 1894.—Privilege leave of absence for one month, under article 291 of the Civil Service Regulations, is granted to Mr. W. B. Stuart, Assistant Superintendent of Police, Darrang, with effect from the 13th December 1894, or the subsequent date on which he may avail himself of it.

No. 7567*G.*—*The 15th November* 1894.—With effect from the 11th August 1894, in consequence of the departure on privilege leave of Mr. A. G. Hallifax, I.C.S., Officiating Assistant Commissioner, first grade,—

Mr. F. C. French, I.C.S., Officiating Assistant Commissioner, second grade, to officiate as Assistant Commissioner, first grade.

REVENUE DEPARTMENT—LAND REVENUE

NOTIFICATION—No. 5194L.R.

The 22nd November 1894.—Babu Lalit Chandra Das Gupta, Officiating Deputy Collector, is allowed privilege leave for one month, under article 273(*a*) of the Civil Service Regulations, with effect from the 18th October 1894, in extension of the leave granted to him in Government Notification No. 4731.R., dated the 21st September 1894.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5199L.R.

The 22nd November 1894.—In supersession of Notification No. 4847L.R., dated the 24th November 1893, Lieutenant R. T. Crichton is hereby appointed, under section 4 of Act V (B.C.) of 1875, to be Superintendent of Survey in North Bihar, *i.e.*, in the districts of Muzaffarpur, Saran, and Champaran.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 5264L.R.

The 27th November 1894.—Under the powers conferred upon him by section 101(1) of the Bengal Tenancy Act, VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of Thana Sinhar, in the district of Muzaffarpur.

The particulars to be recorded in the survey and record of rights shall be the following:—

The name of each proprietor with the character and extent of his interest.

The situation, quantity and boundaries of the proprietor's private lands, as defined in Chapter XI of the Act.

The name of each tenant.

The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat, or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenancy.

The situation, quantity and boundaries, of the land held by him.

The name of his landlord.

The rent payable.

The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.

If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATION—No. 6059S.R.

The 20th November 1894.—Under the provisions of section 11 of Bengal Act VII of 1864 and of sections 9 and 204 of the Sea Customs Act of 1878, the Lieutenant-Governor is pleased to approve and notify the following additions to the rules for the guidance of officers engaged in the administration of the Salt Department in Bengal, published under Notification, dated the 29th June 1891, at pages 615—655, Part I of the *Calcutta Gazette* of the 1st July 1891. At the end of Rule 1, section IX, add:—

"In the case of deliveries into boats, each rowana issued will cover one boat only. Application should be made accordingly, the amount of salt to be put into each boat being calculated beforehand."

After Rule 16 add :—

"17. When for any reason the rowana-holder desires to remove a rowana from the boat carrying the salt covered by it, the Superintendent of the Salt Golahs may grant a boat-note which shall protect the salt within the limits noted therein, such limits being within the port."

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4488J.

The 22nd November 1894.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Maulvi Bahauddin, authorizing him temporarily to register Muhammadan marriages and divorces, and to exercise the other functions of a Muhammadan Registrar within thanas Midnapore and Salbani in the district of Midnapore, during the absence, on leave, of Maulvi Reazuddin Ahmed.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4489J.

The 22nd November 1894.—Under section 2, Act XII of 1880 (an Act for the appointment of persons to the office of Kazi), the Lieutenant-Governor has been pleased to grant a sanad (license) to Maulvi Bahauddin, appointing him temporarily to be Kazi of thanas Midnapore and Salbani in the district of Midnapore for the celebration of marriages and the performance of other rites and ceremonies, when application is made to him to perform any such functions, during the absence, on leave, of Maulvi Reazuddin Ahmed.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4502J.

The 22nd November 1894.—It is hereby notified for general information that the Lieutenant-Governor, in pursuance of the power conferred by section 34 of Act V of 1861 (an Act for the Regulation of Police), has extended the said section to the town of Debiganj, in the district of Jalpaiguri, within the boundaries specified below:—

North—Taher Mahomed Patwari's *Dara* or *khal* as far as Bil Mekumari.

East—The boundary runs from Bil Mekumari along Taher Mahomed Patwari's *khal* as far as the bridge on the Bagdogra road, and then along Bil Bhully, commonly called Doobasari Bil, as far as the masonry bridge on the Debidoba khal; it then turns towards the west along the Debiganj Dowar road as far as the *khal* where the new road from the Karotaya ghat meets the above-named road; the boundary then runs along this *khal* beyond the Nayabandar as far as Debidoba *khal*.

South—The boundary extends from the point where the eastern boundary meets Debidoba *khal* as far as the old bank of the Karotaya river.

West—The boundary starts from this last point on the Karotaya river, and then runs along the old bank of the Karotaya and the east bank of the Rangapani till it meets Taher Mahomed Patwari's *khal* or *Dara*.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 26th November 1894.

No. 347.—*Notification.*—The following extract from a notification issued by the Government of India, in the Public Works Department, is republished for information:—

No. 445.—*The 22nd November* 1894.—The undermentioned Assistant Engineers, 3rd grade, appointed by Her Majesty's Secretary of State for India from the Royal Indian Engineering College, who have gone through a course of practical training in England, are posted as follows:—

To Bengal.
Mr. E. Blaber.

The 27th November 1894.

No. 349.—*Notification.*—Mr. B. K. Finnimore, Executive Engineer, has been granted by Her Majesty's Secretary of State for India furlough for 3 days in extension of that previously granted.

CIVIL BUILDINGS.

The 27th November 1894.

No. 351.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of the Sub-divisional Officer's residence at Patuakhali in the village of Kalikapur, police-station Patuakhali, zilla Backergunge, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 bighas 7 cottahs and 8 chitaks of standard measurement, bounded on the north by the District Board road from Patuakhali to

Durgapur, on the west by the Municipal road leading to the reserved tank, on the south by the Municipal road from the reserved tank eastwards, and on the east by the police-station compound, is required within the aforesaid village of Kalikapur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 26th November 1894.

No. 346.—*Notification.*—Mr. W. Connan, Executive Engineer, 1st grade, and Officiating Superintending Engineer, Orissa Circle, is granted furlough, under article 340 (*b*) of the Civil Service Regulations, for one year with effect from the date he avails himself of it.

Notification No. 348.—With reference to Government of India, Public Works Department Notification No. 445, dated the 22nd November 1894, Mr. E. Blaber, Assistant Engineer, is posted to the Sone Circle.

C. W. ODLING,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT,—BENGAL.

The 27th November 1894.

No. 350.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Branch B of No. 13 distributary of the Machgaon Canal, it is hereby declared that for the above purpose a piece of land 4 furlongs 360 feet long and averaging in width 31 feet, measuring 2 acres 23 poles, more or less, of standard measurement, commencing from mauza Gopalpur, pargana Benahar, passing through mauzas Narsingpur, Gopalpur, Boragarkothmul and terminating at mauza Gopalpur, pargana Benahar in the district of Cuttack, is required within the aforesaid villages.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. ODLING,
Secy. to the Govt. of Bengal.

[Third Publication.]

The 13th November 1894.

No. 336.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following amended rule in supersession of the rule now in force in the revised water-rate rules for the Sone Canals :—

Present Rule.	*Proposed Rule.*
56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due, less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.	56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

C. W. ODLING,
Secretary to the Government of Bengal.

[Fourth Publication.]

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

C. W. ODLING,
Secy. to the Govt. of Bengal.

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3 Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5 The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease.

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant's land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *tehsilalaida* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above conditions permits may be issued by *silladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in

accordance with the existing assessment, modified if necessary in accordance with rules 3, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant-Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 31 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased or a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the zilladars and distributing them.

VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.

VII.—In reporting to the zilladars any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes.

IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*. Rs.	A.	P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November	3	0	0
II.	For water supplied for the irrigation of *dalwa* rice ...	1	8	0
III.	For water suppiled for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1	8	0
IV.	For water supplied for the irrigation of linseed, oil-seed, and all pulses	1	0	0
V.	For water supplied for the irrigation of sugarcane ...	5	0	0

VI. The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.

NOTE I.—Fractions of a goont will in all cases be charged as a *goont*.

NOTE II.—Water-rates due under item I shall be paid on or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhooya lands per man As.* 8. *Water to be supplied each year from the* 16*th June to the* 30*th November only, fractions of a goont to be charged as a goont.*

We the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th of June 18 , and ending on the 30th November 18 . We agree to pay water rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza . The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana , to collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant-Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

Name and residence of applicants.			Area of land according to applicant's statement.			Signature of applicants.	Quantity of land as found on measurement.						Amount assessed.			Situation and size of outlets.
							Full rate.			Dhooya.

													Rs.	A.	P.	

APPENDIX II.

Application for granting water prior to issue of permit.

We, the principal cultivators of mauza
pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza
in area about *mans*.

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water-rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below

Dated 18 .

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. We, whose names are attached, cultivators of mauza , pargana , apply for water to be supplied from the distributary of the canal, for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs.——per *man* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the —— of ——

Name of cultivator	Description of crop.	Area more or less to be irrigated in mans and goonts.	Signature of cultivator.	Area found on measurement.		
				Mans.	Goonts.	Biswas.

Babu Satis Chandra Sen, B.A., Officiating Departmental Sub-Inspector of Schools, Faridpur, is appointed to act as Third Master of the Faridpur Zilla School and to continue to act in class VI, during the absence, on deputation, of Babu Sri Nath Das, or until further orders.

A. CROFT,
Director of Public Instruction, Bengal.

COURSE FOR THE MIDDLE SCHOLARSHIP EXAMINATION OF 1896.

I.—MIDDLE ENGLISH EXAMINATION—

The following text-books in languages have been selected for the examination of October 1896 :—

English—

Lethbridge's Easy Selections (edition of 1889) from the Massacre of Glencoe (page 187) to the end of the book.

*Bengali**—

Prose—Chhatrajiban by Brajanath Biswas	...	For the Presidency Circle, Burdwan Division and Bihar Circle.
Poetry—Mitra Bilap by Rajkrishna Mookerjea	...	
Prose—Sita by Abinas Chandra Das ...	...	For the Eastern Circle and Rajshahi Division.
Poetry—Kavigatha by Dwarka Nath Ganguli	...	

In the poetry paper will be included essay-writing and questions in composition.

Urdu (for Muhammadan candidates only, alternatively with Bengali)—

Dustur-ul-Amal by Syed Ali Sher; Intikhab Nayab, by M. Suraj Mal.

In most of the following subjects no text-books are prescribed, but school managers are restricted to the use of the books specified in the authorised lists, dated 8th July 1891, 10th September 1892, and 8th September 1893. *No book not included in those lists must be introduced into any school, aided or unaided, that prepares candidates for this examination :—*

English Grammar—

Parsing, and general questions in Etymology and Syntax arising out of passages taken from the text-books.

Bengali Grammar—

Questions on Sandhi, Samasa, Karak, Stritva, Taddhita and Kridanta arising out of the text-books.

History—

(1) (*a*) History of the World;
or (*b*) History of Greece and Rome;
(2) History of India; Hindu, Muhammadan, and British periods.

Geography—

(1) General Geography, with special knowledge of India.
(2) Physical character of the earth's crust; internal terrestrial phenomena, including volcanic phenomena; the sea; the atmosphere; evaporation and condensation; action of rain, springs and rivers; distribution of organic life.

Arithmetic—

(1) Native. Bighakali, Jamabandi, Monkasa, Karikasa with Makra, Sonakasa, Mash Mahina.
(2) European Arithmetic, excluding stocks and cube root.

Geometry and Mensuration—

(1) Euclid, Book I, with deductions
(2) Mensuration of lines, rectilineal figures with their areas, properties of circles, their areas.

Science.—One of the following subjects in addition to Sanitary Science:—

(*a*) *Elements of Botany*—

Characters and functions of the root, stem, leaves and different parts of the flower, illustrated by specimens of common flowering plants; structure of wood, bark and pith; cells and vessels; food of plants, and the manner in which a plant grows, including the phenomena of germination.

(*b*) *Elements of Chemistry*—

Elementary and compound bodies, their combination and decomposition; preparation and properties of oxygen, hydrogen, nitrogen and chlorine; air, water, ammonia; combination by weight and volume; carbon and its chief inorganic compounds; coal gas; phosphorus; sulphur; preparation and properties of hydrochloric, nitric and sulphuric acids.

(*c*) *Elements of Natural Philosophy*—

Properties of matter; different kinds of force; laws of motion; general properties of solids, liquids, and gases; heat and its effects.

In Sanitary Science the following text-books have been prescribed by Government :—

(1) Bengali Translation of "The Way to Health" (1 anna); and
(2) Swasthyaraksha, by Radhika Prasanna Mukherjea (6 annas).

II.—MIDDLE VERNACULAR EXAMINATION—

The same as the Middle English, with the exception of English Reader and English Grammar.

III.—MIDDLE SCHOLARSHIP EXAMINATION FOR GIRLS—

Female candidates have the option of substituting the following for Geometry and Mensuration, and Botany, Chemistry, or Natural Philosophy :—

(*a*) Cutting and making of pirans, pyjamas, and chapkans.
(*b*) Knitting, darning and embroidery.

CALCUTTA,
The 26th November 1894.

A. CROFT,
Director of Public Instruction.

* The particular portions to be read will be prescribed hereafter.

Civil Engineering College, Sibpur.

Apprentice Department.

THE date for admission to this Department is 4th February 1895.

Candidates must be at least 15 and not more than 17 years of age.

They must have passed Standard VII of the Code for European Schools, or the University Entrance Examination in English and Mathematics. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January 1895. No applications will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

* Rupees 5 per mensem.

There will be three vacancies on the free list for Christian apprentices in February next and thirteen on the reduced* fee list.

For natives there will be at least 12 vacancies, possibly more, on the reduced† fee list.

† Rupees 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR;
The 22nd November 1894.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1991B.

NOTICE is hereby given that the Twelfth Sale of Opium, the Provision of 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 3rd December 1894, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	1,510

	Total	..	18,120	19,140	37,260

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the

year 1893-94, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,
N. K. BOSE,
Offg. Secretary.

FORT WILLIAM, *the 21st November* 1894.

No. 2186B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1892-93 and 1893-94, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Thursday, the 3rd January 1895, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of 909 chests of season 1892-93 and 601 chests of season 1893-94 ...	1,510
Ditto ditto at the Ghazipur Factory, consisting of 371 chests of season 1892-93 and 1,224 chests of season 1893-94 ...	1,595
Total ...	3,105

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 21st November 1894, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th January 1895 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th January 1895, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 18th January 1895.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1895 about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

Dated Alipore, the November 1894.

F. R. S. COLLIER, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Monghyr will be put up for sale at the Office of the Collector of that district on the 17th December 1894, corresponding to 5th Pous 1302 Fasli, at 12 A.M., for arrears of revenue and other demands which by law are realizable as arrears of land revenue.

N.B.—When in columns 5, 7, and 9 of the following statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share, and that the other share or shares in the estate are excluded from the sale.

Port Commrs'. Office, Calcutta, the 22nd November 1894. (749—1) C. H. WINDLE, Traffic Manager.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 „ 2-4 „
Under 7 feet „ 2 „

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8, „ „ „ „ 8-8.
¼ „ „ „ 4, „ „ „ „ 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs.* 2, *ans.* 8; per eight-ounce tin, *Rs.* 5; per pound tin, *Rs.* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs.* 3; per eight-ounce tin. *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Notice.

SEALED tenders for the conveyance of import, export and other stores and for labour and the hire of boats as per Schedules A and B for two periods—one of twelve months, from 15th December 1894 to 31st December 1896, and another of three years, from 15th December 1894 to 31st December 1897—will be received by the Agent for Government Consignments, Calcutta, up to 12 noon, Wednesday, the 21st November current.

Tenders should be superscribed "Tender for contract, 1895" or "Tender for contract, 1895-6-7," as the case may be, and must be prepared on forms to be obtained from the undersigned. No tender will be received except on the prescribed form, and no additions or alterations must be made on the tender forms.

Each tender must be accompanied by a Bank of Bengal or Treasury Receipt for Rs. 700 as earnest-money, the earnest-money to be forfeited in the event of the tenderer withdrawing from the tender. No tender will be received without a deposit of this earnest-money.

Tenders will be opened at 12 noon on Wednesday, the 21st November current, at his office No. 5, Strand, in the presence of such tenderers as may attend, by the undersigned, who does not bind himself to accept the lowest or any tender.

M. H. CROZIER, Agent for Govt. Consignments.

The 8th November 1894.

BABU DEBENDRANATH CHAUDHURI, B.L., intends for enrolment as a vakeel of the High Court. (726—4)

SURVEY OF INDIA DEPARTMENT,
Calcutta, 1st October 1894.

T. A. POPE,
Offg. Asst. Surveyor-General,
In charge, Map Record and Issue Office.

Road Cess Notification.

THE District Board of Noakhali, at their special meeting of the 3 th October 1894, have resolved to levy the road cess at the maximum rate, *i.e*, one-half anna or six pies per each rupee of the annual value of lands, during the year 1895-96.

S.K. AGASTI, Chairman, District Board. Noakhali.
Noakhali District Board's Office, the 10th November 1894.

Notification.

IT is hereby notified that under section 46 of the Local Self-Government Act III (B.C.) of 1885, the District Board of Dacca have, at their special meeting held on the 9th November 1894, determined to levy the road cess in this district for the ensuing financial year 1895-96 at the maximum rate of one-half anna or six pies in the rupee on the annual value of lands.

C. J. S. FAULDER, Chairman, District Board, Dacca.
District Board's Office, Dacca, the 12th November 1894.

Notice.

THE public are hereby informed that the Agricultural Exhibition and Mela, which is held every year in the town of Faridpur, will commence on the 7th January 1895 A.D., corresponding with 24th Pous 301 B. S., and continue up to 6th February 1895. Tradesmen, dealers and others may buy and sell during the period.

J L. HERALD, Magistrate, President of the Faridpur Agricultural Exhibition and Mela.
Faridpur, the 9th November 1894.

Mortgage Suit.

PRINCIPAL NOT EXCEEDING Rs. 1,000.

NOTIFICATION.

TO be peremptorily sold by the Registrar of the Calcutta High Court, Original Side, in his sale-room in the Court-house on Saturday the 8th December next, at 12 o'clock noon, pursuant to a decree and an order of the said Court made in Suit No. 295 of 1892 [Ashutosh Dey *versus* Sreemutty Golapmoni Dassee], and dated respectively 16th June 1893 and 9th May 1894, an undivided one-third share in the following property belonging to the estate of Ratan Lal Dey deceased.

Lot No. 1.—No 205, Bow Bazar Street, in the Town of Calcutta, being a lower-roomed brick-built dwelling-house and premises and the land appertaining thereto, containing by estimation 2 cottahs and 4 chitaks or thereabouts, and bounded on the north by the dwelling-house of Jeeto Lal Dutt, on the south by the house of Mr. D'Cruz, on the east by a public lane, and on the west by the house for the cultivation of science. The sum of 11 annas and 8 pies is payable annually to the Collector of Calcutta in respect of this property

The title deeds and conditions of sale may be seen at the office of Babu Dwarka Nath Dutt, attorney for the plaintiff, at No. 5, Old Post Office Street, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Register.

Dwarka Nath Dutt, Plaintiff's Attorney.
Calcutta, High Court, Ordinary Original Civil Jurisdiction, the 23rd August 1894.

(755—1)

Forest Department, Bengal.

PROTAB CHUNDER GHOSE Bhaddreswar Post Office, E. I. Railway, district Hooghly. (751—3)

Notification.

TO be peremptorily sold, pursuant to a decree and an order of the Calcutta High Court made in suit No. 571 of 1892 (Saroda Prosad Dhole and others *versus* Monmohini Dabee), and dated respectively 13th March 1893 and 4th January 1894, and with the concurrence of the mortgagees, by the Registrar of the said Court, Original Side, in his sale-room on the 2nd floor of the Court-house, on Saturday, the 1st of December next, at 12 o'clock noon, the undermentioned properties:—

Lot No. 1.—The whole sixteen annas share in tauzi No. 70, under the Collectorate of 24-Parganas, sub-registry Alipore, thana Sonarpur, pargana Magura, mauza Chonhatee and Sarmastapur, and sub-registry and thana Baruipur, mauza Nchata, with all mall and thika rent-free culturable and unculturable lands. The yearly sadar jama of the entire sixteen annas payable to the Collectorate is Rs. 1,173-9-6.

NOTE.—A portion of this lot is let out with a portion of lot No. 2 to Dwarka Nath Sircar, at an annual rental of Rs. 2,383-11-8 gandas besides road cess, under an izara or lease. The lease will expire in eight or ten years.

Lot No. 2.—An undivided 9 annas share in tauzi No. 71, under the Collectorate of 24-Parganas, sub-registry Magura, thana Bankipore, pargana Magura, taraf Kotar and Hara and Monkhali, &c., and sub-registry Alipore, thana Sonarpur, mauza Bada Hooghly, and sub-registry and thana Baruipur, mauza Daulatpur, five kismuts with mall and thika rent-free culturable and unculturable lands. The yearly sadar jama of the 9 annas share payable to the Collectorate is Rs 1,802-14-8 gandas after deducting the remission of Rs. 23-3-6 gandas.

NOTE.—The remaining portion of this lot was let out to an izardar, Ramdhone Sircar, since deceased, at an annual rental of Rs. 2,359-8 besides road cess. The lease will expire in 27 or 28 years.

Lot No. 3.—All that 6 annas share of mouza Subuddipur comprised in tauzi No. 267, under the Collectorate of 24-Parganas, sub-registry and thana Baruipur, pargana Madan Mollah, mauza Subuddipur, with mall and thika rent-free culturable and unculturable lands and tanks, garden land, &c. The yearly sadar jama payable in respect of the mauza Subuddipur to the Collectorate is Rs. 238-7. The jama payable in respect of the entire tauzi No. 267 is Rs. 635-2-9.

Lot No. 4.—All that undivided share of the judgment-debtor, Gouri Pershad Moitra, deceased, in tauzi No. 1564, appropriated brahmotter land under tauzi of the Collectorate of the 24-Parganas, sub registry and thana Baruipur, pargana Madan Mollah, mauza Subuddipur, with culturable and unculturable lands. The rent payable to the Collectorate for the entire property is Rs. 69, and for the share to be sold is Rs. 11, but Rs. 12 has been paid by mistake.

Lot No. 5.—All those three several mauzas, Raipur or Niz Raipur, Makrumpur, and Sangur, appertaining to the sub-registry and thana Baruipur, pargana Madan Mollah, within the putni taluq of taraf Kalikapur, being tauzi No 109, under the Collectorate of the 24-Parganas. A portion, containing about 1,663 bighas 16 cottahs and 4 chitaks, is held under a mukarari mourasi lease, dated 14th March 1882, granted by Satya Doyal Banerjee and Sagore Dutt [since deceased] in favour of Durga Persad Moitra, the annual malguzari payable in respect whereof is Rs. 888-8-18 gandas; the remaining portion, containing 463 bighas, is held under a putni lease, the annual malguzari payable in respect whereof is Rs. 535-5-9. The whole of those mauzas bounded on the east by the Government Bheri; on the south by the village of Kharigoda of Rajbullubh Roy Chowdhury; on the west by the mauza Hashainpur of Rajbullubh Roy Chowdhury; on the north by Dari jungle.

Lot No. 6.—All those several mauzas, Niz Raipur, Sangur, Makrumpur, and Nabasan, within taraf Roypur; appertaining to thana Baruipur, within the jurisdiction of taraf Kalikapur, pargana Madan Mollah, being tauzi No. 109, under the Collectorate of 24-Parganas, which was held rent-free under a mourasi mukarari patta, dated 28th Kartick 1253, in which the quantity given is 6,000 bighas, but which is now held under a fresh patta, dated 9th Magh 1259, granted by the said Satya Doyal Banerjee and Sagore Dutt in favour of Bama Sundari Dabee, in which the quantity given as found on survey after the execution of the fresh lease is 1,984 bighas, and under which the annual sadar jama payable is Rs. 830-11-10 gandas 1 kranti, together with mauza Rampur and Shamnagar Srikristopur and mauza Atkhila and Jagutpur, being zamindari No. 250 within the aforesaid taluq, containing 75 bighas 16 cottahs 12 chitaks, the annual rent payable in respect whereof to the estate of Raj Bullabh Roy Chowdhry, deceased, is Rs 42-3-14. All the mauzas comprised in this lot are bounded on the west and north partly by the Government embankment and partly by the Nabhasan Canal, on the east by the canal and Tatairgan, and on the south by the village Kharigoda.

Lot No. 7.—All that piece or parcel of land situate in Nabhashaugram within taraf Roypur, pargana Madan Mollah, appertaining to thana Baruipur, within the said zamindari, tauzi No. 109, held under a mourasi mukarari patta, dated 28th Kartick 1253, and containing by measurement 123 bighas and 4 cottahs, and bounded on the south by Government bund; on the east by Ramtanu Sirkar's abad or culturable land; on the north by Prosaudpurgram; and on the west by Makrampur and Sangur, the annual jama in respect whereof is Rs. 61-9-12 gandas.

NOTE.—In the mortgage the boundaries of the properties constituting Lots 5, 6, and 7 taken together are given as follows, namely, that the whole is bounded on the east partly by Tatairgong and partly by Debi Churn Dey's abad; on the south by Huro Mohun Ghose's abad called Sob Goalia, and partly by Raj Bullubh Roy Chowdhury's zamindari; on the west partly by Raj Bullubh Roy Chowdhury's zamindari; and partly by the putni taluk of Radha Nath Banerjee and others; and on the north by the putni of Debi Churn Dey and Kally Dass Sircar.

Lot No. 8.—A three-storied, brick-built house and premises, No. 45, Nundo Ram Sen's Street, in the Town of Calcutta, and the land appertaining thereto, containing 8 cottahs, more or less, and bounded on the north by Nundo Ram Sen's Street; on the east by raiyati land of Anundo Lall Dass; on the south by the dwelling-house of Anundo Lall Dass; on the west by a house belonging to the estate of Annapoorna Thakoor.

Lot No. 9.—All that 16 annas share in tauzi No. 106, under Collectorate of Birbhum, zilla Birbhum, pargana Khatanga, truff lot Kunarhi, Jangal, Baganpur, Chulipara, &c., together with the kuchari house, culturable and unculturable lands, jungles, pastures, &c. The yearly sadar jama payable to the Collectorate is Rs. 2,010-14.

Lot No. 10.—All that bajeapty chaukidari mahal, tauzi No. 570, in zila Birbhum, truff Banerakunarhi. The annual sadar jama payable to the Collectorate is Rs. 17-5-6 *plus* Rs. 114-1-6 being the amount of chaukidari sadar jama aggregating Rs. 131-6-6.

The abstract of title and the conditions of sale may be seen at the office of the said Registrar or at the office of Messrs. Sen and Company, the Attorneys for the plaintiffs, on any day before the sale and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Sen and Company, Plaintiffs' Attorneys.

MOTEE LALL MUKERJI, Accountant,
for Exe. Engr., Nadia Rivers Division.
Berhampore, the 26th November 1894

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narainguage), Volumes I and II. Price Rs. 20 for 1893-94. Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price.

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F.R.G.S., of the Bengal Staff Corps, Late Deputy Commissioner of Darjeeling. *Price Rs. 6: postage, 8 annas.*

Copies are to be had at the Office of the Director of Publi Instruction.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st.—Bay of Bengal Daily Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report, containing observations taken at 48 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.*, from about May 15th to November 15th, or thereabouts Price Rs 2-8per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 276 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance and of the Monthly Summary Rs. 2 per annum payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except for Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c, inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK & Co., Government Place, Calcutta.

BAY OF BENGAL—ORISSA COAST.

False Point harbour—Universal system of buoyage.

WITH reference to Notice to Mariners No. 19, dated 4th February 1893, issued by this office, the Port Officer, False Point, has given further notice that the following alterations have been made in the position of buoys marking the *Port hand* of the harbour, entering from seaward :—

Reddie Head sand spit inner buoy has been shifted 250 feet N. E. by N., and now lies moored in 24 feet water reduced.

Reddie Head flat buoy has been shifted 1,100 feet N. by W., and now lies moored in 13 feet water reduced.

The Port hand upper end of Harbour buoy has been shifted 1,200 feet north, and now lies moored in 11 feet 6 inches of water reduced.

The bearings are magnetic.

The buoys on the *Starboard hand* of the harbour will have to be shifted also, of which due notice will be given.

JAPAN—(1) GULF OF TOKIO—(2) KOREA STRAIT—(3) KIUSIU, WEST COAST.

Gulf of Tokio—Alterations in lights.

THE British Admiralty has given notice (No. 569 of 1894) that on 10th September 1894, the sector of *red* light, hitherto shown from Kannon saki lighthouse over Futsu saki, and visible between the bearings of S. 5° E. and S. 22° W., would be discontinued.

Approximate position, lat. 35° 15′ 20″ N., long. 139° 44′ 10″ E.

Also, that a light would be exhibited from the west side of Fort No. 2 in course of construction at the west extreme of Futsu saki.

Fort No. 2 light is a *fixed white* light, elevated 45 feet above the sea, and visible from a distance of six miles in clear weather. It is shown from a staff, painted white and 35 feet high.

Approximate position on Chart No. 2657, lat. 35° 18′ 40″ N., long. 139° 43′ 55″ E.

(2) *Korea strait—Tsu sima—red and white light on Ko saki.*

Also that, on 5th September 1894, a light was exhibited from a lighthouse recently erected on Ko saki (Koo saki), south point of Tsu sima:—

Ko saki light is a *fixed* light, showing *white* from N. 85° W., through north and east, to S. 83° E.; and *red* from S. 83° E. to S. 63° E. (over the reefs off Tsuzu (Mame) saki). It is elevated 192 feet above the sea, and visible in clear weather from a distance of 15 miles.

The lighthouse, 22 feet high, is a rectangular wooden tower, painted white.

Approximate position on Chart No. 358, lat. 34° 5′ 30″ N., long. 129° 12″ E.

(3) *Kiusiu, west coast—Amended arc of red light at Shirase lighthouse.*

Also, with reference to Notice to Mariners No. 556 (2) of 1894:—

That Shirase (Shiro se) light shows *red* between the bearings of N. 63° W., through north, to N. 77° E.; and *white* in other directions; and not as stated in Notice to Mariners No. 556 (2) of 1894.

Approximate position on Chart No. 359, lat. 33° 5′ 30″ N., long. 129° 37′ 30″ E.

Wreckage on Oyster island.

Caution.—The Port Officer, Rangoon, has given notice, dated the 25th October last, that the Master of the R. I. M. S. *Minto* reports that on his last visit to Oyster island a piece of wreckage, which apparently had formed a portion of a steamer's fore-and-aft bridge, was laying on the island. The wreckage in question is made of 4″ pine, is about 3 to 4 feet broad and 10 to 12 feet long, and had two iron stanchions fitted to it on one side only. The underneath part is painted white and the upper side holystoned. Mariners are accordingly cautioned.

AUSTRALIA—MORETON BAY.

Amended limits of the Pilot vessels' cruising ground.

THE Port Master, Brisbane, has given notice (No. 18 of 1894), with reference to Notice to Mariners No. 18, issued on the 27th October 1892, that the outer limits of the Pilot vessels' cruising ground at the Northern Entrance to Moreton bay, as therein defined, have been extended to the northward and eastward.

The cruising ground is therefore now defined as follows:—Inside an imaginary line drawn from Cape Cliff N by E. ¾ E. (Mount Tempest in line with Cape Cliff) seven and three-quarter miles; thence to the Fairway buoy at the entrance to the North Channel; thence along the eastern edge of the East and Venus Banks to the outer entrance to Freeman channel; thence to cape Moreton.

AUSTRALIA—CAPE MORETON, NORTH POINT, AND MORETON ISLAND.

Exhibition of additional lights.

THE Port Master, Brisbane, has given notice (No. 19 of 1894) that on and after 15th October, the following lights will be exhibited to assist in marking the fairway between cape Moreton and Smith Rock:—

North Point Hummock.—A small light in a square light-room painted white on the summit of the hummock, showing a sector of white light to the eastward between the bearings of S. 54° W. and S. 82° W., visible about seven miles.

Secondary Light, Cape Moreton,—Bearing N. 18° E., and distant 180 yards from the main light. This light in line with the main light indicates the direction of Smith Rock.

Directions.—Vessels passing between Smith Rock and Moreton island must cross the line of lights at cape Moreton whilst in the sector of white light shown from North Point Hummock.

Charts affected—Nos. 1029, 1068, and 1670A; and Australia Directory, volume 2.

JAPAN—KOREA STRAIT—TSU SIMA.

(1) *Fixed white light on Mitsu Misou sima.*

THE British Admiralty has given notice (No. 556 of 1894) that a light is exhibited from a tower recently erected on Mitsu (Misou) sima, off the northern extreme of Tsu sima, Korea strait:—

Mitsu sima light is *fixed white*, elevated 52 feet above high water, and visible in clear weather from a distance of 8 miles, between the bearings N.E. ¼ E. (N. 55° E.) and N.W. ¼ N. (N. 42° W.).

The light-house is a square wood tower, 18 feet high, painted blak.

Approximate position on Admiralty Chart No. 358, lat. 34° 43′ 20″ N., long. 129° 24′ 45″ E.

KIUSIU—WEST COAST.

2. *Fixed white and red light on Shirase (Shiro se).*

Also, that a light is exhibited from a tower on Shirase (Shiro se), west coast of Kiusiu:—

Shirase (Shiro se) light is *fixed*, shows *white* between the bearings E. ⅛ N. (N. 86° E.), through South, to N.W. ¼ W. (N. 54° W.), and *red* to the southward over the shoals Ganashe and Naknshe. It is elevated 45 feet above high water, and visible in clear weather from a distance of 6 miles.

The light-house is a square wood tower, 11 feet high, painted white.

Approximate position on Admiralty Chart No. 359, lat. 33° 5′ 30″ N., long. 129° 37′ 30″ E.

3. *Fixed white and red light on Odate (Oötate).*

Also, that a light is exhibited from a tower on Odate (Oötate).

Odate (Oötate) light is *fixed white*, with two *red* sectors showing respectively between the bearings S.E. ¼ S. (S. 43° E.) and S.S.E. ¾ E. (S. 27° E.), and between N.W. ¾ W. (N. 53° W.) and N.N.W. ¼ W. (N. 28° W.). It is elevated 200 feet above the sea, and visible in clear weather from a distance of 6 miles.

The light-house is a square wood tower 22 feet high, painted white.

Approximate position on Admiralty Chart No. 140, lat. 33° 1′ 20″ N., long. 129° 26′ 10″ E.

RESOLUTION REVIEWING THE REPORTS OF COMMISSIONERS OF DIVISIONS ON THE WORKING OF DISTRICT AND LOCAL BOARDS IN BENGAL DURING 1893-94.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 26th November 1894.

RESOLUTION No. 5497L.S-G.

READ—

The Reports from the several Commissioners of Divisions on the working of District Boards in Bengal during the year 1893-94.

Read again—

The Resolution reviewing the Divisional Reports on the working of District Boards in Bengal during the year 1892-93.

The date fixed for the submission of Divisional Reports to Government is the 31st July. The Lieutenant-Governor notes with satisfaction that this year all the reports were received within a week of that date, except two, which were respectively eleven and twenty days late. This result is a considerable improvement on the experience of some previous years.

2. The number of District Boards in existence during 1893-94 remained the same as in previous years. The extension of the Bengal Local Self-Government Act to Darjeeling and to the districts of the Chota Nagpur Division, where now the Cess Act of 1880 only is in force, was under consideration during the year, but after perusing the reports and opinions of local officers on the subject,

the Lieutenant-Governor decided that, for the present at least, it was inadvisable to extend the Act to those districts. The area under District Boards, therefore, remained unchanged, except for some trifling variations in the figures for Faridpur and for some of the districts in the Burdwan Division; these are due in the former case to a mistake in last year's figures, while in the latter the explanation required by Government has not been given. The number of Local Boards was reduced during the current year from 104 to 102 by the abolition of the sub-divisions, and with them the Local Boards at Barrackpore and Dum-Dum: the area formerly under these two Local Boards was added to the jurisdiction of Barasat.

3. *Constitution of District Boards.*—The number of members of District Boards amounted to 794, or one greater than in the previous year. Of this number 171 were appointed *ex-officio*, 314 were nominated, and 309 were elected by Local Boards. To take another classification, 242 were officials and 552 non-officials; and again, 200 were Europeans and Eurasians and 594 were natives of the country. The variations from the previous year are slight and call for no special comment. In every district the District Magistrate was reappointed Chairman of the Board.

4. During the year 622 meetings were summoned—a number two less than in 1892-93. The District Board of Bhagalpur was convened twenty-five times, the largest number attained by any Board in any year since the Act was introduced. In Darbhanga twenty-four meetings were held, and in Gaya, Champaran, Jessore, Backergunge, Dinajpur, and Puri the number reached twenty or more. In Monghyr, Bankura, and Midnapore there was less than one meeting a month. The Chairman of the Monghyr District Board urges, in explanation of these infrequent meetings, that the Board is purely a consultative body, and as such relies almost entirely on its Chairman. He adds that local self-government is not cared for in the district, and that all the work could have been done as well in an even smaller number of meetings. It is no doubt true that in the Bihar districts so much interest is not taken in matters of local self-government as in the Bengali-speaking districts; but having regard to the very considerable sum annually disbursed by the Monghyr District Board, and to the fact that in the neighbouring and similar districts of Darbhanga and Bhagalpur there was enough business to lay before a large number of meetings, the Lieutenant-Governor cannot altogether accept the Chairman's contention. The Local Self-Government Act was not intended merely to facilitate the spending of money by the Chairman, but to insure its expenditure in the most advantageous manner after consultation with the Board, and the Chairman who fails to associate his Board with himself as far as possible in the administration of the affairs of the district, does not carry out the intentions of the Act, and voluntarily deprives himself of assistance which he is entitled to receive. The Lieutenant-Governor does not advocate the holding of a large number of meetings merely for their own sake, but he desires that business should not be delayed through neglect to hold a meeting, and that every opportunity should be given for the discussion of matters of importance and proposals for new expenditure; if this is done—in ordinary circumstances one meeting a month should suffice for the purpose—nothing is gained by more frequent gatherings.

5. The number of meetings that had to be adjourned, together with those that were entirely abortive owing to the absence of a quorum, amounted to 94—a considerable improvement on the record of the previous year; but even so, these failures were far too frequent in several districts, as the statement in the margin shows. Every effort should be made to avoid the great delay in the despatch of business, and the waste of labour involved by these unproductive meetings. The inconvenience which they cause is well illustrated by the proceedings of a certain District Board in the matter of a Steam Tramway. It was necessary to obtain the sanction of the District Board to a change in the site of the Terminus: application was made by the Company at the end of August 1893, and a special meeting of the District Board was called to consider the matter, but it was not until the 9th of March 1894, after several unsuccessful attempts

District.	Number of abortive and adjourned meetings.
Cuttack ...	9
Bhagalpur ...	9
Puri ...	6
Dinajpur ...	6
Jessore ...	5
Mymensingh ...	5
Tippera ...	5
Champaran ...	5
Malda ...	5

to obtain a quorum, that the matter was disposed of: the completion of the whole project was thus delayed for seven months.

6. On an average 9 8 members, or 46·9 per cent. of the total number, were present at each meeting. This is a slight improvement on the figures for 1892-93. The attendance was worst at Monghyr, Bhagalpur, and Dinajpur, where more than two-thirds of the members were usually absent. In several instances the prolonged absence of some of the members from the district is put forward as an excuse for the low average attendance. When a member is about to leave the district for any length of time, the Chairman, in order to avoid detriment to the public service, should be careful to obtain his resignation before his departure; but if this is impossible, it should be considered in each case whether his name should not be reported to Government for action under section 18 of the Act, which empowers the Lieutenant-Governor to remove from the Board any person who, owing to absence from the district or from any other cause, has become incapable of acting.

7. The Commissioners of the Presidency and Chittagong Divisions point out that, apart from general meetings, very much good work is done in their Divisions by the Standing Committees for Finance, Education, and other branches of the administration. The Lieutenant-Governor desires cordially to acknowledge the usefulness of these committees, and the value of the work which they do: and he has no doubt that, though no reference is made to them in the reports of other Commissioners except in regard to Monghyr and the districts of Orissa, the system is being successfully worked elsewhere. The Commissioner of Orissa reports that in Balasore and Puri the sub-committees of the Boards are doing good work, but that in Cuttack the meetings are few, the attendance bad, and the members apathetic. The Lieutenant-Governor was constrained, in the Resolution for 1892-93, to notice unfavourably in some respects the work of the Cuttack District Board, but he is glad to find from papers recently laid before him that a sensible improvement has taken place of late.

8. *Constitution of Local Boards.*—The 102 Local Boards comprised 1,222 members, or eight less than in the previous year; of these 46 were *ex-officio* members, 741 were nominated, and 435 elected. There were 151 officials and 1,071 non-officials on the Boards, and dividing them by race, 114 members were Europeans or Eurasians, and the rest 1,108 natives of this country.

9. There was a noticeable improvement in the activity of Local Boards; 1,113 meetings were held, a total which is higher by 65 than that for 1892-93; of these meetings 164, as compared with 197 in the previous year, had to be adjourned or proved abortive from want of a quorum. The attendance of members, both official and non-official, also showed an improvement, the figures for the two years being as follows:—

Year.	Average attendance.			Average percentage of attendance.
	Official.	Non-official.	Total.	
1	2	3	4	5
1892-93	·77	4·46	5·24	44·4
1893-94	·9	4·6	5·5	45 9

Thirty-three Local Boards, as against twenty-six in the previous year, held more than 12 meetings, the Sadar Local Board at Howrah heading the list with 22 meetings, none of which were abortive or adjourned. Only three Local Boards, viz., Basirhat, Naugaon, and Khurda, held so few as four meetings or less during the year: in 1892-93 six Local Boards attained this unenviable distinction.

10. *Elections.*—General elections were held only in Mymensingh and Backergunge. In Mymensingh no general interest was aroused: in eleven out of the eighteen thanas the attendance was less than 15 per cent., and nowhere did it reach one-third of the number of qualified voters. In Backergunge more interest was shown; the elections nowhere failed for lack of voters,

and at Matbaria, under the Pirojpur Local Board, 44·8 of the electors recorded their votes. Bye-elections were held in some other districts, but they call for no special comment.

11. *Occupations of members of District and Local Boards.*—As there have been general elections in few districts, the occupations of the members of District and Local Boards show but little change. The figures for this year are as follows:—

	Government servants.		Zamindars, &c.		Pleaders and mukhtears.		Planters.		Missionaries.		Government pensioners.		Other classes.		Total number of members.
	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.	No.	Ratio per cent.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
District Boards	240	30·34	237	29·84	183	23·03	66	8·31	9	1·13	15	1·89	45	5·67	794
Local Boards	150	12·27	541	44·27	327	26·76	57	4·66	3	·25	15	1·23	129	10·56	1,222

12. *Powers of Local Boards.*—The powers now exercised by Local Boards may be shortly summarized thus:—

i. *Village roads.*—All Local Boards are entrusted with the care of village roads. In the Midnapore district they have been again made over to the Local Boards as recommended in last year's Resolution.

ii. *Pounds.*—All Local Boards have charge of pounds except the Sadar Local Boards of Monghyr and Purnea, and all the Local Boards in the districts of Birbhum, Bankura, Murshidabad, Faridpur, and Patna.

iii. *Ferries.*—All Local Boards have charge of ferries except those in the districts of Birbhum, Bankura, 24-Parganas, Murshidabad, Dacca, Faridpur, and Cuttack, and those in the Divisions of Bhagalpur and Patna, with the single exception of the Local Board of Jahanabad in Gaya.

iv. *Primary education.*—Powers in regard to this branch of administration are exercised by the Local Boards in the districts of Burdwan, Bankura, Hooghly, Nadia, Murshidabad, Jessore, Rajshahi, Pabna, Mymensingh, Arrah, and by the Local Boards in the Orissa Division. Certain modified powers are also possessed by the Local Boards in the districts of Khulna, Patna, and Darbhanga.

v. *Dispensaries* are under the charge of Local Boards in the districts of Nadia, Bhagalpur, Purnea, and Balasore; also of the Local Boards of Arraria in Purnea, of Jamalpur and Kishoreganj in Mymensingh, and of Bhola in Backergunge. The Gaya Local Boards also have some modified powers over dispensaries.

vi. *Sanitation.*—In Dacca, Faridpur, and Mymensingh the care of village wells and tanks has been entrusted to Local Boards, and so has the sanitation of a local fair in the latter district. The Local Boards of Shahabad and Monghyr have charge of village sanitation.

vii. *District roads* are entrusted to the Local Board only in the Pabna district and at Bhadrak in Balasore; the question of the control of the district roads in Pabna has been separately submitted to Government for orders and is now under consideration.

viii. *Secondary education.*—In the Resolution on Local Self-Government for 1891-92, and again in that for 1892-93, the Lieutenant-Governor intimated his decided opinion that Local Boards should have no concern with secondary education, and in the recent Resolution on the Report of the Director of Public Instruction for 1893-94 he has reiterated that conviction. He is therefore glad to observe that in compliance with the views expressed in paragraph 10 of the Resolution of 1891-92, the Local Boards of Cuttack, Puri, Balasore, Nadia, and Jessore were relieved of all connection with secondary education, and that only in two districts of these provinces, viz., Burdwan and Shahabad, Local Boards have any concern with secondary education. It may be argued that to the exercise of purely mechanical functions in this regard

there can be no reason to object, but Sir Charles Elliott would be glad to hear that even this connection had been severed, and that the control of secondary education throughout the province remained everywhere with District and not with Local Boards.

Changes other than that just noticed were but few. The powers of the Local Boards were increased in Patna and Darbhanga by the delegation of certain duties relating to primary schools; in Shahabad by making over to them the charge of pounds; and in Tippera by the grant of certain powers relating to pounds, ferries and public works. The Local Boards of Nadia were relieved of the charge of unmetalled district roads.

13. The remarks of Chairmen as to the manner in which these powers have been exercised are generally somewhat colourless. Mr. Allen, the Chairman of the Midnapore District Board, thinks that the grants for village roads are not properly managed: he writes that money is generally wasted on village roads unless the operations are controlled by the District Engineer, and that the Boards maintain a greater length of road than they can afford to keep in repair, or than the District Engineer can effectively supervise. The remedy is obvious, and the Lieutenant-Governor trusts that, if further enquiry confirms the view held by the Chairman, steps will be taken during the current year to reduce the number of village roads. In Howrah the Local Boards are reported to have worked intelligently and to have taken considerable interest in their work. The Presidency Commissioner complains that the Local Boards generally show apathy in regard to pounds and are especially negligent in making collections. The Jessore Local Boards are said to have discharged their duties with a fair amount of diligence and success, and similar terms of faint praise are used in reference to the work of Local Boards in Birbhum, Rajshahi, Rangpur, Dacca, Mymensingh, Backergunge, Cuttack, Balasore, and Puri. The Chairman of Mymensingh (Mr. Earle), on the other hand, makes special mention of the success of the Tangail Local Board under the chairmanship of a local talukdar, who is also an Assistant Surgeon. The Chairman of the Pabna District Board comments on the disadvantages of giving to the Local Boards such wide powers as they enjoy in this district which include the charge of all District Roads. The objections to the system are patent to all, and the matter has since been laid before Government with suggestions for having these powers curtailed.

14. *Union Committees.*—No village unions were established during the year, and there are none as yet existing in the Province. In accordance with the directions of the Government of India, steps were taken after the close of the year for their establishment experimentally in selected areas of the Burdwan, Presidency and Dacca Divisions, and it is expected that they will be inaugurated in a tentative manner before the close of the current year. The lines on which action is being taken were fully set forth in the Resolution of this Government, No. 3600L.S.-G., dated the 1st September 1894, which was published at the time in the *Calcutta Gazette*, and the subject needs no further notice here.

15. The following statement shows the income and expenditure of District Boards under the various heads in 1892-93 and 1893-94:—

INCOME.

	1892-93.	1893-94.
	Rs.	Rs.
I.—Land Revenue	66,249	1,18,273
VI.—Provincial rates	36,27,676	35,97,417

Interest on debt	7,758	10,282
Total ...	70,23,750	67,10,295

16. *Credit balance.*—The year 1892-93 closed with a credit balance of Rs. 17,63,217, which was reduced to Rs. 17,38,474 by the close of 1893-94. The closing balances amounted to more than one-third of the year's income in Hooghly, Bogra, Saran, Monghyr and all three districts of the Chittagong Division. Steps should be taken for their reduction, unless there are particular reasons for retaining a large balance. The Commissioner should look into the matter in each case.

INCOME.

17. *Land Revenue.*—The receipts under this head show an increase from Rs. 66,249 to Rs. 1,18,273, which is partly due to an increase of Rs. 18,232 under the head of Fees, Fines, and Forfeitures, but mainly to the fact that recoveries from defaulters on account of the cost of collecting road cess arrears have in several districts been shown under this head for the first time instead of under "Miscellaneous." There are no receipts in Bengal which should properly be credited under the head of Land Revenue in Local accounts; recoveries of the cost of collecting road cess arrears should be shown under heading XXV—"Miscellaneous"—as directed in the Accountant-General's Circular No. 10 of the 15th January 1891, receipts from canals under "Irrigation," and so on. If any doubt arises in future as to how any items hitherto shown under Land Revenue ought to be credited, a reference should be made to the Accountant-General.

18. *Provincial rates* (*Rs.* 35,97,417).—This item of revenue represents the proceeds of the road cess less the cost of collection and revaluation. District Boards have nothing to do with the collection of the cess, which is in the hands of the Collector, and the subject is treated in a separate Resolution. The total receipts showed a decrease of Rs. 30,259, which is generally ascribed by local officers to there having been smaller arrears to deal with, and also to the collections having been indifferent. The District Boards of Gaya and Muzaffarpur suffered most loss, their incomes from this source being respectively Rs. 41,500 and Rs. 29,851 less than in the previous year. In Saran, Shahabad, and Tippera the receipts were at least Rs. 10,000 less than in 1892-93, while on the other hand in Champaran, Backergunge, Midnapore, and Nadia there was considerable improvement in each case, that in Backergunge (Rs. 20,312) being due to the District Board having enhanced the rate at which the Road cess was levied.

19. *Pounds* (*Rs.* 4,50,009).—The number of pounds increased from 3,389 to 3,456, but not only did the receipts not increase, but they actually decreased to the extent of Rs. 7,150. This falling off is variously ascribed to bad seasons, to floods, to indifferent collections and similar causes, and it has been urged that the use of the new pound forms and the more numerous inspections now made have deterred the old class of farmers from taking leases. These suggestions no doubt partly explain the decrease; but it is also certain that, though the revenue under this head is elastic, there is a point beyond which any increase in the number of pounds, except by very gradual stages, ceases to be profitable, and care should be taken in each district that this point is not exceeded. Not only does a new pound often realize but little during the first few years of its existence, but

it lowers the prices obtained at auction of the old pounds in the neighbourhood, because it is uncertain to what extent their fees will be affected. The sudden increase of 27 pounds in the Muzaffarpur district, where 157 already existed, no doubt explains in a great measure the low collections realized there, which are the subject of comment by the Commissioner of Patna.

20. The number of pounds in any given area varies very much from district to district: in Puri there is one pound to every 107 square miles, and in Patna one to every 66, while in Muzaffarpur there is one to every 16 square miles, and in Burdwan one to every 14. Such variations depend greatly on the practice of former years, and on local conditions, especially whether a resort to the pounds is customary with the people, and where the farming system is in force the fact that the number of pounds is large does not necessarily cause the average profit of each to be small, provided that there are no sudden increases or sudden reductions in the number of pounds. All the pounds in the Saran district were for the first time let out in farm in 1893-94, and the consequence has been an increase in the net profit from Rs. 306 in 1892-93 to Rs. 3,645 in 1893-94: this result justifies the change of system from direct management to farming. The Commissioner of Orissa reports that the District Board of Cuttack have resolved to adopt the farming system from the commencement of the current year. The system of direct management now survives only in Champaran, where its success would seem to warrant its continuance, and in a few pounds in Shahabad.

21. The Commissioner of the Presidency Division writes strongly on the subject of the large arrears, amounting to Rs. 72,017, due from the farmers of pounds in that Division. He writes:—

"The very heavy arrear demands outstanding show that, as a whole, the administration of pounds is very indifferently looked after by the Local Boards * * * * If it were not necessary to give them some work to justify their existence, I would gladly see pounds taken away from them."

He suggests that a column be added to Appendix A to show the balance outstanding at the close of the year, and the Lieutenant-Governor is pleased to approve of the suggestion. That these large arrears should have been allowed to accumulate shows very serious mismanagement. It may be partly due to the fact stated by Mr. Garrett, Chairman of the Nadia District Board, that the farmers in that district come from the lowest class of society; but it is not understood why this should be the case. The Lieutenant-Governor has recommended that the leases should be granted 'to persons of known position and solvency residing in the neighbourhood of the pound,' and this should be done, even though it be necessary in some cases to accept lower rents. Moreover, if the deposit of one quarter's rent in advance had been insisted on, such a state of affairs could hardly have arisen. The Commissioner will be requested to submit a special report showing what measures have been taken to wipe off the arrears.

22. The new pound forms prescribed in Government circular No. 3T.M., dated the 22nd May 1893, had been introduced in only a few districts before the close of the year under report: it is hoped that no further delay will be allowed to occur in the adoption of them. It is as yet too early to judge how far they have proved successful, but there is a tendency among local officers to regard them as too elaborate. Possibly their effect will be in some cases to preclude illiterate persons from accepting leases of pounds, but an illiterate pound-keeper is an anachronism, and his exclusion is a matter of congratulation, even at the possible loss of some revenue. The reports generally afford little information as to how far the orders of Government have been observed, which direct that the lessees should be persons of known position and solvency, that they should deposit one quarter's rent in advance, and that, if possible, the leases should be of three years' duration. The allusions to the subject, so far as they go, appear to show that hardly sufficient attention has been paid to these matters. Commissioners of Divisions are requested to state in the report for the current year how far the wishes of the Lieutenant-Governor on the point have been carried out. Inspections of the pounds are generally reported to have been effected as directed in Government circular No. 42L.S.-G., dated 1st December 1892, by District and Subdivisional Officers, by Chairmen and Vice-Chairmen of Local and District Boards, by Sub-Inspectors of Schools, and in some cases by special Pound Inspectors. In

Bhagalpur, however, it appears that inspections were made by the subordinate executive officers of the District and Local Boards. It is not clearly stated what officers are meant, but the Lieutenant-Governor views with disapproval the inspection of pounds by subordinate officials, for any such inspection will at once preclude 'persons of known position' from becoming pound-keepers: the practice should therefore be stopped. No abuses or acts of oppression by pound-keepers are reported. In Champaran embezzlements by some pound-keepers, paid servants of the District Board, were discovered, and the delinquents were prosecuted and punished.

23. *Education.*—The receipts under this head fell from Rs. 62,761 in 1892-93 to Rs. 45,561 in 1893-94. The receipts from school-fees proper were almost the same as in the previous year, save for small increases amounting to Rs. 508 and Rs. 440 respectively in the Burdwan and Patna Divisions. But there was a considerable falling off under the heads of Contributions and Miscellaneous; the former naturally varies from year to year with the impulses of the benevolent, no such gift, for instance, having been made in 1893-94 as the Rs. 11,000 contributed by Babu Jogendra Kishore Rai Chowdhury of Mymensingh, in the previous year. The Miscellaneous head was swelled in 1892-93 by refunds received from Government on account of the pension contribution of education officers.

24. *Medical.*—The income under this head consists of contributions by private persons to dispensaries and hospitals, and a few trifling miscellaneous receipts. The total income for 1892-93 was Rs. 17,095, and for 1893-94 it amounted to Rs. 14,015. The receipts in 1892-93 were unusually large owing to a special gift of Rs. 5,178 to the Bogra District Board for building dispensaries.

25. *Scientific and other Minor Departments.*—Rupees 4,689, the receipts come from fees for latrines at Sonepur fair, and contributions by zamindars for the sanitation of fairs in the districts of the 24-Parganas, Saran, and Dacca. They are slightly larger than in the previous year.

26. *Miscellaneous.*—The receipts credited under this head fell from Rs. 1,61,812 in 1892-93 to Rs. 1,31,080 in the year under report. An examination of the sub-heads shows that there was an increase of Rs. 2,088 in the receipts from staging bungalows, which was shared by all Divisions except Burdwan. Sarai fees also increased, receipts under this head being shown to the amount of Rs. 1,638 in Midnapore, and Rs. 637 in Balasore, against nothing in the previous year.

27. There is a considerable decrease under the sub-head "Miscellaneous, including fees, fines and forfeitures," but it is impossible to say to what extent this is actual, and to what extent due to the fact that recoveries on account of the cost of arrears of road cess have been shown under Land Revenue instead of under this head. As stated above in paragraph 17, the Accountant-General has now given clear directions that these recoveries should be credited under the head of miscellaneous, and the Lieutenant-Governor trusts that there will be no further confusion in regard to them.

28. *Civil works including ferries.*—Looking only to the figures in column 66 of Form No. II attached to this Resolution, there would appear to have been an enormous increase during the year 1893-94 in the income under this head, viz. from Rs. 4,44,518 to Rs. 11,45,828. The increase, however, is due to the inclusion for the first time in column 63 of all sums contributed for special and definite purposes, whether by Government or by individuals. It has hitherto been the practice to show as contributions in column 67 of Statement No. II the total of all sums received from Government by District Boards, whether as grants for special purposes or as the contributions payable from Provincial Funds year by year in order to maintain equilibrium between the receipts from and the expenditure on those branches of the administration which were made over to District Boards in 1888. The result is frequently misleading, and the figures afford little information. The Lieutenant-Governor is pleased therefore to decide that in future all sums granted for the execution of particular works to be carried out by local officers shall be entered in column 63, column 67 being thus left to those contributions which are yearly allotted to produce equilibrium. Details of the sums originally entered for 1893-94 in column 67 having been obtained from all local officers, except those of the Dacca Division, the figures in columns 63 and 67 of Statement No. II have been corrected in accordance with the principles stated above. The sums

granted in each district for these special purposes during 1893-94 are shown below:—

	Rs.
Burdwan	59,710
Birbhum	4,826
Bankura	20,006
Hooghly	48,125
24-Parganas ...	74,559
Jessore	53,285
Khulna	153
Rajshahi	17,793
Dinajpur	8,846
Jalpaiguri	46,315
Rangpur	17,693
Bogra	1,671
Pabna	27,940
Dacca	49,490
Carried over ...	4,30,412

	Rs.
Brought forward ...	4,30,412
Mymensingh ...	32,980
Faridpur	20,505
Backerganj ...	45,197
Tippera	24,890
Noakhali	15,701
Chittagong ...	31,658
Patna	5,000
Gaya	20,000
Monghyr	13,002
Bhagalpur	53,218
Purnea	5,455
Malda	16,697
Cuttack	1,126
Total ...	7,15,841

Of this sum, Rs. 1,35,968 represent grants made year after year to District Boards for the maintenance and repairs of the Imperial and Provincial Public Works buildings entrusted to the charge of those bodies, and Rs. 13,600, the allowance to District Engineers for the supervision of these works. A large sum is absorbed by special grants for the repair, construction and maintenance of particular roads, of which the most important are the following: Rs. 41,522 granted to the District Board of Jessore for the maintenance of the Calcutta-Jessore Road, Rs. 20,000 to that of Gaya for the maintenance of the Grand Trunk Road from Ballua-Chatti to Barun-on-Sone. These are annual grants, but there was also a grant of Rs. 10,000 to the District Board of Jalpaiguri for the repair of the Nagarcotta Road, and a grant of Rs. 21,881 to the District Board of Bhagalpur for the recoupment of expenditure incurred on relief works in excess of budget provision. The total also includes grants made for other specific purposes, such as the repair and construction of Court-houses, Subdivisional offices, Munsifees, jail buildings, police-stations, circuit-houses, &c., &c.

29. The receipts from ferries (Rs. 3,83,158) show a satisfactory increase of Rs. 14,741. In the Presidency Division there was an improvement in every district except the 24-Parganas, which is ascribed to better settlements and more punctual collections. In the 24-Parganas there was a falling off of Rs. 1,895 due, it is said, partly to the receipts of 1892-93 having included large arrears, and partly to resettlements of ferries having been made during the year under report at reduced rates. It is satisfactory to note that there were arrears of only Rs. 50 at the close of the year, and these have since been realized. In the Midnapore district there was an increase of nearly Rs. 4,000 in the collections owing to the realization of arrears, but the current demand was somewhat less than in the previous year. The increase in Howrah is nominal, arising from a considerable portion of the rents of 1892-93 having been credited in the year under report. The ferry over the Gaighatta khal in the Howrah district was resumed by Government, as it was silting up and the District Board could not afford to keep it open. There was a falling off in receipts in all the districts of the Rajshahi Division except Rangpur. In Jalpaiguri it amounted to Rs. 3,234, and was due to the reduction in the rent of the Paharpur ferry, necessitated by the opening of the Duars Railway. The receipts in the Dacca Division were much the same as in previous years, save for an increase of Rs. 3,480 in Mymensingh, due to the establishment of new ferries. In the Patna Division, on the other hand, there were considerable variations, resulting in a net increase of Rs. 3,961. In the Patna district itself the reduction of rents caused a loss of revenue amounting to Rs. 3,419, while in Muzaffarpur and Champaran the establishment of new ferries added more than Rs. 3,500 to the revenue of each District Board; and in Shahabad, owing to successful settlements, the receipts increased by Rs. 1,303. In the Monghyr district the ferries yielded Rs. 21,729 in the current year, as compared with Rs. 23,933 in 1892-93, the decrease being xplained by the fact that the East Indian Railway in April 1893 commenced running a steam ferry at Khagaria, and in consequence the lessee of the District Board ferry there relinquished his lease, which was resettled at a lower rent. In

Balasore and Puri the prospect of a large influx of pilgrims for the Naya Kalabar ceremony encouraged the farmers to bid higher for their ferries. In Cuttack an increase in receipts occurred, partly due to an adjustment of account, and partly caused by the payment by the Municipality of a share in the receipts of a ferry during the last two years.

30. In this connection the following remarks made by the Commissioner of Rajshahi in the General Administration Report of his Division, which have already been endorsed by the Lieutenant-Governor, are quoted below as deserving the special attention of District Boards :—

"I am not satisfied that sufficient attention is paid to the subject. Ferries are not as a rule served by platform boats or provided with suitable approaches, even where the revenues admit of such conveniences. The tendency is to look upon them too much as a means of raising revenue by taxing traffic, and too little as public works of primary importance."

The Lieutenant-Governor is inclined to think that in many districts the condition of the ferry boats, landing stages and approaches, and the conduct of the ferry farmers and their employés, receive too little attention. Overcharges are common, and many kinds of oppression are practised, although the Ferries Act supplies ample powers for the punishment of offenders, the reason doubtless being that the victims prefer to suffer rather than incur the loss of time and money which a complaint would involve. Definite arrangements should be made by every Magistrate and Chairman for the proper and unexpected inspection of the ferries from time to time for the strict execution of engagements and for the punishment of offenders.

31. *Contributions.*—Contributions amounted to Rs. 4,79,149 as explained in paragraph 28 above. Column 67 now shows only those contributions which are made by the Local Government to District Boards to produce equilibrium or for general purposes, and the figures will usually display few variations from year to year.

32. *Deposits and advances.*—Under this head are shown all sums deposited as security by ferry farmers, contractors and others, and also all recoveries and adjustments on account of advances made from the District Fund. The total reached Rs. 6,47,994, against Rs. 8,78,137 in 1892-93. The decrease was mainly in the districts of Bhagalpur, Muzaffarpur, and Darbhanga, and was due to the fact that the adjustments under this head in those districts in the year 1892-93 had been unusually large on account of advances made for famine relief works in 1891-92.

EXPENDITURE.

33. *Administration.*—Expenditure under this head fell from Rs. 2,98,983 in 1892-93 to Rs. 2,98,493. There was a small increase, amounting to Rs. 3,210, in the cost of office establishment, but except for the entertainment of an additional clerk and peon in Cuttack, there was no increase in numbers, and the increase in cost was due to the payment of annual increments of salary. Contingent expenditure was almost the same as in the previous year. The amount paid over to Government to cover the cost of the offices of Account, Control, and Audit was Rs. 3,738 less than in 1892-93, owing to Government having decided that receipts from deposits and advances should be excluded in calculating the income on which the percentage rate is charged.

34. *Pension and Provident Fund Rules.*—Sir Charles Elliott is glad to notice that a Provident Fund for the benefit of those employés whose whole service has been under District Boards has now been established in every district, and that Pension rules for the benefit of those who have been transferred from Government service, or from service under the Road Cess Committees, have been adopted in all districts except in Bankura, Jalpaiguri, Faridpur, Tippera, Chittagong, and Malda.

35. *Pounds.*—Expenditure on cattle-pounds amounted to Rs. 27,475, which was Rs. 7,760 less than in the previous year. The cost both of contingencies and establishment fell considerably, the decrease under the latter head being due to the introduction of the farming system into the Saran district, and to the abolition of Pound Inspectors in Midnapore, Pabna, Tippera, and Noakhali.

36. *Education.*—According to the figures in columns 17 to 28 of Statement III, which have been prescribed by the Government of India, the expenditure of District Boards on education amounted in the year under

report to Rs. 10,83,144, against Rs. 10,54,477 in the previous year. The district figures will be found in many cases to differ from those given in the special Appendix B, the preparation of which was prescribed by the Lieutenant-Governor in 1893. There are two reasons for the difference; first, the figures in statement III include the amounts of cheques drawn in 1893-94, but not cashed until after the close of the year, and exclude those which were drawn in 1892-93, but cashed in 1893-94: in Appendix B the contrary practice is followed; when cheques are drawn in one year and cashed in another, they are debited to the expenditure of the year in which payment was actually made. Secondly, Statement III excludes the amount of fees received on account of a school and again expended on the school without having been paid into the treasury: Appendix B shows these fees on both sides of the account.

District.	1892-93. Rs.	1893-94. Rs.
Bankura ...	30,115	29,092
Hooghly ...	37,708	37,001
24-Parganas ...	43,237	41,355
Nadia ...	29,667	28,407
Jessore ...	34,946	33,801
Rajshahi ...	22,410	20,839
Rangpur ...	45,936	44,550
Dacca ...	41,308	40,948
Faridpur ...	30,078	28,743
Chittagong ...	23,116	22,903
Pabna ...	25,394	25,062
Malda ...	14,870	14,276
Balasore ...	27,901	27,356

37. Taking first the figures shown in Statement III, there was an increase in the educational expenditure of all districts except those named in the margin. The difference was inconsiderable save in the 24-Parganas, Nadia, Jessore, Rajshahi, and Faridpur districts. The decrease in Rajshahi is not accounted for. That in the 24-Parganas is said to be due to the fact that the rewards earned by gurus had to be reduced by one-fourth owing to insufficiency of funds: that in Nadia is attributed partly to a reward bill that was due not having been paid during the year, and partly also to lack of funds. But as the District Board of the 24-Parganas closed the year with a balance of Rs. 52,238, and that of Nadia with Rs. 12,726, the explanation is not altogether satisfactory. In Jessore the explanation offered is that the number of pupils fell off owing to the scanty harvest, the high price of food, and the unhealthiness of the season. The falling off in Faridpur was in contingent charges only, and requires no special explanation.

38. Turning next to the figures of Appendix B, to which the Lieutenant-Governor attaches greater importance, as they in his opinion more fairly represent the actual facts, the abstract in the margin shows for the past two years the expenditure under the various sub-heads given in that statement. There is a noticeable increase of about Rs. 4,000 in the charges for the maintenance of special (*i.e.* industrial) schools due to the establishment of new schools of this class in Burdwan, Pabna, and Noakhali. In the expenditure on middle schools there has been an advance in the sums devoted to scholarships and a decrease in that for grants-in-aid. The decrease of about Rs. 30,000 in charges for maintenance, and the increase of nearly twice that amount in grants-in-aid to primary schools, appear to be due to the District Boards of Bankura, Rajshahi, and Bogra having substituted the system of giving grants-in-aid for one of direct maintenance.

	1892-93.		1893-94.

39. The following statement compares for the past two years the expenditure of each District Board on primary education and on education as a whole, and the percentage that the expenditure bears to the ordinary annual income. The figures will not agree entirely with those given in last year's Resolution, as some alteration has been made in the method of calculating the ordinary income of the Boards from which category have now been excluded all sums granted for

special purposes which could not therefore be made available for general expenditure, and some further modifications have been made since the Resolution of the 28th June 1894 was issued:—

The alteration in the method of calculating ordinary income mentioned above, although it shows more clearly the real facts, makes it impossible to compare the figures of 1893-94 with those of the previous year. Speaking generally, the Lieutenant-Governor is glad to see that the figures of educational expenditure now appear in a more favourable light, and although much of the increase is due to the revision of the method of calculation, there has in several districts been a real

advance in this direction. Of the seven districts which were unfavourably mentioned in last year's Resolution as having failed to spend 10 per cent. of their income on education, viz., Jalpaiguri, Gaya, Shahabad, Darbhanga, Muzaffarpur, Saran, and Bhagalpur, all show some improvement. In Jalpaiguri, Saran, and Bhagalpur the suggested minimum has already been attained, and the increase, it is hoped, may be taken as an earnest of a further advance in the current year. In Monghyr there is a satisfactory increase of nearly Rs. 5,000 in educational expenditure, and in Purnea there is also a considerable increase, but it is entirely on secondary education, the expenditure on primary education having actually decreased by Rs. 3,144.

40. The whole question of educational expenditure by District Boards, especially in regard to primary education, was reviewed by the Lieutenant-Governor during the current year, and the policy of Government was fully set forth in the Resolution No. 306T.M. of the 28th June 1894, which was published in the *Calcutta Gazette*. On the general question, therefore, it is only necessary to say in this place that the Lieutenant-Governor trusts that District Boards will cordially endeavour to carry out that policy, which he is convinced is likely to promote the best interests of the masses in this province. At the close of that Resolution the Lieutenant-Governor prescribed a form to show the details of expenditure on primary education, and the figures supplied accordingly in Appendix C demand a few words of comment. It appears unnecessary to examine district details: it will be enough if they are perused by the various District Boards with the object of ascertaining wherein their expenditure differs from that of neighbouring Boards under similar conditions, and wherein alterations and improvements are feasible. Taking the province as a whole, it will be seen that out of the total of Rs. 7,46,553 spent by District Boards on primary education in 1893-94, Rs. 4,65,500 or 62·35 of the whole were paid direct to the schools; Rs. 1,16,222 or 15·56 were expended on the salaries of Sub-Inspectors; and Rs. 82,896 or 11·10 per cent. on the remuneration of the subordinate inspecting agency, while Rs. 30,529 or 4·08 per cent. were devoted to examinations, prizes and rewards.

41. In regard to educational expenditure in Orissa, the Commissioner quotes with approval the following remarks of the Chairman of the Puri District Board:—

"The expansion of expenditure on education is regrettable. It has now encroached on the money that ought to be devoted to roads. When the next annual budget is framed, a very considerable reduction will have to be made."

The Commissioner adds—

"The remarks of the Chairman of the District Board have my entire concurrence * * *. There appears to be a tendency in all districts of Orissa similar to that observed at Puri, and the attention of the Boards has been directed to the subject. It cannot be said that in Orissa State aid to education is deficient, and indeed it appears necessary to redress the balance in favour of other objects."

These remarks appear to the Lieutenant-Governor to be of doubtful validity. The expenditure in Orissa appears to be almost entirely devoted to inspection and to primary education, and it is notorious that Orissa is more behind the rest of Bengal in education than in any other respect. It is extremely difficult to draw the line with complete wisdom between the different objects which demand the attention of District Boards, and His Honour would be unwilling that any official pressure should be placed on the Boards to induce them to diminish their educational expenditure if they deliberately consider that they are not starving more important wants of the country by an inadequate allotment of their funds.

42. *Special schools.*—A technical school was opened in Burdwan in April 1894; it is maintained by the District Board assisted by the Municipality; carpentry and blacksmith's work were taught, and a survey class was also opened; there were 38 students in the workshops, and 46 attended the classes. The District Board of the 24-Parganas have started a model school of carpentry on an unambitious scale at Sonarpur, the monthly cost amounting only to Rs. 33; the school had 33 pupils, and is reported to be prospering. The pupils at the Rangpur technical school numbered 77, against 72 in 1892-93. Surveying, drawing, mensuration, carpentry, and blacksmith's work are taught at the technical school of Pabna; the Commissioner says he found

25 pupils of the *bhadralog* class being educated there, and is inclined to the opinion that the school should be supported partly by fees or subscription; In the Elliott Artizan School at Comilla there were 29 pupils; the school cost the Tippera District Board Rs. 2,559, and besides this, Rs. 3,163, spent on buildings, was met from donations; the receipts from sale of the articles made in the school amounted to Rs. 880. The Lieutenant-Governor lately inspected this school and passed upon it a similar criticism to that passed by Mr. Nolan on the Pabna school. The technical school established in Noakhali in March 1893 proved a failure and was abolished during the past year. A technical school founded by Babu Jogendro Kissore Roy Chaudhuri in memory of his father, Babu Kasi Kishor Rai Choudhuri of Ramgopalpur, was opened at Nasirabad in Mymensingh in July 1893; there were 21 pupils at the close of the year; the Chairman expresses regret that few boys of the artizan castes had yet attended. At the school at Barisal, the number of pupils rose from 35 to 43, the cost of the school was Rs. 2,765, and the receipts from fees and the sale of manufactured articles Rs. 266 and Rs. 614 respectively. The technical school at Purnea was reorganized in May 1893 and at first promised well, but in the rainy season many of the boys fell ill, and after the puja holidays did not return to the school. Rupees 3,152 were spent on the school during the year, of which Rs. 672 were recovered by the sale of the manufactured articles. The Balasore District Board contributed Rs. 120 to a technical school in the district. The District Boards of Howrah, Noakhali, and Puri granted scholarships for students at the Sibpur College. The Cuttack District Board paid for three boys who were learning at the Jobra workshops, and all the District Boards in Bihar, except that of Champaran, as well as those of Malda and Monghyr in the Bhagalpur Division, offered scholarships tenable at the Bihar industrial school. Viewing the year's work as a whole, the efforts made to push technical education appear to have been fairly successful. Failures there have been, and these must inevitably occur until the artizan classes have learned to appreciate the efforts being made in their behalf. It is abundantly clear therefore that, in order to avoid loss and disappointment, beginnings should be made on a small scale, without any elaborate plant or buildings, and every endeavour should be made to attract boys from the artizan castes, and not to receive pupils from the ordinary educated classes who are not likely to follow the trades thus learnt when they grow up.

43. Of indigenous schools there are under the Rangpur District Board two *madrassas* with 94 and 41 pupils respectively, and two Sanskrit *tols*. In Puri there are 17 Sanskrit *tols* and one *maktab*, but they receive no help from the District Board. In Hooghly the Sanskrit *tols* increased from 70 to 80, with a total number of 361 pupils, while the Arabic schools decreased from 36 with 507 pupils to 29 with 339. There are 7 *tols* in Howrah and 14 Koran schools.

44. *Female Medical Education.*—Scholarships to female medical students were granted by the District Boards of Burdwan, Birbhum, 24-Parganas, Faridpur, Backergunge, Chittagong, Patna, Shahabad, Saran, Monghyr, and Cuttack. In Champaran, Mymensingh, and Puri scholarships were offered, but no candidates applied for them.

45. *Medical.*—The total outlay on medical relief amounted to Rs. 1,29,911 during the year 1893-94, being an increase of Rs. 33,491 on the expenditure of the previous year. On general medical establishment and on hospitals and dispensaries together Rs. 1,15,529 were spent, compared with Rs. 87,777 in 1892-93. The increase is shared by all districts except Birbhum, Howrah, 24-Parganas, Pabna, Chittagong, Shahabad, Saran, Champaran, and Bhagalpur, and in no case is the decrease of any importance. In last year's Resolution the Lieutenant-Governor found it necessary to draw attention to the inadequate expenditure under this head in many districts, and he is gratified therefore to find that out of the eleven District Boards then mentioned, all, except those of Howrah, Jalpaiguri, and Dacca, have been able to comply with his suggestions for increased expenditure. The increase in expenditure in Tippera was due to the necessity of rebuilding the dispensary buildings that had been damaged by the cyclone of October 1893, and of dealing with the cholera epidemic that broke out soon afterwards; elsewhere it arose almost entirely from the establishment of new dispensaries under the District Boards, or from increased

contributions to institutions under Municipalities or other local bodies. The Hooghly District Board opened three temporary dispensaries during the year, and also took charge of that at Mandlai, which is maintained from the interest of securities left for the purpose by the late Dr. Bholanath Bose. In Mymensingh four new dispensaries were opened and a like number in Backergunge. Three new dispensaries were sanctioned during the year by the Noakhali District Board, while two were opened in Monghyr and one in Malda. In Patna, Babu Har Hardhari Singh promised a subscription of Rs. 600 a year for a dispensary; this sum the District Board have agreed to supplement with a grant of Rs. 30 a month, and a dispensary is to be opened in the Bikram thana. The Cuttack Board have established a new dispensary on the Grand Trunk Road, and have relieved Government of the charge of the Dharmsala dispensary. Altogether there were during the year 69 dispensaries maintained chiefly from District Funds at a cost of Rs. 54,674, without counting those institutions which are chiefly maintained from other sources, but which receive help from the District Funds.

46. The District Boards of Mymensingh, Rangpur, Birbhum, and Noakhali retained the services of midwives in their districts. In Rajshahi, Malda, Chittagong, and Birbhum contributions were made from the District Funds towards the salaries of lady doctors. Saran and Shahabad appear to have stopped their expenditure on account of female medical aid, and on the other hand in Dinajpur some expenditure has been incurred for the first time, but in neither instance is any mention of the fact made in the Divisional Reports. The Gaya District Board paid the cost of acquiring land for a Dufferin Hospital, and in Tippera and Khulna contributions were made from District Funds for the construction of similar institutions. The Balasore District Board added four rooms for the accommodation of females in the Bhadrak dispensary.

47. *Sanitation.*—The total expenditure on sanitation fell from Rs. 1,31,914 in 1892-93 to Rs. 84,166 in the year under report. The figures on the margin show how these amounts were apportioned among the various sub-heads of expenditure in both years.

	1892-93.	1893-94.
	Rs.	Rs.
Improvement of water-supply ..	97,402	43,177
Ditto village sites ...	635	870
Conservancy of towns and villages	Nil	751
Sanitation at fairs	8,066	7,192
Other sanitary expenditure ...	25,812	32,176

48. The large falling off in the expenditure on the improvement of water-supply is due to the inclusion in the total for 1892-93 of Rs. 45,037 spent in digging and re-excavating tanks in the Bhagalpur district—operations whose primary object was to find work for the poor in a season of scarcity, rather than the improvement of the water-supply. In Monghyr and Muzaffarpur there is a considerable falling off, which may be accounted for in the same way. The Lieutenant-Governor trusts that these tanks, which are now, it is presumed, the property of the District Board, will not be entirely neglected, but that proper measures will be taken to maintain them and preserve them from contamination and decay. An unsatisfactory feature in the sanitary operations of District Boards is the fitful and desultory way in which they are undertaken, as illustrated by the great variations in expenditure from year to year in the districts marginally noted. The Lieutenant-Governor recognizes that it is impossible to spend any large sums from the District Fund on the improvement of the water-supply of a whole district, but it is probable that most District Boards can afford some Rs. 2,000 or Rs 3,000 a year for this purpose, and the sum available should be heedfully expended year by year in pursuance of a regular system carefully thought out beforehand. The Lieutenant-Governor is gratified to see that in Mymensingh and Backergunge the District Boards are already going to work on these lines, and in the Patna Division the Commissioner has succeeded to some extent in inducing the District Boards to take up the cleaning of roadside wells on a systematic plan. Sir Charles Elliott again draws attention to the pregnant remark made by Mr. Romesh Chandra Dutt in his Divisional Report, that the aim of the District Boards and Municipal Commissioners should be to establish a reserved tank of pure water in every village, and a system of house supply of pure water in every

	1891-92.	1892-93.	1893-94.
	Rs.	Rs.	Rs.
Rangpur ...	1,239	35	4,611
Faridpur ...	3,092	6,264	716
Champaran ...	Nil	1,400	Nil
Khulna ...	599	254	1,262

considerable town. He trusts that during the current year all District Boards will seriously consider how they can best give effect to his recommendations on this subject, for it is almost superfluous to remind them that much more real progress is made by the sustained expenditure of moderate sums than by spasmodic liberality alternating with periods of neglect. The largest sums were spent during the current year in improving the water-supply in Backergunge (Rs. 6,146), Rangpur (Rs. 4,61[illegible]), and Monghyr (Rs. 4,180); while in Bankura, Howrah, Gaya, Champaran, Darbhanga, Purnea, Malda, Balasore, and Puri, nothing at all was spent. In the improvement of village sites and in village conservancy altogether Rs. 1,621 were spent in Murshidabad, Jessore, Khulna, Patna, and Shahabad. Expenditure on the sanitation of fairs was much the same as in previous years, and requires no special comment.

49. Expenditure on other sanitary objects amounted to Rs 32,403, of which Rs. 20,000 represent the contribution of the Mymensingh District Board to the Rajeswari water-works at Nasirabad, Rs. 8,196 expenditure in the Presidency Division on the improvement of drains, and Rs. 800 expenditure by the Puri District Board in affording vaccination to the people free of charge.

50. *Stationery and Printing.*—The charges fell from Rs. 50,022 to Rs. 45,446. There was a satisfactory decrease in the Patna Division, where expenditure had been high in the previous year, and had attracted the attention of Government. The fluctuations are generally due to more than one year's supply having been obtained and paid for within the same twelve months, and are not necessarily due to increased consumption.

51. *Miscellaneous.*—The expenditure rose from Rs. 55,390 to Rs. 63,644 in the year under report; the outlay on sarais and dák bungalows increased by Rs. 5,017, and Provident Fund contributions by Rs. 1,811. In Dacca the general elections led to increased expenditure. There is a large falling off in Hooghly, explained by the fact that the total of the year 1892-93 was swelled by an old advance of some Rs. 8,000 which was written off and shown under this head. In Bankura there was a heavy item of Rs. 5,960, which had to be paid in the year under report, by the orders of the Board of Revenue, on account of processes issued in revaluation cases, and in Chittagong Rs. 9,000 had to be paid to a contractor in satisfaction of a decree of the Civil Court.

52. *Famine relief.*—The expenditure on famine relief in 1893-94 amounted only to Rs. 2,649, nearly all of which was incurred in Backergunge in affording gratuitous relief. Advances to the extent of Rs. 1,500 were made from the Faridpur District Fund in order to purchase paddy to be husked by necessitous women, and some expenditure was incurred on roads, amounting to Rs. 6,691 in the Faridpur district, and to Rs. 17,533 in the Backergunge district, but this is shown under the head of 'Civil Works,' although it partook of the nature of expenditure on relief works. In Darbhanga test relief works were opened in February 1894, but were soon closed. On the whole, considering the high prices of food-grains and the injury done by floods in many quarters, the year was extraordinarily free from any real scarcity.

53. *Civil works.*—The following statement compares the expenditure under the head of Civil works during the past two years:—

Year.	Ferry establishment, contingencies and refunds.	Original works.	Repairs.	Establishment and contingencies.	Tools and plant.	Water-supply and water-works.	Drainage works.	Total.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	Rs.
1892-93 .. .	43,591	14,07,[illegible]45	20,00,233	5,92,197	31,250	1,03,836	10,783	42,88,747
1893-94	48,5[illegible]3	13,09,182	21,77,115	5,98,491	24,660	1,55,[illegible]99	8,674	43,22,3[illegible]4
Difference ...	+4,972	—98,663	+77,882	+6,294	—6,509	+51,860	—2,1[illegible]9	+33,637

The total expenditure shows an increase of Rs. 33,637. The increase under the sub-head of Ferries occurred chiefly in Dacca, where Rs. 10,049 were spent in the year under report, as compared with Rs. 8,455 in the previous year, but no explanation has been given of the increase. The large increase under the head of water-supply is due to the contribution of Rs. 1,00,000 made by the District Board of Shahabad for the Municipal water-works at Arrah. As

regards original works, the gross expenditure on which has fallen off by nearly a lakh of rupees, the largest expenditure was incurred, in the districts named in the margin. Few large schemes were undertaken during the year, but much important work was done in the way of small improvements. In the 24-Parganas the metalling of the road between Barasat and Barrackpore, which is estimated to cost Rs. 33,000, was begun. It is reported that the Victoria bridge in Burdwan over the Khori river, which was said last year to be nearly complete, was not finished and could not be opened during the year for want of funds. It is not understood why this should have been so, seeing that the District Fund had a credit balance of Rs. 38,219 at the close of the year; and the Lieutenant-Governor hopes that the work will be completed at any rate in the current year. In Howrah further progress was made in the construction of the Begri-Hakhola road sanctioned in 1890, Rs. 56,314 having now been spent, out of a total estimate of Rs. 59,712. In Jessore four causeways on the Jhenida-Magura road were completed during the year, and another on the Calcutta-Jessore road was nearly finished. In Khulna the construction of four iron bridges was begun. The Rajshahi Division stands second only to Patna in the expenditure on original works; it amounted to Rs. 2,63,671, but the Commissioner's report on the subject does not show what works were undertaken. A considerable portion of the sum, however, namely Rs. 71,457, was spent on Imperial and Provincial works for which grants were made by Government. From information obtained from the Public Works Department of this Government it appears that in Dinajpur a sum of Rs. 42,080 was spent in making bridges and culverts to improve the waterway, and in Jalpaiguri Rs. 17,433 represent the outlay on improving roads in the Duars, for which Government made a grant of Rs. 40,000 in 1892. In the Rangpur district the road from Kankeria to the borders of the Kuch-Bihar State was completed, and 26 bridges and culverts were constructed to improve existing roads. In Pabna no important original works were undertaken, but a contribution of Rs. 9,000 was made from the District Fund towards the construction of the bridge over the Dhanbandi river at Sirajganj. In the Mymensingh district important works were undertaken on behalf of Government in the shape of a Subdivisional Officer's residence at Netrakona and Subdivisional Court buildings in Netrakona, Jamalpur, and Kishorganj, while a considerable sum was spent in constructing and bridging the district roads. The expenditure on original civil works in the Patna Division is far more important than in any other; it amounted to Rs. 4,81,186, or 36·7 of the whole expenditure of the province on original works during the year under report. Further expenditure, amounting to Rs. 37,822, was incurred in the Patna district on the bridge over the Punpun river on the Fatwa-Hilsa road, and Rs. 9,613 on the metalling of the road itself; the bridge is now ready to be opened for traffic. In Gaya three iron girder bridges over the Jahanabad-Arwal road were nearly completed, and Rs. 11,277 were spent on the materials of a fourth bridge on the same road. The raising of the Aurangabad-Maharajganj road to Daltonganj was nearly completed at a cost of Rs. 12,181. In Champaran and Muzaffarpur much was spent in making new culverts and bridges. In Saran only a little more than one-third of a budget allotment of Rs. 68,587 was spent during the year: the explanation given, namely, that the works were sanctioned too late in the year, and that contractors did not fulfil their contracts, is, as the Commissioner observes, wholly inadequate. In Bhagalpur, some important provincial works were carried out by the District Board in improving the Central Jail and in constructing a double munsifi at Madhipura. The Malda District Board spent Rs. 7,156 on metalling the Englishbazar-Nawabganj road, the work having been estimated to cost Rs. 13,865.

Total ...	31,78,679	30,51,860

Howrah-Jagatballabpur road, and in Muzaffarpur and Darbhanga, where severe damage was done to roads and bridges by the floods that occurred in August and September 1893. In Darbhanga, particularly, the damage fell heavily on the District Board, which has not yet recovered from the drain on its resources caused by the scarcity in 1891-92. The districts of the 24-Parganas (Rs. 1,33,938), Burdwan (Rs. 1,64,713), and Darbhanga (Rs. 1,33,177) spent most in repairs to communications during the year. The length of district and provincial roads repaired by District Boards is shown in Appendix D attached to the report to be 24,058 miles.

55. In the course of the year the Lieutenant-Governor had occasion to examine the relation borne to their total expenditure by the cost of establishment entertained by each District Board, and also the manner in which establishment charges of certain kinds were entered in the accounts of the Boards. On each of these subjects a resolution issued in the month of June, and in that numbered 3T.—M. of the 28th of that month, the Lieutenant-Governor prescribed the preparation of a statement, which now appears as Appendix D to the present Resolution. An examination of this statement reveals extraordinary variations between the different districts. Thus the mean Provincial percentage of cost of civil works on total expenditure (column 9) is 64·5, but it runs as high as 71·8 for the Patna Division, and as low as 51·8 for that of Chittagong. In Jalpaiguri, where communications are still very defective, and where the District Fund has been largely assisted by grants from Government, the percentage reaches 76·8, while Shahabad shows 82·8 and Muzaffarpur 80·6. Turning next to the percentage of cost of establishment on total expenditure (column 10) it is for the whole province 8·9, but it exceeds 10 per cent. in thirteen districts headed by Bhagalpur with 14·4. Column 11 of the statement shows what ratio the salary of the District Engineer bears to the total cost of establishment. It appears that the Provincial average is 41·1, but in eight districts, where it is hard not to suspect excessive liberality, the District Engineer receives as salary more than half the total sum shown as cost of establishment for the year: in Champaran he receives as much as 70·3 per cent. of the whole, and in Cuttack and Balasore nearly 60 per cent. Column 12 of the statement shows what proportion is borne to the expenditure on original works and repairs by the cost of establishment: the provincial mean being 17·1, it is exceeded in 21 districts, the highest place being taken by the Saran District Board (31 per cent.), owing no doubt to the fact that only a small portion of the funds allotted for works were spent during the year. Lastly, column 13 shews what ratio was borne by the District Engineer's salary to the expenditure on original works and repairs. The provincial mean is 7 per cent., but 10 per cent. is exceeded in nine districts, the first place being taken again by Champaran, and all the Orissa districts displaying apparently unusual liberality in this respect. This is not the place for a complete examination of the figures reported, but the Lieutenant-Governor desires that the Commissioners and the Chairmen of District Boards will scrutinise the statement, and will consider, by the light of the information it affords, whether the Public Works expenditure in each district is fairly distributed, or whether it is not capable of revision and improvement.

56. *Village roads.*—In the statement in the margin is shown the expenditure in each Division on village roads during the last two years. A considerable increase occurred in the Burdwan Division, but expenditure is said still to be less than the requirements of the districts. The total number of miles maintained in the province, with the exception of the Orissa Division, the Chittagong district, and the Nator subdivision, for which figures have not been furnished, amounted to 15,662 miles. The cost of maintenance of each mile varied from Rs. 3-12 in Champaran to Rs. 142 in Birbhum. In the Backergunge and Faridpur districts, also, the cost of maintenance per mile is very high. The Commissioner of Patna proposes to limit the expenditure

		Expenditure.

	Total ...	3,40,339	3,55,297

for the maintenance of this class of road to Rs. 10 a mile except in special cases, and the Lieutenant-Governor agrees with him that in his Division this amount should ordinarily be sufficient. Elsewhere a higher limit may be found necessary, but some limit should be fixed for expenditure on roads of this class. If a road is so important as to make it worth while to spend on it as much as Rs. 100 a mile, it seems proper that it should no longer be classed as a village road, but should be placed on the list of district roads. In Howrah, Chittagong, Saran, Darbhanga, and other districts in Bihar, the repairs were largely undertaken by planters and other resident gentlemen. The largest expenditure on village roads in any one district was Rs. 20,384 in Saran, which is covered with a network of roads essential to its teeming population, and the lowest Rs. 1,976 in Puri.

57. *Water communications.*—The outlay under this head during 1893-94 was but small. In Mymensingh the Narsanda khal was cleared of reeds with the double object of improving communications and supplying drinking water. In the Backergunge and Noakhali districts, by the ingenious plan of making the side cuttings along the roads continuous, the drainage has been improved, and boat communications facilitated. In the 24-Parganas, Pabna, Noakhali, and Malda small sums were spent in deepening and improving channels. The Commissioner of Dacca takes much interest in keeping the tow-paths along the banks of navigable channels free from obstructions, but hitherto the District Boards of the Division have done but little in this direction. The Lieutenant-Governor trusts that the matter will not be lost sight of, as it is one of great importance in the amphibious districts of the Gangetic delta.

58. *Steam communications.*—There is little new to report for the year 1893-94. The Dacca District Board maintained the steamer service from Narayanganj to Munshiganj as in former years. The receipts, it is said, cover the annual cost of maintenance with some margin, but are not enough to pay for the wear and tear of the steamer; the service, however, is said to be useful. Steamer services from Barisal to Khulna, to Patuakhali and to Chandpur received subsidies to the extent of Rs. 8,700 a year from the Backergunge District Fund, and in Faridpur a subsidy of Rs. 200 a month was granted to the India General Steam Navigation Company for a service from Goalundo to Madaripur, but it was stopped owing to the irregular running of the steamers. For the same reason the Tippera District Board withdrew the grant that they used to pay for the launch between Daudkandi and Shatnal. The Malda District Board paid, as in former years, a subsidy for the steamer service between Englishbazar and Rampur Boalia, but reduced it from Rs 300 to Rs. 200 a month: they also granted a subsidy to the farmer of the Rajmahal steam ferry for plying between that place and Englishbazar. The Pabna District Board paid Rs. 3,492 as a subsidy for the maintenance of a steamer plying between Pabna and Kushtia.

59. *Miscellaneous Public Improvements.*—The Bhagalpur District Board spent Rs. 358 in registering traffic on the Bhagalpur–Naya-Dumka road, the Board having agreed to allow Sir W. B. Hudson, K.C.I.E., the use of the road for the construction of a railway and to grant a subsidy for the work. In most districts there was some expenditure on account of tree planting, but it was chiefly incurred in maintaining existing trees or replacing those that had died. In Champaran, however, 218,000 palm trees were planted to demarcate the roadside lands. In Gaya the expenditure on arboriculture amounted to Rs. 2,971, and in Burdwan to Rs. 2,092. In Tippera and Noakhali the floods and a cyclone did the trees on the roads much damage, so that they cost the District Boards Rs. 1,704 and Rs. 2,114, respectively, during the year.

60. *Railway feeder roads.*—In Burdwan the feeder road, one mile long, connecting Gulsi station with the Grand Trunk Road was completed, and proceedings are being taken for the acquisition of land for another such road to Devipur station at the expense of the local zamindar, Babu Kalidas Singh. The feeder roads in Birbhum are said to need improvement, and the Lieutenant-Governor trusts the matter will receive due attention in the current year. In Nadia a fair-weather road from Bharamara to Taragonia, which is under construction, will form an important feeder to the Eastern Bengal State Railway. The Bengal Central Railway is said to be much in want of this class of road, and the Presidency Commissioner, at the request of the Public Works Department

of this Government, submitted an estimate for their construction in various localities, but the District Boards concerned are at present unable to give assistance for the work owing to want of funds. A bridge was completed on a feeder road in Dinajpur, and in Jalpaiguri one such road was constructed and another much improved. In Tippera estimates are being prepared for feeder roads for the Assam-Bengal Railway. In the Dacca Division, this useful class of road appears to be receiving considerable attention. Five miles of road leading to the Sripur railway station in Mymensingh were completed; the road will ultimately connect Tangail with the railway. In the same district five miles of road from Gaffargaon were completed, and some progress was made towards the construction of two feeder roads from Kalibazar railway station. In Purnea Rs. 8,848 were spent in constructing a feeder road from Sonaili to Pranpur, and Rs. 3,713 in metalling the feeder road to Kasba railway station.

61. *Tramways.*—No tramways were under construction during the year. The proposal for a light steam-tramway from Suri to Sainthia in the Birbhum district was dropped, and no progress was made in the Howrah-Sheakhala and Howrah-Amta project. Provisional sanction was accorded in March last to the construction of a steam-tramway in Nadia from Ranaghat *viâ* Santipur to Krishnagar, on condition that it should give way to a railway, should one be constructed hereafter, and the District Board have been asked to submit a formal proposal for sanction.

62. *Drainage.*—On this subject the Commissioner of the Presidency Division writes:—

"In the 24-Parganas a sum of Rs. 1,039 was, for the first time, spent during the year under report on the improvement of drainage. Having regard to the desirability of bettering the sanitary condition of Barasat and the adjoining villages, the unhealthiness of which is said to be due to a large extent to the silting up of the Sunti Nadi, the District Board took up the work and cleared the channel from the mouth of the river to the Jagatighata bridge, a distance of 9 miles. The health of the locality is said to have much improved, and the water of the river, which was filthy before, is now used for drinking purposes. The expenditure includes a sum of Rs. 400, which was contributed by the Barasat Municipality towards the cost of this work. Operations to clear the bed of the river for a further distance of 10 miles, from Jagatighata to Digra, for which Rs. 1,000 have been already sanctioned, are now in progress."

That great sanitary benefits accrue from works of this kind is beyond question, but unfortunately the fact that the silting up of the river has been hastened and assisted by the construction of dams and fishing weirs in its bed frequently renders their execution a matter of some difficulty. The District Board of the 24-Parganas and their Chairman, Mr. Collier, are to be congratulated on having carried this project through so far with such success, and it is to be hoped that their future efforts will be no less fortunate. It is with the object of providing efficient machinery for dealing with large and difficult tasks of this nature that the Sanitary Drainage Bill has been brought before the Provincial Legislative Council, but the Lieutenant-Governor trusts that without waiting for the result of proceedings in Council other District Boards will profit by the example of that of the 24-Parganas, and will endeavour to carry out similar projects wherever they are required, so far as they are within their means. In the Dinajpur district the drainage canal from Dinajpur to Gouripur was maintained at a cost of Rs. 509, and Rs. 412 were also spent in removing obstructions to drainage. In Rangpur the drainage canals of the Sadar, the Kurigram, and the Nilphamari subdivisions were repaired at a cost of Rs. 1,692. The expenditure under this head in Noakhali, amounting to Rs. 3,026 for improving the roadside drains and for deepening the Daudpur khal, and that from Gangapur to the Meghna river, has been referred to under the head of water communications, to which it more properly belongs.

63. *General remarks.*—The following are the comments of Commissioners of Divisions on the working of the District and Local Boards in their Divisions during the year.

The Officiating Commissioner of Burdwan (Mr. Dutt) writes of the District Board of Burdwan, of which he has long been Chairman:—

"The members of the District Board generally took much interest in their work. I have derived much help from their advice and active co-operation, and not unoften I have changed my own views on a subject after a friendly discussion with the members of the Board in meeting. Much useful work is done quietly and unostentatiously by the Committees of the District Board, and non-official members belonging to these Committees give us their time and

services ungrudging'y for public good. It is a gain to the cause of administration that non-official gentlemen shou'd thus share with us the work of administration, and that the leading residents of the district should have a hand in disposing of the District Fund for the good and improvement of their own di.tr.ct."

And in his capacity as Commissioner of the Division he adds :—

"It will appear from these remarks that a'l the District Officers of this Division have borne their testimony to the value and utility of the District Boards, to the interest which members take in their work, and to the intelligence with which they manage their duties. Local Boards have proved their usefulness in a less degree, as the scope of their work is very limited. But I believe they will have plenty of work to do when we undertake sanitary improvements on a larger scale in the near future."

Mr. Williams, Officiating Commissioner of the Presidency Division, writes as follows :—

"I have seen but little of the working of the District and Local Boards of this Division, but it appears that the results generally seem to be much the same as in other parts of the province, namely, that while the District Board works well, and a majority of the members take interest in their work, the Local Boards are, as a rule, distinguished for general apathy. The reason generally assigned, and with a fair amount of truth, is that, as a rule, the work is insufficient and of an uninteresting nature, but until it is seen that they carry out efficiently the work made over to them, the District Boards exercise a wise discretion in declining to increase their powers. One of the main difficulties of the Local Board question lies with regard to the Chairman. The Subdivisional Officer ought ordinarily to be the Chairman, as he alone probably knows the wants of the whole subdivision, and can weigh the respective claims of its different parts; but apart from the natural desire of Government to encourage, as far as possible, local self-government by appointing a non-official Chairman, and the fact that there is a certain amount of jealousy, especially in the neighbourhood of Calcutta, among non-official members, the frequent changes among the Subdivisional Officers render their appointment as Chairmen often impossible. So far as the people generally go, local self-government is, and is likely to be for some time, an absolute impossibility. The question of travelling allowance is also at times given as an excuse for persons not joining Local Boards, but I am opposed to any such grant, as the work done is not for years likely to be anything but of the lightest description."

The following are the comments of Mr. Nolan, Commissioner of the Rajshahi Division :—

"In my opinion the District Boards have worked well during the year. Their administration can hardly be distinguished from that which was in force before, viz., that of the District Magistrate acting with the Road Cess and Education Committees. The District Magistrate remains at the head of the Executive, and the consultative body is taken from the same class. The work goes on as it did before, attaining about the same degree of efficiency. There has been some addition to the cost by the erection of separate offices for those engaged in business formerly transacted at the Collectorate, and by the creation of new establishments; and on the other hand the cess-payers have the satisfaction of knowing that their interests are watched by their elected representatives. In other respects I can see no marked difference."

To Mr. Luttman-Johnson, Commissioner of the Dacca Division, local self-government presents the appearance of a paradox. He says :—

"As I have frequently pointed out, District Boards are of no account from the point of view of local self-government. They are in no sense local. But as district councils to advise the district officer, they no doubt serve a useful purpose. They are prone to subserve landlord interests. They are also, the members being for the most part residents of the district head-quarters, inclined to spend more money than it is entitled to on the Sadar subdivision. And perhaps they do not take more interest in the education and advancement of the masses than might have been expected. As was foreseen, they do not evince a great interest in sanitation. Generally, if the question of local self government be excluded from consideration, they may be said to do good work honestly and straightforwardly. The Local Boards might be entitled to a place in a local self-government scheme had they any powers. As it is, they are merely agents of the District Board in the performance of a few not very interesting duties.

Mr. Forbes, the Commissioner of the Patna Division, looks at the question solely from an administrative point of view; he writes—

"The foregoing report will show that the general working of the District Boards during the year in this Division continued to be satisfactory. * * * * * and better attention was paid to the water-supply by looking after the roadside wells, particularly those along the main roads frequented by pilgrims. The working of the Local Boards, however, has not been uniformly satisfactory in all districts."

From the Bhagalpur Division, Mr. Phillips, Chairman of the Monghyr District Board, writes :—

"Local self-government is not cared for in this district, and the pleader element is conspicuous by its absence. Debates are unknown, and an amount of solid business is got

through in 20 minutes which would take a Bengal Board several hours to get through. * * * Local members do not initiate any measures, nor do they seem even to press for the execution of works in their own localities. At the same time the Board is a great power behind the back of the Chairman."

Mr. Faulder, Chairman of the Purnea Board, writes in the same strain—

"The members of the District Board attend with praiseworthy regularity * * * *. That they should take so much trouble to come and spend so much of their time in doing so, is the point which has always struck me as most surprising. They take very little interest in the work, which is generally very uninteresting: they often scarcely attend to the proceedings * * * *. I do not think that in the year under report any amendment was proposed, or that one single resolution had to be put to the vote. I imagine that the members, though easily satisfied as to details, value the honour of being consulted, and the reserved power of voting, should any really vital question have to be decided."

The following are the remarks of Mr. Cooke, the Officiating Commissioner of the Orissa Division:—

"I am glad to be able to recognize a very marked improvement in the work of the Puri District Board, a greater conformity with the usual procedure in the case of the Balasore District Board, rather than any change in the quality of its work, which has never been otherwise than satisfactory, and some improvement in Cuttack; the last district named does not, in my opinion, take the place it should in matters connected with local self-government, but I have no doubt that this reproach could be removed. In the practical result the work appears satisfactory in all districts—a circumstance which is obviously quite consistent with any degree of apathy on the part of Board's members, so long as the executive officers are competent; this, however, does not constitute local self-government."

64. From the perusal of the Divisional reports and an examination of the statistics which they embody, the Lieutenant-Governor has received the impression of important duties harmoniously and unostentatiously discharged. The crudities which, as was inevitable, marked the administration of the earlier years during which the Local Self-Government Act was in force have largely disappeared under the ripening influence of time: in parts of the province there is a tendency to favour one or more branches of the administration at the expense of others, but year by year mistakes are corrected and improvements introduced, year by year variations in administration as between district and district disappear, and year by year the working of the machine grows smoother as those who control it become more familiar with its capabilities and their own duties. In all this Sir Charles Elliott detects not an approach to a dull level of mediocrity, but an emulous struggle towards the highest standards available, and he cordially congratulates all members of District Boards in these provinces that the year 1893-94 has been marked by such steady progress and such general good work.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

Form No. I(*a*).

Statement showing the constitution of the District Boards in Bengal during the year ending 31st March 1894.

The Canal Revenue Reports for 1893-94.

No. 1413*I.A.*

Government of Bengal.

IRRIGATION DEPARTMENT.

Accounts.

Dated Calcutta, the 19th November 1894.

RESOLUTION.

READ—

The Canal Revenue Reports for 1893-94 and the Chief Engineer's note on the same.

The canals in Bengal, of which Capital and Revenue Accounts are kept, have cost Rs. 7,47,43,771 to construct. Of this sum Rs. 1,05,86,519 have been provided from Provincial funds, Rs. 6,12,80,150* from loan funds, and the remainder has been charged to the Famine Relief and Insurance Fund.

2. The length of canals in operation is 916 miles, of which 495¼ miles are for irrigation and navigation, 242¾ miles are for irrigation only, and the remaining 178 miles for navigation only. There are also 2,579¾ miles of distributary channels. The area at present irrigable is 1,557,090 acres.

3. The receipts for the year for both Major and Minor Works have amounted to Rs. 21,97,974, and the working expenses to Rs. 19,42,188, the net revenue being Rs. 2,55,786 against Rs. 6.17,928 in 1892-93 and Rs. 3,82.280 in 1891 92. The receipts have been less than in the preceding year, the rainfall being favourable and seasonable, whilst the working expenses have been heavier than usual, owing to the cost of repairing the damages caused by the high floods of July 1892 in Orissa, and the cyclone of May 1893 in Orissa and Midnapore.

4. Taking the canals classed as Major Works only, the following table shows the main features of the year's working, and also the expenditure charged to capital account to date:—

NAME OF CANAL.	Capital expenditure (direct and indirect) during year.	Capital expenditure (direct and indirect) to date.	Receipts of year, *less* refunds.	Expenditure of year including indirect expenditure.	Net income of year.	Net income. Average of nine years ending 1892-93.

Sone Canals ...	1,68,465	2,68,69,942	9,25,675	7,40,976	(+)1,84,699	(+)1,74,584
Total ...	5,27,305	6,35,32,230	16,65,005	15,41,144	(+)1,23,861	(+)44,280

* Exclusive of indirect charges amounting to Rs. 20,11,102.

5. The receipts and working expenses of the year are compared with those of 1892-93, and the average of the nine years preceding, in the statement following:—

Name of Canal.	Receipts for 1893-94.	Receipts for 1892-93.	Receipts. Average of nine years ending 1892-93.	Working expenses, 1893-94.	Working expenses, 1892-93.	Working expenses. Average of nine years ending 1892-93.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Orissa Canals ...	3,.5,365	4,97,375	2,79,900	5,35,477	5,05,507	4,40,786
Midnapore Canal ..	3,04,769	2,80,001	2,57,650	2,08,190	1,95,550	2,24,968

Sone Canals ...	9,25,675	10,52,581	8,66,488	7,40,976	7,51,247	6,91,904
Total ...	16.65,005	18,83,347	14,48,628	15,41,144	14,85,393	14,04,348

The interest charges from Provincial revenues amounted to Rs. 24,61,878

6. The areas irrigated during the past ten years are shown in the table below. *Rabi* irrigation is shown separately in the case of the Sone Canals only; in the case of the other canals the area watered at that season is insignificant. The area under the head perennial is in all cases small, and is included under the head *kharif*. The rainfall of the year is given:—

Year.	Orissa Canals.	Midnapore Canal.	Sone Canals.			All canals.	Rainfall.
			Kharif.	Rabi.	Total.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Inches.
1884-85	57,372	69.294	293,103	77,558	370.661	497,327	44 93
1885-86	72,339	70,604	281,960	50.610	332,570	475,513	59·46
1886-87	77,709	69,762	251,542	16,662	268,204	415,675	57·32
1887-88	109,506	65,864	287,879	27,501	315.380	490,750	36·70
1888-89	159,292	69,777	286,092	69,817	355,909	584,978	52·21
1889-90	186,627	58,810	284,946	20,336	305,282	560,719	54·02
1890-91	180,299	82,002	260,382	20,632	281,014	543,315	57·03
1891-92	177,685	83,973	297,415	177,308	474,723	736,381	46·55
1892-93	160,952	91,217	284,666	126,195	410,761	662,930	45·13
1893-94	103,526	85,763	300,318	66,458	366,776	556,065	64·03
Average of nine years preceding 1893-94 ...	131,309	74,589	280,887	65,180	346,066	551,954	50·37

The area irrigated was 556,065 acres against an average of 551,954 acres. Compared with the two years immediately preceding, the defect is mainly in the area irrigated by the Orissa Canals, and by the Sone Canals in the *rabi* season. The rainfall of the year was 64·03 inches against 45·13 inches in 1892-93, 46·55 inches in 1891-92, and an average of 50·37 inches in the nine years preceding 1893-94.

In both the preceding years the rainfall was scanty, and the demand for water acute. In the year under review, more especially in May and late in the season, the rainfall was abundant, and there was little demand for canal water

7. The collections of water rates as well as the assessments are now carried on under the orders of Superintending Engineers, the duties of Collectors of

districts being, so far as the canals are concerned, confined to disposing of objections against the orders of canal officers, and seeing that the management of the canals is conducted with a proper regard to the interests and feelings of the cultivators. The collections of arrears under the Public Demands Recovery Act are, however, entirely under the orders and control of the District Officers, the Superintending Engineer having no connection therewith. The following table shows the main features of the collection work of the year:—

Year.	Balance at beginning of year.	Balance at the end of the year.	Remissions, including cancelled demand statements.	Irrecoverable items.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
1884-85	6,20,687	8,84,289	80,771	37,121
1885-86	8,84,289	5,33,177	1,41,162	41,229
1886-87	5,33,177	3,69,789	57,375	22,612
1887-88	3,69,789	5,59,883	32,356	19,796
1888-89	5,59,883	5,79,983	42,666	14,074
1889-90	5,79,983	5,09,188	80,282	20,592
1890-91	5,09,188	4,72,113	48,674	16,476
1891-92	4,72,113	4,04,120	38,421	12,126
1892-93	4,04,120	2,26,174	61,576	11,168
1893-94	2,26,174	1,72,235	29,054	4,818
Average of nine years preceding 1893-94 ...	5,48,136	5,04,302	64,809	21,688

The improvement in administration continues. The balance of water-rates due at the close of the year was Rs. 1,72,235 against Rs. 2,26,164 at its commencement. The remissions have been Rs. 29,054 only against Rs. 61,576 in the year preceding, and an average of Rs. 64,809. The items written off as irrecoverable were Rs. 4,818 against Rs. 11,168 in 1892-93, and an average of Rs. 21,688.

8. Particulars regarding the navigation collections (exclusive of the transport service and miscellaneous navigation receipts) for 10 years are given in the table following:—

Year.	Orissa Canals.	Midnapore Canal.	Hijili Tidal Canal.	Sone Canals.	Total.	Miles open.	Tollage per mile.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Miles.	Rs.
1884-85	52,784	1,28,747	41,382	37,335	2,60,248	484	537·7
1885-86	64,093	1,37,578	52,143	41,712	2,95,526	490	603·1
1886-87	58,664	1,09,693	51,904	49,665	2,69,926	490	551·8

1893-94	1,19,115	1,14,994	58,209	50,548	3,42,866	524½	654·0
Average of nine years preceding 1893-94...	79,795	1,28,028	43,973	49,664	3,01,472	.....	.....

The increase in the revenue under the head Navigation was chiefly owing to the pilgrim traffic to Orissa, a festival of special importance occurring at Puri in July 1893.

9. The miscellaneous revenue was Rs. 78,006 in the current year, and Rs. 74,007 in 1892-93, the average for the nine years preceding 1893-94 being Rs. 63,460.

10. So far as Major Works are concerned, the receipts were Rs. 2,16,377 more than the average of the preceding nine years, but the working expenses were also Rs. 1,36,796 in excess, the net income being Rs. 1,23,861 against Rs. 3,97,954 in the preceding year; but the average for the nine years ending with 1892-93 was Rs. 44,280.

The navigation revenue, Rs. 3,42,866, compares favourably both with that received during the preceding year, Rs. 3,16,827, and the average, Rs. 3,01,472. The earnings of the year were Rs. 14,75,361 only against Rs. 16,72,626 actually collected, so that the results of the year, judged from that standpoint, were more unfavourable than the figures giving the net income would show. On the other hand the expenses of the year were swollen by expenditure due to a flood which occurred in the previous year, July 1892, and to an altogether exceptional item, the renewal of the shutters of the Byturni weir.

The results of the year's working have, compared with the two preceding years, not been favourable from causes which have been stated, and which will be more particularly referred to later on in commenting on the year's working of the different canals.

11. The canal systems will now be separately considered, commencing with the Orissa Canals. The receipts on revenue account were Rs. 3,75,365, against an average of Rs. 2,79,300 during the preceding nine years, and the working expenses Rs. 5,35,477 against an average of Rs. 4,40,786. The heavy expenditure under Working expenses was due (I) to making good, at a cost of Rs. 31,107, the damages caused by the flood of the river Mahanadi in July 1892, which was the highest on record, and (II) the renewal, at a cost of Rs. 23,830, of the shutters of the Byturni weir, an improved pattern being substituted. Deducting the expenditure incurred on these two items, the cost of maintenance proper was Rs. 2,00,780, which was lower than that of any of the last ten years, except 1891-92. There was under the head Tools and Plant an extraordinary expenditure of Rs. 9,295 in renewing the boilers of the S.S. *Aurora*. The cost of Revenue establishment was Rs. 6,459 less than in 1892-93, and there will be a reduction during the year now current owing to the abolition of head-men's fees. A further diminution is anticipated when a larger portion of the area commanded has been leased. The increased expenditure on the transport service was more than compensated for by extra receipts. The actual collections of water-rates were entirely satisfactory. They are nearly one lakh of rupees above the average, and the balance at the close of the year was Rs. 63,350 against Rs. 89,816 at its commencement. The navigation revenue is the highest on record, and has nearly doubled in the course of the last ten years.

12. The area irrigated in Orissa was 103,526 acres against 160,952 acres in the preceding year, and an average of 131,309 acres. The comparison is somewhat misleading, as in all leases executed since the 1st April 1892, unirrigable lands have been excluded, whilst in those of a prior date, the unirrigable lands are included and dealt with by yearly remission statements. It is not possible to give the exact areas so dealt with, but the areas previous to 1893-94 include at least 10,000 acres of non-irrigable lands. The remissions and irrecoverable items amounted to Rs. 7,748 in 1893-94 against Rs. 52,541 in 1892-93. The area for which leases lapsed on the 1st of April 1894 was 114,361 acres, and new leases were entered into for 42,263 acres. This is more than one-fifth of the entire area which has ever been under irrigation, and with a system of five-year leases is a normal area. But the year was unfavourable for irrigation. The rainfall was 74·83 inches against 56·43 inches in the previous year, and an average of 58·55 inches. There was a cyclone in May 1893, in which month 28·12 inches of rain fell, and a consequent indisposition on the part of the cultivators to renew leases early in the season. Late in September and early in October, when water was beginning to be indispensable for the rice crops, applications

began to come in, but there was heavy rain on the 17th of October, and all further demand ceased. In 1888, out of 89,296 acres leased, which lapsed on the 1st of April 1893, 43,595 acres were leased in October and November. Altogether, considering the character of the season, which is described by the Chief Engineer as being seasonable for the crops, so that canal irrigation was not necessary, the area renewed was quite as great as could fairly be expected, and it is the more satisfactory, as the leases contain no unirrigable areas for which remissions would be yearly required.

13. The transport service was worked at a profit of Rs. 2,879 against Rs. 1,591 in the preceding year. The working charges include Rs. 7,834 charged as tollage. The service was of considerable importance owing to the number of pilgrims, and boats were hired and run daily so that there might not be any delay.

14. The number of certificate cases instituted during the year was 6,667 against 7,991 filed in the year 1892-93. Including a balance of 979 from the previous year, there were 7,646 cases for disposal. Of these 6,861 were disposed of by being fully satisfied, 4 only were cancelled on objection, and 305 struck off. The number pending at the close of the year was 476 against 979 at its commencement. The certificate office was inspected by the Collector of Cuttack, who remarked that the office in every respect seemed to be in exceptionally good condition. The Lieutenant-Governor recognizes the improvement shown by the diminution in the number of certificate cases, and trusts that a further decrease will occur. It may be noted as creditable to the Deputy Collector that in no single case was a defaulter sent to jail or had his property sold in satisfaction of Government claims. In regard to ordinary complaints, the Deputy Collector remarks:—

"The reduction in the number of complaints from 3,372 in the previous year to 1,514 in the year under report is due to the new system of assessment, exclusion of unirrigable areas from *jamabandis* and the systematic regulation and very careful distribution of water."

He adds:—

"There were very few frivolous complaints, the number found to be groundless on investigation being 379 only."

The area assessed under the head unauthorized irrigation was 174 acres only.

15. The net revenue of the Midnapore Canal was Rs. 96,579 in the year under review, against Rs. 84,451 in that previous. The earnings were, however, Rs. 14,334 less than in 1892-93, the favourable results shown by the revenue account (actuals) being due to the balance at the close of the year being Rs. 7,027 only as opposed to Rs. 48,567 at its commencement. The area irrigated was 85,763 acres against 91,217 acres in 1892-93, but the rainfall in 1893-94 was 70·63 inches against 41·28 inches in 1892-93. The character of the season is explained in the following extract from the Deputy Collector's report:—

"The demand for rice irrigation in this district has not yet become independent of the character of the season, and in consequence of heavy and untimely rainfall the outlook of the year's administration was indeed very gloomy in the early part of the season. The provision in the new water-rate rules about an additional rate of 12 annas per acre to be levied in cases where the lease is not renewed in the first year following its expiry, and similar other provisions intended to prevent delay in applying for the renewal of the lapsed leases, were thoroughly explained to the ex-lessees; but they were of little avail to overcome the general disinclination, although the most intelligent among them, who are gifted with foresight, were in favour of prompt renewal. But when later in the season (*i.e.*, in the latter part of August and beginning of September) the rains held off, and in consequence of the exemplary punishment awarded in certain cases of illicit irrigation, the ex-lessees could no longer cherish the hope of having recourse to surreptitious irrigation which the system of compromise (*i.e.*, taking kabuliyats at the ordinary rates from the persons found guilty of using canal water in an unauthorized manner), which had hitherto prevailed, used to stimulate, there was a great rush for the execution of kabuliyats, and the result was that out of an area of 35,400 acres which fell in on the 31st March 1893, leases covering an area of 27,072 acres were renewed in a short time. But the worst character of the season was that the rain fell again just when the demand for canal irrigation was becoming general, and had the last break continued for a week more, all the lapsed leases would have been renewed."

16. The very heavy rain in May—more than 10 inches fell in the last week of that month—was very prejudicial both to canal irrigation and the growth

of the crops, and the rice that was sown in June was to a large extent also destroyed. Under the circumstances the Lieutenant-Governor agrees with the Superintending Engineer that the result may be considered satisfactory. Mr. Romesh Chunder Dutt, C.I.E., Commissioner of Burdwan, makes the following remarks regarding the work of Babu Raj Mohun Chuckerbutty, Deputy Collector, in charge of the Revenue Division:—

"It is satisfactory to observe that much improvement has been introduced by the Deputy Collector in charge in the working of the department. Though the year was not favourable for irrigation purposes, there was an increase in the total revenue to the extent of Rs. 21,565 with a decrease in collection charges, &c., from Rs. 21,656 to Rs. 19,497. The percentage of total collections rose from 75·56 to 96·06.

"The number of certificates filed during the year was 1,799 against 1,223 in the preceding year. The increase was mainly due to the realization of old arrears. It is satisfactory to notice that out of the total number of certificates (2,155 including 356 pending from previous year) 2,085 were disposed of, leaving a balance of 70 only at the close of the year. Out of the cases disposed of, the demand was wholy satisfied in 2,037 cases."

The Lieutenant-Governor notices this commendation with satisfaction, and also the fact that instead of waiting until certificates are filed to raise objections, appeals are beginning to be preferred to the Collector under section 91 of the Irrigation Act. Eight such appeals were preferred during the year: in four cases the orders of the Deputy Collector were upheld, and in the remaining four the rates of assessments modified. This is the first year in which such appeals have been preferred.

17. The high floods not only caused extra expenditure on maintenance, but breached the embankment on the left bank of the river Cossye at Jagatpur flooding 30 square miles of country. One consequence of the flood was that remissions to the extent of Rs. 6,021 against Rs. 1,338 in the year previous were granted.

18. The working expenses of the canal, Rs. 2,08,190, were Rs. 12,640 in excess of those incurred during 1892-93, but below the average of the nine years preceding viz. Rs. 2,24,968. On the whole, the year's working of this canal may be considered as successful, though there were many adverse circumstances to contend with.

19. The receipts of the Hijili Tidal Canal were in excess of the year previous, but the expenditure on maintenance and repairs to works was Rs. 50,517 against Rs. 27,372 in 1892-93, so that the net revenue fell from Rs. 20.301 to Rs. 2,695. The increased cost of repairs was due to the cyclone of May 1893 and to the silt clearing of Range I. The Superintending Engineer on this subject observes:—

"With its short ranges and proportionately increased share of locks and buildings for its length and heavy influx of silt, the mileage rate must always be heavier on the Hijili than on the Orissa Coast Canal. The rate per mile for the year was Rs. 1,948. The average expenditure on maintenance of the canal for the past ten years has been Rs. 47,777, or Rs. 1,647 per mile."

He adds in regard to the works recently sanctioned:—

"Although the proposals for remodelling will not affect materially the cost of maintenance, they will increase the receipts by avoiding the losses of traffic caused by closures, as the work of clearance can go on with an open canal."

20. The net revenue of the Sone Canals was Rs. 1,84,699 in 1893-94 against Rs. 3,01,334 in the year preceding and an average of Rs. 1,74,584. The receipts, Rs. 9,25,675, though in excess of the average, were Rs. 1,26,906 less than last year, due to the *rabi* irrigation of 1893, collections on which are made in the year 1893-94, being much less than in 1892. The working expenses, Rs. 7,40,976, were Rs. 10,271 less than in the year preceding, but Rs. 49,072 in excess of the average. The excess does not occur in the item Repairs and Maintenance, the expenditure under that head being less than any of the last ten years, except 1891-92. It is chiefly due to expenditure debitable to capital having ceased, and to the whole of the establishment employed being in consequence charged to the revenue accounts of the canal. The charges for revenue establishment have also increased, though less than last year, but some reduction under this head may be expected when the reduced fees for headmen take effect.

21. The area under irrigation was 366,776 acres against 410,761 acres in 1892-93, and an average of 346,056 acres. The area irrigated in the *kharif*

season, 280,528 acres, was in excess of any year to date. The *rabi* irrigation, 66,458 acres, though up to the average, was only about one-half of the area irrigated in that season in 1892-93, and less than one-third of the area irrigated in 1891-92. The rainfall in those three years was as follows:—1891-92, 26·82 inches; 1892-93, 37·69 inches; 1893-94, 46·62 inches. There was a copious fall of rain in October, which was beneficial both to the *kharif* and *rabi* crops, and this was supplemented by a good fall in November, so that there was generally a sufficient supply of moisture in the soil to mature the *rabi* crops with little or no canal irrigation. The area under long-term leases continues to increase, as will be seen from the statement following:—

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Acres.
Long leases	224,268	223,556	234,791	271,966	291,746
Short „	81,014	57,458	239,932	138,795	75,030
	305,282	281,014	474,723	410,761	366,776

The area charged under the head unauthorized irrigation was 681 acres only, against 3,707 acres in the year preceding, whilst the assessments for waste of water amounted to Rs. 615 against Rs. 105 in the previous year.

22. The Superintending Engineer has called attention to the fact that in some villages 80 per cent. and even more of the total area of the village is irrigated in the *kharif* season. He remarks that "*as matters now are, only about half the villages which are commanded obtain water, and the other half get none, partly on account of the comparative difficulty in irrigating them, partly because they are on lower ground and need it less, but mainly because their neighbours absorb it all. It does not seem to be right that villages in favourable situations should be allowed to absorb the benefits of the canals to the exclusion of others.*" The sanitary objections to so copious a delivery of water are also obvious. Instructions have therefore been issued which will tend to restrict the area irrigated in the *kharif* season in villages where the area irrigated is excessive, but they will require to be worked with caution, partly because leases with good and definite boundaries are necessary, and partly because it is better to permit the water to be used where it is appreciated, rather than to permit it to run to waste. The continuance of the endeavour to limit the supply of water to about 50 per cent. of the cultivated area of any village and to reserve the balance for villages which do not now receive it, will depend somewhat on the extent to which that balance is utilised. During the year now current, chiefly owing to the good rainfall there has been a sufficient supply of water for irrigation in the *kharif* season to an area in excess of that for which applications have been accepted.

23. In last year's Resolution the late date at which the demand statements reached the Deputy Collector was unfavourably commented on. There has this year been a marked improvement. Out of 118,837 acres assessed during the year, the demand statements for 21,116 acres only reached the Deputy Collector after the water-rates were due, and out of these 17,259 acres refer to hot—weather irrigation, the demand statements of which it is stated were ready, but not forwarded owing to some misunderstanding as to the rules. The season was, it is true, an easy one, the area of long leases lapsing being small, but it is clear that, with proper arrangements, all but a fraction of the demand statements can be submitted at the proper date, and the Lieutenant-Governor expects that this will in future be done.

24. The number of certificate cases filed decreased from 2,903 in 1892-93 to 2,219 in the year under review, and the balance pending at the close of the year from 153 to 100. Out of those pending, all except 53 had been disposed

of on the 12th July, when the Deputy Collector's report was submitted. The Collector of Shahabad, to whom the Deputy Collector is immediately subordinate in regard to certificate cases, remarks:—"*The working of the Certificate Act shows a marked improvement.*"

25. The most unsatisfactory feature of the year's working is the increase in the balance at the close of the year from Rs. 87,790 to Rs. 1,01,858. The explanation of the Deputy Collector is as follows:—

"The comparatively heavier balance at close of the last year is chiefly due to several of the collecting officers having been drawn away from their work for some time for giving evidence in the case of Empress *versus* Ram Dour Lal during the busiest working time, that is, March, and this case having mostly engrossed my attention, keeping me confined at head-quarters, and thus depriving me of the opportunity of personally visiting all such villages where the rate-payers are refractory. No sooner the case was over I began this work, and have already succeeded in reducing the arrears."

The defendant, Ram Dour Lal, who was charged with embezzling Rs. 690, was convicted and sentenced to four years' imprisonment. There are three other cases in regard to embezzlements which occurred in 1891-92 and 1892-93, in which warrants have been issued against former officials employed in the Collection Department. The frauds occurred chiefly in regard to items wrongly written off as irrecoverable, but which were actually recovered. Alterations in the system of collection and accounts have been made which will render it more difficult to defraud Government in this way in future.

26. The increase in the number of permanent outlets from 2,748 in 1892-93 to 3,036 in the year under review, and in the length of registered village channels from 1,125¼ miles to 1,341 miles is satisfactory.

27. The Lieutenant-Governor attaches much importance to the crop experiments which are annually made to ascertain the outturn of canal irrigated land cultivated with rice. The experiments have been carried out in the Sone Circle with considerable exactitude for a series of years, and they have recently been also carefully made in the Orissa and South-Western Circles. The table below gives the average of the experiments made during the last year:—

Name of Canal.	Number of experiments made.	Quality of crop.	Average outturn per acre in maunds.	
			Paddy.	Straw.
1	2	3	4	5
Sone Canals	95	Good ...	33·58	77·68
Ditto	139	Average ...	22·92	53·55
Orissa Canals	98	Good ...	21·32	28·93
Ditto	116	Average ...	13·92	22·32
Midnapore Canal	65	Ditto ...	21·74	44·55

The results in the Sone Circle are not quite so good as in 1892-93.

The discrepancies noticed last year between the outturn in Orissa and in the Sone still continue. It is believed that they are due to the paddy in Orissa being mostly sown broadcast. The matter is receiving special attention, and an Executive Engineer, who was previously in the Sone and is now in the Orissa Circle, will this year make very careful experiments both on broadcast and transplanted paddy.

28. The table following gives the financial results of the canals classed as Minor Works and Navigation for the years 1892-93 and 1893-94, and the average of the nine years ending 1892-93. The Saran Canals, for which capital and revenue accounts are kept, are excluded, as they are practically closed,

and the Eden Canal, from which revenue is derived, though capital and revenue accounts are not kept, has been included.

* Average of eight years.
† Average of five years.

29. The Calcutta and Eastern Canals are purely navigation works. The receipts have fallen off from Rs. 4,80,114 in 1892-93 to Rs. 4,20,541 in the year under review, the average receipts for the nine years preceding being Rs. 5,23,765. The falling off in revenue is considerable and progressive, as there is a further decline in the year now current. Excluding miscellaneous receipts, the decrease in the tollage of boats, compared with the previous year amounts to Rs. 55,290. The Superintending Engineer ascribes the smaller revenue to a number of reasons, but chiefly to the very large increase in the number of steamers and flats plying *vid* the Nadia Rivers and the Sunderbunds. Vessels taking the latter route pay a nominal toll only. There were, however, other causes for the diminished traffic: there was a short rice crop in the Eastern districts, and the jute traffic is being more largely diverted yearly to the railway and steamers. The Bengal Central Railway, which is now worked in connection with steamers plying to Khulna, which pay no toll, is getting a larger share of the traffic. Further, independently of the actual decline in traffic, flats are being largely used instead of native boats, resulting in a considerable loss in tolls, the canal measurement of native boats being, compared with the cargo carried, much in excess of that of flats. One potent reason of the decrease in traffic is the deterioration of parts of the canal route, more especially the Bhangore khal, which has yearly to be closed for a greater length of time. Measures

for remedying this defect are now under consideration. At present tolls are only charged on boats coming to Calcutta, the return journey being free. Excluding a refund of Rs. 28,498, credited to the canals in 1892-93, the working expenses of the canals were Rs. 2,58,631 against Rs. 2,52,177 in the preceding year, and an average of Rs. 2,66,312. There is no hope of diminishing the working expenses, except by measures involving an increase to the capital cost of the canals, which would render extensive silt clearing unnecessary. It is, however, rather the diminished income than the increased expenditure which has resulted in the net income of the canals having fallen to Rs. 1,33,412 from an average of Rs. 2,57,453. Something may be done to improve the revenue by re-adjusting the tolls, so that cargo which at present pays nothing shall contribute, but the only effectual measure will be to improve the canals so that they may offer equal facilities with other modes of transit. In the present state of the canals it is believed that Insurance Companies decline to accept risks on goods forwarded by this route. The charge for tollage is Rs. 0·69 per cent. on the value of the goods carried.

The increase in the number of missing toll tickets from 169 to 252 is not satisfactory.

During the ten years ending with 1893-94, the expenditure on the steamer route through the Sunderbunds has aggregated Rs. 67,266, whilst the tolls received have been Rs. 48,360 only. The charge is very low, viz., Rs. 5 on a steamer leaving and arriving at Calcutta.

30. The Orissa Coast Canal was worked at a loss of Rs. 1,566 against a loss of Rs. 14,718 in 1892-93, and an average loss of Rs. 16,940 since it has been opened for traffic. Both the expenditure and the receipts were largely in excess of any former years. The expenditure was wholly due to repairing damages caused by the cyclone of the 26th May 1893. The Superintending Engineer says that the canal banks were for miles the only land above flood, and that in places they were topped and greatly injured. One of the flood gates of the Bhaitghur lock was unshipped and damaged, and the escapes at Bhograi, Sartha and Jamba, which had not been repaired at the close of the year, were greatly injured. The increased receipts were due to the heavy pilgrim traffic to Puri in July and August 1893. The receipts from the steamer companies were Rs. 25,410, or Rs. 7,038 more than in the preceding year.

31. The receipts derived from the Nadia Rivers were Rs. 5,731 in excess of the previous year, but there was also an increased expenditure of Rs. 16,382.

The net revenue was Rs. 24,594 only, compared with an average of Rs. 87,275. The unsatisfactory returns are ascribed to the increased cost of the training works at the head of the rivers. On this subject the Superintending Engineer makes the following remarks:—

"The entrance of the Bhagirathi was in a better condition than in the year before, and further efforts will be made to improve it. Owing to a large sandbank having formed in the Ganges in front of the entrance of the Bhairab, the channel draws its supply from 4 miles below the head, and the greater part of this had to be trained. The Jalangi continued in much the same state as in the year previous. The head of the Mathabhanga closed again after the rains, the same conditions prevailing as in 1892. The training works were very successful on the Bhagirathi and Bhairab-Jalangi. The channel at Kasiadanga shoal in the Lower-Bhagirathi was diverted, shortening the river route by about two miles."

32. The constant increase in the expenditure on these rivers, which in 1893-94 reached Rs. 1,46,657 against an average of Rs. 1,03,571, is not satisfactory, and the Superintending Engineer will be directed to take steps to impose a check on the expenditure to be incurred in future years. A considerable portion of the money spent during the last two years appears to have been expended on a hopeless attempt to keep open the head of the river Mathabangha.

33. The area at present irrigable by the Eden Canal is about 72,000 acres. In 1892-93, when the rainfall was very deficient, the area irrigated was 71,333 acres, whilst in the year under review when the rainfall was abundant and seasonable, 11,739 acres only were irrigated. The collections were Rs. 35,909 against Rs. 31,043 in 1892-93, whilst the expenditure was Rs. 50,340

against Rs. 37,160 in that year. Of the sum realized Rs. 28,891 was collected by canal officers and Rs. 7,018 realized under the certificate process by the Collectors of Burdwan and Hooghly.

34. The actual cost of repairs was Rs. 35,619 against Rs. 26,478 in the previous year, Rs. 16,926 having been expended on silt clearing against Rs. 4,002 in 1892-93. The heavy deposit of silt was a consequence of the extensive area under irrigation in the year 1892-93. There are still difficulties in regard to the title of Government to the old river channels through which the water supplied by the Eden Canal is distributed. Rules under the Irrigation Act for the future working of these canals have lately been sanctioned, and it is trusted that in regard to the matters still under discussion, the good sense of the landholders and occupiers interested will induce them to agree to terms under which it will be possible to maintain steady irrigation from this canal, which was devised and is prinicipally used as a means of supplying wholesome water for domestic purposes in the districts of Burdwan and Hooghly.

35. The Saran Canals have, during the last three years, been worked under an agreement with the proprietors of the Moniara and Sadowa Indigo Concerns, which terminated on the 1st of April 1894, and has not been renewed. The loss to Government on the three years working amounted to Rs. 9,660. There are 18½ miles of canals, but no distributaries or village channels, and it is impossible to carry out irrigation on any systematic plan. It has now been decided to keep these canals closed until terms, which will enable Government to realize some return for the money expended, have been acceded to. The area irrigated during the year was 1,568 acres only against 3,560 in the previous year.

36. The Madhuban Canal is a small work in Champaran, from which 3,071 acres were irrigated in the year under review and 6,400 acres in 1892-93. The weir across the Teur river continues to give trouble, and the cost of maintenance, on which Rs. 8,383 were expended during the year, is very heavy. No water-rates are levied in respect to irrigation from this canal.

37. In spite of the character of the season, which in many respects was unfavourable, progress has been made in many directions, and the Lieutenant-Governor notices with satisfaction the progress made in the Sone Circle in preparing the demand statements more expeditiously, and the reduction in the arrear balances on the Midnapore Canal. The thanks of this Government are due to Mr. Odling for the vigilance and sagacity which have distinguished his supervision of the Bengal Canals, both on the administrative and the professional side. The names of the officers commended by the Chief Engineer have been noted.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's note, and its accompaniments, be submitted to the Government of India in the Public Works Department, and published in the *Calcutta Gazette*. Also that it be circulated to other Governments and to all Departments and Officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

K. H. STEPHEN,

Under-Secretary to the Govt. of Bengal.

Government of Bengal.

IRRIGATION DEPARTMENT.

REVENUE REPORT.

Note by C. W. ODLING, ESQ., M.E., M. INST. C.E., *Chief Engineer, on the Canal Revenue Reports of Bengal for the year* 1893-94.

DURING the year 1893-94, the Capital expenditure on Irrigation Works, for which Capital Accounts are kept, amounted to Rs. 5,60,446 for direct and Rs. 10,709 for indirect charges:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Capital expenditure not charged against Revenue	5,17,947	9,358	5,27,305
Minor Works and Navigation ...	42,499	1,351	43,850
Total ...	5,60,446	10,709	5,71,155

2. The total Capital outlay at the end of the year 1893-94, including interest charges, was as follows:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Major Irrigation Works—			
Productive Public Works ...	6,18,05,909	17,26,321	6,35,32,230
Minor Works and Navigation—			
Protective grants—Imperial ...	8,66,000	...	8,66,000
Ordinary revenue { Imperial and Provincial. }	1,00,60,760	2,84,781	1,03,45,541
Total ...	7,27,32,669	20,11,102	7,47,43,771

3. Divided under the different projects the above outlay is shown in the following statement:—

Works.	During 1893-94.			To end of 1893-94.

* Exclusive of lands surreptitiously irrigated for which leases were granted in subsequent years.

The year's working and its financial results will now be dealt with separately for each of the canal systems of the province, as in previous years.

GENERAL.

In all statements showing totals of receipts or expenditure, the figures are those of the Examiner of Accounts. In dealing with details the figures of the Commissioner or of the Superintending Engineer have been taken.

ORISSA CANALS.

CAPITAL ACCOUNT.

10. The Capital, Interest, and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT,

HEADS OF ACCOUNT.	Outlay during 1893-94.	Outlay to end of 1893-94.
1	2	3
DIRECT CHARGES.	Rs.	Rs.
I.—Works	2,83,658	1,83,75,855
II.—Establishment	57,147	45,82,701
III.—Tools and plant	16,057	20,39,972
IV.—Suspense accounts	(—)15	1,46,299
Loss by exchange	...	2,68,070
Total ...	3,56,847	2,54,12,897
V.—*Less*—Receipts on Capital account	32	86,201
Net total Direct Charges ...	3,56,815	2,53,26,696
INDIRECT CHARGES.		
Capitalization of abatement of land revenue	53	33,183
Leave and pension allowances	8,000	5,37,704
Total Indirect Charges ...	8,053	5,70,887

The principal works charged to Capital account which were in progress during the year were:—The extension of the Taldanda Canal from the 28th to the 52nd mile; this work is practically complete; the remodelling of the existing danda Canal from Biribatty to Tarpore; about five lakhs of earthwork and six lakhs of turfing remain to be done to complete the work; drainage cuts in the areas commanded by the distributaries of the Taldanda and Machgong extension canals; the Byturni right embankment from 11 to 20 miles; the Burra Khursua left embankment. The self-acting sluice and cut in connection with the Bhimai Had drainage scheme were completed, and good progress was made with the distributaries, several of which, aggregating 144¾ miles in length, were finished during the year.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1892-93	1,76,61,689
Ditto for 1893-94	10,05,932
Total ...	1,86,67,621

REVENUE ACCOUNT.

3.—REVENUE ACCOUNT—(Actuals).

Particulars.	Expenditure—		Particulars.	Receipts—	
	During 1892-93.	During 1893-94.		During 1892-93.	During 1893-94.
1	2	3	4	5	6
Direct charges.	Rs.	Rs.		Rs.	Rs.
I.—Works, maintenance, and repairs ...	3,79,311	4,14,566	Water-rates ...	3,52,369	2,09,542
			Navigation ...	1,18,757	1,43,911
II.—Revenue management ...	95,913	90,828	Miscellaneous ...	26,532	23,122
			Total ...	4,97,658	3,76,575
Total Direct Charges ...	4,75,224	5,05,394	*Less*—Refunds of revenue.	283	1,210
			Net total receipts	4,97,375	3,75,365
Indirect charges ...	30,283	30,083	Deficit ...	8,132	1,60,112
Total Working Expenses	5,05,507	5,35,477	Total ...	5,05,507	5,35,477

Note.—The details by heads of expenditure for the year 1893-94 and nine preceding years will be found in the table given in paragraph 13 following:—

The total receipts were Rs. 1,22,010 less, and the total expenditure Rs. 29,970 more than last year, the result being a deficit of Rs. 1,60,112. Omitting indirect charges the deficit is Rs. 1,30,029. The receipts under water-rates in 1892-93 were abnormal, and due to the outstandings of many years being called up, while a much larger area than usual was also under irrigation in that year. The reduced receipts of 1893-94 are due to the arrears to be recovered being small and to the smaller area under irrigation. The increased expenditure was mainly due to the fitting of the Byturni weir with shutters on the Sone pattern, and to a special expenditure of Rs. 31,107 required

to make good the damage caused by the cyclone and floods of the previous year.

EARNINGS. 11. The following statement shows the earnings, by which is meant the revenue due on the irrigation of the year, whether or no the demand statements were prepared before the 1st of April or not as opposed to collections and actual outlay, for the years 1892-93 and 1893-94:—

	1892-93.	1893-94.
Earnings.	Rs.	Rs.
Irrigation	2,40,200	1,50,146
Navigation	1,18,757	1,43,911
Miscellaneous	26,532	23,122
Total ...	3,85,489	3,17,179
Deduct refunds ...	283	1,210
Net earnings	3,85,206	3,15,969
Outlay	5,05,507	5,35,477
Net deficit	1,20,301	2,19,508

As regards irrigation the assessed revenue shows a decrease of Rs. 90,054 compared with that of the previous year, which is entirely due to the falling off of 59,129 acres in the leased area, consequent on the favourable rainfall. The actual collections during the year amounted to Rs. 2,09,542, and was Rs. 59,396 in excess of the assessed revenue of the year. This is due to the collection of arrear balance.

FINANCIAL RESULTS. 12. The revenue receipts and working expenses for the last ten years are tabulated below:—

PARTICULARS.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.

The completion of 144¾ miles of distributaries during the year resulted in an increase of 64,606 acres to the area irrigable. The total area protected from floods was increased by 50,000 acres owing to the completion of the Burra Khursua left and Byturni right embankments.

14. In the following statement is shown the average rainfall at thirteen stations situated within the canal irrigated area for the kharif and rabi seasons of the last five years:— RAINFALL.

		AVERAGE OF THIRTEEN STATIONS.				
		1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1		2	3	4	5	6
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season ...	July ...	13·10	12·59	10·34	11·99	8·17
	August ...	13·11	7·58	16·98	8·08	9·63
	September ...	5·30	14·40	19·45	10·71	15·73

	January ...	0·06	.....	.....	2·00	0·02
	February ...	0·02	0·99	0·20	1·89	0·18
	Total ...	11·47	2·98	6·97	4·74	0·29
	Whole year ...	67·95	63·17	61·03	56·43	74·83

The total rainfall of the year was above the average. A cyclone, accompanied by heavy rain, passed over Orissa on the 22nd May and lasted four days. The average rainfall during May at the 13 recording stations amounted to 28·12 inches. The rainfall was below the 30 years' average in June and July and

above the average from August to October, after which it altogether ceased until March, when only a small quantity of rain fell. The rainfall was seasonable for the crops, and canal irrigation was not necessary.

FLOODS. The average rainfall of the year at ten stations in the Central Provinces, which are drained by the Mahanadi, was 59·74 inches, against 62·43 inches in 1892-93.

15. The highest floods occurred in the month of September. The highest recorded readings of the principal rivers for the year and up to date are given in the following statement:—

NAME OF RIVER.	Locality.	1892-93.		1893-94.		HIGHEST RECORDED.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.

* A still higher flood than that of 1881 occurred on 26th July 1894, when the gauges above and below the weir read 69·60.

IRRIGATION. 16. The areas of each crop irrigated during the last ten years with the yearly rainfall are shown in the following statement:—

YEAR.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.
1884-85 ...	54,181	2,994	197	57,372	50·40
1885-86 ...	70,563	1,605	171	72,339	52·59
1886-87 ...	75,115	2,440	154	77,709	60·07
1887-88 ...	108,867	502	137	109,506	47·84
1888-89 ...	156,319	2,779	194	159,292	49·07
1889-90 ...	180,568	5,897	162	186,627	67·95
1890-91 ...	175,829	4,250	220	180,299	63·17
1891-92 ...	173,453	3,943	289	177,685	61·03
1892-93 ...	158,025	2,594	333	160,952	56·43
1893-94 ...	100,406	2,904	216	103,526	74·83

The whole of these areas was assessed.

17. The nature of the assessment of the crops irrigated during the year, as compared with the figures of the two preceding years, is shown in the statement below:— ASSESSMENT OF CROPS.

CROP.	Rate per acre.	1891-92.		1892-93.		1893-94.	
		Area.	Amount.	Area.	Amount.	Area.	Amount.
1	2	3	4	5	6	7	8
	Rs. A. P.	Acres.	Rs.	Acres.	Rs.	Acres.	Rs.
Kharif ... ... Flow ...	1 8 0	(a) 168,655	2,56,314	(b) 155,727	2,33,448	(c) 94,679	1,41,916
Lift ...	1 0 0	(a) 4,787	4,790	(b) 2,197	2,197	(c) 5,553	2,876
Perennial crops ... Flow ...	6 0 0	141	843	125	748	135	812
Lift ...	4 0 0	148	594	208	834	81	325
Rabi ... ... Flow	0 8 0 to 2 0 0	3,259	3,435	2,291	2,408	2,713	3,239
Lift ...	0 5 0 to 1 8 0	632	513	303	263	191	199
Unauthorised irrigation Kharif	...	11	20	101	302	174	779
Rabi	...	52	78	...	...	...	...
Total ...	...	177,635	2,66,587	160,952	2,40,200	103,526	1,50,146

(a) 170,816 acres 5-year lease, and 2,626 acres annual lease.
(b) 156,566 acres 5-year lease, and 1,358 acres annual lease.
(c) 100,232 acres 5-year lease only.

The area of unauthorised irrigation assessed was 174 acres, against 101 acres in 1892-93. There was a decrease of kharif irrigation on all the canals, except the Gobri and Jajpur, the total amounting to 57,619 acres. Under rabi there was also a decrease on all the canals with the exception of the Kendrapara Canal, the High Level Canal, Range II, and the Jajpur Canal.

Of the commanded area 25·18 per cent., and of the area provided with distributaries 26·84 per cent., were under lease at the end of the year. These percentages are less than those of last year, owing partly to the area provided with distributaries having been inceased by 64,606 acres, and partly to the decrease of the leased area.

18. The duty obtained on each of the principal canals, and calculated from the gross discharge at the canal heads is given in the following table for the year under review and two preceding years:— DUTY OF WATER.

PARTICULARS.		Kendrapara Canal system.	Taldunda Canal system.	High Level Canal, Range I.	High Level Canal, Range II.	High Level Canal, Range III.
1		2	3	4	5	6
1893-94	Kharif ... Acres	59,393	11,941	10,468	2,000	15,801
	Duty on gross supply	**67·56**	**73·82**	**35·95**	**142·25**	**113·50**
	Rabi ... Acres	1,866	113	23	52	1
	Duty on gross supply	**3·78**	**1·21**	**0·16**	**6·21**	**0·44**
1892-93	Kharif ... Acres	65,724	36,327	20,950	2,285	32,194
	Duty on gross supply	**64·93**	**114·97**	**60·51**	**119·76**	**98·95**
	Rabi ... Acres	2,004	264	275	44	7
	Duty on gross supply	**5·80**	**13·03**	**1·82**	**74·58**	**0·74**
1891-92	Kharif ... Acres	70,686	41,570	22,394	2,451	36,189
	Duty on gross supply	**80·05**	**103·99**	**84·75**	**24·95**	**117·69**
	Rabi ... Acres	3,494	336	29	62	22
	Duty on gross supply	**7·60**	**3·50**	**0·14**	**2·88**	**1·02**

The rabi irrigation is so small that it is not worthwhile considering the duty in that season.

The results regarding the duty of water for the kharif season are shown in the following statement:—

	Kendrapara Canal system.	Taldunda Canal system.	High Level Canal, Range I.	High Level Canal, Range II.	High Level Canal, Range III.	Jajpur Canal.
1	2	3	4	5	6	7
Area of kharif irrigation .. Acres.	59,309	11,941	10,468	2,000	13,801	1,019
Average gross discharge at head of canal .. C. ft.	879·13	161·75	291·20	14·06	139·31	9·74
Average discharge utilized ,,	767·96	145·75	108 56	14·06	130·66	9·74
Duty of quantity entering canal .. ... Acres.	67·56	73·82	35 95	142 25	113·50	104 62
Ditto utilised ... ... ,,	77·34	81·93	96·42	142·25	116·34	104 62

The duty obtained on the Kendrapara Canal was slightly in excess of that obtained last year but less than the duty obtained in 1891-92. On the Taldunda Canal the duty obtained was 41·15 acres less than in the previous year, and 30 17 acres less than in 1891-92, a result which, for a year of seasonable rainfall as that of 1893-94, is remarkable and has not been explained. The duty on gross supply, as also on the discharge utilized, was less on the High Level Canal, Range I, and more in Ranges II and III than in the previous year.

The duty on the utilized discharge on the Kendrapara Canal in the first two weeks of October, when the rain held off and the demand for canal water was fairly keen, was 44·30 acres.

CROP EXPERIMENT.

19. To test the outturn of crops, 319 experiments were made during the year—214 of them were on lands irrigated by canal water, and 105 on unirrigated lands. The results obtained are tabulated below:—

DIVISION.	Number of experiments.	OUTTURN PER ACRE FROM IRRIGATED LAND.		Number of experiments.	OUTTURN PER ACRE FROM UNIRRIGATED LAND.		VALUE OF OUTTURN FROM IRRIGATED LAND.		VALUE OF OUTTURN FROM UNIRRIGATED LAND.	
		Paddy.	Straw.		Paddy.	Straw.	Rice at 17 seers 14 chs. per rupee.	Straw at 9 maunds per rupee.	Rice at 17 seers 14 chs. per rupee.	Straw at 9 maunds per rupee.
1	2	3	4	5	6	7	8	9	10	11

	1889-90	31·51	23·00	...	20·56	14·40	21·01	2·56	13·71	1·60
	1888-89	24·34	20·12	...	16·53	14·02	16·23	2 24	11·02	1·56

BALANCES.

20. The balances outstanding at the commencement of the year under review were as follows:—

	Rs.
Water-rates	89,816
Miscellaneous revenue	...
Total ...	89,816

as against the balances outstanding on 1st April 1894, which were—

	Rs.
Water-rates	63,350
Miscellaneous revenue	...
Total ...	63,350

21. The table below shows the balances, assessments, and recoveries of water-rates for the last five years:— ASSESSMENTS AND COLLECTIONS.

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realisations.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90 ...	1,14,597	2,87,277	4,01,874	1,99,841	25,268	1,76,762
1890-91 ...	1,76,762	2,69,650	4,46,412	2,09,806	38,242	1,98,364
1891-92 ...	1,98,364	2,82,880	4,81,244	2,17,256	30,284	2,33,704
1892-93 ...	2,33,704	2,61,023	4,94,727	3,52,368	52,543	89,816
1893-94 ...	89,816	1,90,824	2,80,640	2,09,542	7,748	63,350

The results disclosed by these figures are very satisfactory. The outstanding balance, which was small, has been still further reduced.

The amount realised by the Deputy Collector on water-rates and miscellaneous revenue was Rs. 2,26,851 against Rs. 3,73,244 so collected in 1892-93.

22. In the following table is shown (approximately) the amount of certificate work done in each district:— CERTIFICATES.

	CUTTACK.				BALASORE.				TOTAL.			
	1892-93.		1893-94.		1892-93.		1893-94.		1892-93.		1893-94.

REMISSIONS.

24. The amounts remitted and written off as irrecoverable during the year on account of water-rates aggregated Rs. 7,748 only as compared with Rs. 52,541 written off under the same heads in 1892-93. The details are given below:—

Revision of Assessment.

	1892-93. Rs.	1893-94. Rs.
(*a*) Unirrigated crops	17,641	2,640
(*b*) Damaged ,, ...	7,421	153
(*c*) Chaukidar's jagir	5,048	1,942
Total ...	30,110	4,735

Remissions.

(*a*) Waste land	1,444	63
(*b*) Land occupied by canals	175	4
(*c*) Twice assessed	244	48
(*d*) Barred by limitation	2,664	...
(*e*) Excess recovery refunded	990	...
(*f*) Change of rates	5,642	1,216
(*g*) Erroneous assessments	491	91
(*h*) On account of death of defaulters ...	631	...
(*i*) Absconding of defaulters	266	...
(*j*) Lease cancelled	825	...
(*k*) Cyclone damages	3,296	...
Total ...	16,668	1,422

Written off.

Irrecoverable demands	7,532	1,591
Total ...	54,310	7,748
Deduct remissions under miscellaneous revenue ...	1,769	...
Net remission ...	52,541	7,748

The large reduction in the amount remitted under the heads "Unirrigated and damaged crops" is due to the change of system in granting leases which was introduced in 1893 and noticed in last year's Revenue Report. Irrespective of the change of system there was a satisfactory reduction in the amount remitted under all heads during the year.

25. The cost of the revenue establishment for the last five years is given in the following statement:— REVENUE ESTABLISHMENT.

	1889-90.	1890-91.	1891-92.	1892-93.	1823-94.
1	2	3	4	5	6
Establishment under Deputy Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowance	22,116	21,848	22,014	31,086	43,981
Temporary establishment	19,112	17,451	17,504	16,020	11,580
Contingencies	4,482	2,928	3,458	4,098	3,811
Headmen's fees	2,244	2,803	6,591	20,040	3,464
Establishment under Executive Engineer.					
Permanent and temporary establishment ...	3,398	3,417	3,447	5,930	7,874
Water-regulation establishment	4,150	4,144	4,127	3,274	3,278
Total ...	55,502	52,591	57,141	80,448	73,988
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department	2,09,823	2,19,692	2,28,451	3,73,244	2,32,664
Percentage ...	26·4	23·9	25·0	21·0	31·8

The total cost of the revenue establishments is Rs. 6,460 less than in 1892-93, but omitting the item "Headmen's fees," which represents the arrear charges paid and under which no further charges will be made, the cost of the establishment has increased by Rs. 10,116. The excess is wholly under revenue establishment, and is due to the augmentation of the revenue establishment of the circle in 1892-93. The increase was, however, partly owing to headmen ceasing to be employed. The pay of this extra establishment for the whole year has been charged in the year under review, whereas in 1892-93 they were entertained for only a portion of the year. It is hoped, however, that when the enquiries into the irrigable areas are completed, a considerable reduction in the cost of the revenue staff will be feasible.

26. The tollage receipts of each of the canal systems for the last five years are shown below:— NAVIGATION.

Year.	Taldundah Canal System.		Kendrapara Canal System.		High Level Canal, Range I.		High Level Canal, Range II.		High Level Canal, Range III.		Jajpur Canal.		Total.	
	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.
1889-90	31	4,420	73	69,215	33	8,380	12½	3,433	19	1,386	6½	165	177	78,039
1890-91	31	2,148	73	86,907	33	12,220	12½	3,185	19	2,174	6½	318	177	1,10,951
1891-92	35½	4,337	78		33	12,884	12½	3,027	19	1,775	6½	286	204½	1,20,709
1892-93	35½	6,514	78		33	15,278	12½	3,165	19	1,761	6½	275	204½	1,00,593
1893-94	35½	14,380	78		33	14,610	12½	3,691	19	2,026	6½	508	204½	1,19,115

The increase in the total tollage receipts is due mainly to the up traffic on the Kendrapara Canal. This traffic consists chiefly of kerosine oil, and is said to be increasing yearly.

TRAFFIC.

The following table details the traffic (excluding the transport service) of all the canals in Orissa for the last ten years :—

	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.

TRANSPORT SERVICE.

27. During the year the cost of working the transport service amounted to Rs. 21,917, and the actual receipts were Rs. 24,796. The service therefore worked at a profit of Rs. 2,879. The working charges under miscellaneous include Rs. 7,834 as tollage debited to the account by book adjustment. If this amount be excluded, the profit would amount to Rs. 10,713 against Rs. 7,011 in 1892-93. The increased receipts are entirely due to the large influx of pilgrims during the Car festival at Puri in July 1893 and to the presence in the district of the officers of the Settlement Department, who use the service for the transport of their large establishments and luggage.

MISCELLANEOUS RECEIPTS.

28. The miscellaneous receipts for the last five years are shown in the following statement:—

DETAILS.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water	243	222	56	158	46
Plantations	728	1,035	917	1,960	1,244
Other canal produce	568	845	936	1,123	528
Rent of buildings	4,781	3,067	6,332	4,749	4,892
Miscellaneous — Rent of lands ...	7,659	6,793	8,232	9,291	9,247
Miscellaneous — ,, fisheries ...	920	1,039	1,104	972	1,191
Miscellaneous — Cost of process ...	63	6	...	7,420	4,951
Miscellaneous — Sales of old materials	65	100	96	3	...
Miscellaneous — Other items ...	116	601	170	856	1,023
Total ...	15,143	13,708	17,843	26,532	23,122

MAINTENANCE AND REPAIRS.

29. The charges for works and maintenance and repairs during the year were Rs. 2,55,717 against Rs. 2,39,483 in the previous year and Rs. 1,75,467 in 1891-92, distributed as in the following statement:—

	1891-92.	1892-93.	1893-94.
1	2	3	4
	Rs.	Rs.	Rs.
Extensions and improvements	8,679	9,123	29,355
Head-works	48,154	53,456	45,757
Main canals	82,741	1,23,060	1,27,400
Distributaries	15,324	30,033	29,261
Drainage and protective works	10,389	11,997	8,237
Cost of working transport service	10,180	11,814	15,707
Total ...	1,75,467	2,39,483	2,55,717

The amount under Extensions and improvements includes a sum of Rs. 23,830 expended during the year in remodelling the Byturni weir shutters on the Sone pattern against Rs. 8,172 expended last year. It also includes a sum of Rs. 3,840 expended on rubble packing the slopes of the Kendrapara, Gobri, and Gobri Extension Canals. The cost of maintenance and repair in both 1892-93 and 1893-94 was abnormal on account of the floods of July 1892 and the cyclone of May 1893. The expenditure in these years is useless for purposes of comparison with each other, and will be compared with the expenditure of 1891-92, which is the lowest on record. The average expenditure for the nine preceding years on maintenance and repairs only was Rs. 2,42,329.

30. The cost of maintenance of the weirs was Rs. 39,022 out of the total Rs. 47,871 spent on head-works. Details are given below :— HEAD-WORKS.

NAME OF WEIR.	Length.	EXPENDITURE.			RATE PER RUNNING FOOT.		
		1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6	7	8
	Feet.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Burra ...	526	1,067	3,140	2,262	2·02	5·97	4·30
Total of all weirs ...	18,497	38,681	42,666	39,022	2·09	2·30	2·11

31. The expenditure on each canal for the last three years is shown below :— MAIN AND BRANCH CANALS.

CANALS.	1891-92.			1892-93.			1893-94.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.
1	2	3	4	5	6	7	8	9	10
	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara	30	24,450	627	30	40,132	1,029	30	38,112	977
Ditto extension ...	15	2,442	163	15	7,630	509	15	17,901	1,193
Gobri	15	10,260	685	15	7,747	517	15	8,045	536
Do. extension	9	7,516	835	9	5,009	556	9	4,737	526
Pattamundi	47	4,367	93	47	8,526	181	47	7,699	164
Taldundah	51½	7,387	146	51½	14,061	271	51½	11,003	213
Machgong	32	6,071	208	32	11,163	349	32	11,097	346
High Level, Range I ...	33	9,160	277	33	8,914	270	33	12,206	371
Ditto, do. II ...	12½	4,071	326	12½	6,636	547	12½	4,539	363
Ditto, do. III ...	19	4,907	258	19	6,870	362	19	7,099	200
Jajpur Canal	6½	1,275	196	6½	1,933	297	6½	1,547	237
Total ...	279½	82,741	296	279½	1,18,816	425	278½	84,004	305

The expenditure was more than that of 1891-92 on all the canals except the Gobri canal and the Gobri extension canal. The abnormal expenditure on the Kendrapara Extension Canal includes Rs. 16,384 for filling breaches caused by the floods of 1892. The excess on the High Level Canal, Range I, is due to the renewal of the upper gates of the Imamnugger lock and to very heavy expenditure on weed clearance. The excess on the High Level Canal, Range III, is due to extra earthwork required at the tail end of the canal and to the cost of thorough repairs to the inspection bungalows. The expenditure on the Kendrapara canal includes the cost of raising the banks of the canal 4 feet above the high flood of 1892. The excess expenditure in all the canals is due to the cost of the repairs to the damage caused by the cyclone.

DISTRIBUTARIES.

32. The average mileage rate for the maintenance of distributaries was Rs. 38·06 as compared with Rs. 39·06 in the previous year, and Rs. 20·94 in 1891-92:—

	1891-92.			1892-93.			1893-94.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Perile.
1	2	3	4	5	6	7	8	9	10
DISTRIBUTARIES.	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara Canal System	357	6,574	18·41	357	14,426	40·40	357	11,182	31·32
Taldundah Canal	71½	1,166	16·30	71½	3,784	52·92	71½	2,602	36·07
Machgong Canal	122½	2,753	22·52	122½	6,034	41·17	122½	4,603	38·46
High Level Canal, Range I	131½	2,663	20·20	131½	2,945	22·43	131½	4,648	35·48
Ditto, do. II	.....	.....	.....	.....	.....	.....	.....	.....	.....
Ditto, do. III	49½	2,168	43·80	49½	2,164	43·71	49½	3,600	73·46
Pattamundi Canal	.....	.....	... ..	37½	680	18·15	37½	2,477	66·95
Total ...	731½	15,324	20·94	768½	30,033	39·06	768½	29,262	38·06

The lengths of distributaries in the above are those which have been brought on the revenue account, and consequently differ from the lengths given in paragraph 13 which include all so far advanced as to be fit for use, whether the capital account is still open or not.

The cost per mile of repairs to distributaries was abnormally high in consequence of the heavy repairs required to make good the damage caused by the cyclone and floods, and of clearing and practically remodelling some of the distributaries.

DRAINAGE AND PROTECTIVE WORKS.

33. The most important works under this head were the raising of the flood bank of the Kendrapara Extension Canal and flood embankments, and the repairs to the embankments on the High Level Canal. The total expenditure on drainage and protective works was Rs. 9,286 against Rs. 14,525 in 1892-93.

DREDGING AND SILT-CLEARING.

34. The cost of silt clearing and dredging during the year 1893-94 is given in the following table:—

	Silt-clearing.			Dredging.		
	Quantity.	Cost.	Rate per 1,000 c. ft.	Quantity.	Cost.	Rate per 1,000 c. feet.
1	2	3	4	5	6	7
	C. feet.	Rs.	Rs.	C. feet.	Rs.	Rs.
Kendrapara Canal	2,527,051	7,949	3·15	383,587	2,395	6·24
„ Extension ...	26,250	35	...	52,685	134	2·54
Pattamundi Canal	39,660	202	...	...	...	...
Gobri Canal	121,611	415	3·41	233,425	527	2·26
„ Extension	5,530	45	...	18,000	146	...
High Level Canal, Range I ...	251,387	745	2·95	...	...	...
Taldundah Canal	422,769	1,544	3·65	417,573	2,288	5·48
Machgong Canal	...	...	...	...	...	...
High Level Canal, Range II ...	123,715	314	2·54	...	...	...
Jajpur Canal	...	...	...	...	...	...
High Level Canal, Range III ...	208,167	526	2·52	...	...	...
Total ...	3,726,140	11,775	3·16	1,105,270	5,490	4·97

Compared with the previous year the average rate for silt clearing on all the canals was less, being 3·16 against 3·31.

TELEGRAPH OFFICES.

35. The telegraph offices at Jagatpur, Kendupatna and Acquapada continued at work during the year under a guarantee from this Department of Rs. 400 per year for each office. The receipts amounted to Rs. 1,016 as against Rs. 771 in the preceding year. The difference, viz. Rs. 184, between the receipts and the amount guaranteed is a charge against the canal revenue.

It is expected that the telegraph offices will be more generally used as they become more widely known to the public, and that they will soon be self-supporting.

36. The following table shows the state of the plantations for the last two years :— PLANTATIONS.

Year.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.

LENGTHS OF CANALS AND DISTRIBUTARIES.

40. No alteration was made in the length of the canal open for navigation during the year, which was 72 miles, nor were any additions made to the areas protected or commanded. The following table gives particulars of the canals and distributaries and the areas protected, commanded and irrigated:—

NAME OF CANAL.	1892-93.								1893-94.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

Average ...	44 48	55 68	51 81	41 28	70 63	.....	56 25

The total rainfall was considerably above the average, and was well distributed, so that there was really but little demand for canal water for irrigation purposes during the year. The following table shows the amounts which fell during the kharif season :—

	Midnapore.	Panchkurah.	Luchmapore.	Mowah	Average, 1893-94.	Average, 1892-93
1	2	3	4	5	6	7
	Inches	Inches.	Inches.	Inches.	Inches.	Inches.

Total, kharif season, 1893-94.	32 90	35 73	40 42	39 33	37 09	22 66
Do. 1892-93 ...	20 77	23·76	27 52	18·57	22 66	.....

43. The floods in all the rivers were much higher than in the preceding year. The flood in the Cossye on the 23rd and 24th June 1893 was abnormally high and did considerable damage. The left bank of the Cossye was breached at Jagatpur, and the crops of 30 square miles of country flooded and destroyed. The highest gauge readings of the river Cossye at Midnapore and Panchkurah above and below the weirs and those of the river (Rupnarain) FLOODS.

at Dainan and Kantapukhur, are shown in the statement below, the readings being the height in feet above mean sea level :—

River.	Locality.	1892-93.		1893-94.		Highest recorded.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8
Cossye	Midnapore above weir	17th June 1892 ...	86·10	24th June 1893 ...	91·70	1868 ...	92·20
	Ditto below weir	Ditto ...	79·00	Ditto ...	79·00	Do. ..	91·55
	Panchkurah above weir	19th July 1892 ...	32·10	23rd June 1893 ...	32 50	10th October 1876 ...	35·00
	Ditto below weir	Ditto ...	31·00	Ditto	32·20	Ditto ...	34·20
Rupnarain	Dainan	9th September 1892 .	15·40	11th September 1893	15 80	26th August 1885 ...	17·36
	Kantapukhur	Ditto ...	15·20	26th May 1893 ...	16·50	Ditto ...	16 80

The greatest discharge of the Cossye during the year was 60,486 cubic feet per second on the 24th June 1893. After September the discharge diminished rapidly. The minimum discharge occurred on the 11th February 1894, when only 45 cubic feet per second was registered.

IRRIGATION. 44. The area of each crop irrigated during 1893-94, and the nine previous years, exclusive of unleased areas, compared with the yearly rainfall is shown below :—

Year.	Kharif.	Rabi.	Perennial	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.		Acres.	Inches
1884-85 ..	69,294	1,835	...	69,294	53·01
1885-86 ...	68,769		...	70,604	81 28 *
1886-87 ...	69,762	...	...	69,762	53·05
1887-88 ...	64,702	1,162	...	65,864	22·08
1888-89 ..	66,408	3,369	...	69,777	62·13
1889-90 ..	68,370	440	...	68,810	44·47

1891-92 ...	83,905	68	...	83,973	51·81
1892-93 ...	91,217	...	...	91,217	41·28
1893-94 ...	79,550	6,213	...	85,763	70·63

* Mean of observations of two stations—Midnapore and Panchkurah.

† Average of four stations throughout the irrigated areas under the Midnapore and Panchkurah weirs.

The area irrigated during the year was 85,763 acres, as compared with 91,217 acres of the previous year, thus showing a decrease of 5,454 acres. The result may be considered satisfactory considering the heavy rainfall, which was favourable to the cultivators and entirely adverse to canal irrigation. The area leased during the year was 88,879 acres, or 3,168 acres more than the area irrigated. The area actually irrigated was less than the area leased for the following reasons:—(1) 664 acres were not supplied with water on account of non-payment of water-rates and (2) the balance did not require water on account of the heavy and seasonable rainfall.

LEASES. 45. The areas under lease at the beginning of the year, the progress of leasing during the year, and the leases which remained in force after its close, are given in the following table.—

Particulars.	Kharif.			Sugarcane and other perennial irrigation.	Rabi.	Total.
	Long leases.	Annual leases.	Surreptitious irrigation.			
1	2	3	4	5	6	7

46. The duty obtained from the gross discharge during the past three years is detailed in the following statement:— DUTY OF WATER.

PARTICULARS.			Under Midnapore weir.	Under Panchkurah weir.
1			2	3
1891-92	Kharif ...	Acres	77,631	5,898
		Duty on gross supply ..	172	64
1892-93	Kharif ...	Acres ...	82,642	7,690
		Duty on gross supply ...	138	54
1893-94	Kharif ...	Acres	73,738	4,970
		Duty on gross supply ...	134	91

The duty is high on account of the plentiful rainfall.

47. The table below gives the results of the crop experiments made during the year by the Deputy Collector. CROP EXPERIMENTS.

Statement showing the average outturn of each crop experimented by each officer during the year 1893-94.

NAME OF OFFICER.	Name of crop.	Number of experiments.	AVERAGE WEIGHT PER ACRE IF WEIGHED WET.		AVERAGE WEIGHT PER ACRE IF WEIGHED DRY, OR REDUCED IF WEIGHED WET.		REMARKS.
			Paddy.	Straw.	Paddy.	Straw.	
1	2	3	4	5	6	7	8
			Mds. s.	Mds. s.	Mds. s.	Mds. s.	
Babu Raj Mohan Chakravarty.	Rice	All wet 4	30 27	74 32	28 6	50 4	
„ Bakhal Das Bose ..	Do.	Dry ... ... 2 Wet 17 19	23 14	60 26	16 19	36 27	
„ Mahananda Ganguli	Do.	All wet 23	32 24	86 27	29 35	57 21	

48. The balances, assessments, and recoveries of water-rates on the Midnapore Canal during the last five years are shown in the following statement:— ASSESSMENTS, COLLECTIONS, AND BALANCES.

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1888-89 ...	56,493	1,23,337	1,79,830	91,016	4,041	84,773
1889-90 ...	84,773	1,17,202	2,01,975	1,16,424	34,907	50,644
1890-91 ...	50,644	1,30,595	1,81,239	1,15,438	834	64,967
1891-92 ...	64,967	1,29,822	1,94,789	1,32,981	2,836	58,972
1892-93 ...	58,972	1,39,990	1,98,962	1,49,057	1,338	48,567
1893-94 ...	48,567	1,30,111	1,78,678	1,65,630	6,021	7,027

The figures in the above statement have been furnished by the Special Deputy Collector in charge of the Revenue Division, and agree with those given in the Examiner's memorandum. The increase of Rs. 16,573 in the collections and the large decrease in the balance outstanding at the end of the year are both very satisfactory, and especial credit is due to the Deputy

Collector in charge of the Revenue Division for the favourable results. The increase in the amount remitted is due to the total destruction of the autumnal rice on a large area of canal-irrigated lands between Panchkurah and Danain on both sides of the main canal by the high flood in the river Cossye.

ARREARS. 49. In the following table arrear and current dues are distinguished, the sums composing the demand being distributed by the years in which they were earned, and the proportions of each year's earnings recovered or remitted, are separately shown :—

YEAR.	Amount previously due and unrealised.	Amount falling due within the year.	Total amount due to end of the year.	ADJUSTMENTS OF THE YEAR.				Balance unrealised at end of the month of May 1894.
				Cash recoveries.	Remission authorised.	Written off as being irrecoverable.	Total.	
1	2	3	4	5	6	7	8	9
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1888-89 ...	270 12 0 −183 14 0	...	87 14 0	86 6 3	51 7 9	...	87 14 0	...
1889-90 ...	0 3 9 +77 1 3	...	77 5 0	65 10 6	11 10 6	...	77 5 0	...
1890-91 ...	701 10 6 +105 12 9	106 1 3	913 8 6	764 5 9	149 3 9	...	913 8 6	...
1891-92 ...	3,917 2 3	357 5 3	4,274 7 6	3,835 15 0	275 15 6	...	4,111 14 6	162 9 0
1892-93 ...	43,677 4 0	5,211 13 9	48,889 1 9	47,644 10 9	193 11 0	...	47,833 5 9	1,055 12 0
1893-94 ...	...	1,24,435 9 6	1,24,435 9 6	1,13,263 3 3	5,363 14 9	...	1,18,627 2 0	5,808 7 6
Total ...	48,567 0 6	1,30,110 13 9	1,78,677 14 3	1,61,630 3 6	6,020 14 3	...	1,71,651 1 9	7,026 13 6

These figures show that the total amount collected or otherwise adjusted during the year was 96·0 per cent. of the amount due for water-rates, against a percentage of 75·5 last year.

REMISSIONS. 50. The remissions granted during the year were as follows :—

	Rs.	A.	P.
Remissions granted by the Collector under rule 28 of the Midnapore canal (new) rules	81	14	6
Remissions granted under section 91 of the Canals Act ...	201	10	9
Ditto by Government under rule 27 of Canals Act	45	5	6
Remissions granted by the Special Deputy Collector under clauses I and II, rule 24 of the new rules	1,014	4	3
Remissions granted by the Special Deputy Collector under rule 25 of the new rules	4,634	3	6
Remissions granted after judicial enquiry	43	7	9
Total remissions ...	6,020	14	3

CERTIFICATES. 51. The following statement gives particulars of the number of certificates issued and disposed of during the year :—

PARTICULARS.	MIDNAPORE.			
	1892-93.		1893-94.	
	No.	Amount.	No.	Amount.
1	2	3	4	5
Cases for disposal.		Rs.		Rs.
1. Cases pending at the close of the preceding year ...	449	3,572	356	1,962
2. Cases instituted during the year	1,223	9,080	1,799	12,102
Total ...	1,672	12,652	2,155	14,064
Cases disposed of.				
1. By being struck off, owing to the demand having been remitted.	153	1,384	48	248
2. By being wholly satisfied	1,163	9,306	2,037	13,323
Total ...	1,316	10,690	2,085	13,571
Balance outstanding at the close of the year ...	356	1,962	70	493

The increase of 576 in the number of cases filed as compared with the previous year was due to a large number of cases being necessary for the adjustment of old arrears and the prompt realization of the current demand in one instalment. The increase is justified by the result of the collections. Out of 2,155 certificates for disposal 2,106 were for satisfaction of demands under kabulyats and only 49 for surreptitious irrigation, against 142 in the preceding year. Forty eight cases were struck off owing to the death, insolvency or absconding of the debtors. The percentage of disposals is 96·75 against 78·70 in the preceding year.

52. The following table shows the number of complaints filed during the last two years, and how they have been disposed of:— COMPLAINTS.

YEAR.	Class of complaints.	RECEIVED.			DISPOSED OF.			BALANCE PENDING AT END OF THE YEAR.		
		Balance pending from previous year.	Received during the year.	Total.	Allowed.	Refused.	Total.	Received during previous years.	Received during the year.	Total.
1	2	3	4	5	6	7	8	9	10	11
1893-93	Ordinary remission	58	182	240	60	152	212	...	...	28
	Other complaints	37	159	196	45	110	155	...	...	41
	Total ...	95	341	436	105	262	367	...	...	69
1893-94	Ordinary remission	28	221	249	131	110	241	...	...	8
	Other complaints	41	166	207	78	108	186	...	...	21
	Total ...	69	387	456	209	218	427	...	...	29

53. The following statement compares the cost of the revenue establishment during the last five years:— REVENUE ESTABLISHMENTS.

ESTABLISHMENT UNDER THE COLLECTOR.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowances ...	18,984	19,757	17,947	20,263	16,620
Temporary establishment ...	604	649	682	441	346
Contingencies	1,253	1,260	1,154	1,014	1,814
Headman's fees	49	60	335	375	325
Total ...	20,890	21,726	20,118	22,093	19,105

In addition to the amounts specified in the foregoing table, the following sums were paid by the Executive Engineer for water regulation:—

	Water-regulation.	
	Permanent.	Temporary.
	Rs.	Rs.
1889-90	480	533
1890-91	488	595
1891-92	473	682
1892-93	419	500
1893-94	822	288

The cost is greater than in the previous year on account of the transfer of patrols to the Establishment under the orders of the Executive Engineers.

The cost of collection was 9·08 per cent. on the amount realised, against 14·07 per cent. in 1892-93.

NAVIGATION.

54. The total tollage receipts of the year were Rs. 1,14,994 against Rs. 1,14,141 in 1892-93. The Superintending Engineer makes the following comments on the navigation receipts:—

"The navigation receipts of the year amounted to Rs. 1,14,994 as compared with Rs. 1,14,141 of the previous year. The revenue from tolls on private boats was slightly below that of the year before, being Rs. 84,347 against Rs. 85,075 of 1892-93, and the number of passengers fell of from 205,804 to 203,653. The tolls realised from the Calcutta Steam Navigation Company, however, show an increase of Rs. 1,581.

The increase in the total collections of the year was due to better crops as compared with the preceding year. Larger quantities of grain were steadily exported from Midnapore district, and Messrs. Hoare Miller & Co.'s steamers were largely employed in this trade.

Had the traffic depended on the native boats, a great increase to the revenue would have resulted, but on account of the extended operations of the steamer service and the increase in the grain forwarded by these vessels, little increase is apparent, and a reduction in the receipts must ensue yearly, while the existing very liberal concessions are made to the company."

There was an increase of 5,183 tons of rice and 4,457 tons of paddy carried on the Midnapore Canal as compared with that carried in the previous year.

TRAFFIC.

The usual particulars regarding the traffic carried in vessels, including those of the Calcutta Steam Navigation Company for the last ten years are given below:—

DESCRIPTION.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91	1891-92.	1892-93.	1893-94.

(a) Inclusive of tolls (Rs. 41,180, 29,006 and 30,647) paid by the Calcutta Steam Navigation Company.
(b) Inclusive of passengers (92,257 and 100,916) carried by the Calcutta Steam Navigation Company's steamers.

MISCELLANEOUS RECEIPTS.

55. The table below shows the miscellaneous receipts for the last five years— :

DETAILS.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water	...	...	...	10	4
Plantations	35	52	40	34	44
Other canal produce ...	299	37	5	1	2
Rent of buildings ...	738	721	711	740	712
Miscellaneous — Rent of lands	7,984	6,079	8,758	8,586	12,468
Miscellaneous — ,, of fisheries	812	736	4,447	1,162	1,479
Miscellaneous — Cost of process	2,400	1,009	2,516	1,280	2,173
Miscellaneous — Other items ...	748	370	2,670	5,166	7,437
Total ...	13,016	9,004	19,147	16,979	24,319

AINTENANCE AND REPAIRS.

56. The following figures show the actual cost of maintenance and repairs during the last three years distributed by subheads :—

	1891-92.	1892-93.	1893-94.
	Rs.	Rs.	Rs.
Head works, including buildings ...	8,373	9,965	9,430
Main canal and branches ...	1,18,241	59,802	67,404
Distributaries	10,365	12,612	20,932
Drainage and protective works ...	1,239	2,090	2,058
Working steamers	3,044	2,961	3,354
Total ...	1,41,262	87,430	1,03,178

HEAD WORKS AND WEIRS.

57. The expenditure on the Midnapore and Panchkurah head works during the year was Rs. 5,538 and Rs. 3,892, respectively, against Rs. 7,619 and Rs. 2,346 in the preceding year. On weirs the expenditure was at the rate of Re. 0·74 per foot run at Midnapore, and Rs. 1·53 at Panchkurah, against Rs. 2·08 and Re. 0·46, respectively, last year.

MAIN CANAL.

58. The outlay on repairs to the main canal, including that on head works, on working steamers, and on drainage works, was Rs. 82,246 against Rs. 74,818 in the previous year. The increase in the expenditure is due to the extra cost of silt clearance in the tidal reaches and of the repairs to buildings. The expenditure on tools and plant was Rs. 38,788 as compared with Rs. 29,885 of the previous yar. The increased expenditure was necessary to bring the dredging plant into good working order.

DISTRIBUTARIES.

59. On distributaries the expenditure on repairs was Rs. 20,932 or Rs 74 per mile, against Rs. 12,612, or Rs. 44 per mile, in the previous year. The very heavy expenditure was due to the damage caused by the floods and cyclone, and also to the maintenance of certain distributaries which were practically abandoned for years and have been brought into use again since 1892-93.

60. The mileage rates for the last ten years, both for main canals and distributaries, are shown in the following table:—

Year.	Main Canal and Head Works, &c.			Distributaries.		
	Length of canal open.	Total cost of work.	Rate per mile.	Length of distributary channels.	Total cost of work.	Rate per mile.
1	2	3	4	5	6	7
	Miles.	Rs.	Rs.	Miles.	Rs.	Rs.
1884-85 ...	48	1,15,171	2,399	277	18,865	68
1885-86 ...	48	1,10,350	2,299	277	14,424	52
1886-87 ...	48	1,20,135	2,503	283	17,617	63
1887-88 ...	48	1,10,494	2,301	283	20,687	74
1888-89 ...	48	83,675	1,743	283	22,464	79
1889-90 ...	48	93,738	1,953	283	19,769	69
1890-91 ...	48	93,187	1,941	283	11,851	41
1891-92 ...	48	1,30,897	2,727	283	10,365	36
1892-93 ...	48	74,818	1,558	283	12,612	44
1893-94 ...	48	82,246	1,713	283	20,932	74

DREDGING AND SILT CLEARING.

61. The quantity of silt dredged during the year was 4,455,444 cubic feet, at an average rate of Rs. 5·4 per 1,000 cubic feet, whereas the quantity during the previous year was 3,825,213 cubic feet, and the rate Rs. 5·9.

The work done by the steam dredgers during the year under review and the cost of working them is shown below:—

Name of dredger.	Quantity of earth dredged.	Actual cost of lifting.	Cost of removing—		Total.	Lifting rate per 1,000 cubic feet.	Removing rate per 1,000 cubic feet.	Total rate per 1,000 cubic feet.
			Steam hopper-barges.	Ordinary hopper-barges.				
1	2	3	4	5	6	7	8	9
	C. ft.	Rs.	Rs.	Rs.	Rs.

Mud Boats ...	...	42	...	...	42	...	...	...
Total for 1893-94 ...	4,453,441	19,455	4,575	...	24,030	4·3	1·0	5·4
Total for 1892-93 ...	3,825,213	16,611	5,978	...	22,589	4·3	1·5	5·9

PLANTATIONS.

62. The state of the plantations for the last two years is shown in the following statement:—

YEAR.	Trees upwards of 12 feet high.	Saplings between 4 and 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1892-93 ...	10,296	10,216	2,346	22,858
1893-94 ...	10,151	5,794	3,109	19,054

GENERAL RESULTS.

63. The results of the year may be considered very satisfactory on the whole. There was an increase in the receipts of Rs. 24,766 and a net profit of Rs. 96,579 against Rs. 84,451 in the previous year, notwithstanding an increase in the cost of maintenance of Rs. 12,638. The increased receipts are entirely due to the collection of previous years' arrears. The year was one of untimely and excessive rainfall, and the consequence was that there was little demand for canal water.

HIJILI TIDAL CANAL.

CAPITAL ACCOUNT.

64. The capital, interest and revenue accounts of this canal are given below:—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1893-94.	Outlay to end of 1893-94.
1	2	3
DIRECT CHARGES.	Rs.	Rs.
I.—Works	(—) 11,609	15,80,627
II.—Establishment	(—) 2,670	5,33,249
III.—Tools and plant	6,000	1,27,004
IV.—Suspense accounts	.....	.....
Loss by exchange	.....	22,790
Total ...	(—) 8,279	22,63,670
V.—*Less*—Receipts on capital account	.....	925

II.—Revenue management.										
Navigation establishment ...	3,554	3,143	3,026	3,007	3,195	3,039	2,883	2,988	4,332	3,700
Total Direct Charges ...	36,886	48,609	21,925	64,895	75,273	25,715	51,968	48,698	31,704	54,217
INDIRECT CHARGES	1,502	1,538	810	2,081	2,767	1,007	1,606	2,014	1,385	2,284
Total working expenses ...	38,388	50,147	22,735	66,976	78,040	26,722	53,574	50,683	33,089	56,501
Net revenue ...	5,259	2,308	30,756	(—)25,118	(—)22,943	15,230	(—)25,530	(—)13,768	20,301	2,695

The cost of maintenance was Rs. 56,501 against Rs. 33,089 of the previous year. The considerable excess over last year's figures is mainly due to the damage done by the cyclone of May 1893 and to the silt clearing of Range I.

66. The rainfall at Contai station was 78·26 inches against 52·71 inches in 1892-93. RAINFALL.

FLOODS.

67. There were no very high floods in any of the rivers crossed by the Hijili Tidal Canal during the year. The highest gauge readings of the rivers Hooghly, Haldi, and Russulpore are shown in the following statement:—

NAME OF RIVER.	Locality.	1892-93.		1893-94.		HIGHEST RECORD.		REMARKS.
		Date.	Reading.	Date.	Reading.	Date.	Reading.	
1	2	3	4	5	6	7	8	9
Hooghly ...	Gowankhali ...	9th Sept. 1892	116·40	26th May 1893	117·30	Cyclonic storm of 1874.	123·23	
Haldi ...	Terapakia ...	Ditto ...	117·30	Ditto ...	119·00	* Not known ...	120·23	* Recorded on plan without date (Mr. Vertannes's).
Russulpore ...	Kalnagar ...	Ditto ...	115·30	11th Sept. 1893	115·50	26th August 1868	115·50	

NAVIGATION.

68. The usual particulars regarding the traffic on the Hijili Tidal Canal carried in vessels during the last ten years are given in the following statement. The figures include those relating to the steamers belonging to the Calcutta Steam Navigation Company:—

PARTICULARS.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9	10	11
Miles open ... ... No.	29	29	29	29	29	29	29	29	29	29
Toll collections ... Rs.	41,392	52,143	(a)51,904	(a)40,406	(a)53,910	(a)40,341	(a)27,145	(a)36,346	(a)52,180	(a)58,209
Rate of toll per mile ,,	1,427	1,798	1,734	1,338	1,700	1,300	821	1,198	1,607	2,007
Number of boats, including empty boats No.	17,600	19,316	17,542	13,503	16,481	13,785	10,915	15,332	16,084	14,716
Tonnage of boats ... Tons.	145,424	163,535	140,747	124,903	165,635	124,605	91,114	133,575	168,230	1,78,640
Passengers carried ... No.	...	...	8,600	11,951	34,032	(b)30,223	(b)22,420	(b)27,330	(b)42,466	60,081
Estimated value of cargo, including rafts ... ... Rs.	30,06,852	32,74,961	31,48,826	26,13,351	33,01,123	27,29,730	20,78,972	34,07,725	53,56,880	48,37,498

(a) Inclusive of tolls, Rs. 1,803, Rs. 1,592, Rs. 4,590, Rs. 5,523, Rs. 3,346, Rs. 3,631, Rs. 5,508, and Rs. 7,836 paid by the Calcutta Steam Navigation Company.
(b) Inclusive of passengers, 23,343, 17,554, 21,309, 31,792, and 41,286 carried by the Company's steamers.

The increased toll collections of the year are due to heavy passenger traffic by steamers as well as to increase of private traffic. When the remodelling operations on Range II have been completed, and there is no interruption to traffic, the returns will, it is hoped, improve still further.

MISCELLANEOUS RECEIPTS.

69. The miscellaneous receipts for the last five years are shown below:—

1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
Rs.	Rs.	Rs.	Rs.	Rs.
1,614	899	567	1,282	987

The decrease in the miscellaneous receipts during the year, amounting to Rs. 295, was due to a falling off in the amounts realized from fisheries and rent of land.

DREDGING.

70. The amount of silt dredged from the Terapakia and Etamugra lock entrances and the cost of removal is shown in the statement below:—

NAME OF DREDGER, HOPPER BARGES AND MUD PUNTS.	Cubic feet dredged.	Actual cost of lifting.	COST OF REMOVING.				Lifting rate per 1,000 cubic feet.	Removing rate per 1,000 cubic feet.	Total rate per 1,000 cubic feet.	REMARKS.
			By hopper barges.	By mud punts.	Total.	Total cost of lifting and removing.				
1	2	3	4	5	6	7	8	9	10	11
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Dredger *Merchant* ... and five mud punts...	150,104	656	...	549	549	1,205	4 5 11	3 10 7	8 0 6	

71. The state of the plantations for the last two years is shown in the following statement:— PLANTATIONS.

YEAR.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.

Leave and pension allowances	1,660	8,76,880
Total indirect charges	1,660	9,14,791

As the Capital Estimate of the Sone Canals was closed on the 31st March 1891, the works chargeable to Capital Account executed during the past year were carried out under the rules laid down in Chapter V of the Public Works Code.

The works which were executed during the year were—a watch-house at the head of the Main Western Canal; permanent outlets on many of the distributaries; one or two small escapes; some culverts and syphons to pass drainage or village channels; and a drainage cut at the head of the Jaitpur distributary.

Total Working Expenses.	7,51,247	7,40,976			
Profit	3,01,334	1,84,699	-		
Total ...	10,52,581	9,25,675	Total Receipts ...	10,52,581	9,25,675

NOTE.—The details by heads of expenditure for the year 1893-94 and nine preceding years will be found in the table given in paragraph 74 following.

EARNINGS.

73. The earnings as opposed to collections and the actual outlay were as follows :—

	1892-93.	1893-94.
Earnings—	Rs.	Rs.
Irrigation	8,15,158	7,39,959
Navigation	59,089	60,025
Miscellaneous	29,214	29,578
Total ...	9,03,461	8,29,562
Deduct refunds of revenue ...	3,792	6,237
Net earnings	8,99,669	8,23,325
Outlay	7,51,247	7,40,976
Profit ...	1,48,422	82,349

The net earnings include the actual realisations of navigation and miscellaneous revenue, together with the revenue assessed on the irrigation of the year, after deducting refunds. The demand statements for the rabi crop are supposed to be submitted to the Deputy Collector on the 15th March. It is impossible, however, to do this in the case of crops irrigated very late in the season, the demand statements for which are mostly submitted after 1st April, but the sums due under them are nevertheless included under earnings, which show the amount due on account of the irrigation of the year. The outstanding balance on 1st April 1894 was Rs. 1,01,858. This amount does not include Rs. 45,865, the rabi assessments received before the 31st March 1894 by the Deputy Collector, because the money on these assessments is not due till 1st April.

74. The receipts on revenue account and working expenses of the canals for the year 1893-94 and the nine preceding years are shown in the statement below :— FINANCIAL RESULTS.

	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.

INDIRECT CHARGES.										
Capitalization of abatement of land revenue ..	...	...	...	...	...	...	...	...	...	..
Leave and pension allowances	31,509	31,632	32,097	50,369	51,813	48,971	48,813	49,780	53,556	54,087
Total—indirect charges...	31,509	31,632	32,097	50,369	51,813	48,971	48,813	49,780	53,556	54,087
Total—working expenses	6,28,075	5,73,345	5,97,821	7,52,348	7,94,432	7,29,930	7,02,099	6,97,840	7,51,247	7,40,976
Net revenue ...	2,26,944	4,78,644	3,04,871	(—)1,63,730	36,946	1,51,045	27,071	2,08,234	3,01,334	1,84,699

Compared with 1892-93, the receipts (less refunds) have decreased from Rs. 10,52,581 to Rs. 9,25,675, that is by Rs. 1,26,906, and the working expenses (direct charges) from Rs. 6,97,691 to Rs, 6,86,889, or by Rs. 10,802. Including indirect charges, the net revenue has decreased from Rs. 3,01,334 to Rs. 1,84,699. The decrease in the working expenses was due mainly to reduced expenditure on distributaries. The decrease in receipts was due to the smaller rabi irrigation of the year. The works carried out under the head Extensions and improvements were converting wooden topped bridges on the Gurra Chowbey canal ; an inlet on the Buxar Canal ; a regulator on the Gurra Chowbey canal ; roofing lock khalasis' sheds with Allahabad tiles and other small works. The Eastern Main Canal was closed from the 21st April to the 10th June 1893, and the Western Main Canal from the 14th to the 26th May for silt clearance.

LENGTHS OF CANALS AND DISTRIBUTARIES.

75. The following table shows the lengths of canals and distributaries in operation, and the areas commanded, provided with distributaries, and irrigated, at the close of the last two years :—

Name of Canal.	1892-93.								1893-94.							
	Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

The increase in the length of distributaries is due to the addition to the length of the Pandaria distributary and some parallel channels in the Buxar Canal.

VILLAGE CHANNELS AND OUTLETS.

76. The length of village channels made by villagers up to the end of 1893-94 and the number of outlets in use during the year are shown below :—

Division.	Total length of village channels completed up to end of 1893-94.	Total number of temporary and permanent outlets in use during 1893-94.	Number of permanent outlets.
1	2	3	4
	Miles.	No.	No.
Eastern Sone	385½	1,455	915
Arrah	837	2,304	1,518
Buxar	664½	1,147	603
Total, 1893-94 ...	1,887	4,906	3,036
Total, 1892-93 ...	1,874	5,224	2,748

The increase in the length of channels was very small. The total number of outlets shows a further reduction in consequence of the reduced rabi irrigation of the year : the increase in the number of permanent outlets is on the other hand very satisfactory.

77. The rainfall during the last five years registered at 22 stations on, or in the neighbourhood of, the Sone Canals is shown below :— RAINFALL.

		Average of 22 Stations.				
		1889-90.	1890-91.	1891-92.	1892-93.	1893-94.

1893-94 ...	280,528	66,458	19,790*	366,776	46·62

* Hot-weather crop.

The total area irrigated was 43,985 acres less than in the previous year. The falling off was entirely in rabi. The Superintending Engineer remarks :—

"The total rainfall of the year was about 5½ inches in excess of the average. This will be seen by a comparison of this table with subsidiary form IV-F-*f*, and, although the rainfall in the kharif season was only slightly above the average, it was distributed in a manner which was suitable to the crops. There was copious rain in October, when water is much in request for the rice crop, and this October rain was further supplemented in November by a good fall which was of great service to the rabi ; so that there was, generally, sufficient moisture in the soil to mature the rabi with little or no irrigation."

80. The following statement gives the areas of each crop irrigated under annual and five-year leases up to 1891-92, and under season and long-term (seven and three-year) leases in 1892-93 and 1893-94 under the new rules:—

Crop.	1889-90.	1890-91.	1891-92.	1892-93.		1893-94.
1	2	3	4	5		6
	Acres.	Acres.	Acres.		Acres.	Acres.
Kharif ... Five-year leases...	174,780	189,227	200,716	Long-term leases	235,637	254,515
Kharif ... Annual leases ...	41,917	22,499	48,103	Season leases	39,202	26,013
Total ...	216,697	211,726	248,819		274,839	280,528
Rabi ... Five-year leases...	31,128	20,761	20,274	Long-term leases	36,329	37,231
Rabi ... Annual leases ...	20,336	20,632	177,308	Season leases	89,866	29,227
Total ...	51,464	41,393	197,582		126,195	66,458
Sugarcane Five-year leases...	18,360	13,568	13,801	*		*
Sugarcane Annual leases ...	5,004	4,402	1,196	*		*
Total ...	23,364	17,970	14,997	.....		...
Hot-weather	13,757	9,925	13,325	Season leases	9,727	19,790
Grand Total ...	305,282	281,014	474,723		410,761	366,776
Total five-year leases ...	224,268	223,556	234,791	Total long-term leases	271,966	291,746
„ annual leases ...	81,014	57,458	239,932	„ season leases	138,795	75,030

* Under the new rules for the Sone Canals there are no separate leases for sugarcane. They are included in each season lease as explained above.

The total irrigation of the year 1893-94 compared with the previous year may be stated in this way:—

	1892-93.	1893-94.
	Acres.	Acres.
Area irrigated under long-term leases ...	271,966	291,746
„ „ „ season leases ...	129,356	74,292
„ „ by sale by volume ...	5,732	57
„ „ without permit	3,707	681
Total ...	410,761	366,776

The increase in the area under long-term leases is satisfactory as showing that in spite of the favourable rainfall the area permanently under irrigation is increasing, and it is probable that the whole area which can be irrigated from the Sone Canals in the kharif season will soon be under long leases. The Superintending Engineer remarks:—

The five-year leases which are now current will entirely disappear at the end of 1895-96 as the year 1891-92 was the last in which any were granted. In the year 1893-94 an unusually small area of long-term leases expired, which accounts for the fact that the area for which long-term leases entered into during the year (43,807 acres) is less than in 1892-93. But the total area under long-term leases is increasing steadily thus:—

	Area under long-term leases. Acres.		Area under long-term leases. Acres.
1888-89 ...	200,275	1891-92 ...	234,791
1889-90 ...	224,268	1892-93 ...	255,964
1890-91 ...	223,440	1893-94 ...	275,567

Out of the 275,567 acres now under long-term lease 254,515 are irrigated in the kharif season; it is doubtful whether the Sone Canals could irrigate more than 300,000 acres in the kharif season at a time of maximum demand; so that the area under long leases can only be increased slightly. Leases in several parts are now being refused, because the supply is insufficient. The question of restricting the area irrigated in villages near the canals, so as to give it to others which are less favourably situated, is under consideration. As matters now are, only about half the villages which are commanded obtain water, and the other half get none, partly on account of the comparative difficulty in irrigating them, partly because they are on lower ground and need it less, but mainly because their neighbours absorb it all. In a considerable number of villages, 70, 80, and even 90 per cent. of the land is under long lease. It does not seem to be right that villages in favourable situations should be allowed to absorb the benefits of the canals to the exclusion of others.

Orders have been issued which will tend to reduce the area irrigated in any village in the *kharif* season to 50 per cent. of the area under cultivation.

DISTRIBUTION BY DIVISIONS.

The following statement shows the areas irrigated in 1893-94 in divisions and in subdivisions:—

		Acres.	Acres.
Eastern Sone Division—			
Daudnagar subdivision	... ...	42,454	
Bikram ditto	... ...	41,974	
			84,428
Arrah Division—			
Nasriganj subdivision	... ...	34,519	
Koath ditto	... ...	53,749	
Ramnagar diito	... ...	53,077	
Ageaon ditto	... ...	32,819	
			174,164
Buxar Division—			
Sikroul subdivision	... ...	59,133	
Jamrore ditto	... ...	35,075	
Basawan ditto	... ...	13,976	
			108,184
	Total		366,776

The long-term leases are the most important ones in the Sone Canals. The following statement shows by divisions the main facts with reference to these leases:—

Division.	Leases which lapsed on 31st March 1893.	Leases in force on 1st April 1893.			Leases entered into during 1893-94.		Total area under long-term leases in 1893-94.
		Seven-year leases.	Five-year leases.	Three-year leases.	Seven-year leases.	Three-year leases.	
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Eastern Sone ...	4,258	18,794	38,141	638	7,767	162	65,502
Arrah	6,884	21,920	82,215	3,021	16,356	1,469	124,981
Buxar	10,385	13,880	48,339	4,812	14,362	3,691	85,084
Total ...	21,527	54,594	168,695	8,471	38,485	5,322	275,567

Three-year leases are said to be very unpopular, the cultivators preferring to take a season lease, if they need it, rather than to bind themselves to pay a somewhat smaller rate for three years.

81. The amounts assessed during the last five years for the unauthorised use of water and for wastage of water are shown below:— UNAUTHORISED IRRIGATION.

	1889-90.	1890-91.	1891-22.	1892-93.	1893-94.
	Rs.	Rs.	Rs.	Rs.	Rs.
For unauthorised use of water ...	913	2,734	13,861	14,549	4,760
For wastage of water ...	224	256	314	105	615

The Superintending Engineer gives the following explanation of the large decrease in the amount assessed for unauthorised use of water:—

"The reason of this large decrease is not probably that there was any actual decrease of unauthorised irrigation, but that the rule which prohibits the assessment under certain circumstances was not properly expressed in 1892-93."

Under the rules now in force irrigation effected without permit in the kharif season cannot be assessed if the water used is drawn from lands which are under lease.

82. The areas actually irrigated in each division since the year 1888-89 are shown by crops in the following statement:—

Year.	Eastern Sone Division.						Arrah Division.						Buxar Division.						Total for all Divisions.					
	Five-year leases.	Annual leases.					Five-year leases.	Annual leases.					Five-year leases.	Annual leases.					Five-year leases.	Annual leases.

1892-93	64,801	7,873	6,987	...	79,761	124,814	14,835	25,996	4,004	180,309	82,351	16,494	46,983	5,063	150,791	271,966	39,302	80,983	9,727	410,751
1893-94	67,894	9,123	4,890	2,531	84,428	133,894	7,997	18,064	14,219	174,164	88,958	3,903	6,283	3,040	103,184	291,766	26,013	39,237	19,790	376,776

The area measured during 1893-94 was 104·59 per cent. of the area for which permits were issued. The proportion of flow to lift irrigation was as 43·5 to 1.

83. The duty in the kharif season is calculated on the average gross discharge entering at the head of the canal or series of canals named, and the duty in the rabi season is calculated on the average discharge utilised, which is taken as the discharge at the head less the quantity gauged as escaping from recognised escapes. These duties show a decided improvement over those of the previous year in the kharif season, but the rabi duties, with the exception of the duty in the Eastern Main Canal series, are much lower than those of 1892-93. DUTY OF WATER.

The Superintending Engineer observes:—

"These figures call for no particular remark. The higher duties in the kharif season were due to the favourable rainfall of the year. The decrease in the rabi duty is mainly due to the large decrease in the area irrigated. A small area is always more wasteful than a large one."

Kharif.

Sone Canals ...	66,458	67·33	126,195	79·87	212,579	92·88

The most important duty, however, in the case of the Sone Canals, as remarked in last year's report, is that obtained for kharif at the period of maximum demand in October. The Superintending Engineer's remarks on this point, which are reproduced below, tend to confirm the previously expressed opinion that a higher duty than 50 acres per cubit foot cannot be expected at the period of maximum demand:—

"The period of maximum demand for water in the kharif season is in October. The duty obtained during the ten days of maximum demand was—

52 acres to the cubic foot to a base of ten days in the Eastern Sone Division.
59 ditto ditto ditto Arrah Division.
69 ditto ditto ditto Buxar Division.

The Executive Engineer of the Buxar Division writes on this subject as follows:—

'There was no rain in the division from the 28th September to the 15th October, and the maximum demand for water was between the 6th and 15th October. The average discharge at 5¾ miles of Main Western Canal for these ten days was 1,213 cubic feet per second, and the area under irrigation was 84,432 acres, and the duty 69·6 acres per cubic foot per second If we take the average discharge for the six days, 10th to 15th October, when the demand was at its maximum, we get a duty of 62 acres per cubic foot per second. This, I think, shows that the duty now assumed of 50 acres per cubic foot per second on the gross discharge is too low, and that a duty of 60 acres per cubic foot per second may be safely assumed.'

It would seem probable, however, that the maximum demand in the early part of October was moderated to some extent by the fact that the rainfall in September was unusually large, being some 40 or 60 per cent. in excess of the average. Nevertheless, it is to be hoped that the Executive Engineer may be right and that some progress is being

made towards a higher kharif duty, but the following facts do not lead to my belief that a higher duty than 50 acres can be expected on the gross discharge during the month of October and during the period of maximum demand.

The following observations were recorded of the duty actually obtained *at the outlet*. The people carried on their irrigation as usual, and were satisfied with the supply they obtained. The observations of the discharge passing were carefully recorded with reference to the area irrigated each day. The following table is an abstract of the results :—

Division.	Position of outlet.	Number of days in which area was completely irrigated.	Average depth of water in inches on the area irrigated.	Area irrigated in acres.	Duty of one cubic foot of water to a base of ten days.

DEMANDS, COLLECTIONS, AND BALANCES.

85. The demands, collections, and balances of water-rates for the last five years are shown below:—

Year.	Amount outstanding at commencement of year.	Amount falling due for recovery during the year.	Total for recovery.	Cash realisation.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90 ...	3,80,613	7,52,788	11,33,401	8,16,394	35,225	2,81,782
1890-91 ...	2,81,782	6,29,124	9,10,906	6,44,718	21,460	2,44,728
1891-92 ...	2,44,728	6,93,685	9,38,413	8,11,760	15,220	1,11,443
1892-93 ...	1,11,443	9,50,733	10,62,176	9,59,479	14,914	87,790
1893-94 ...	87,790	8,53,161	9,40,951	8,34,261	4,832	1,01,858

The Examiner gives the "assessments of the year" as Rs. 8,82,715, but the above statement shows the "amount falling due during the year" as Rs. 8,53,161, which is arrived at in this way:—

	Rs.	Rs.
Examiner's "assessments of the year"		8,82,715
Add—The assessments of the rabi of 1892-93 which were "received" in that year but legally due in 1893-94	24,359	
Deduct—The assessments of the rabi of 1893-94 which were "received" in that year but legally due in 1894-95	45,866	(—)21,507
		8,61,208
Deduct—Certain excess recoveries which are treated as "amounts falling due during the year" (see paragraph 27 of Deputy Collector's revenue report)		8,048
Amount falling due during the year		8,53,160

The Examiner gives the outstanding balance at the end of the year as Rs. 1,47,723 instead of Rs. 1,01,858 as shown above. The Superintending Engineer offers the following explanation of the difference:—

"It will be noticed that that figure does not agree with the balance outstanding at the end of the year as given in the above table. The demand statements for the rabi crop are supposed to be submitted to the Deputy Collector on the 15th March, but it is not possible to do this; some are submitted before and some after the last day of March. The Deputy Collector includes in his account of "assessments received during the year" all demand statements which reach him before the 31st March, and the Examiner's "balance outstanding" is based on those assessments. It is the fact, however, that the money due on the rabi assessments is not legally due until the 1st April, so the amount included in rabi "assessments received during the year" is not really "outstanding at the end of the year" at all. The Examiner's figure exaggerates the true outstandings. If all the money due on any rabi crops were collected on the very day it fell due, the Examiner's figure would still show a balance due at the end of the year, although such balance would not exist. At the end of March 1894, the rabi "assessments received during the year" by the Deputy Collector of the rabi crop of 1893-94 amounted to Rs. 45,866, so that the true "outstanding at the end of the year" was (1,47,723—45,866) Rs. 1,01,857.

86. In the following statement the Deputy Collector shows the extent to which the arrears as well as current demand have been worked off:— ARREARS.

	Demand of 1893-94 consisting of	Collected or remitted in 1893-94.	Percentage of demand adjusted.	Unadjusted balance at close of year.
1	2	3	4	5
	Rs.	Rs.		Rs.
Arrears previous to 1891-92	274	274	...	...
Arrears of 1891-92	7,079	7,079	...	...
Do. of 1892-93	80,437	76,477	95·0	3,960
Total arrears outstanding on 1st April 1893 ...	87,790	83,830	95·4	3,960
Current demand for 1893-94	8,53,161	7,55,263	88·5	97,898
Total ...	9,40,951	8,39,093	89·1	1,01,858

There is on the whole an outstanding balance of Rs. 1,01,858, but the rabi assessments which formerly became due on the 31st March, and are now due on the 1st April, no longer form a part of the balance.

87. In last year's report the delay in the submission of demand statements was unfavourably commented on. During the year under review particular attention was paid to the punctual submission of demand statements with very satisfactory results. Out of a total area of 118,837 acres on which water-rates were charged during the year, demand statements for only 21,116 acres were submitted after the water-rates were due, and the result would have

been still more favourable if the demand statements for hot-weather irrigation had not been deliberately delayed in the Arrah Division under some misunderstanding of the rules.

COLLECTIONS. 88. The following statement gives the collections in each district:—

DISTRICT.	DEMAND.			ADJUSTMENTS.				Balance on 31st March 1894.	Percentage, column 8 on column 4.
	Arrears on 31st March 1893.	Current demand for 1893-94.	Total.	Collection.	Remission made by canal officers.	Written off as irrecoverable.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Shahabad	54,883	6,80,215	7,35,098	6,55,240	1,340	2,075	6,59,544	75,554	89·7
Patna	18,506	77,684	96,260	76,331	144	198	76,663	19,597	79·6
Gaya	14,311	95,282	1,09,593	1,02,691	142	53	1,02,886	6,707	93·8
Total ...	87,700	8,53,181	9,40,951	8,34,261	1,626	2,326	8,39,093	1,01,858	89·1

Besides the collections of Rs. 8,34,261 shown above, a further sum of Rs. 10,916 was credited to water-rate accounts as below:—

	Rs.
Surplus or excess recoveries	8,048
Process fees in certificate cases	2,528
Miscellaneous	340
Total ...	10,916

REMISSIONS. 89. The sums remitted during the year under review and the preceding year according to the figures given by the Examiner of Accounts are:—

	1892-93.	1893-94.
	Rs.	Rs.
By Canal officers	2,171	1,606
By Civil do.	8,252	3,226
	10,423	4,832

According to the figures supplied by the Superintending Engineer the remissions are—

	1892-93.	1893-94.
	Rs.	Rs.
Written off by Civil officers as irrecoverable ...	12,743	3,226
Remissions granted by Executive Engineers ...	4,620	2,180
Extraordinary remissions by Superintending Engineer...	...	...
Remitted on revised and cancelled khatianies ...	1,921	15,251
	19,284	20,657

The remissions by Executive Engineers were less than those granted during the previous year, but on the other hand demand statements for about Rs 6,000 were cancelled on account of incorrect assessment. A large number of assessments had been made in the kharif season of 1892-93 for lands irrigated with water taken from land already under lease, and the Superintending Engineer, after enquiry, ordered that these assessments should be cancelled. Another reason for the large increase of cancelled *khatians* is that in the Arrah Division a large number of three-year leases were converted into seven-year leases: the amount was more than Rs. 6,500. The amount remitted by the Deputy Collector is slightly less than the amount, viz. Rs. 3,635, remitted by him last year on account of the death or absconding of the rate-payers, or of their being too poor to pay; the items, however, require closer supervision than they have received in the past. More than one case has come to light during the year in which sums have been written off on account of the death, absence, or insolvency of the debtor which have really been paid and the money embezzled.

The ordinary remissions by the Executive Engineers are classified in the following table:—

Class.	Causes.	Eastern Sone Division.	Arrah Division.	Buxar Division.	Total, 1893-94.	Total 1892-93.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
a	Charged by mistake for land cultivated by others	...	...	7	7	...
b	Excess measurement or errors in calculation	69	229	151	449	940
c	Lift charged as flow	9	16	18	43	219
d	Irrigation not denied, but remitted as not chargeable under the Act ...	...	111	270	...	233
e	Land not having been irrigated at all	16	343	251	610	1,005
f	Injury to crop due to insufficient supply	...	78	130	208	262
g	Land thrown temporarily out of cultivation (applicable to long leases only)	5	1	94	100	70
h	Failure of crop originally sown, Rule 82	119	51	4	174	1,571
i	Land appropriated for other purposes than cultivation	...	5	1	6	16
j	Double assessment, as when land assessed on a season lease is subsequently included in a long lease in the same year	128	24	50	202	304
	Total ...	346	858	976	2,118	4,620

The decrease in the amount remitted is satisfactory.

The remissions implying errors in assessments were for the last five years as follows:—

1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
Rs.	Rs.	Rs.	Rs.	Rs.
11,284	6,555	3,304	4,620	2,180

The percentage on the gross demand of remissions by canal officers is as follows:—

	Percentage of remissions to gross demand.	
	1892-93.	1893-94.
Eastern Sone Division	0·73	0·13
Arrah ditto	0·24	0·16
Buxar ditto	0·41	0·19

REVENUE ESTABLISHMENT.

90. The expenditure on the revenue establishments employed during the year under review and the four previous years is shown below :—

PARTICULARS.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
Establishment under Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Permanent establishment, including travelling allowances.	30,589	31,253	40,997	58,538	55,308
2. Temporary establishment ...	710	687	4,752	3,070	2,903
3. Contingencies	2,522	2,398	2,784	2,663	4,274
4. Fees to tahsildars or establishment employed in lieu thereof.	28,603	24,499	16,868	2,580*	5,166
Fees to patwaris	3,763	3,988	2,205	1,152	368
Establishment under Superintending and Executive Engineers.					
Permanent and temporary establishment, including travelling allowances.	51,635	48,105	50,228	52,187	49,930
Contingencies	3,695	3,500	5,443	4,768	3,426
Water-regulation establishment ...	2,299	2,235	2,286	2,310	2,277
Headmen's fees	29,007	28,861	26,550	32,032	26,080
Total ...	1,52,823	1,45,528	1,52,113	1,59,300	1,49,732
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department.	8,19,762	6,47,839	8,15,858	9,71,202	8,45,177
Percentage	18·6	22·3	18·66	16·4	17·7

* Lumbardar's fees and contractor's percentage.

The decreased expenditure is due to the smaller irrigation of the year as compared with that of the previous year and to the reduced collections.

COST PER ACRE.

91. The following statement shows the total cost of the revenue establishment under the Executive Engineer per acre irrigated :—

DIVISION.	1893-94.			1892-93.
	Revenue* establishment.	Area irrigated.	Cost per acre.	Cost per acre.
1	2	3	4	5
	Rs.	Acres.	A. P.	A. P.
Eastern Sone	18,206	84,428	3 5	4 2
Arrah	35,701	174,164	3 3	3 4
Buxar	27,842	108,184	4 1	3 5
Total Sone Canals ...	81,749	366,776	3 6	3 6

* Includes proportion of water regulation establishment employed on the head works.

92. The number of complaints, such as objections to assessments actually made, or petitions alleging damage from the canals, and their disposal is shown in the following statement:— COMPLAINTS.

DIVISION.	(I)—ORDINARY REMISSION				(II TO V)—OTHER COMPLAINTS			Total complaints received during year, excluding those pending from previous year.	Pending.
	Received during the year and pending from previous year.	Disposed of.		Pending.	Received during the year and pending from last year.	Disposed of.	Pending.		
		Remission allowed.	Remission refused.						
1	2	3	4	5	6	7	8	9	10
	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone ...	400	171	209	10	13	13	...	476	10
Arrah	2,333	600	1,654	69	41	30	2	2,139	71
Buxar	1,865	499	1,248	118	156	147	9	1,678	127
Total, 1893-94 ...	4,678	1,270	3,211	197	210	190	11	4,293	208
Total, 1892-93 ...	7,757	2,471	4,709	577	255	237	18	7,483	595
Total, 1891-92 ...	4,725	1,274	2,974	477	243	191	52	4,825	259

The Superintending Engineer writes:—

"The figures of 1893-94 are satisfactory. Out of 4,680 complaints dealt with during the year, rather less than one-third were held to be good and more than two-thirds were refused. The number of cases in which the petitioners were not satisfied with, or at any rate did not accept, the orders of the canal officers in the 4,680 cases dealt with, was 23 only; in these cases an appeal was made to the Collector of the district. Out of 21 such cases about 33 per cent. were allowed by the Collectors to be good, and 67 per cent. of the appeals were rejected. The following table shows the figures in the different divisions:—

DIVISION.	NUMBER OF APPEALS—		Appeals allowed.	Appeals discharged.	Pending.
	Pending from last year.	Instituted during the year.			
1	2	3	4	5	6
	No.	No.	No.	No.	No.
Eastern Sone ...	2	...	...	2	...
Arrah ...	...	16	4	10	2
Buxar ...	...	7	3	2	2
Total ...	2	23	7	14	4"

93. There were, including 2 pending from the previous year, 25 appeals to the Collectors of districts against Executive Engineers' decisions. Of these, 7 were allowed, 14 discharged, and 4 had not been decided at the close of the year. APPEALS.

Two cases were decided by Engineers vested with magisterial powers under the Bengal Irrigation Act. Two persons accused of offences under the CASES UNDER ACT III (B.C.) OF 1876.

Act were convicted, and one discharged. The amount of fines imposed was Rs. 10, and the number of days' imprisonment fourteen.

CERTIFICATES.

94. The Special Deputy Collector in charge of the collections continues to deal with the certificates required in realising water-rates.

The amount of certificate work done in each district during the year under review, as compared with that of the previous year, is shown in the following statement:—

	SHAHABAD.				PATNA.				GAYA.				TOTAL.			
	1892-93.		1893-94.		1892-93.		1893-94.		1892-93.		1893-94.		1892-93.		1893-94.

Cases disposed of—																
1. By being struck off owing to the demand having been remitted and cancelled.	80	1,238	107	1,326	70	4,602	2	270	8	152	1	12	164	5,992	110	
2. By being wholly satisfied ...	2,395	19,227	1,941	18,406	247	3,601	125	2,085	178	1,925	96	909	2,820	24,753	2,162	
Total ...	2,481	20,465	2,048	19,732	317	8,203	127	2,355	186	2,077	97	921	2,984	30,745	2,272	
Balance outstanding at the close of the year.	98	1,664	76	1,259	37	1,752	24	122	18	111	...	...	133	3,527	100	

The number for disposal was 2,372, inclusive of the outstanding balance from last year, covering a sum of Rs. 24,389 as compared with 3,137 and Rs. 34,272 in the previous year. The demand adjusted was Rs. 23,008 as against Rs. 30,745, the remissions being Rs. 1,608 compared with Rs. 5,992. The outstanding balance was reduced from Rs. 3,527 to Rs. 1,381, and the number of cases pending at the close of the year shows a satisfactory decrease of 53 cases.

NAVIGATION.

95. The following statements show the receipts from navigation for the last five years:—

NAVIGATION RECEIPTS.

YEAR.	EASTERN MAIN SERIES.			WESTERN MAIN SERIES.			Total.	Total tollage only.
	Number of miles open.	Tollage receipts.	Transport service receipts.	Number of miles open.	Tollage receipts.	Transport service receipts.

COMPARISON OF TRAFFIC. TRAFFIC.

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
Number of miles open ... No.	218½	218½	218½	218½	218½
Toll collections ... Rs.	50,315	56,704	57,292	50,028	50,430
Collections per mile ... „	230	259	262	229	230
Boats, including empties ... No.	8,058	8,644	8,645	6,710	6,666
Tonnage of boats ... Tons.	104,390	114,996	129,147	97,841	98,551
Estimated value of cargo, including rafts ... Rs.	49,36,564	65,25,714	70,06,595	57,32,365	61,19,288

96. The transport service continued to be worked by Messrs. Hodges and Radford under the contract which had been renewed for two years from 1st December 1892. The charges, Rs. 600 per month for steamer hire, and Rs. 500 for compounded tolls, are the same as in past years. The ordinary repairs of the steamers, which belong to Government, are executed by the lessees. TRANSPORT SERVICE.

The extent of the traffic in connection with the steamers is shown below:—

PARTICULARS.		Patna Canal.	Arrah Canal.	Buxar Canal.	Total.
1		2	3	4	5
Passengers carried	Up ... No.	4,749	13,346	8,134	26,229
	Down „	4,516	13,331	8,079	25,926
Cargo carried	Up ... Tons.	935	389	191	1,515
	Down ... „	879	795	440	2,114

On the Arrah and Buxar Canals the steamers make two trips each way in every week. On the Patna Canal, which is the longer route, the steamer makes

only one trip each way in a week. For the hire of the steamers Rs. 7,250 was realised during the year.

There are in addition to the steamers four cargo boats, the property of Government, for the hire of which Rs. 1,515 was received during the year, besides which Rs. 712 was recovered by way of fees for the use of the accommodation boats and mud punts.

MISCELLANEOUS RECEIPTS.

97. The following table shows the details of the miscellaneous receipts for the last five years:—

PARTICULARS.		1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1		2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water		514	393	1,056	805	730
Plantations		279	365	995	852	1,164
Other canal produce		1,542	1,815	742	967	1,651
Water-power		769	1,158	1,049	1,138	978
Rent of buildings		8,313	8,164	8,397	8,807	8,921
Fines		28	40	5	362	20
Miscellaneous	Rent of lands ...	6,939	8,114	9,920	9,241	9,014
	Fisheries ...	597	431	489	523	697
	Cost of process ...	3,244	2,937	3,769	2,955	2,528
	Sale of old materials	17	121	82	35	139
	Other items ...	1,100	2,610	5,323	3,529	3,736

MAINTENANCE CHARGES.

98. The expenditure on works and maintenance will now be briefly reviewed.

EXTENSIONS AND IMPROVEMENTS.

The principal works executed under "Extensions and improvements," on which Rs. 7,419 were spent, have already been described in paragraph 74.

REPAIRS.

99. The expenditure on maintenance and repairs by main sub-heads for the last three years is shown below:—

PARTICULARS.	1891-92.	1892-93.	1893-94.
1	2	3	4
	Rs.	Rs.	Rs.
Head works	20,922	22,374	27,297
Main canal, including branches	1,75,837	2,00,130*	1,89,160
Distributaries	58,248	55,918	46,457
Drainage and protective works ...	3,622	2,157	3,014
Cost of working transport service	1,155	...	...
Compensation	28	...	...
Total ...	2,59,832	2,80,579	2,65,928

* Includes Rs. 600 for the Arrah-Dehri Telegraph line, and Rs. 4,491 on account of theft money in the Revenue Division and of money embezzled in the Patna district.

100. The figures below give the cost of repairs to head works during the last three years:— REPAIRS TO HEAD WORKS.

	1891-92.	1892-93.	1893-94.
	Rs.	Rs.	Rs.
Weir on Sone River ...	11,617	14,058	18,262
Other works ...	8,773	7,577	8,301
Total ...	20,390	21,635	26,563

The increased cost of maintenance of the Sone weir during the year is due to filling rubble into holes which had formed below the weir.

101. Details of the expenditure on maintenance and repairs on the main canals and distributaries in each division during the last three years are given in the following statement:— MAINTENANCE OF MAIN CANALS AND DISTRIBUTARIES.

	Arrah Division.			Buxar Division.			Eastern Sone Division.			Total.		
	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9	10	11	12	13

Eastern ditto ...	...	...	...	...	...	...	32,423	28,059	28,898	32,423	28,059	28,898
Canals*	23,344	43,208	28,882	13,822	13,861	15,275	28,713	30,852	25,476	65,879	87,921	69,633
Branch Canals	10,798	13,805	13,309	9,367	9,989	8,222	...	...	...	20,165	23,794	21,531
Distributaries	24,943	24,668	25,038	16,937	15,587	10,799	16,377	15,663	10,619	58,247	55,908	46,456
Drainage and protective works	1,841	1,099	1,624	140	102	135	1,605	956	1,255	3,586	2,157	3,014
Total ...	1,08,003	1,28,084	1,15,265	52,258	50,842	54,179	79,118	75,530	66,248	2,39,379	2,54,456	2,35,692

* Includes cost of maintaining the Telegraph line from Arrah to Dehri.

A decrease of Rs. 18,764 has taken place in the total expenditure during the year as compared with 1892-93.

The possibility of effecting economies in the charges for the maintenance of main canals and distributaries is receiving the attention of the Superintending Engineer.

102. The following table shows the quantity of silt dredged from the Eastern and Western Main Canals, and the rate at which the work was done during the last three years:— SILT-CLEARING AND DREDGING.

Canals.	1891-92.			1892-93.			1893-94.		
	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.

In addition to the above, the following dredging work was done in the Arrah and Buxar Divisions during the year.

Arrah Division.—In this Division 561,402 cubic feet of silt were dredged above and below locks 1 to 5 at a cost of Rs. 2,625, giving a rate of Rs. 4-10-10 per 1,000 cubic feet.

Buxar Division.—In this Division 1,918,599 cubic feet of silt were dredged in the Main Western Canal below the Kao syphon in the 10th, 11th, and 12th miles at a cost of Rs. 7,469, giving a rate of Rs. 3-14-3 per thousand. In the Buxar Canal itself 60,039 cubic feet of silt were dredged at a cost of Rs. 240, giving a rate of Rs 3-15-11 per thousand.

The rates given above include the cost of lifting the silt into barges and of carrying it either over the spoil banks or into the river

The cost of lifting the silt on to the barges or dredging proper was as shown below:—

	1891-92.			1892 93.			1893 94.		
	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet	Quantity dredged.	Cost of dredging	Rate per 1,000 cubic feet.	Quantity dredged	Cost of dredging.	Rate per 1,000 cubic feet.
1	2	3	4	5	6	7	8	9	10

Taking the Eastern Main and Patna Canal together, the cost of "lifting" the silt was Re. 1-6-10 per 1,000 cubic feet as compared with Re. 1-6-7 in 1892-93 and Re. 1-13-10 in 1891-92—a very small increase The cost for "labour" is nearly the same as last year. The cost for "discharging" was Rs. 4-7-11 per 1,000 cubic feet against Rs. 4 6-11. The total cost per 1,000 cubic feet of removing the silt was Rs. 5-14-9 as compared with Rs. 5-13-6 in 1892-93.

103. The statement below compares the expenditure on repairs to dredgers during the year under review with that of the two previous years:—

	1891-92.	1892-93.	1893-94.
1	2	3	4
	Rs.	Rs.	Rs.
12 Fouracres' dredgers	7,004	6,752	6,467
2 Bruce's ditto	750	546	627
2 English ditto	3,170	3,081	3,575
Mud punts ...	3,009	3,076	3,075
Total ...	13,933	13,455	13,744

104. The cost of lifting the silt on to barges for each class of dredger used, including interest on capital cost and expenditure on repairs, is compared by Superintending Engineer as follows:—

	Working expenses per 1,000 cubic feet.	Interest and repairs of dredgers per 1,000 cubic feet	Interest and repairs of mud punts per 1,000 cubic feet.	Total.
1	2	3	4	5

PLANTATIONS.

108. Below is a statement showing the number of trees, classified according to size, in the plantations in each division:—

Division.	1892-93.				1893-94.				Increase.	Decrease.
	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.		
1	2	3	4	5	6	7	8	9	10	11
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No
Eastern Sone	94,864	34,576	51,042	181,082	99,504	34,121	46,721	180,416		672
Arrah	53,934	37,842	33,611	125,389	67,425	25,233	30,861	123,313		2,170
Dehri Workshop	8,343	45,340	12,544	66,227	17,310	37,677	24,378	79,245	13,018	...
Buxar	19,671	10,448	14,682	44,801	25,374	8,187	16,196	49,757	4,956	..
Total ...	176,814	128,206	112,479	417,499	209,063	105,122	117,856	432,631	17,974	2,842
							Net increase ..		15,132	

It is satisfactory to notice the increase in the number of trees in the Buxar Division, which is the most behind hand in this respect.

The receipts and expenditure of the year were as under:—

Division.	Receipts.	Expenditure.
1	2	3
	Rs.	Rs.
Eastern Sone ...	379	443
Arrah ...	262	1,975
Dehri Workshop ...	456	1,050
Buxar ...	67	2,416
Total ...	1,164	5,884

The Superintending Engineer remarks:—

"The increase in the trees in the Buxar Division is satisfactory as this canal needs trees badly. The financial results as expressed in the above table are still far from satisfactory. Some beginning was made in cutting babul trees for firewood in the Eastern Sone and Arrah Divisions, but the results do not find a place in this year's figures."

CALCUTTA AND EASTERN CANALS.

109. The Capital and Revenue Accounts of these canals are given below:— CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

Heads of Account.	Outlay during 1893-94.	Outlay to end of 1893-94.
1	2	3
	Rs.	Rs.
Direct charges	(—)424	53 49,509
Less—Receipts on capital account	...	54,467
Total direct charges ...	(—)424	52,95,042
Indirect charges	21	62,404

The following original works chargeable to Capital Account were carried out during the year:—(*a*) Improving the second bad bend in the Jangulia river in the steamer route, (*b*) demarcating the land acquired for improving the first bad bend at Balasore, (*c*) the construction of three sections of towpath, with rustic and remodelled bridges, from Khulna to Cutchoca. The amount expended was Rs. 802, but the actual outlay is shown as Rs. (—)424 on account of a reduction of Rs. 1,226 in the suspense balances during the year.

2.—REVENUE ACCOUNT—(Actuals). REVENUE ACCOUNT.

	Expenditure—			Receipts—	
	During 1892-93.	During 1893-94.		During 1892-93.	During 1893-94.

1893-94	(—)403	53,57,446	4,20,541	2,87,129	1,33,412	2·5

(*a*) Is Rs. 35,185 larger than it should be by reason of error of account.
(*b*) Is Rs. 35,185 smaller than ditto ditto ditto.

The results of the year's operations cannot be considered satisfactory. The actual realizations were Rs. 59,573 less, and the working expenses 34,952 more, mainly, however, due to a refund of Rs. 28,498 in 1892-93, than in the preceding year. The decrease in the receipts is due to the failure of the rice crop in the Backergunge district and to the diversion of the jute traffic to boats and railways. On this subject the Superintending Engineer remarks:—

"Should it be desired to increase the revenue on these canals, it will be a simple matter to do so. Steamers and flats are now taking the place to a large extent of the native craft, and their measurement does not come up to the weight of the cargo carried. What has

been considered objectionable with native boats, viz., assessment on chalans of the cargo, need not be so considered with these vessels.

These vessels also carry very large quantities of kerosine oil and miscellaneous cargo on their return trips, and these are fairly chargeable with toll. As the number of flats and steamers increase, it will be necessary to seriously consider this question."

LENGTHS OF CANALS.

111. The lengths of canals open for navigation during the year, including the steamer route, was the same as that of the preceding year, 1892-93, viz., 713 miles, as detailed below:—

			Miles.
Calcutta and new canals			10
Tolly's Nala with 20 miles of Kaorapookhar khal			37
Total Calcutta Canals ...			47
Eastern Canals	Inner boat route	189	
	Outer ditto	127	
			316
Steamer route			350
Total Calcutta and Eastern Canals ...			713

NAVIGATION.

112. The navigation receipts during the last two years by the Collector and Supervisor of the Canals and by the Executive Engineer are shown in the following statement:—

CANALS.	Number of boats and rafts.	COLLECTIONS BY COLLECTOR AND SUPERVISOR.						COLLECTIONS BY EXECUTIVE ENGINEER.	GRAND TOTAL, GROSS REVENUE.
		Tolls from boats and rafts.	Demurrage.	Ferry tolls.	Tolls from steamers and flats.	Rents of buildings, lands, and other miscellaneous receipts.	Total.	Rents of buildings, lands, and other miscellaneous receipts.	
1	2	3	4	5	6	7	8	9	10
	No.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta and Eastern ..	71,126	3,06,237	5,106	3,776	5,495	6,506	3,27,180	7,358	4,30,824
Tolly's Nala ...	74,388	83,253	1,277	1,055	...	202	85,786		
Total 1893-94 ...	145,514	3,89,489	6,383	4,831	5,495	6,708	4,12,966	7,358	4,30,824
Total 1892-93 ...	142,588	4,44,779	7,312	6,015	4,955	5,988	4,68,049	11,295	4,80,244

The chief source of revenue from these canals is the tolls from boats and rafts. They amounted to Rs. 3,89,489 during the year against Rs. 4,44,779 of 1892-93, showing a decrease of Rs. 55,290. This is attributed to the following causes:—

1. Traffic tapped by Eastern Bengal State Railway at Khulna, Singia, and Nowpara.
2. Extension of several branch lines to canal banks—
3. Transfer of Kidderpore storage godowns to Howrah side of the river to escape payment of tolls.
4. Construction of Railway to kerosine depôts at Budge-Budge.
5. Reduction in demurrage rates.
6. Diversion of jute traffic to flats and railway.
7. Very large increase in number of steamers and flats plying *vid* Sunderbunds route and Nadia rivers.

This last cause is the most serious, as during 1893-94 there was an increase of 108 vessels under this head.

BOATS.

113. The particulars regarding the boats which used the canals during the last two years are given below :—

CANAL.	YEAR.	NUMBER AND CLASS OF BOATS.					
		Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000 maunds.	Over 5,000 maunds.	Total.
1	2	3	4	5	6	7	8
Calcutta and Eastern Canals.	1893-94	40,003	23,480	6,778	775	26	71,062
Tolly's Nala	1893-94	23,068	12,657	855	2	...	36,582
Total ...	1893-94	63,071	36,137	7,633	777	26	1,07,644
Calcutta and Eastern Canals.	1892-93	36,389	20,658	17,389	5,211	716	80,363
Tolly's Nala	1892-93	15,716	16,425	4,810	42	...	36,493
Total ...	1892-93	52,105	37,083	21,699	5,253	716	1,16,856

There was a general decrease in all classes of boats except those below 100 maunds. The decrease is mainly due to the falling off in the rice and jute traffic.

The number of small boats and dinghies which, entering Tolly's Nala from Kourapukhar, pay toll at Russa, was 37,749 against 25,607 in 1892 93. They are not classified. Including these boats, the total number was 145,393 against 142,463 in 1892-93, showing an increase of 2,930.

TRAFFIC

The following table gives the tonnage of boats by canal measurement and the estimated weight and value of the cargoes for the Calcutta Canals and Tolly's Nala compared with the corresponding figures for 1892-93.

		Number of boats.	Tonnage of boats by canal measurement.	Weight of cargo carried.	Value of cargo carried.	Tollage, including demurrage.	Percentage of toll on value of cargo.

Total cost of establishment ...	36,281	38,210	41,359	39,935	39,344

* Includes salary of darogas, clerks, cashiers, kootnavises, koyals, toll peons, and dinghies with crew.

These figures show a decrease in the total cost of establishment of Rs. 591 compared with those of the previous year.

116. The miscellaneous receipts during the year were Rs. 13,129 against Rs. 15,528 in 1892 93, showing a decrease of Rs. 2,399. Under the head "Rent of Buildings" and land there was a decrease of Rs. 6,045 which has not been explained, while under the head "Sale-proceeds of canal silt and fishery rent" there was an increase of Rs. 3,191. MISCELLANEOUS RECEIPTS.

117. The expenditure under this head was only Rs. 53. EXTENSIONS AND IMPROVEMENTS.

118. The cost of maintenance of the canal by sub-heads as compared with that of the previous year is given below:— MAINTENANCE AND REPAIRS.

CANALS.	Locks.	Masonry bridges.	Roads.	Buildings.	Plantations.	Dredging.	Channel and banks.	Towpath.	Rustic bridges.	Steam-launches.	Miscellaneous.	Drainage.	TOTAL
1	2	3	4	5	6	7	8	9	10	11	12	13	14

The variations are not such as to call for any special notice.

DREDGING AND SILT CLEARANCE.

119. The quantity of silt dredged, the expenditure incurred, and the rate per 1,000 cubic feet during the year, including the cost of delivering the mud, are shown below:—

	Quantity dredged.	Cost.	Rate per 1,000 cubic feet.
1	2	3	4
	C. feet.	Rs.	Rs. A. P.
Steam dredger *Victoria* ...	255,000	4,785	18 12 2
Fouracres' dredger ...	499,500	4,894	9 12 9
Marchant's dredger ...	184,500	1,866	10 1 9
Hydraulic dredger *Clinker* ...	1,418,580	10,021	7 1 0

Omitting the cost of delivering the mud, the rates of dredging proper, exclusive of the cost of repairs and of interest on original cost, were per 1,000 cubic feet—

	Rs. A. P.
Steam dredger *Victoria* ...	... 14 7 7
Fouracres' dredger ...	... 4 1 8
Marchant's dredger ...	... 2 14 3
Hydraulic dredger *Clinker* ...	... 0 15 2

The high rate of the *Victoria* was due to the cost of the establishment maintained while the dredger was idle in the Sunderbunds being debited to the out turn of earth dredged.

PLANTATIONS.

120. The state of the plantation for the last two years is shown below:—

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1892-93 ...	2,304	1,627	1,773	5,104
1893-94 ...	2,496	1,977	720	5,193

The cost incurred during the year was Rs. 1,195 against Rs. 1,434 in 1892-93.

121. In the following statement are shown the receipts from, and expenditure on the steamer route, for the last ten years:— STEAMER ROUTE.

YEARS.	Receipts.	EXPENDITURE—			Difference.	REMARKS.
		On capital account.	On revenue account.	Total.		
1	2	3	4	5	6	7

Note.—The details by heads of expenditure for the year 1892-93 and seven preceding years will be found in the table given in paragraph 123 following.

There was an improvement in the total receipts of Rs. 31,633 over the figures of the previous year. The net result was a loss on the year's working of only Rs. 1,566 as against Rs. 14,718 in the preceding year.

123. The receipts on Revenue account and working expenses of the canal for the last nine years are shown in the following statement:— FINANCIAL RESULTS.

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.	1893 94.

Total direct charges ...	29,881	59,704	80,868	74,568	68,011	73,760	75,296	76,275	94,132
INDIRECT CHARGES.									
Capitalized abatement of land revenue ...	.....	.....	.....	.....	.....	.....	.....	...	...
Leave and pension allowances ...	831	1,722	2,639	2,450	975	3,032	3,253	3,377	4,001
Total indirect charges ..	831	1,722	2,639	2,450	975	3,032	3,253	3,377	4,001
Total working expenses	30,712	61,426	83,507	77,018	68,986	76,798	78,549	79,652	98,133
Net revenue ...	(—) 16,994	(—) 31,938	(—) 29,670	(—) 10,844	(—) 3,653	(—) 11,212	(—)16,492	(—)14,718	(—)1,566

The total direct charges were Rs. 17,857 higher than those of last year. The excess was mostly under repairs and navigation establishment, while there was a considerable decrease in the charges under Engineer establishment.

On works alone the cost of maintenance was at the rate of Rs. 613 per mile against Rs. 466 of the preceding year. The constant work that is required at the Sabarnarekha crossing to keep the river channels navigable swells to no inconsiderable degree the yearly maintenance charges.

NAVIGATION. 124. As compared with 1892-93 a considerable increase of traffic on all ranges took place, more especially in Ranges IVA, IVB and V. The increase is mostly due to the special pilgrim traffic to Puri in July and August 1893. Of the total receipts of Rs. 95,233 during the year, the steamers of the Calcutta Steam Navigation Company and of the India General Steam Navigation Company contributed Rs. 25,410, or Rs. 7,038 more than in the previous year.

TRAFFIC. 125. The traffic on the canal during the year 1893-94, compared with that of the previous year, is shown in the following statement:—

	Number of boats.		Tonnage of boats.		Value of cargo, including rafts.		Tolls.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9
Orissa Coast Canal	No. 12,185	No. 11,823	Tons. 100,807	Tons. 141,825	Rs. 23,78,405	Rs. 37,45,657	Rs. 55,832	Rs. 95,233

MISCELLANEOUS RECEIPTS. 126. The miscellaneous receipts during the last five years are shown below:—

1888-90.	1890-91.	1891-92.	1892-93.	1893-94.
Rs.	Rs.	Rs.	Rs.	Rs.
1,563	1,410	2,072	9,149	2,477

The receipts of 1892-93 were unduly swelled by the sale of certain materials and unclaimed deposits.

DREDGING AND SILT CLEARANCE. 127. Two dredgers, the *Comus* and the *Marchant*, were at work during the year in excavating silt. The quantity dredged, and the cost and rate per 1,000 cubic feet, for the last two years are shown in the following table:—

Year.	Names of dredgers.	Quantity dredged.	Cost of—			Rate per 1,000 C. ft.		
			Lifting by dredger.	Removing by mud-punts.	Total.	Lifting.	Removing.	Total.
1	2	3	4	5	6	7	8	9
1893-94	*Marchant* with 8 mud-punts.	186,110	645	691	1,336	Rs. A. P. 3 7 4	Rs. A. P. 3 11 4	Rs. A. P. 7 2 8
	Comus with 10 mud-punts.	149,710	1,273	579	1,852	8 8 0	3 12 9	12 4 9
	Total ..	335,820	1,918	1,270	3,188	5 11 3	3 12 9	9 8 0

II.—Gandaki ...		1·57								1·57						
III.—Dhanai ...		1·00								1·00						
IV.—Gangri ...		6·57								6·57						
In addition to the above, the following are maintained:—																
I.—Thakraha Sota ...		1·50	...	...	...	...	...	...	...	1·50	...	...	...	...	...	...
II.—Roopan Chap Sota		27·00	...	...	...	...	...	...	...	27·00	...	...	...	...	...	...

There was no alteration in the lengths of the cuts and channels constructed and maintained by the Manager of the Moniara Estate, which aggregate about 33 miles. No distributaries or village channels are maintained by Government. There are nine permanent dams and regulators in the branch canals. No temporary dams were constructed during the year.

RAINFALL.

133. The average rainfall on the area under command is shown by seasons in the table below for the last five years:—

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
	Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season* ...	19·47	24·60	11·52	27 70	24·96
Rabi	1·20	1·43	0·61	2·29	1·08
Year	45·09	58·63	35·05	49·19	49·95

* August, September and October.

The total rainfall was slightly in excess of last year and was more seasonable. There was an ample fall during the "Hatia," and consequently there was no demand for rice irrigation, and no water was also required for rabi irrigation.

FLOODS.

134. There was no very high flood in the Gandak last year, and no damage was done to the canals.

IRRIGATION

135. The areas irrigated as obtained from the Canal Manager's reports during the past ten years, together with the rainfall, are given in the table below:—

YEAR.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.
1883-84 ...	Not known		...	21,122	26·32
1884-85 ...	1,917	5,306	...	7,223	35·42
1885-86 ...	888	3,677	...	4,565	39·27
1886-87 ...	566	1,580	...	2,146	60·96
1887-88 ...	1,699	2,519	...	4,218	39·63
1888-89 ...	3,897	3,316	...	7,213	42·39
1889-90 ...	2,684	1,531	...	4,215	45·09
1890-91 ...	990	1,236	...	2,226	58·63
1891-92 ...	3,425	2,540	...	5,965	35·05
1892-93 ...	1,338	2,222	...	3,560	49·19
1893-94 ...	994	574	...	1,568	49·95

DUTY OF WATER.

136. The duty of water cannot be calculated, as the canals are drainage as well as irrigation channels.

ASSESSMENTS, COLLECTIONS AND BALANCE.

137. The agreement with the proprietors of Moniara and Sadowa, under which the canals were worked in 1891-92 and 1892-93, was renewed for one year only on the same terms. It came to an end on the 31st March 1894, when the canals were practically closed and a dam made across the mouth of each feeder. A new set of rules have been issued, by which no sluice will be opened unless a certain sum is deposited for each sluice. The final accounts of the recent guarantee with the proprietors of the Moniara and Sadowa concerns, have been closed, but a claim has been made for a refund in regard to the guarantee which expired on the 1st of April 1891, and is still under consideration. The following statement shows the assessments and collections on account of irrigation of areas beyond the guarantors estates during the three years, ending 31st March 1894, in which the guarantee was in force, as compiled by the Executive Engineer in charge of the Siwan subdivision:—

Description of crops.	Assessments.	Collection.	Balance.	REMARKS.
1	2	3	4	5
1891-92.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Dhan	1,429 3 6	991 15 0	437 4 6	
Rabi	2,068 15 4	416 5 6	1,652 9 10	
Hot-weather ...	200 6 0	174 0 0	26 6 0	
Total ...	3,698 8 10	1,582 4 6	2,116 4 4	
1892-93.				
Dhan	479 9 1	.....	479 9 1	
Rabi	2,721 7 0	342 11 3	2,378 11 9	
Total ...	3,201 0 1	342 11 3	2,858 4 10	
1893-94.				
Hot-weather ...	357 0 3	64 10 6	292 5 9	
Total for three years ...	7,256 9 2	1,989 10 3	5,266 14 11	Balance of March 1894.

Of the amount shown to be due Rs. 1,648 has been remitted since the close of the year and active steps are being taken to collect the balance.

138. The following table shows the expenditure on maintenance during the past five years:— MAINTENANCE AND REPAIRS.

	Miles.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
Repairs to head cut and river protective works ...	6·34	10,026	7,445	4,304	1,341	1,766
Repairs to Daha feeder ...	3·34	909	1,290	357	544	499
„ to Gandaki feeder ...	1·57	1,118	1,735	221	1,550	550
„ to Dhanai feeder ...	1·00	722	592	65	411	242
„ to Gangri feeder ...	6·57	768	2,777	129	565	424
„ to dams and channels for irrigation purposes	...	11,357	12,615	3,945	5,106	631
Total ...	...	24,900	26,454	9,021	9,517	4,112
Establishment	...	12,422	10,560	3,710	3,772	1,738
Tools and plant (actual) ...	...	991	389	(—)193	213	112
Irrigation establishment to be treated as refund of revenue ...	...	...	...	...	...	530
GRAND TOTAL ...	...	38,313	37,403	12,538	13,502	6,492

139. The cost of maintaining the head works was a little more than last year, owing to the fact that silt clearance at the mouth of the head cut had been commenced about the 20th September and had made good progress, when a high flood came down the Gandak early in October necessitating a further clearance of silt. In the other feeders the expenditure was less. The main decrease in expenditure was, however, under the items "dams and channels," and was due to the Managers of the Moniara and Sadowa concerns having requested that the dams usually constructed after the rains at Siswa and on the Roopunchap Sota should not be made, as no rabi irrigation would be done by the factories. No silt clearance was for the same reason done in the Thakraha Sota. SILT CLEARANCE AND DAMS.

140. The state of the plantations for the last two years is shown below:— PLANTATIONS.

YEAR.	Trees over 12 feet.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	TOTAL.
1	2	3	4	5
	No.	No.	No.	No.
1892-93	4,939	6,973	6,983	18,895
1893-94	5,276	6,117	6,041	17,434

The decrease in the total is due to a number of seedlings and saplings having died. No trees were planted, but the existing plantations were well maintained. The expenditure was Rs. 73 against Rs. 81 in the preceding year.

NADIA RIVERS.

REVENUE ACCOUNT.

141. The approximate length of the channels comprising the Nadia rivers' system is 477 miles. No capital account of expenditure is kept. The revenue account for the last two years is given below:—

PARTICULARS.	EXPENDITURE. During 1892-93.	EXPENDITURE. During 1893-94.	PARTICULARS.	RECEIPTS. During 1892-93.	RECEIPTS. During 1893-94.

Indirect Charges.										
Leave and pension allowances	4,867	4,419	4,101	5,870	6,075	5,395	6,557	6,417	7,221	8,222
Total indirect charges ...	4,867	4,419	4,101	5,870	6,075	5,395	6,557	6,417	7,221	8,222
Total working expenses ...	1,00,643	82,087	64,314	97,892	1,40,769	92,989	1,09,894	1,13,274	1,30,275	1,46,657
Net revenue ...	94,814	1,01,694	1,38,936	1,00,783	51,119	92,834	90,588	79,463	35,245	24,594

The total receipts show an increase of Rs. 5,731 as compared with 1892-93, but they are much below the average of the last ten years. The expenditure increased by Rs. 15,381 as compared with the previous year. The result of the year's working is a net revenue of Rs. 24,594 only, the smallest on record. The bad state of the head of the Mathabhanga, which was noticed in last year's report, still continues and accounts for the short revenue.

RAINFALL AND FLOODS.

143. No rainfall register is kept up for these rivers. The floods of the year were of ordinary height and caused no damage.

The gauge readings at Gheria and Berhampore for the last five years are given below:—

	Gheria.	Berhampore.
1889 ...	34·00	... 30′4½″
1890 ...	34·70	... 30′11¾″
1891 ...	29·30	... 26′7″
1892 ...	31·55	... 29′1¼″
1893 ...	30·75	... 27′11½″

A statement showing the highest guage readings of the Nadia rivers is given below as compared with those of the previous year:—

River.	Locality.	1893-94.		1892-93.		Highest known.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8

TRAFFIC.

145. The following statement shows the number of boats, tonnage, weight and value of cargo and toll collections:—

NAME OF RIVER.	Number of boats, inclusive of steamers, flats and rafts.	Tonnage of boats.	Weight of cargo.	Value of cargo.	Toll* collection.	Percentage of toll on value of cargo.
1	2	3	4	5	6	7
	No.	Tons.	Tons.	Rs.	Rs.	
Bhagirathi	14,025	165,653	84,324	69,16,459	36,895	...
Ditto and Bhyrub-Jalangi ...	32,017	511,029	196,655	2,92,70,519	1,11,536	...
Mathabhanga and Ichamati ...	11,076	113,170	38,513	34,47,781	22,735	...
Total, 1893-94 ...	57,118	789,852	322,492	3,96,34,759	1,71,166	0·43
Total, 1892-93 ...	54,790	783,489	306,294	3,55,92,891	1,65,380	0·46

* Tolls from boats, steamers, flats and rafts.

REVENUE ESTABLISHMENT.

146. The cost of the revenue establishment for the last five years is shown below:—

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Salary and commission of Collectors	11,943	13,224	13,210	12,391	12,644
Accounts and office establishment	8,986	9,223	8,942	8,879	8,901
Travelling allowance ...	390	711	530	601	525
Contingencies	441	472	452	411	947
Total ...	21,760	23,630	23,134	22,282	23,017

The increase results from the larger commission earned by toll-collectors and darogas owing to increased revenue.

MAINTENANCE AND REPAIRS.

147. The charges for maintenance and repairs for the last three years are detailed below:—

PARTICULARS.	1891-92.	1892-93.	1893-94.
1	2	3	4
	Rs.	Rs.	Rs.
Re-opening lower entrance channel, Bhagirathi river	1,290	...	546
Inspection shed, upper entrance... ...	496	...	...
Training works in river Bhagirathi ...	40,413	46,518	51,481
„ „ Bhyrub ...	2,593	3,174	4,318
„ „ Jalangi ...	1,960	3,287	6,430
„ „ Mathabhanga ...	1,415	3,062	2,060
Sounding Nadia rivers	6,015	6,161	6,500
Maintaining and working divisional boats ...	3,102	2,698	2,635
Petty and other charges	5,420	3,863	3,394
Total ...	62,704	68,763	77,436

The total expenditure for the year was very heavy, being Rs. 8,601 in excess of that of 1892-93, and Rs. 14,660 higher than the figures of 1891-92. This was caused by the large outlay on training works in the several rivers, more especially in the Bhagirathi, which was necessary in order to prevent the entire closure of the navigable channels.

MISCELLANEOUS RECEIPTS.

148. The miscellaneous receipts during the year amounted to Rs. 86, against Rs. 158 in the previous year.

DREDGING AND SILT CLEARANCE.

149. There was no expenditure under this head during the year.

PLANTATIONS.

150. The only plantations kept up are on the berms of the embankments. No trees were planted during the year. The number now existing is 14,664 against 17,864 of last year. The great decrease in the number of trees has not been explained.

EDEN CANAL.

LENGTH OF CANAL.

151. No capital or revenue account of this canal is maintained. Its total length inclusive of that of the excavated channels is 26½ miles, as detailed below:—

Jujuty sluice channels	...	...	...	2 miles.
Eden Canal proper	...	...	...	19½ „
Kana Damodar junction cut		...	...	2½ „
Saraswati junction cut	...	...	...	2½ „
		Total	...	26½ „

Besides the above length the natural channels of the Kana Nadi, Kana Damodar, and North and South Saraswati are included in the system.

The rainfall during the year was 67·48 inches against 50·89 in 1892-93. During the kharif season it was very heavy, 34·06 inches against 22·51 of 1892, and there was very little demand for canal water: from December 1892 to middle of February it was almost nil.

REVENUE ACCOUNT.

152. The receipts and expenditure for the last two years are given below:—

Receipts.	1892-93.	1893-94.	Expenditure.	1892-93.	1893-94.
1	2	3	4	5	6
	Rs.	Rs.		Rs.	Rs.
Water-rates ...	30,310	35,943	Works	(—)18	515
Miscellaneous ...	803	620	Maintenance and repairs	26,478	35,619
			Establishment ...	10,078	13,474
Total ...	31,113	36,563	Tools and plant ...	652	732
Less—Refunds of revenue	70	654	Total expenditure ...	37,160	50,340
Net total receipts ...	31,043	35,909	Balance, deficit ...	6,117	14,431

The only original work carried out during the year was the remodelling of the existing irrigation channel from Halara above the Kana Damodar stop dam to Kalna. The estimated cost of the work is Rs. 697, against which Rs. 515 was expended during the year.

There was an increase of Rs. 5,633 in the receipts from water-rates over the figures of 1892-93. The increase was due to the large amount of arrear water rates for 1892-93 realized during the year under review. The maintenance charges were abnormally high. The excess is due to a large quantity of silt having been excavated from the Banks at Jujuty above the weir at Kanchanagar and from the channel No. 1 at Jujuty, and also to extended repairs having been done to the upper and lower sections of the canal during the year. The large deposit of silt was due to the extensive irrigation carried out in 1892-93.

The sand dam across the Damodar at Jujuti to keep up the cold weather supply of the canal was constructed as usual.

IRRIGATION.

153. The irrigation operations during the year were not so satisfactory as in the previous year. The total area irrigated was 11,739 acres of which 10,670 acres were in the Burdwan and 1,069 acres in the Hooghly district. The corresponding figures for last year were 38,024 acres in Burdwan and 33,309 acres in Hooghly. The areas irrigated during the last five years were as below:—

Nature of leases.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Acres.
Annual ...	9,693	1,330	1,478	6,534	138
Long leases ...	...	...	12,707	47,848	11,601
Unauthorized ...	...	...	...	16,951	...
Total ...	9,693	1,330	14,185	71,333	11,739

DEMANDS, COLLECTIONS AND BALANCE.

154. The total demand for the year was Rs. 68,565, of which Rs. 35,943 were actually collected and Rs. 1,041 remitted, leaving an unrealised balance of Rs. 31,581, a large portion of which will probably not be collected, as irrigation was effected under private agreements and not under the Irrigation Act. With the help of Rajah Peary Mohun Mukerji, C.S.I., of Uttorpara, a compromise has been recently effected with the zamindars who possess proprietary rights in the old river channels which are utilised as canals, and rules for the Eden Canals have been passed under the Irrigation Act. There are, however, still some difficulties to be settled. In future all agreements for the supply of water will be executed under the Irrigation Act.

REVENUE ESTABLISHMENT.

155. The cost of establishment employed on irrigation during the year was Rs. 2,378 against Rs. 1,536 in 1892-93.

MADHUBAN CANAL.

EXPENDITURE.

156. The expenditure on works and maintenance of this canal during the last five years are given below:—

PARTICULARS.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Works ...	2,957	6,236	...	...	...
Maintenance ...	3,257	2,011	7,300	7,093	5,943
Establishment ...	3,100	3,293	3,003	2,813	2,438
Tools and plant ...	23	287	203	126	2
Total ...	9,337	11,827	10,506	10,032	8,383

The Teur weir was seriously damaged during the year by a series of heavy floods which came down the Teur river. The flood of the 13th August rose two feet higher than any previously recorded flood. It topped the left bank above the weir and did considerable damage to the wingwall and apron of the weir. The canal banks were damaged in several places by floods due to heavy local rainfall. The irrigation of the year was considerably less than that of the previous year. Up to the end of May 2,724 acres were irrigated, when owing to a pentiful and seasonable rainfall the demand for water ceased and none was supplied again till January 1894, when only 347 acres of rabi and poppy were irrigated.

No revenue is derived from the canal.

MISCELLANEOUS RECEIPTS.

The miscellaneous receipts were Rs. 163 against Rs. 92 in 1892-93.

The areas irrigated during the last three years are shown below:— IRRIGATION.

Nature of crop.	1891-92.	1892-93.	1893-94.
1	2	3	4
	Acres.	Acres.	Acres.
Kharif	2,539	4,895	2,710
Rabi	495	150	46
Poppy	552	734	301
Other crops ...	...	640	14
Total ...	3,586	6,400	3,071

GENERAL RESULTS.

157. The net results of the year 1893-94, compared with those of the previous year, are shown below:— NET REVENUE.

PARTICULARS.	Receipts from all sources.	Working expenses, including refunds of revenue. (Direct and indirect charges.)	Profit or loss.
1	2	3	4
MAJOR IRRIGATION WORKS.	Rs.	Rs.	Rs.
1892-93	18,87,670	14,89,716	+3,97,954
1893-94	16,72,626	15,48,765	+1,23,861
MINOR WORKS AND NAVIGATION.			
For which Capital and Revenue accounts are kept.			
1892-93	5,46,751	3,46,036	+2,00,715
1893-94	5,25,348	3,93,423	+1,31,925
For which only Revenue accounts are kept.			
1892-93	1,65,538	1,30,293	+35,245
1893-94	1,71,252	1,46,658	+24,594
For which neither Capital nor Revenue accounts are kept.			
1892-93	31,276	47,262	−15,986
1893-94	36,687	59,377	−22,690
Total { 1892-93 ...	26,31,235	20,13,307	+6,17,928
Total { 1893-94 ...	24,05,913	21,48,223	+2,57,690

The actual receipts exceeded the figures of the revised Budget estimates by Rs. 1,15,913, while the expenses were only Rs. 47,112 more than the provision therein made.

158. Compared with 1892-93 the net result of the Major Irrigation Works reckoned on earnings, that is, on assessed revenue instead of on actual receipts, was:— EARNINGS.

	Earnings.	Working expenses.	Profit or loss.
	Rs.	Rs.	Rs.
1892-93 ...	16,13,532	14,89,716	+1,23,816
1893-94 ...	14,75,861	15,48,765	— 73,404

The expenditure was considerably over the average owing to the extensive damage caused by the cyclone of 1892 and floods of 1892 and 1893.

The revenue from Minor Works and Navigation is derived mainly from tollage receipts.

ARREARS. 159. The following summary shows the progress in the recovery of water-rates during the year:—

CANALS.	Outstanding on 1st April 1893.	Demand of 1893-94.	Collected or adjusted.	Outstanding on 1st April 1894.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Orissa Canals	89,816	1,90,824	2,17,290	63,350
Midnapore Canal	48,567	1,30,111	1,71,651	7,027
Sone Canals	87,790	8,53,161	8,39,093	1,01,858
Total ...	2,26,173	11,74,096	12,28,034	1,72,235

VALUE OF CROPS. 160. The approximate value of crops irrigated by Major Irrigation Works during the last two years is shown below:—

CANALS.	1892-93.		1893-94.	
	Area irrigated.	Value of crops.	Area irrigated.	Value of crops.
1	2	3	4	5
	Acres.	Rs.	Acres.	Rs.
Orissa Canals	160,952	42,12,253	1,03 526	32,05,156
Midnapore Canal	91,217	22,80,425	85,763	26 35,305
Sone Canals	410,761	1,58,91,273	3,66,776	1,22.10,325
Total ...	6,62,930	2,23,83,951	5,56,065	1,80,50,786

The average value per acre of the various crops irrigated has decreased from Rs. 33 7 to Rs. 32·4.

DATE FOR SUBMISSION OF REPORTS. 161. The date fixed for the submission of revenue reports to the office of the Chief Engineer is the 5th September. The dates when the different reports were received are shown below:—

		In 1893.	In 1894.
Orissa Circle ...	Deputy Collector's report through Commissioner	13th October.	8th September.
	Superintending Engineer's report	5th September.	5th ditto.
South-Western Circle	Deputy Collector's report through Commissioner	21st ditto.	5th October.
	Superintending Engineer's report	6th ditto.	6th September.
Sone Circle ...	Deputy Collector's report through Commissioner	7th ditto.	8th ditto.
	Superintending Engineer's report	7th ditto.	3rd ditto.

All the reports were punctual, excepting that of the Deputy Collector, Revenue Division, Midnapore Canal, which was not received from the Commissioner of Burdwan until the 5th October 1894. The delay was in the office of the Superintending Engineer, who received the report in the middle of August.

162. The year has been one of a disappointing character so far as irrigation is concerned, the heavy and seasonable rainfall rendering canal water in many places not necessary. The cyclone of May 1893 did much damage to the canals in the Orissa and South-Western Circles, and in the latter circle the floods of

June also caused injuries to the works, which resulted in increased expenditure on repairs. The revenue derived from the canals was, owing to the diminished irrigation and the increased expenditure on maintenance, less than in the preceding year, and in some cases less than usual. In the body of the note the various items of which the expenses are made up have been subjected to a careful scrutiny. The necessity of economy, more especially as the year now current has also been one of plentiful rainfall and consequently diminished return, is obvious. The matter has received attention, but it is clear that expenditure has been incurred in the Nadia Rivers Division which led to no useful result, and that in the Sone Circle, more especially in the Arrah Division, there is a tendency to keep up the smaller distributaries and works to an unnecessarily high standard. In the latter circle as the whole area for which water can be given comes under long lease, some reduction in the revenue establishment should be practicable. A beginning in this direction has been made by reducing the rates of commission paid to headmen. The discovery of extensive frauds, committed however mainly in past years, by subordinates of the Revenue Division, has been followed by the trial and conviction of one of the circle officers. Alterations in the system of accounts have been made which will enable inspecting officers to check the accounts on the spot, and it is chiefly from their vigilance that it is hoped such occurrences in future will be rendered impracticable. The reduction, to almost a nominal figure, of the arrear balances in the Midnapore Revenue Division reflects great credit on Babu Raj Mohun Chuckerbutty, the Deputy Collector in charge. Mr. R. B. Buckley, the Superintending Engineer of the Sone Circle, has by the institution of irrigation conferences and other measures done much to further improve the administration of the Sone Circle: his efforts have resulted in the disappearance of the shortcomings noticed in the Resolution of the Lieutenant-Governor on last year's reports. Credit is due to the Engineers of the Orissa Circle and to the Deputy Collector in charge of the Revenue subdivision for the careful and sympathetic manner in which the new system of irrigation has been worked there.

163. The tours of officers have in all cases come up to the standard laid down by Government, but though there is considerable improvement on last year all the offices were not inspected. This is especially the case in the Sone Circle, where only two out of six divisional offices were inspected by the Superintending Engineer during the year. He, however, inspected more than the usual number of subdivisional offices. In the Orissa Circle the Superintending Engineer inspected every divisional office, and in the South-Western Circle the Superintending Engineer inspected all the divisional offices except one, which he inspected shortly after the close of the year.

C. W. ODLING,

The 9th November 1894. *Chief Engineer.*

IA.

STATEMENT OF CANALS IN THE PROVINCE OF BENGAL DURING THE YEAR 1893-94.

* The area 5,000 acres) commanded by the Sasaram distributary has been added.

(*a*) Rupees 19,58,356 sanctioned for direct outlay on the Orissa Project from 1st April 1890 to date of closing of construction estimate on 31st March 1895—*vide* Government of India, Public Works Department, letter No 2981., dated 8th December 1893. From 1890-91 to 18 3-94 Rs. 14,06,767 have been expended out of this amount.

(*b*) and (*c*) The estimates for the Midnapore and Hijili Tidal Canals, respectively, having been withdrawn and closed, the figures shown are the totals of the old and fresh sanctions.

(*d*) Sanction to the construction estimate for the Sone Project expired on 31st March 1891. The expenditure from 1st April 1891 is chargeable against the schedule of works amounting to Rs. 7,05,707 for direct outlay and Rs. 16,306 for indirect outlay sanctioned in Government of India, Public Works Department letter, No. 61., dated 6th January 1893.

(*e*) There is no general sanctioned estimate for this project.

(*f*) Includes Rs. 8,66,000 expended from Famine Relief Funds.

(*g*) This length is that of the Calcutta and new canals with 20 miles of Khorapukur khal. The Eastern Canals are 216 miles in length.

* Cannot be filled in, as the payment is partly for water supplied for the manufacture of indigo.

Note A:—In this table the water-rates shown as assessed during the year are the amounts for which occupiers have rendered themselves liable in return for canal water supplied during the year, and include some demands which were not legally recoverable, and others of which the assessment papers were not completed till after the close of the year.

Note B.—Refunds of revenue have been deducted from "Gross assessed revenue from all sources."

25th October to 25th March.	Water supplied for all crops including sugarcane from distributaries or parts of distributaries from which rabi irrigation only is allowed.	1 8 0	0 15 0	0 1 6	1 0 0	0 10 0	0 1 0

Schedule No. IV.

Season Leases (Hot weather).

	Flow or Lift.		
	Per acre.	Per bigha.	Per tenth of a bigha.
1	2	3	4
	Rs. A. P.	Rs. A. P.	Rs. A. P.
For water supplied between the 25th March and the 25th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	4 0 0	2 8 0	0 4 0
When water can only be supplied for a part of the season, for each watering.	1 8 0	0 15 0	0 1 6

In the case of charges under schedules I to IV, any smaller area than one-tenth of a bigha will be charged as one-tenth. The bigah contains 27,225 square feet.

Schedule No. V.

For water supplied by volume in the kharif season.

For water supplied between the 1st of September and the 31st October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

Schedule No. VI.

For water supplied by volume to fill aharas.

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less then twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

	Aus. Srs.	*Aman.* Srs.	
Head-quarters	18	15	per rupee.
Fenny	20	17	

25	Chittagong „ 24, '94	Nil	Weather—seasonable. Harvesting of early *aman* and ploughing for winter crops going on. Prospects fair. Prices continue normal. Water and fodder sufficient.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR.			
PATNA DIVISION.			
26	Patna — Nov. 24, '94	Nil	Weather—clear and cool. Paddy being harvested. Sowing of *rabi* and poppy going on. Poppy already sown is germinating well. Common rice selling at— Sadar ... ... 15 / Barh ... ... 12½ / Bihar ... ... 17 / Dinapur ... ... 11 to 14½ — Srs. per rupee.
27	Gaya — „ 24, '94	Nil	Weather—cold and seasonable. Harvesting of paddy and pressing of sugarcane in progress. Sowing of *rabi* approaching completion. Price of rice in Nawada 19½ seers per rupee—above the normal rate. At Sadar and Aurangabad it is about normal. Fodder and water-supply ample.
	Nawada ...	Nil	
	Jahanabad ...	Nil	
	Aurangabad ...	Nil	
28	Shahabad — „ 24, '94	Nil	Weather—seasonable. Harvesting of winter rice in progress. *Rabi* sowings going on, but still backward.
29	Saran — „ 24, '94	Nil	Weather—seasonable. Occasionally cloudy for the last two days. Harvesting of paddy commenced. *Rabi* sowings rapidly going on. Poppy sowings going on and germination in high land excellent; low lands yet unfit for receiving seed, and insufficient preparation will have bad effect on the crop. Fodder and water plentiful. Prices of common rice :— Chapra ... ... Srs. c. 16 0 / Siwan ... ... 15 3 / Gopalganj ... ... 15 8 — per rupee.
	Siwan ...	Nil	
	Gopalganj ...	Nil	
30	Champaran — „ 24, '94	Nil	Weather—seasonable. *Aghani* paddy ripening. *Rabi* and poppy cultivation in progress; seeds germinating well. Common rice sells at 18 seers per rupee. Fodder and water sufficient.
31	Muzaffarpur — „ 24, '94	Nil	Weather—seasonable. Sowing of *rabi* and poppy continues. Prospects of standing crops favourable. Fodder and water plentiful. Common rice selling at 12½ seers per rupee.
	Hajipur ...	Nil	
	Sitamarhi ...	Nil	
32	Darbhanga — 24, '94	Nil	Weather—bright and cool. *Rabi* sowings in progress. Paddy doing well and coming into maturity with favourable prospects. Poppy sowings partially commenced. Fodder and water sufficient. Prices almost stationary.
BHAGALPUR DIVISION.			
33	Monghyr — „ 24, '94	Nil	Weather—clear and seasonably cool mornings and nights. *Rabi*, poppy and oilseeds are still being sown, and the seedlings are growing well. Paddy is ripening, and harvesting has commenced in some places. Prospects of standing crop favourable. Sugarcane is being harvested. No cattle-disease. Sufficient fodder and water. Prices of common rice :— Sadar ... ... 11 to 18 / Begusarai ... ... 16 / Jamui ... ... 15½ — Srs. per rupee.
	Begusarai ...	Nil	
	Jamui ...	Nil	
34	Bhagalpur — „ 24, '94	Nil	Weather—sensibly colder with heavy dews. Harvesting of winter rice has begun. The results, though not so good as was anticipated owing to damage by rain, are very satisfactory. Indigo sowings are nearly completed, and those of mustard, linseed, wheat, gram and other *rabi* crops are in full swing. Fodder and water are abundant. Price of common rice stationary, averaging 15 seers per rupee.
	Banka ...	Nil	
	Madhipura ...	Nil	
	Supaul ...	Nil	
35	Purnea — „ 24, '94	Nil	Weather—seasonable. Land is being prepared for *rabi*, and that crop and tobacco and indigo are being sown. Early *aghani* rice is being cut; an outturn of 18 to 20 annas is expected. Prices normal. Common rice 14 to 20 seers per rupee. Fodder and water sufficient.
	Kishanganj ...	Nil	
	Araria ...	Nil	

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR—*concld.*			
BHAGALPUR DIVN.—*concld.* 36	Malda Nov. 24, '94	Nil	Weather—fair and cool. Winter paddy is being reaped in some places; an average outturn is expected. Sowing of *rabi* crops not yet finished. Price of ordinary rice varies from 12 to 19½ seers per rupee. Fodder and water ample.
37	Sonthal Parganas „ 24, '94	Nil	Weather—bright and cool. Prospects good. Harvest of paddy proceeds. Fodder and water sufficient. Prices stationary.
	Deoghur ...	Nil	
	Godda ...	Nil	
	Jamtara ..	Nil	
	Pakour ...	Nil	
	Rajmahal ...	Nil	
ORISSA.			
ORISSA DIVN. 38	Cuttack „ 24, '94	Nil	Weather—seasonable. *Sarad* harvest in progress. *Rabi* crops doing well. Condition of cattle good. Fodder sufficient. Common rice sells at— Srs. c. Srs. c. Sadar ... .. 10 8 to 17 1; Jajpur ... ... 13 2 to 16 4; Kendrapara ... ... 13 2 to 20 0; Banki ... ... 19 11 — per rupee.
39	Balasore „ 24, '94	Nil	Weather—cold and seasonable. Early *sarad* is being harvested. Late *sarad* doing well. Sowing of *dalua* rice has commenced. Rice sells at— Srs. Balasore ... ... 18; Bhadrak ... ... 20; Chandbali ... ... 16; Dhamnagar ... ... 16 — per rupee. Fodder and water for cattle sufficient.
40	Puri „ 22, '94	Nil	Weather—seasonable. *Sarad* is in ear and in places almost ripe. *Laghu* is being reaped. State of miscellaneous crops good. Ploughing for *dalua* rice going on. Rice sells from 14½ to 21 seers a rupee.
	CHOTA NAGPUR.		
	South-West Frontier Agency.		
CHOTA NAGPUR DIVN. 41	Hazaribagh Nov. 24, '94	Nil	Weather—clear and cold. Paddy being harvested and *rabi* being sown. Prospects good all round. Outturn of paddy 16 annas. Common rice selling from 15 to 20 seers per rupee.
	Giridi ..	Nil	
42	Lohardaga „ 24, '94	Nil	Weather—seasonable. Sowing of potatoes finished. Reaping of winter paddy continues. Common rice selling at 18 seers per rupee. Fodder and water sufficient.
43	Palamau „ 22, '94	Nil	Weather—seasonable. Harvesting of paddy has commenced with an excellent outturn. *Rabi* sowings nearly finished; prospects excellent. Rice selling from 14 to 28½ seers per rupee. Fodder and water sufficient.
44	Manbhum „ 24, '94	Nil	Weather—seasonable. Reaping of winter rice going on. *Rabi* crops still being sown. Price of common rice (old and new) 12 to 24 seers per rupee.
	Gobindpur ...	Nil	
45	Singhbhum „ 24, '94	Nil	Weather—seasonable. Harvesting of paddy continues with good outturn. Prospect of other standing crops good. Price of rice 14 to 24 seers per rupee.

The mean pressure of the seven days	Inches.	30·045
The average pressure of the corresponding period for 24 years, Surveyor-General's Office		29·993
The total number of hours of bright sunshine	Hours.	62·8
The maximum possible number of hours of sunshine		76·6
The mean temperature of the seven days	°	69·5
The average temperature of the corresponding period for 24 years, Surveyor-General's Office		72 9
The extreme variation of temperature		20·4
The maximum temperature		80·6
The highest velocity of the wind in one hour	Miles.	7
The mean relative humidity	%	77
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office		70
The total fall of rain from 18th to 24th November 1894	Inches.	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office		0·01
The total fall from 1st January to 24th November 1894		48·58
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·45

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observation made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ⊖ ⊖ fog.

N.B.—In the weekly abstract from 16th to 22nd September 1894 read 79·2 for 79·4 as the minimum temperature of the 22nd September 1894; in that from 30th September to 6th October 1894, read SSE for ESS as a prevailing direction of wind of the 5th October 1894; and in that from 21st to 27th October 1894, read 0·11 for 0·1 as rain of the 25th October 1894.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Calcutta, the 26th November 1894.

C. LITTLE,
For Meteorological Reporter to the Govt. of India.

* Mean of 4 days. | † Mean of 6 days.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the humidity of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 24th of November 1894.

DISTRICT OBSERVATIONS.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th October 1894. Mean for district.	Since 16th October 1894. Normal mean.	Since 16th October 1894. Variation.	District.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0.10 inch of rain has fallen.

CALCUTTA, *the 27th November* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 24TH OF NOVEMBER 1894.

DURING the whole of the previous week, fine settled weather of ordinary north-east monsoon character prevailed in Bengal, and similar weather has obtained throughout the present week. Slight changes only have occurred from day to day, but they have been of the small oscillatory character such as usually occur during fine settled weather. On the 18th, pressure had fallen briskly, the fall being largest at the western stations, where it exceeded a tenth of an inch, but still pressure was in excess by small to moderate amounts; temperature, on the other hand, was usually in small defect. On the 19th a further slow fall of pressure occurred, while temperature was generally rising. On this and the previous day though weather continued quite fine and settled in the plains, yet in the hills weather was slightly disturbed, and on the 19th, Gnatong reported having had a light snowstorm. On the 20th the pressure changes were very small, though at most stations a slight increase had occurred, while, on the other hand, temperature was falling at many stations. Again, though weather continued fine in the plains, another snowstorm with about 2 inches of snow was reported at Gnatong. On the 21st, the increase of pressure had continued more briskly, and pressure was becoming decidedly in excess; temperature, on the other hand, had fallen at the majority of stations, and had become from 1° to 2° in defect. The slightly disturbed conditions in the hills were less pronounced on this day, and no storms or rain of any kind were reported. On the 22nd the increase of pressure continued, while the temperature changes were small and variable. The disturbed conditions in the hills had again become more pronounced, and Gnatong reported a snowstorm with about an inch of snow. On the 23rd the increase of pressure ceased, and a slight fall commenced, though pressure was still largely in excess, the usual excess equalling 0·12". Temperature had also commenced to fall rather more briskly at many stations. Weather on this day appeared to have become more settled, and there were no storms in the hills. On the 24th the fall of pressure continued, though pressure was still in excess by from 0·06" to 0·07". Temperature had again fallen, and the mean temperature was usually in defect by about 1° to 3°.

Throughout the week a steady dry northerly wind current, usually varying between north-easterly and north-westerly, has been blowing over the whole province; skies have been almost cloudless except at the stations in the hills, and there has been a complete absence of rain, except at some of the stations in the hills, where slightly disturbed weather with light rain or snow has been reported.

Pressure has again been in excess practically throughout the week, and the usual average excess has equalled from 0·06" to 0·09".

Temperature has been below the normal for the week, and the defect in the mean temperature has equalled 1·1°. This defect has been largest in East Bengal, while in Orissa and Chota Nagpur the temperature has been more nearly normal.

The actual temperatures registered during the week and their variations from the normal temperature of the present season are clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations, it will be seen, have been considerable in the day or maximum temperature, which have been very considerably in defect:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 24th of November 1894.

	Normal mean maximum temperature for the week ending 24th November.	Actual mean maximum temperature for the week ending 24th November 1894.	Variation of actual mean from the normal. Rainfall.—Except for a few local falls of rain or snow in the hills the whole province has been rainless for the week.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 24th of November 1894:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

„ Kankrachour.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5321L.R.

The 3rd December 1894.—Under the powers conferred upon him by section 101, sub-section (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and record of rights prepared in respect of all lands included within the boundaries of the Government char Iswar Roy, Part I, in the district of Noakhali.

The particulars to be recorded in the survey and record of rights shall be the following :—

(*a*) The name of each proprietor, with the character and extent of his interest. The situation, quantity and boundaries of proprietors' private lands, as defined in Chapter XI of the Act.
(*b*) The name of each tenant.
(*c*) The class to which he belongs; that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.
(*d*) The situation, quantity and boundaries of the land held by him.
(*e*) The name of his landlord.
(*f*) The rent payable.
(*g*) The mode in which the rent has been fixed, whether by contract, by order of a court, or otherwise.
(*h*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
(*i*) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4663*J.*—*The 3rd December* 1894.—In exercise of the powers conferred by section 7 of the Indian Explosives Act, 1884, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased, in substitution of No. 27 of the rules published in notification dated the 9th July 1887, at page 620, Part I of the *Calcutta Gazette* of the 13th July 1887, to make the following rule :—

The officers herein undermentioned are authorised, within the areas respectively specified below—

(*a*) to enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed, used, sold, transported, or imported under a license granted under the Indian Explosives Act, 1884, or in which they have reason to believe that an explosive has been or is being manufactured, possessed, used, sold, transported or imported in contravention of that Act, or of the rules made under that Act;

(*b*) to search for explosives therein;

(*c*) to take samples of any explosive found therein, on payment of the value thereof; and

(*d*) at their discretion to seize, detain, remove, and, if necessary for the public safety, destroy any explosive found therein, in respect of which there may be reason to believe that the provisions of the said Act or of the rules made under the said Act have been contravened.

Areas.	*Officers.*
In all parts of Bengal ...	The Superintendent of the Gunpowder Factory, Ishapur. The Assistant Superintendent of the Gunpowder Factory, Ishapur.
Within their respective districts ...	All District Magistrates.
Within the areas respectively subject to their jurisdiction ...	All Magistrates subordinate to the District Magistrate.
In the town of Calcutta and its suburbs	The Commissioner of Police, Calcutta. All Police officers of rank not below that of Inspector if specially deputed in that behalf by the Commissioner of Police.

Provided that—

(1) Whenever the Superintendent or the Assistant Superintendent of the Gunpowder Factory, Ishapur, or any Magistrate subordinate to the District Magistrate seizes, detains or removes any such explosive, he shall report the fact to the District Magistrate.

(2) Neither the Superintendent nor the Assistant Superintendent of the said Factory, nor any Magistrate subordinate to the District Magistrate, shall destroy any such explosive without the previous sanction of the District Magistrate.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4701J.

The 30th November 1894.—It is hereby notified for general information that, in modification of the boundaries defined by the notifications dated the 28th May and 5th June 1880, published respectively in the *Calcutta Gazettes* of the 2nd and 9th June 1880, the following shall be the revised western boundary of the district of Hooghly and the revised southern and western boundary of the district of Howrah :—

Revised western boundary of the district of Hooghly.

The western boundary of the district of Hooghly shall remain the same as defined by the notification dated the 28th May 1880 from the village of Betramadhukanda-Beldanga southward to that of Thakurani Chak, both included in the district of Hooghly; thence the boundary follows the western bank of the Darkeswar river down to its junction with the Selye nadi and Rupnarain river; thence it crosses the Selye nadi and runs along the western bank of the Rupnarain river southward to the common boundary of the villages of Marelpona in district Hooghly and Bhatra in district Howrah.

Revised southern and western boundary of the district of Howrah.

Commencing from the confluence of the river Hooghly with the Rupnarain river, the boundary shall be the main channel of the Rupnarain river northward to Kola Hat in district Midnapore opposite the village Naopala in district Howrah; thence it shall be the western bank of the Rupnarain river up to the common boundary of the villages of Bhatra in district Howrah and Marelpona in district Hooghly.

N.B.—This boundary also forms the boundary between the districts of Howrah and Midnapore.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4679J.

The 29th November 1894.—It is hereby notified, under the provisions of section 15, Act V of 1861, that as the villages of Bhajnaha, Lachmipur, Bandar Jhula, Narayanpur, Majhaura, Pathrahi, Jhanjhputti, Basaniya, Balanpatti, Durgapatti, Kalyanputti, Jhanghriputti, and Sisoar, in taluka Laheri, pargana Jabdi, in thana Phulpara, in the district of Darbhanga, are still in a disturbed and dangerous state owing to the existence of disputes regarding possession of land, the Lieutenant-Governor sanctions the entertainment, for a further period of three months from the 1st October 1894, of the special police force of one Sub-Inspector, two head-constables and 20 constables sanctioned under Notification No. 4958J., dated the 27th November 1893, to be quartered in the above mentioned taluka for the purpose of keeping the peace there. The cost of the police force as noted below will be assessed on and levied from the inhabitants in proportion to their respective means.

Cost of special police from 1st October 1894 to 31st December 1894, three months—

				Rs.
1 5th grade Sub-Inspector	...	...	30 × 3 =	90
2 4th grade Head-Constables	...	...	20 × 3 =	60

RAILWAY.

The 3rd December 1894.

No. 358.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for additional land required for the siding and wharf of the Borea Coal Company on the Salanpur-Jamgram section of the Toposi Extension, East Indian Railway, in the village of Salanpur, pargana Shergarh, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 22 bighas and 6·09 cottahs of standard measurement (corresponding to 7*a.* 1*r.* 19·74*p.*), bounded by a nick on the ground, is required within the aforesaid village of Salanpur.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894 and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

The 4th December 1894.

No. 363.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for staff quarters at Dhakuria station of the Eastern Bengal State Railway at mauza Dhakuria, pargana Khaspur, district 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 cottahs (eight cottahs) of standard measurement, bounded on the north by the Dhakuria road (Haltoo road), on the east by the Eastern Bengal State Railway line and station platform, on the south by land occupied by late Prosunno Kumar Tagore of Pathuriaghatta, Calcutta, and land occupied by Govinda Chunder Ghose of Dhakuria, and on the west by land occupied by Debnarayan Banerjee of Dhakuria, is required within the aforesaid mauza of Dhakuria.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

LOCAL COMMUNICATIONS.

The 4th December 1894.

No. 364.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dinajpur District Board for a public purpose, viz., for constructing a permanent bridge over the Tulai river on the 13th mile of road No. 19, Kishanganj road at Pareya and Gooroorgaon, pargana Bihinagar, thana Kotwali, district Dinajpur, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 9 chitaks and 1 cottah 4 chitaks of standard measurement, are required. The plan of the land may be inspected in the Dinajpur Collectorate Land Acquisition Department.

This declaration is made under the provisions of section 6 of Act I of 1894.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 29th November 1894.

Notification.—*No.* 352.—Babu Ram Dour Lall, Zilladar (Circle Officer), 2nd grade, Revenue Division, Sone Canals, having been convicted of criminal breach of trust as a public servant and sentenced to four years' rigorous imprisonment and a fine of Rs. 50, in default of payment to one year's further imprisonment, was dismissed from the service of Government on the 26th April 1894, and is declared to be incapable of serving Government in any capacity.

The descriptive roll of Babu Ram Dour Lall is given below :—

1	2	3	4	5	6
Name of the offender and that of his father.	Height and other descriptive and distinguishing marks.	Age.	Religion, caste and race.	Residence.	Occupation before dismissal.

The 3rd December 1894.

No. 355.—*Notification.*—The following notification, issued by the Government of India in the Public Works Department, is republished for information :—

No. 452, *dated the 28th November* 1894.—Mr. L. R. Fraser, Executive Engineer, 2nd grade, Bengal, has been permitted to retire from the service of Government, under the provisions of Public Works Department Resolution No. 2873G., dated 2nd November 1893, with effect from the forenoon of the 26th November 1894.

No. 356.—*Notification.*—Mr. O. S. Smith, Assistant Engineer, Gandak Division, is transferred in the interests of the public service to the Darjeeling Division, which he joined on the afternoon of the 18th October 1894.

C. W. ODLING,
Secretary to the Govt. of Bengal.

IRRIGATION DEPARTMENT,—BENGAL.

The 3rd December 1894.

No. 359.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a retired line of embankment at the 2nd and 3rd miles on the right bank of the river Bindhun in the village of Oosian, pargana Kodhar, zilla Puri, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4·75 acres, is required within the aforesaid village of Oosian, pargana Kodhar.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

No. 360.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a marginal embankment on the left bank of the Burra river, it is hereby declared that for the above purpose a piece of land, 4 miles 3 furlongs 220 feet long and averaging in width 41 feet, measuring 24 acres 2 roods, more or less, of standard measurement, commencing from mauza Bonira Anandapur, pargana Jajpur, passing through mauzas Uttereswar, Motabaj, Tipura, Bodyarajpur, Gopenuggar, Bidyadhurpur, Chainipur, and terminating at mauza Gurudaspur, pargana Jajpur, in the district of Cuttack, is required within the aforesaid villages.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

No. 361.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for diversion of the pass khal, Hidgellee Tidal Canal, Range II, situated in the villages of Monoharpur and Chiringipur, pargana Goomgar, zilla Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 20 bighas 6 cottahs 4 chitaks or 5,850 feet in length by 50 feet in breadth of the standard measurement, is required within the aforesaid villages of Monoharpur and Chiringipur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern, and supersedes declaration No. 155, dated the 1st May 1894.

No. 362.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for widening the Doonia khal, Hidjili Tidal Canal, Range II, situated in the villages of Chiringipur, Raipur, Chakpatna and Tetulbari, pargana Goomgar, zilla Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 25 bighas or 4,800 feet in length by 75 feet in breadth, of the standard measurement, is required within the aforesaid villages of Chiringipur, Raipur, Chakpatna and Tetulbari.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern, and supersedes declaration No. 156, dated the 1st May 1894.

C. W. ODLING,
Secy. to the Govt. of Bengal.

[Fourth Publication.]

The 13th November 1894.

No. 336.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following amended rule in supersession of the rule now in force in the revised water-rate rules for the Sone Canals :—

Present Rule.	*Proposed Rule.*
56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due, less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.	56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

C. W. ODLING,
Secretary to the Government of Bengal.

[Fifth Publication.]

IRRIGATION DEPARTMENT,—BENGAL.

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

O. W. ODLING,
Secy. to the Govt. of Bengal.

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

V.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred, unless existing appliances admit of it.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease.

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I. In all cases fractions of a *goont* shall be charged as a *goont*.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant s land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *tehsilalaida* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above conditions permits may be issued by *zilladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment, modified if necessary in accordance with rules 8, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application.

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant-Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the zilladars and distributing them.

VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.

VII.—In reporting to the zilladars any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle.

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes.

IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*.		
		Rs.	A.	P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November ...	3	0	0
II.	For water supplied for the irrigation of *dalua* rice ...	1	8	0
III.	For water supplied for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1	8	0

IV. For water supplied for the irrigation of linseed, oil-seed, and all pulses 1 0 0

V. For water supplied for the irrigation of sugarcane ... 5 0 0

VI. The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.

NOTE.—Water-rates due under item I shall be paidon or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhooya lands per man As.* 8. *Water to be supplied each year from the* 16*th June to the* 30*th November only, fractions of a goont to be charged as a goont.*

WE the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th of June 18 , and ending on the 30th November 18 . We agree to pay water-rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza . The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana , to collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant-Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

													Rs.	A.	P.	

APPENDIX II.

Application for granting water prior to issue of permit.

WE, the principal cultivators of mauza pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza in area about *mans*.

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water-rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below.

Dated 18 .

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. WE, whose names are attached, cultivators of mauza , pargana , apply for water to be supplied from the distributary of the canal, for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs.———per *mán* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant-Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the _____ of _____

Name of cultivator.	Description of crop.	Area more or less to be irrigated on máns and goonts.	Signature of cultivator.	Area found on measurement.		
				Máns.	Goonts.	Biswas.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

The 28th November 1894.

No. 112*Marine.*—It is hereby notified that, in the exercise of the power conferred on him by section 6, sub-section (1), clause (*a*) of the Indian Ports Act, 1889, as amended by Act V of 1891, the Lieutenant-Governor proposes to make the following rule for regulating the towing of vessels by steam-tugs in the port of Calcutta. The rule will be taken into consideration on the expiry of a month from the date of its publication in the Gazette, and His Honour will be glad to consider any suggestions or observations that may be made by any person concerning it within that period :—

"No vessel shall be moved within the port of Calcutta unless the steam-tug or other agency by which such vessel is to be moved shall, in the opinion of the Commissioners, be sufficient for the purpose."

The 29th November 1894.

No. 113*Marine.*—In exercise of the powers conferred upon him by section 22 of Act VI of 1884 (the Inland Steam Vessels Act), the Lieutenant-Governor is pleased to appoint the gentlemen named below for the purpose of examining the qualifications of persons desirous of obtaining certificates of competency as second-class master and serang of inland steam vessels. The examination will be held on Thursday, the 29th November 1894 :—

Examiners of candidates for certificates of competency as second-class master and serang of inland steam vessels.

Port Officer, Calcutta ... ... *President.*

Mr. W. R. Williams, Branch Pilot ... ...
Captain W. M. Reaks, Certificated Master under the Inland Steam Vessels Act ... ... } *Members.*

HIGH COURT NOTICE.

CIRCULAR ORDER

Issued by Authority of the High Court of Judicature at Fort William in Bengal.

CRIMINAL.

No. 4, *dated the* 20*th November* 1894.

After Rule I, Sub-Rule 1 (*a*), Chapter IV, page 162 of the Court's General Rules and Circular Orders (Criminal), *insert* the following:—

1. (*B*) It shall not be necessary to prepare a title page, table of contents, or order-sheet in the case of complaints dismissed under section 203 of the Code of Criminal Procedure in respect of which no enquiry is made under section 202 *ibid;* but such complaints (with the order passed thereon) shall be formed into weekly, monthly or quarterly bundles, as may be most convenient, and each such bundle shall constitute one record, to which shall be attached a title page and table of contents. Of each bundle or record thus formed a single entry shall be made in the list which accompanies all records sent to the district record-room. These bundles shall be preserved for one year from the date of the latest order in each.

Published in the *Calcutta Gazette* of the 7th November 1894, Part I, page 1137, and in the *Assam Gazette* of the 10th idem, Part III, page 1111.

Sheriff's Office, the 19th September 1894.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1894 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the 5th day of December next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

W. GRIFFITHS, *Registrar.*

SENATE HOUSE, *the 4th December* 1894.

NOTIFICATION.

THE following revised course of studies for the Middle Scholarship Examination of 1896, is published in substitution for that notified in the *Calcutta Gazette* of the 26th November, 1894.

COURSE FOR THE MIDDLE SCHOLARSHIP EXAMINATION OF 1896.

A.—MIDDLE ENGLISH EXAMINATION—

I.—*Language.*—The following text-books in languages have been selected for the examination of October 1896:—

English—

Lethbridge's Easy Selections (edition of 1889) from the Massacre of Glencoe (page 187) to the end of the book.

Bengali—

Prose—Chhatrajiban by Brajanath Biswas (2nd edition) omitting pp. 81—117.	For the Presidency Circle, Burdwan Division and Bihar Circle.
Poetry—Mitra Bilap by Rajkrishna Mookerjea (8th edition) omitting pp. 31—47.	
Prose—Sita by Abinas Chandra Das, (school edition) up to page 135.	For the Eastern Circle and Rajshahi Division.
Poetry—Kavigatha by Dwarka Nath Ganguli (10th edition) up to page 63.	

In the poetry paper will be included essay-writing and questions in composition.

Urdu (for Muhammadan candidates only, alternatively with Bengali)—

Dastur-ul-Amal by Syed Ali Sher; Intikhab Nayab, by Suraj Mal.

In most of the following subjects no text-books are prescribed, but school-managers are restricted to the use of the books specified in the authorised lists, dated 8th July 1891, 10th September 1892, and 8th September 1893. *No book not included in those lists, must be introduced into any school, aided or unaided, that prepares candidates for this examination:—*

English Grammar—

Parsing, and general questions in Etymology and Syntax arising out of passages taken from the text-books.

Bengali Grammar—

Questions on Sandhi, Samasa, Karak, Stritva, Taddhita and Kridanta arising out of the text-books.

II.—*History*—

(1) History of India; Hindu, Muhammadan, and British periods.

Geography—

(1) General Geography, with special knowledge of India.

(2) Physical character of the earth's crust; internal terrestrial phenomena, including volcanic phenomena; the sea; the atmosphere; evaporation and condensation; action of rain, springs and rivers; distribution of organic life.

III.—*Arithmetic*—

(1) Native Arithmetic; Bighakali, Jamabandi, Mankasa, Karikasa with Makra, Sonakasa, Mash Mahina.

(2) European Arithmetic, excluding stocks and cube root.

IV.—*Geometry and Mensuration*—

(1) Euclid, Book I, with deductions.

(2) Mensuration—Lines, rectilineal figures with their areas, properties of circles, their areas.

V.—*Science.*—One of the following subjects in addition to Sanitary Science:—

(*a*) *Elements of Botany*—

Characters and functions of the root, stem, leaves and different parts of the flower, illustrated by specimens of common flowering plants; structure of wood, bark and pith; cells and vessels; food of plants, and the manner in which a plant grows, including the phenomena of germination.

(*b*) *Elements of Chemistry*—

Elementary and compound bodies, their combination and decomposition; preparation and properties of oxygen, hydrogen, nitrogen and chlorine; air, water, ammonia; combination by weight and volume; carbon and its chief inorganic compounds; coal—gas; phosphorus; sulphur; preparation and properties of hydrochloric, nitric and sulphuric acids.

(*c*) *Elements of Natural Philosophy*—

Properties of matter; different kinds of force; laws of motion; general properties of solids, liquids, and gases; heat and its effects.

In Sanitary Science the following text-books have been prescribed by Government:—

(1) Bengali Translation of "The Way to Health" (1 anna); and

(2) Swasthyaraksha, by Radhika Prasanna Mukherjea (6 annas).

B.—MIDDLE VERNACULAR EXAMINATION—

The same as the Middle English, with the exception of English Reader and English Grammar.

C.—MIDDLE SCHOLARSHIP EXAMINATION FOR GIRLS—

Female candidates have the option of substituting the following for Geometry and Mensuration, and Botany, Chemistry, or Natural Philosophy:—

(*a*) Cutting and making of pirans, pyjamas, and chapkans.

(*b*) Knitting, darning and embroidery.

CALCUTTA,
The 29th November 1894.

A. CROFT,
Director of Public Instruction.

Civil Engineering College, Sibpur.

Apprentice Department.

THE date for admission to this Department is 4th February 1895.

Candidates must be at least 15 and not more than 17 years of age.

They must have passed Standard VII of the Code for European Schools, or the University Entrance Examination in English and Mathematics. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January 1895. No applications will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

* Rupees 5 per mensem.

There will be three vacancies on the free list for Christian apprentices in February next and thirteen on the reduced* fee list.

For natives there will be at least 12 vacancies, possibly more, on the reduced† fee list.

† Rupees 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR;
The 22nd November 1894.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2149B.

	Total	..	18,120	19,140	37,260

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the

year 1893-94, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

N. K. BOSE,

Offg. Secretary.

FORT WILLIAM, *the 21st November* 1894.

No. 2186B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1892-93 and 1893-94, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Thursday, the 3rd January 1895, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of 909 chests of season 1892-93 and 601 chests of season 1893-94 ...	1,510
Ditto ditto at the Ghazipur Factory, consisting of 371 chests of season 1892-93 and 1,224 chests of season 1893-94 ...	1,595
Total ...	3,105

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 21st November 1894, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th January 1895 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th January 1895, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 18th January 1895.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1895 about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

PART IA.

Orders and Notifications by the Government of India, &c.

[Reprinted from the "Gazette of India."]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

ESTABLISHMENTS.

The 30th November 1894.

No. 668.—Mr. J. Crawfurd has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 5th November 1894.

No. 673.—The services of Mr. E. P. Chapman, I.C.S., Assistant Magistrate and Collector, Bengal, are placed at the disposal of the Foreign Department.

EXAMINATIONS.

The 29th November 1894.

No. 390.—The following Regulations respecting the examination of candidates for the Civil Service of India, to be held in August 1895, are published for general information:—

Copies of these Regulations may be obtained on application to the Secretary to the Government of India Home Department.

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

An open Competitive Examination for admission to the Civil Service of India will be held in London, under the subjoined Regulations, commencing on the 1st August 1895.

The number of persons to be selected at this Examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received, on or before the 31*st May* 1895, *an application on the prescribed form, accompanied by evidence on the points mentioned in Regulation* 2, *and by a list of the subjects in which the Candidate desires to be examined. Evidence of health and character must bear date not earlier than* 1*st May* 1895.

The Order for admission to the Examination will be posted on the 18*th July* 1895, *to the address given on the Form of Application. It will contain instructions as to the time and place at which candidates will be required to attend, and as to the manner in which the fee (the amount of which is at present under consideration) is to be paid.*

CIVIL SERVICE COMMISSION,
24th October 1894.

REGULATIONS.

*** *The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year :*

1. An Examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) that he is a natural-born subject of Her Majesty ;

(ii) that his age will be above twenty-one years and under twenty-three years on the 1st April in the year in which the Examination is to be held ;

[*N.B.—In the case of natives of India, it will be necessary for a Candidate to obtain a certificate of age and nationality signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.*]

(iii) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India;

(iv) that he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee, will be admitted to the Examination. The Commissioners may, however, in their discretion at any time prior to the grant of the Certificate of qualification hereinafter referred to, institute such further enquiries as they may deem necessary ; and if the result of such enquiries, in the case of any candidate, should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a probationer.

4. The Open Competitive Examination will take place only in the following branches of knowledge :—

	Marks.
English Composition	500
Sanskrit Language and Literature	500
Arabic ditto ditto	500
Greek ditto ditto	750
Latin ditto ditto	750
English ditto ditto (including special period named by the Commissioners) (*a*)	500
French Language and Literature	500
German ditto ditto	500
Mathematics (Pure and Applied)	900
Advanced Mathematical subjects (Pure and Applied)	900
Natural Science, *i.e.*, any number not exceeding *three* of the following subjects :	
Elementary Chemistry and Elementary Physics ... 600	
(*N.B.*—This subject may not be taken up by those who offer either Higher Chemistry or Higher Physics.)	
Higher Chemistry 600	
Higher Physics ... ... 600 }	1,800
Geology 600	
Botany 600	
Zoology 600	
Animal Physiology 600	
Greek History (Ancient, including Constitution)	400
Roman History (ditto ditto)	400
English History	500
General Modern History (period to be selected by Candidates from list in the syllabus issued by the Commissioners ; one period at least to include Indian History) (*b*)	500
Logic and Mental Philosophy (Ancient and Modern)	400
Moral Philosophy (Ancient and Modern)	400
Political Economy and Economic History	500
Political Science (including Analytical Jurisprudence, the Early History of Institutions, and Theory of Legislation) ...	500
Roman Law	500
English Law. Under the head of "English Law" shall be included the following subjects, viz.:—(1) Law of Contract ; (2) Law of Evidence ; (3) Law of the Constitution ; (4) Criminal Law ; (5) Law of Real Property ; and of these five subjects Candidates shall be at liberty to offer any four, but not more than four	500

(*a*) In the syllabus referred to in Note (*c*).

(*b*) *See* Note (*c*).

Candidates are at liberty to name any or all of these branches of knowledge (*a*). No subjects are obligatory.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (*b*) in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A Candidate entitled to be deemed a selected Candidate, but declining to accept the nomination as such, which may be offered to him, will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for one year, at the end of which time they will be examined with a view of testing their progress in the following subjects (*c*):—

		Marks.
Compulsory—		
1.	Indian Penal Code and Criminal Procedure Code, 1882	500
2.	The Principal Vernacular Language of the Province to which the Candidate is assigned	400
3.	History of British India	300
Optional—[Not more than two of these subjects]		
1.	The Code of Civil Procedure, 1882, and the Indian Contract Act, 1872	450
2.	Hindu and Muhammadan Law	350
*3.	Sanskrit	400
*4.	Arabic	400
5.	Persian	400
*6.	Political Economy	400

* These subjects may not be offered by any Candidate who has offered them at the open competition.

In this Examination, as in the open competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the open competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination*."

10. The selected Candidates will also be tested during their probation as to their proficiency in riding.

The examinations in riding will be held as follows:—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination, Candidates who may fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback, shall receive a Certificate which shall entitle them to be credited with 200 marks to be added to their marks in the Final Examination.

(3) Candidates who fail to obtain this Certificate, but who gain a Certificate of minimum proficiency in riding, will be allowed to proceed to India, but will be subjected on their arrival to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government. A Candidate who fails at the end of the year of probation to gain at least the Certificate of minimum proficiency in riding will be liable to have his name removed from the list of selected Candidates.

(*a*) A syllabus, defining in general terms the character of the Examination in the various subjects may be obtained on application to the Secretary, Civil Service Commission.

(*b*) Marks assigned in English Composition and Mathematics will be subject to no deduction. Each science will, for the purpose of deduction, be treated as a separate subject.

(*c*) Instructions showing the extent of the Examination will be issued to the successful Candidates as soon as possible after the result of the open competition is declared.

11. The selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that Service.

12. Persons desirous to be admitted as Candidates must apply on forms which may be obtained from "The Secretary, Civil Service Commission, London, S.W.," at any time after the 1st December, in the year previous to that in which the Examination is to be held. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 31st May in the year in which the examination is to be held.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

(i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to £100 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's, and Aberdeen; Victoria University, Manchester; University College, London; and King's College, London; provided such Candidates shall have passed the Final Examination to the satisfaction of the Civil Service Commissioners, and shall have conducted themselves well and complied with such rules as may be laid down for the guidance of Selected Candidates. The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.*

(iii) *The allowance of £100 will not be paid to any Selected Candidate until he has been certified by the Civil Service Commissioners to be entitled to be appointed to the Civil Service of India; and every Certificated Candidate must, before receiving his allowance, give a written undertaking to refund the amount in the event of his failing to proceed to India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Selected Candidates will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates rejected at the Final Examination held in any year will in no case be allowed to present themselves for re-examination.*

[Copies of this Application Form may be obtained on application to the Secretary to the Government of India, Home Department.]

CIVIL SERVICE OF INDIA.

OPEN COMPETITION OF 1895.

FORM OF APPLICATION; TO BE FILLED UP BY THE CANDIDATE HIMSELF.

*** *The order for admission to the Examination will not be issued unless this Form, filled up by the Candidate himself, is received at the Office of the Civil Service Commission on or before the 31st May 1895.*

*Date*_____

SIR,

Being desirous to offer myself as a Candidate at the Examination for the Civil Service of India, which is appointed to commence on the 1st of August 1895, I transmit herewith, as required by the Regulations—

(1) If a General Register Office Certificate cannot be obtained, the instructions printed on the other side will show what evidence should be supplied. If evidence is already in the hands of the Commissioners, strike out "A certificate of my birth," and insert "Evidence is already in the possession of the Commissioners."

(1) A certificate of my birth, showing that I was born on the day of 18 , and that therefore my age was above 21 years and under 23 years on the 1st of April 1895.

(2) The terms indicated must appear in the Certificate, which must be given after personal examination, and bear date not earlier than 1st May 1895.

(2) A certificate signed by

of my having no disease, constitutional affection, or bodily infirmity unfitting me, or likely to unfit me, for the Civil Service of India.

(3) Two testimonials must be sent bearing date not earlier than 1st May 1895. One of them should be given by an intimate acquaintance (not a relative) of not less than three or four years' standing, the other, if the Candidate has recently left school, should be given by his late schoolmaster, or if he has had employment of any kind, by his employer. If the Candidate has been at any University, he should send a certificate of good conduct from his College tutor.

(4) This should be given on the form attached.

(3) Proof of my moral character, viz.—

(1) A testimonial from

(2) A testimonial from

(4) A statement of the branches of knowledge in which I desire to be examined.

I have also to state, with reference to section 2, clause (i) of the Regulations, that I am a natural-born subject of Her Majesty.

I am, SIR,

Your obedient servant,

Name in full

*Address to which you wish the Order for admission to the Examination to be sent.**

To the Secretary,

Civil Service Commission,

London, S. W.

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should produce a Certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his Provincial Officers. This Certificate may be obtained from the Registrar-General in London, Dublin, or Edinburgh, or from the Superintendent Registrar of the district in which the birth took place.

II. A Candidate born of European parents in India may produce a Certificate of Baptism from the district in which he was baptised. If this does not also mention the date of birth, it should be accompanied by a statutory declaration by one of the Candidate's parents stating the date and place of birth. When such certificates are not in the possession of the Candidates, an extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a native of India must have his age and nationality certified by the Government of India, or of the Presidency or Province in which he may have resided.

[*No Certificates except those issued under Notification of the Government of India, No.* 2252, *dated* 21*st August* 1888, *will be accepted for this Competition.*]

Except as noted in paragraphs II and III, every Candidate is expected to produce a Certificate of *Birth*. The Civil Service Commissioners will not in ordinary cases accept a Certificate of Baptism, or other testimony, unless they are first satisfied that a Certificate of Birth cannot be procured.

Official Certificates of Birth may generally be obtained as follows:—

(*a*) *For persons born in England or Wales since* 30*th June* 1837.—From the Registrar-General, Somerset House, London, or from the Superintendent Registrar of the district in which the birth took place.

(*b*) *For persons born in Scotland since* 31*st December* 1854.—From the General Register Office, Edinburgh; or from the Registrar of the Parish or District in which the birth took place.

(*c*) *For persons born in Ireland since* 31*st December* 1863.—From the General Register Office, Dublin; or from the Superintendent Registrar of the District in which the birth took place.

(*d*) *For persons of English, Scottish, or Irish parentage born on board British ships since the dates mentioned in* (*a*), (*b*) *and* (*c*) *respectively.*—From the General Register Office, London, Edinburgh, or Dublin, according to parentage.

(*e*) *For persons born in India of European parents.*—From the India Office, London.

Any Candidate who cannot produce a Certificate of Birth from one of the authorities named should, if possible, procure a Certificate of Baptism, and should then apply to the Secretary, Civil Service Commission, for further instructions.

CIVIL SERVICE OF INDIA.

OPEN COMPETITION OF 1895.

SELECTION OF SUBJECTS, TO BE FILLED UP AND RETURNED WITH THE FORM OF APPLICATION.

*** *Place your initials against the subjects which you select, and sign your name in the place indicated on the next page.*

Civil Service Commission,
London, S. W.

[Copies of this Syllabus may be obtained on application to the Secretary to the Government of India, Home Department.]

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

SYLLABUS

Showing the extent of the Examination in certain subjects at the Open Competition for admission into the Indian Civil Service in 1895.

English Composition.—An Essay to be written on one of several subjects specified by the Civil Service Commissioners on their Examination Paper.

English Language and Literature.—The Examination will be in two parts. In the one the Candidates will be expected to show a general acquaintance with the course of English Literature as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria:

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the candidates have studied the chief productions of the greatest English writers *in themselves*, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English literature. Candidates will also be expected to show that they have studied in these authors the history of the English language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other, year by year, in the order indicated :—

1.	A.D. 1800 to A.D. 1832
(1895)	[Nineteenth Century writers to the death of Scott]
2.	A.D. 1360 to A.D. 1600
(1896)	[Chaucer to Spenser]
3.	A.D. 1600 to A.D. 1700
(1897)	[Shakespeare to Dryden]
4.	A.D. 1700 to A.D. 1800
(1898)	[Pope to Cowper]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English language and literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

French Language and Literature.—Translation from French into English and from English into French; Critical questions on the French Language and Literature.

German Language and Literature.—As in French.

Latin Language and Literature.—Translation from Latin into English; Composition in Prose and Verse (in the place of the latter may be taken, by those who prefer it, *a paper of questions on Latin Philology*). Critical questions on the Latin Language and Literature.

Greek Language and Literature.—Translation from Greek into English; Composition in Prose and Verse (in the place of the latter may be taken, by those who prefer it, *a paper of questions on Greek Philology*). Critical questions on the Greek Language and Literature.

---

* The books for 1895 are—

Wordsworth: Sonnets.
Coleridge: Poems.
Byron: Childe Harold.
Lamb: Essays of Elia.
Shelley: Poems.
Keats: Poems.
Cobbett: Rural Rides.
Macaulay: Biographies.
Scott: Waverley, Rob Roy, Ivanhoe, Antiquary.
De Quincy: Opium Eater.

Sanskrit Language and Literature.—Translation from Sanskrit into English, and from English into Sanskrit. History of Sanskrit Literature (including knowledge of such Indian history as bears upon the subject); Sanskrit Grammar; Vedic Philology.

Arabic Language and Literature.—Translations as in Sanskrit; History of Arabic Literature; Arabic Grammar; Arabic Prosody.

English History.—General questions on English History from A.D. 800 to A.D. 1848; questions on the Constitutional History of England from A.D. 800 to A.D. 1848.

Questions covering the whole period named will be set, but Candidates will be allowed to attempt only a limited number of them.

General Modern History.—Candidates may, at their choice, be examined in any one of the following periods:—

1. From the accession of Charlemage to the Third Crusade.
   [A.D. 800 to A.D. 1193.]
2. From the Third Crusade to the Diet of Worms.
   [A.D. 1193 to A. D. 1521.]
3. From the Diet of Worms to the death of Louis XIV.
   [A.D. 1521 to A.D. 1715.]
4. From the accession of Louis XV. to the French Revolution of 1848
   [A.D. 1715 to A.D. 1848.]

Periods 3 and 4 will include Indian History.

GREEK HISTORY.—Questions on the General History of Greece to the death of Alexander; questions on the Constitutional History of Greece during the same period.

Roman History.—Questions on the General History of Rome to the death of Vespasian; questions on the Constitutional History of Rome during the same period:

In Greek and Roman History Candidates will be expected to show a knowledge of the original authorities. Questions covering the whole period named will be set, but Candidates will be allowed to attempt only a limited number of them.

Mathematics.—Pure Mathematics:—Algebra, Geometry (Euclid and Geometrical Conic Sections), Plane Trigonometry, Plane Analytical Geometry (less advanced portions), Differential Calculus (Elementary), Integral Calculus (Elementary):

Applied Mathematics:—Statics, Dynamics of a Particle, Hydrostatics, Geometrical Optics; all treated without the aid of the Differential or Integral Calculus.

Advanced Mathematics.—Pure Mathematics:—Higher Algebra, including Theory of Equations, Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry, Plane and Solid.

Applied Mathematics:—Statics, including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydromechanics, Geometrical and Physical Optics, and Geometrical Astronomy.

Political Economy and Economic History.—Candidates will be expected to possess a knowledge of economic theory as treated in the larger text-books; also a knowledge of the existing economic conditions, and of statistical methods as applied to economic inquiries; together with a general knowledge of the history of industry, land tenure and economic legislation in the United Kingdom.

Logic and Mental Philosophy (*Ancient and Modern*).—Logic will include both Deductive and Inductive Logic.

Mental Philosophy will include Psychology and Metaphysics.

DECLARATION.

No. 5533*M.*—*The 29th November* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a new road connecting Chassadhobapara Street with Jorapooker Square Lane, it is hereby declared that for the above purpose pieces of land No. 49, Bolloram Dey's Street, and Nos. 35, 36, 37 and 39, Chassadhobapara Street, in the Town of Calcutta, district 24-Parganas, measuring, more or less, 1 cottah 10 chitaks and 6 square feet only, are required.

The boundaries of the plots of land are as follow :—

(1) *Plot marked A on plan.*—On the North, portion of premises No. 49, Bolloram Dey's Street; on the South and West, a public sewered ditch; and on the East, Jorapooker Square Lane.

(2) *Plot marked B on plan.*—On the North, a public sewered ditch; on the South, premises No. 38 and portions of premises Nos. 37, 36 and 35 Chassadhobapara Street; on the East, portion of premises No. 37, Chassadhobapara Street and a public sewered ditch; and on the West, Chassadhobapara Street.

The plan and specification of the plots of land are filed in the office of the Calcutta Corporation for public inspection.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

PUBLIC DEBT OFFICE, BANK OF BENGAL,
Calcutta, 29th November 1894.

(772—1)

W. D. CRUICKSHANK,
Secretary and Treasurer.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 „ 2-4 „
Under 7 feet „ 2 „

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8, „ „ „ „ 8-8.
¼ „ „ „ 4, „ „ „ „ 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloiks Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs.* 2, *ans.* 8; per eight-ounce tin, *Rs.* 5; per pound tin, *Rs.* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs.* 3; per eight-ounce tin. *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Notification.

IT is hereby notified that under section 46 of the Local Self-Government Act III (B.C.) of 1885, the District Board of Dacca have, at their special meeting held on the 9th November 1894, determined to levy the road cess in this district for the ensuing financial year 1895-96 at the maximum rate of one-half anna or six pies in the rupee on the annual value of lands.

C. J. S. FAULDES, Chairman, District Board, Dacca.
District Board's Office, Dacca, the 12th November 1894.

Notice.

Now Ready, one volume, half-bound, Quarto, Fifty-eight plates, Rs. 38.

ILLUSTRATIONS OF ANCIENT BUILDINGS IN KASHMIR, prepared at the India Museum, London, under the authority of the Secretary of State for India in Council, from photographs, plans and drawings taken by order of the Government of India, by Henry Hardy Cole, Lieutenant, R.E., to be obtained from Messrs. Thacker, Spink & Co., Calcutta; Messrs. Higginbotham & Co., Madras; and of Messrs. Thacker, Vinning & Co., Bombay.

The illustrations in this work have been produced in carbon from the original negatives, and are therefore permanent.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta Madra ,Bombay, and Allahabad, and comprise four series—one, for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appea from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.			With postage.		
	Rs.	A.	P.	Rs.	A.	P.

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Superintendent of Government Printing in Bengal, 10, Lyon's Range, Calcutta.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK & Co., Government Place, Calcutta.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1895 is received before the 31st December 1894, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1895.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated.

N. BONHAM-CARTER,
Under-Secy. to the Govt. of Bengal.
The 4th December 1894.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India.
BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

Indian Wheat Trade, Parts I, II and III, combined. Royal 8vo., limp cover. Re. 1-8 (4*a*.)

Manual of the Land Revenue Systems of India. By B. H. BADEN-POWELL. Revised Edition, in 3 Volumes—Royal 8vo., cloth.

No. 343L.A., dated Calcutta, the 12th November 1894.

From—The Auditors of the Accounts of the Corporation of Calcutta,
To—The Municipal Commissioners of Calcutta.

1. We have the honour to report that the cash accounts of the Corporation of Calcutta, for the year ending 31st March 1894, have been audited on our behalf and have been found correct.

2. We have signed the printed statement of the annual accounts of the Corporation for the year 1893-94 in token of our having been satisfied with the audit exercised on our behalf, and we herewith transmit that statement with a formal certificate that the accounts set forth in that statement have been correctly extracted from the books kept in the Account Branch of the Office of the Corporation.

3. We have at the same time to invite attention to the remarks and suggestions on your accounts contained in the accompanying note.

4. We would add that seven sections of the Stores Accounts for the year 1892-93 have been audited, but that the Entally Stores General Fund Account and the Entally Stores Drainage Loan Account are not yet ready for audit, as no reconcilation statements have been prepared. The irregularities which may be occasioned by the delay in the preparation of these accounts has been remarked on in the covering letter to the note on the audit of the seven sections of the store accounts which have been completed.

We have, &c.,
G. E. NANISTY,
Offg. Accountant-General.
J. A. ROBERTSON,
Examiner of Local Accounts.

Note on the Audit of the Accounts of the Calcutta Municipality for the year 1893-94.

Income-tax	1,912	3	6
Extra Peons' wages	140	13	0
Interest on contractor's deposits	1,522	7	5
Mullick's Ghat	234	10	11
Deposit Account	53,228	14	9
License Deposit	351	10	3

Owing to the absence of the details in the ledger, it is impossible to make any analysis of the above amounts. We suggest that in future the ledger accounts should not be closed until a detailed abstract of the personal accounts composing the closing balances has been worked out.

2. The ledger balance of the outstanding miscellaneous bills on the 31st March 1894 amounted to Rs. 42,655-15-7, and purported to be in the hands of the following officers of the Municipality :—

Name.	General Fund.	Water-rate.	Loan.	Total.
1	2	3	4	5
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Joint-Collector	4,695 11 10	6,282 7 2	902 5 9	11,880 8 9
Warrant Officer	7,832 14 2	1,068 10 3	6,840 12 4	15,242 4 9
Assessor	178 9 2	59 12 9	598 13 5	833 3 4
Engineer	1,625 2 7	45 0 0	.....	1,670 2 7
Health Officer	519 1 10	.....	3,423 7 0	3,942 8 10
Redistributed bills awaiting order of Vice Chairman ...	915 4 9	67 10 2	7,564 13 11	8,547 12 10
Secretary	.....	.. ...	510 6 6	510 6 6
Total ...	16,291 12 4	7,523 8 4	19,840 10 11	42,655 15 7

The Personal Assistant to the Vice-Chairman has taken actual stock of the above bills, nd the returns from the departmental officers agree with the balances in the main ledger, with the exception of that from the Assessor:—

	Rs.	A.	P.
Return as per Assessor's statement	952	3	4
Ledger balance	832	3	4
Difference ...	120	0	0

This difference has been adjusted during the first quarter of 1894-95.

3. The comparison of the outstanding balance on account of miscellaneous bills at the end of 1892-93 and 1893-94 in as follows:—

	Rs.	A.	P.	Rs.	A.	P.
Outstanding balance on 31st March 1893				66,660	6	7
Add new bills during 1893-94				2,05,568	8	1
				2,72,228	14	8
Deduct—						
Bills collected	2,13,456	5	8			
„ cancelled	15,996	9	5			
				2,29,452	15	1
Balance 31st March 1894 ...				42,775	15	7

Comparison with the figures of last year under this head is very satisfactory, and shows that the close attention now given to these bills has resulted in an increase in the amount collected and a decrease in the amount cancelled and outstanding at the end of the year.

4. The amount cancelled during the year was Rs. 15,996-9-5, distributed as follows:—

Out of the stock held by the	On account of General Fund miscellaneous bills.	On account of Water-rate miscellaneous bills.	On account of Loan Account miscellaneous bills.	Total.
1	2	3	4	5
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Joint-Collector	3,057 10 11	.....	7,031 14 9	10,089 14 8
Warrant Officer	841 7 3	798 9 9	1,274 15 3	2,915 0 3

Health flicer	207 13 1	.....	645 2 6	8'2 15 7
Engineer	1,' 25 13 11	.....	305 0 9	1,330 14 8
Undistributed bills	155 0 9	26 10 3	250 0 0	431 11 0
Total ...	5,543 0 8	917 0 6	9,536 8 3	15,996 9 5

5. There are still some bills overdue by three years or more included in the balance of Rs. 42,775-15-7 outstanding on the 31st March 1894, viz.—

In the hands of—	Amount. Rs. A. P.	Total. Rs. A. P.
Joint-Collector—		
1 Bill of 1889-90	19 15 9	
7 Bills of 1890-91	939 13 3	
		959 13 0
Warrant Officer—		
4 Bills of 1889-90	163 13 3	
2 „ 1890-91	2,511 15 2	
		2,675 12 5
Assessor—		
1 Bill of 1890-91	.....	13 0 0
Health Officer—		
1 Bill of 1889-90	31 11 3	
2 Bills of 1890-91	259 8 0	
		291 3 3
Engineer—		
1 Bill of 1889-90	30 11 3	
1 „ 1890-91	357 15 1	
		388 10 4
Undistributed bills—		
1 Bill of 1885-86	67 9 0	
2 Bills of 1887-88	415 9 9	
6 „ 1889-90	64 13 6	
		548 0 3
		4,876 7 3

These bills should, if possible, either be settled during the current year or finally removed from the accounts.

Special attention should be given during the current year to the realization of the bills of 1891-92 included in the outstanding balance, as otherwise they will become irrecoverable under the Limitation Act by the 31st March 1895.

6. The outstanding consolidated rate bills on the 31st March 1894 amounted to Rs. 5,06,066-2-2 in the hands of the following officers :—

	Rs.	A.	P.
Collector	82,745	2	3
Joint-Collector	17,781	6	6
Warrant Officer	3,30,213	9	3
Assessor	75,326	0	2
	5,06,066	2	2

But the departmental returns from these officers are as follows :—

	Rs.	A.	A.
Collector	82,745	2	3
Joint-Collector	24,496	0	3
Warrant Officer	3,23,498	15	6
Assessor	75,326	0	2
	5,06,066	2	2

The departmental returns from the Joint-Collector and the Warrant Officer each differ from the annual account by Rs. 6,714-9-9 as follows :—

	Rs.	A.	P.
Joint-Collector—			
Total as per departmental return	24,496	0	3
Total as per annual account	17,781	6	6
Difference more ...	6,714	9	9
Warrant Officer—			
Total as per annual account	3,30,213	9	3
Total as per departmental return	3,23,498	15	6
Difference less ...	6,714	9	9

These differences have been adjusted in the first quarter of 1894-94.

7. The outstanding arrear House-rate bills on the 31st March 1894 amounted to Rs. 1,001-6-11 in the hands of following officers :—

	Rs.	A.	P.
Warrant Officer	991	3	8
Assessor	10	3	3
	1,001	6	11

and the departmental return from these officers exhibit the same figures.

8. The outstanding night-soil fees on the 31st March 1894 amounted to Rs. 798-14-8 in the hands of the Warrant Officer, and the departmental return from that officer agrees with that figure.

9. The outstanding Market rent bills on the 31st March 1894 amounted to Rs. 4,329-14-6 in the hands of the following officers :—

	Rs.	A.	P.
Warrant Officer	331	5	3
Superintendent of Market	3,998	9	3
	4,329	14	6

but the departmental returns from those officers are as follows :—

	Rs.	A.	P.
Warrant Officer	548	10	6
Superintendent of Market	3,878	9	3
	4,427	3	9

	Rs.	A.	P.
Total as per departmental returns	4,427	3	9
Total as per annual account	4,329	14	6
Difference ...	97	5	3

This difference is a net difference as follows:—

Warrant Officer—

Total as per departmental return	548	10	6
Total as per annual account	331	5	3
Difference more ...	217	5	3

Superintendent of Market—

Total as per annual account	3,998	9	3
Total as per departmenal return	3,878	9	8
Difference less ...	120	0	0
Warrant Officer's difference more	217	5	3
Superintendent of Market less	120	0	0
Net difference ...	97	5	3

These differences should be adjusted before the close of the current year, and in order that the adjustment between the Account Department and the departmental officers should be accurate, we suggest that the actual stock of the bills on the hand of Superintendent of Market and the Warrant Officer be taken at once by the Personal Assistant to the Vice-Chairman, and reported at the close of each year, similarly to the procedure followed in the case of "*Miscellaneous bills.*"

10. The outstanding arrear Water, Police and Lighting-rate bills on the 31st March 1894 amounted to Rs. 864-4-3 in the hands of the following officers:—

Assessor—

Assessor	24	0	0
Warrant Officer	840	4	3
	864	4	3

and the departmental returns from those officers exhibit the same figures.

11. In paragraph 16 of the note on the accounts for 1892-93, attention was drawn to the absence of stock lists from any of the Departments, and it was suggested that stock should be taken at once, and that the value should be transferred to block account under distinct heads.

In accordance with this suggestion stock lists have been prepared and returned by the following departments:—

Printing Department for presses, type, &c.

Road Department for tools and implements.

Surveyor's Department for surveying and mathematical instruments, and articles of value in the main building have been taken stock of by the Personal Assistant to the Vice-Chairman. No returns, however, have been received from either the Engineer or Health Officer or the Departments subordinate to them, and we would suggest that this defect be remedied by requiring their early submission. Again, no transfer has been made to block account of the value of those articles of which stock has been taken. In case this should be due to the difficulty experienced in ascertaining the present value, we would point out that it is not essential to make an exact valuation, or even to assess each article separately. For the existing stock an approximate valuation on such data as are procurable will suffice, or, if more convenient, it may be transferred at its original cost value, an adjustment being made subsequently to show the estimated depreciation.

G. E. MANISTY,
Offg. Accountant-General.

J. A. ROBERTSON,
Examiner of Local Accounts.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER, 5, 1894.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 234.

[First Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Depths of water found in the river channels on the dates noted.

THE Port Officer, Chittagong, has given notice that the following depths of water were found in the river channels by soundings taken on the 21st and 22nd November, and reduced to zero :—

	Ft.	In.
Outer bar.—The disc a little open to the eastward of Leading tree...	11	6
Inner bar.—Disc on Leading tree	9	6
Disc open well to the eastward of Leading tree and on with a flag in the Bush, showing over the top of the Hill (which will be substituted by a mark later on)	10	6 reduced.

Owing to the extension of the Guptakhally sand to the eastward, No. 3 track is now closed and the lower buoy has been moved 200 feet east into 16 feet reduced.

The Upper Guptakhally buoy has been moved 600 feet north and relaid in 16 feet reduced.

From 12 to 13 feet reduced will be found on the Guptakhally crossing by hauling over midway between the Tripod and Lower crossing mark.

The Upper Patunga buoy has been moved 250 feet W.N.W. and relaid in 16 fe et reduced.

[First Publication.]

JAPAN—KIUSIU, WEST COAST.

Goto islands—Flashing light on Koshiki sima (Koshi no se).

THE British Admiralty has given notice (No. 588 of 1894) that on 13th September 1894 a light was exhibited from a light-house recently erected on Koshiki sima (Koshi no se), north-eastward of Uku sima, Goto islands :—

Koshiki sima light is a fourth order *white flashing* light *every thirty seconds*, elevated 212 feet above the sea, and visible in clear weather from a distance of 16 miles.

The light-house, 22 feet high, is constructed of wood, rectangular in shape, and painted white.

Approximate position on Chart No. 140, lat. 33° 18′ 20″ N., long. 129° 10′ 25″ E.

NOTICE TO MARINERS—No. 236.

[First Publication.]

AUSTRALIA, NORTH COAST—TORRES STRAIT.

Prohibited anchorage between Thursday island and Horn island.

THE British Admiralty has given notice (No. 602 of 1894) that two submarine cables have been laid across Ellis channel from Horn island to Thursday island, and vessels are prohibited from anchoring near these cables.

The prohibited area is marked by beacons on Horn island; the southern limit by two red beacons in line, bearing E. ¼ S. (S. 87° E.); the northern limit by two white beacons in line, bearing E. ¼ S. (S. 87° E.)

Landing is not permitted on Horn island within the limits of the prohibited anchorage area.

Anchorage is also prohibited near the cables across Aplin pass, and between Hammond and Goode islands; the shore ends of these cables being marked by red cable houses.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 237.

[First Publication.]

GULF OF ADEN, NORTH SHORE—ADEN HARBOUR.

Intended light on the edge of Marbat Shoal—Uniform System of Buoyage and lighting up of the Inner Harbour Buoys at night.

INFORMATION has been received from the Port Officer, Aden, dated 10th instant, that on 15th January 1895 two lights will be shown from a light-vessel moored in 22 feet water half a cable west of the Marbat Shoal buoy at the entrance of Aden Harbour.

The lights will be two fixed red vertical lights, 3 feet apart, the lower light being 20 feet above the sea-level and visible in clear weather from a distance of 8 miles.

The light-vessel will be painted red, and will carry a red ball at her mast-head during the day, and is intended to enable vessels to clear Ras Tarshein, also to mark the edge of Marbat Shoal.

Aden light-vessel bears N 27° E (magnetic) from the position.

The Marbat Shoal Buoy will be removed.

Directions.—Vessels entering Aden Harbour from the eastward should not shoal under six fathoms low water spring tides until Aden Light-vessel is well open to the westward of the Marbat Shoal Light-vessel, then haul in for any point between the Marbat Shoal Light and the 'Anadyr' wreck light, in a direct line between these two marks and 300 feet to the westward of the former, the depth being not less than 26 feet low water spring tides.

Buoyage of the Inner Harbour.—The Inner Harbour will be buoyed in accordance with the International System on or about the 15th January 1895,—red conical buoys carrying red lights at night on the starboard hand and black can buoys carrying green lights on the port hand.

The entrance channel will probably have been dredged to 26 feet low water spring tides by 15th January 1895, enabling steamers drawing 25½ feet to enter at low water.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

PHILIPINE ISLANDS—PANAY.

Intended flashing light on Manigonigo.

THE British Admiralty has given notice (No. 577 of 1894) that, on 15th November 1894, a light will be exhibited from a lighthouse recently erected on the north-east side of Manigonigo, off the north-east point of Panay :—

Manigonigo light will be a sixth order, catadioptric, *flashing white* light *every five seconds*, elevated 68 feet above the sea, 29 feet above the ground, and visible in clear weather from a distance of 14 miles.

The lighthouse, situated 33 yards from the cliff, is a cylindrical iron tower on a rectangular base, the whole painted gray. The keeper's dwellings, adjoining the lighthouse, are of brick and gray stone with iron roofs.

Approximate position on Chart No. 2577, lat. 11° 37′ N., long. 123° 11½′ E.

BAY OF BENGAL—CHITTAGONG COAST.

Depths of water found in certain tracks in the river channels.

THE Port Officer, Chittagong, has given notice that the following depths of water were found in the river channels by soundings taken on the 14th, 15th and 16th instant and reduced to zero:—

No. I Track.—11 feet a little above the outer Red buoy.
9 feet off the Spit below the inner Red buoy.
Inner Black buoy on Leading tree 11 feet 6 inches.
„ *II* „ Disc on Leading tree 9 feet 6 inches. New track—10 feet 6 inches.
„ *III* „ 10 feet a little above Leading tree.
„ *IV* „ 20 feet.
„ *V* „ 10 feet; but by crossing midway between the Tripod and Lower crossing mark 12 feet will be found over the Gupta-khalli crossing. Caution must be used when using this crossing.

BAY OF BENGAL—Orissa coast.

False Point harbour—Universal system of buoyage.

With reference to Notice to Mariners No. 19, dated 4th February 1893, issued by this office, the Port Officer, False Point, has given further notice that the following alterations have been made in the position of buoys marking the *Port hand* of the harbour, entering from seaward :—

Reddie Head sand spit inner buoy has been shifted 250 feet N. E. by N., and now lies moored in 24 feet water reduced.

Reddie Head flat buoy has been shifted 1,100 feet N. by W., and now lies moored in 13 feet water reduced.

The Port hand upper end of Harbour buoy has been shifted 1,200 feet north, and now lies moored in 11 feet 6 inches of water reduced.

The bearings are magnetic.

The buoys on the *Starboard hand* of the harbour will have to be shifted also, of which due notice will be given.

[Third Publication.]

JAPAN—(1) GULF OF TOKIO—(2) KOREA STRAIT—(3) KIUSIU, WEST COAST.

Gulf of Tokio—Alterations in lights.

THE British Admiralty has given notice (No. 569 of 1894) that on 10th September 1894, the sector of *red* light, hitherto shown from Kannon saki lighthouse over Futsu saki, and visible between the bearings of S. 5° E. and S. 22° W., would be discontinued.

Approximate position, lat. 35° 15′ 20″ N., long. 139° 44′ 10″ E.

Also, that a light would be exhibited from the west side of Fort No. 2 in course of construction at the west extreme of Futsu saki.

Fort No. 2 light is a *fixed white* light, elevated 45 feet above the sea, and visible from a distance of six miles in clear weather. It is shown from a staff, painted white and 35 feet high.

Approximate position on Chart No. 2657, lat. 35° 18′ 40″ N., long. 139° 43′ 55″ E.

(2) *Korea strait—Tsu sima—red and white light on Ko saki.*

Also that, on 5th September 1894, a light was exhibited from a lighthouse recently erected on Ko saki (Koo saki), south point of Tsu sima :—

Ko saki light is a *fixed* light, showing *white* from N. 85° W., through north and east, to S. 83° E.; and *red* from S. 83° E. to S. 63° E. (over the reefs off Tsuzu (Mame) saki). It is elevated 192 feet above the sea, and visible in clear weather from a distance of 15 miles.

The lighthouse, 22 feet high, is a rectangular wooden tower, painted white.

Approximate position on Chart No. 358, lat. 34° 5′ 30″ N., long. 129° 12″ E.

(3) *Kiusiu, west coast—Amended arc of red light at Shirase lighthouse.*

Also, with reference to Notice to Mariners No. 556 (2) of 1894:—

* Mean of 5 days. | † Mean of 6 days.

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the The *humidity* of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisions stations for the period in question stations in the district sending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

the week ending Saturday, the 1st of December 1894.

Departure from normal mean.	Mean 8 A M temperature.	Average humidity at 8 A M.	Average cloud amount at 8 A M	Rainfall of week at observing station.	DISTRICT OBSERVATIONS.										District.
					Of week.				Rainfall.						
									Since 1st of month.			Since 16th October 1894.			
					Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0.10 inch of rain has fallen.

CALCUTTA, *the 4th December* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 1ST OF DECEMBER 1894.

FINE settled weather of ordinary north-east monsoon character has prevailed throughout the province during the whole week, and the changes from day to day have again been only of the small oscillatory charater which accompany fine weather On the 25th of November, or the first day of the week under review, pressure was falling slowly to moderately over the whole province, though it was still in excess usually by from 0·02″ to 0·05″; temperature was also falling slowly, and was in defect usually by from 1° to 3°. On the 26th pressure had increased slowly, but this was followed on the 27th by a rather brisk fall, which caused pressure to be below the normal at all except the extreme western stations, this defect being the first that had been registered for a considerable period. This fall continued very slowly practically daily until the end of the week, when pressure had become in defect by amounts which usually ranged between 0·04″ and 0·06″. On the other hand, the temperature changes were a little variable, but they were generally in an upward direction, and on the 1st of December the mean temperature of the province was in excess by from about 2° to 3°.

Throughout the week also a steady northerly wind current, usually varying between north-easterly and north-westerly, has prevailed over the whole province, giving lightly clouded or almost cloudless skies, low humidity and a complete absence of rainfall.

Pressure.—The mean pressure for the whole week has been in very slight defect from the normal at the great majority of stations, though slight excess amounts have been registered in parts of Bihar. The variations have, however, been exceedingly small, and at most stations they have only equalled a few thousandths of an inch, and they have rarely exceeded a hundredth of an inch.

Temperature.—The variations of temperature from day to day have been small, and while at the beginning of the week a defect was registered, at its close an excess of almost equal amount had been established. The mean temperature for the whole province for the week has therefore been not very far removed from the normal, and a general defect of only 0·4° has been registered.

The actural temperatures registered during the week and their variations from the normal temperature of the present season are clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations, it will be seen, have been considerable in the day or maximum temperatures, which have been moderately in defect, while on the other hand night or minimum temperatures have in some cases been largely in excess :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 1st of December 1894.

	Normal mean maximum temperature for the week ending 1st December.	Actual mean maximum temperature for the week ending 1st December 1894.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 1st December.	Actual mean minimum temperature for the week ending 1st December 1894.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 1st December.	Actual mean daily temperature for the week ending 1st December 1894.	Variation of actual mean from the normal.

The average fall of the corresponding period for 24 years, Surveyor-General's Office		Nil
The total fall from 1st January to 1st December 1894		48·58
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·45

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≡ fog.

No. 4876*J.*—*The 11th December* 1894.—The Lieutenant-Governor accepts the resignation tendered by Babu Abinash Chandra Mitra of his appointment as an Honorary Magistrate of the Serampore First Bench in the district of Hooghly.

No. 4878*J.*—*The 11th December* 1894.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Rai Gopi Krishna, an Honorary Magistrate of the Jhauganj Independent Bench in the district of Patna, to take down evidence in criminal cases in the English language.

No. 4880*J.*—*The* 11*th December* 1894.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Maulvi Syed Zamiruddin Ahmed, an Honorary Magistrate of the Sadikpur Independent Bench in the district of Patna, to take down evidence in criminal cases in the English language.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION No. 4838J.

The 10*th December* 1894.—In supersession of the notification of this Government, No. 4395J., dated the 20th November 1894, published at page 1171, Part I of the *Calcutta Gazette* of the 21st idem, it is hereby notified under section 15, Act V of 1861, that the conduct of the principals and raiyats of the marginally noted villages, situated within the Krishnagar police-station in the district of Nadia, having rendered it expedient that an additional police force should be quartered therein in order to preserve the peace, the Lieutenant-Governor sanctions the entertainment, for a period of six months from the date of appointment, of the following additional police force to be quartered in those villages for the purpose of keeping the peace. The cost of the police force will be assessed on and levied from the inhabitants in proportion to their respective means:—

Harnagar. | Paninala.
Chapri.

		Rs.	A.	P.
1	Sub-Inspector, 5th grade, at Rs. 30 per mensem, for 6 months	180	0	0

NOTIFICATION.

No. 4843*J.*—*The* 10*th December* 1894.—Babu Ambika Charan Mukerji, Munsif of Midnapore, is vested temporarily with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 100 within the local limits of the Sadar Munsifi of Midnapore, during the absence, on deputation, of Babu Jogendra Chandra Maulik, or until further orders.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

DECLARATION—No. 4726J.

The 3*rd December* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the Mithapukur police-station, in the village of Rahimapur, pargana Taluk Krishnai, zilla Rangpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 12 bighas 5 cottahs 9$\frac{3}{5}$ chitaks of standard measurement, bounded on the North by the road to Talimganj; east by the Mithapukur Post-office and the road from Rangpur to Bogra; South by Ananda Sing's jote; and on the West by the Mithapukur tank, is likely to be required within the aforesaid village of Rahimapur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

RAILWAY.

The 11*th December* 1894.

No. 866.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a railway station at Nadaul on the Patna-Gaya Branch in the mauzas of Bairangchak and Nadaul, pargana Sandha, zilla Patna, it is hereby declared that for the above purpose 5 plots of land measuring, more or less, 25 bighas 7 cottahs and 4·51 chitaks of standard measurement, equivalent to 13 bighas 8 cottahs 5d· 18 dhoors of local

measurement, or 8 acres 1 rood 21·59 poles, are required within the aforesaid villages, as follows:—

Plot No. 1.—Bounded on the north by the Railway B class land purchased by Wazid Hossain, on the east by the Railway line, on the south by the Railway reserved B class land, and on the west by the land of Muhammad Abdul Jolil and Mussamut Rabeya.

Plot No. 2.—Bounded on the north by the Railway reserved B class land, on the east by the Railway line, on the south by the Railway B class land purchased by Khyrat Hossain, Mussamut Bibi Sakinan, Mussamut Bibi Wolian and others, and on the west by the land belonging to Mussamut Sakinan, Mussamut Wolian, and others.

Plot No. 3.—Bounded on the north by the Railway reserved B class land, on the east by the land of Mussamut Sakinan, Mussamut Wolian and others, and Railway B class land purchased by Khyrat Hossain, Mussamut Sakinan, Mussamut Wolian and others, and on the west by the Railway line.

Plot No. 4.—Bounded on the north by the District Board's road, on the east by the land of Muhammad Abdul Jolil, Mussamut Mourna, Mahbool Hossain, Mussamut Wolian, Mussamut Sakinan and others, on the south by the Railway reserved B class land, and on the west by the Railway line.

Plot No. 5.—Bounded on the north by the land of Muhammad Abdul Jolil, Mussamut Mourna, and Railway B class land, purchased by Wajid Hossain, on the east by the District Board's road, on the south by the District Board's road, and on the west by the Railway line.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

No. 367.—*Notification.*—Whereas it appears to the Lieutenant-Governor of Bengal that land in the district of Jalpaiguri is likely to be needed for a public purpose, viz, for the following extensions of the Bengal Duars Railway:—

(1) Extension from Malbazar to Nagrakata through Tunbari, Sungachi, Nakhati Satkya Jhil, Zoranti, Killiott, Indong Chalsa, Nagaisuri, Nagrakata, Kalabari, Mogulkatta, Karbela, Mich, Lankapara, Makrapara and Hantapara.

(2) Extension from Dam-Dim *viâ* Bhagrakot (Daling Coalfield) to Siliguri, through Balabari, Ranichera, Syli, Behari Lall, Manabari, Bagrakot, Washabari, Ellenbari, Oodebari, Napitpara, Malcepara, Burdhanpara and Siliguri.

Notice is hereby given to all whom it may concern that in exercise of the power conferred by section 4 of the Land Acquisition Act I of 1894, the Lieutenant-Governor has authorized the Bengal Duars Railway Engineers for the time being engaged on this undertaking to enter upon and survey lands and do all other acts required for the proper execution of their work as provided for or specified in the said section.

The general route taken for the proposed extensions of the Railway will be through the aforesaid places.

LOCAL COMMUNICATIONS.

The 11th December 1894.

No. 368.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Chittagong District Board for a public purpose, namely, for the construction of a diversion road for the first 8 miles of the Hill Tracts road, section II, running through the villages of Kalampati and Rauzan, thana Rauzan, zilla Chittagong, it is hereby declared that for the above purpose a strip of land in length 16,084 feet, with an uniform breadth of 54 feet, and measuring, more or less, 60 bighas, 6 cottahs, and 5 chitaks of standard measurement, is required within the aforesaid villages of Kalampati and Rauzan.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

No. 369.—*Notification.*—This department declaration (No. 142, dated 23rd May 1893), under section 6 of Act X of 1870, relative to the acquisition of land required for straightening the Barisal-Banaripara road in the district of Backergunge, which was published at page 471, Part I of the *Calcutta Gazette* of the 24th idem, is hereby cancelled.

RAILWAY.

The 11th December 1894.

No. 370.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of a Permanent Way Gang hut at mile $\frac{P}{115}$, Dinajpur Branch, Northern Section, Eastern Bengal State Railway System, in mauza Rajabashor, pargana Saruppur, zilla Dinajpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 rood and 12·4 poles of standard measurement, bounded on the north by the

Railway line, on the south by the tank of Gopal Babu, zamindar, and on the east and west by jungle and the bund of Gopal Babu, zamindar, is required within the aforesaid mauza of Rajabashor.

This declaration is made, under the provisions of section 6 of Act 1 of 1894, to all whom it may concern.

No. 371.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purposee viz., for a night-soil depôt at Kanchrapara, Eastern Bengal State Railway, in the villag, of Chacklah, pargana Habilishahur, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas and 11 chitaks of standard measurement, bounded on the north by the land occupied by Mohanundo Biswas, on the east by the land belonging to the Eastern Bengal State Railway and that occupied by Jadu Nath Naik, on the south by the land occupied by Makhon Lal Ghose, and on the west by the land occupied by Koylash Naik and Mohendra Mondal, is required within the aforesaid village of Chacklah.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

F. J. JOHNSTONE,
Secretary to the Govt. of Bengal.

ESTABLISHMENT.

The 10th December 1894.

No. 365.—*Notification.*—With reference to this Department Notification No. 348, dated the 26th November 1894, Mr. E. Blaber is posted to the Dehri Workshops Division which he joined on the forenoon of the 1st December 1894.

C. W. ODLING,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT,—BENGAL.

[Fifth Publication.]

The 13th November 1894.

No. 336.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following amended rule in supersession of the rule now in force in the revised water-rate rules for the Sone Canals :—

Present Rule.	*Proposed Rule.*
56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due, less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.	56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

C. W. ODLING,
Secretary to the Government of Bengal.

[Sixth Publication.]

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

C. W. ODLING,
Secy. to the Govt. of Bengal.

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3 Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

V.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred, unless existing appliances admit of it.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease.

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I. In all cases fractions of a *goont* shall be charged as a *goont*.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant's land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *teksilalaida* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above

conditions permits may be issued by *silladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment, modified if necessary in accordance with rules 3, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application.

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal.

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.
II.—In the measurements of irrigated lands.
III.—In giving the names of the occupiers of the various fields.
IV.—In receiving demand statements and informing the cultivators of the demands against them.
V.—In receiving *tappas* from the zilladars and distributing them.
VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.
VII.—In reporting to the zilladars any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle
II.—No tank shall be filled from which irrigation is practised.
III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes.
IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.
V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.
VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*. Rs.	A.	P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November ...	3	0	0
II.	For water supplied for the irrigation of *dalua* rice ...	1	8	0
III.	For water supplied for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1	8	0
IV.	For water supplied for the irrigation of linseed, oil-seed, and all pulses	1	0	0
V.	For water supplied for the irrigation of sugarcane ...	5	0	0

VI. The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.

NOTE.—Water-rates due under item I shall be paidon or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhoya lands per man As.* 8. *Water to be supplied each year from the* 16*th June to the* 30*th November only, fractions of a goont to be charged as a goont.*

WE the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th of June 18 , and ending on the 30th November 18 . We agree to pay water-rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza . The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana , to collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant-Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

APPENDIX II.

Application for granting water prior to issue of permit.

WE, the principal cultivators of mauza pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza in area about *mans*.

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below.

Dated 18 .

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. WE, whose names are attached, cultivators of mauza , pargana apply for water to be supplied from the distributary of the canal, for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs.—— ——per *man* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the—— of——

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

The 6th December 1894.

No. 114*Marine*.—Mr. E. O. Manning, Acting Junior Master Pilot, is confirmed in that grade, with effect from the 12th November 1894.

No. 115*Marine*.—In continuation of Notification No. 9Marine, dated the 10th February 1893, published in Part I, page 131, of the *Calcutta Gazette* of the 15th idem, directing the levy of port dues at the rate of four annas a ton upon every sea-going vessel of the burden of ten tons and upwards which enters the Balasore ports, it is, with the sanction of the Governor-General in Council, hereby notified that, in the case of mail steamers and coasting vessels, the dues shall not be levied upon the same vessel oftener than once in thirty days, as required by the provisions of the first schedule to Act X of 1889, as amended by Act II of 1894.

2. This notification will come into force from the 1st of March 1895.

No. 116*Marine*.—Under the provisions of section 9 of Act IV (B.C) of 1887, the Lieutenant-Governor is pleased to appoint Mr. W. B. Oldham to be a Commissioner of the Port of Chittagong, *vice* Mr. R. M. Waller, resigned, with effect from the 24th November 1894.

Mr. Oldham is also appointed, under section 10 of the Act, to be Chairman of the Commissioners from the same date.

The 7th December 1894.

No. 117*Marine*.—It is hereby notified that, in exercise of the power conferred on him by section 35, sub-section (1) of the Indian Ports Act, 1889, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor sanctions a proposal made by the Port Commissioners of Chittagong to pay to every pilot taking a vessel over the bars between the hours of sunset and sunrise, with the written permission of the Port Officer, Chittagong, a fee of Rs. 16 payable by the vessel piloted.

The 11th December 1894.

No. 119*Marine*.—Mr. H. E. Mackenzie, Mate Pilot, is granted privilege leave for one month and twenty-three days, under article 746 (*a*) of the Civil Service Regulations, from the 6th December 1894, instead of one month and twenty-five days from the 15th December 1894, sanctioned in Notification No. 107Marine of the 20th ultimo.

No 120*Marine*.—Mr. C. C. Collingwood, Senior Master Pilot, is appointed to act as a Branch Pilot from the 2nd December 1894, *vice* Mr. F. C. Cooper, Licensed Branch Pilot, on leave.

C. W. ODLING,
Secy. to the Govt. of Bengal.

EDUCATION DEPARTMENT, BENGAL.

Calcutta University Notice.

THE annual income of the Tagore Fund having been reduced from Rs. 12,000 to Rs. 10,500, owing to the conversion of the 4 per cent. Government loans into the reduced loans of 3½ per cent., the salary of the Tagore Law Professor in future has been, by order of the Senate, reduced from Rs. 10,000 to Rs. 9,000. This reduction in the salary of the Professor will take effect from November 1895.

W. GRIFFITHS, *Registrar.*

SENATE HOUSE, *the 4th December* 1894.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

THE undermentioned candidate has passed the examination for Honours in Law :—

Bandyopadhyay, Sarat Chandra, Private Student.

W. GRIFFITHS, *Registrar.*

SENATE HOUSE, *the 10th December* 1894.

Civil Engineering College, Sibpur.

Apprentice Department.

THE date for admission to this Department is 4th February 1895.

Candidates must be at least 15 and not more than 17 years of age.

They must have passed Standard VII of the Code for European Schools, or the University Entrance Examination in English and Mathematics. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January 1895. No applications will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

* Rupees 5 per mensem.

There will be three vacancies on the free list for Christian apprentices in February next and thirteen on the reduced* fee list.

For natives there will be at least 12 vacancies, possibly more, on the reduced† fee list.

† Rupees 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. SLATER, *Principal, Civil Engineering College.*

SIBPUR; *the 22nd November* 1894.

HIGH COURT NOTICES.

General Letter No. 8, dated Calcutta, the 7th December 1894.

From—H. W. C. CARNDUFF, Esq., Registrar of the High Court, Calcutta,

	Total	..	18,120	19,140	37,260

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the

year 1893-94, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

N. K. BOSE,

Offg. Secretary.

FORT WILLIAM, *the 21st November* 1894.

No. 2186B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1892-93 and 1893-94, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Thursday, the 3rd January 1895, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of 909 chests of season 1892-93 and 601 chests of season 1893-94 ...	1,510
Ditto ditto at the Ghazipur Factory, consisting of 370 chests of season 1892-93 and 1,225 chests of season 1893-94 ...	1,595
Total ...	3,105

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 21st November 1894, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th January 1895 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th January 1895, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 18th January 1895.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1895 about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 5641*M.*—*The* 6*th December* 1894.—It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, the Lieutenant-Governor is pleased to appoint Babu Surendra Nath Dutt, Assistant Surgeon, to be a Commissioner of the Lalbagh Municipality in the district of Murshidabad, *vice* Surgeon-Lieutenant-Colonel C. J. W. Meadows.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5670*M.*—*The* 8*th December* 1894.—It is hereby notified for general information that, in the exercise of the power conferred on him by section 86 of the Bengal Municipal Act, III of 1884, as amended by Act IV of 1894, and in accordance with the recommendation of the Commissioners of the Raniganj Municipality, in the district of Burdwan, made at a meeting, the Lieutenant-Governor intends to sanction the levy by the Commissioners, under section 131 of the Act, of a tax on carriages and on horses and other animals mentioned in the fifth schedule of the Act, at rates not exceeding those mentioned in the said schedule, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the Municipality.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5672*L.S.-G.*—*The* 8*th December* 1894.—It is hereby notified for general information that under rule 32 of the rules framed under section 138(*a*) of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to fix Wednesday, the 20th February 1895, as the date for holding an election under section 19 of the Act in thana Paikgatcha, in the district of Khulna, for the purpose of filling the vacancy in the representation of that thana on the Sadar Local Board of the district caused by the resignation of Babu Soshi Bhusan Banerjee.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5713*M.*—*The* 11*th December* 1894.—Under rule 9 of the rules framed under section 5 of the Local Authorities Loan Act, 1879, it is hereby notified for general information that the Lieutenant-Governor intends to sanction the following application from the Commissioners of the Darjeeling Municipality for a loan of Rs. 20,000 from Government, bearing interest at 4½ per cent. per annum, repayable in forty equal half-yearly instalments of Rs. 763-8-7 each, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality.

This supersedes the notification No. 5501M., dated 27th November 1894, published at pages 256 and 257 of Part IB of the *Calcutta Gazette* of the 28th idem.

J. A. BOURDILLON,

MUNICIPAL OFFICE, DARJEELING;
The 25th September 1894.

M. POWER, CAPTAIN,
Vice-Chairman, Darjeeling Municipality.

NOTIFICATION.

No. 5674*M.*—*The 8th December* 1894.—Whereas a notification, No. 2836M., dated the 16th July 1894, was published at page 178, Part IB. of the *Calcutta Gazette* of the 18th idem, declaring the intention of the Lieutenant-Governor to confirm the rules set forth below, which were framed by the Commissioners of the Dumraon Municipality, in the district of Shahabad, under section 3 of Act XX of 1887 for the protection of wild birds and game, and whereas no objections have been made to the proposal within one month from the date of the publication of the aforesaid notification within the Municipality, it is hereby notified that the said rules are confirmed by the Lieutenant-Governor under clause (4) of the said section of the Act, and are published for general information under clause (5) of section 6 of the General Clauses Act I of 1887:—

1. Wild birds for the purposes of the rules shall include jungle-fowl, pheasants, partridges, plovers, jays, doves, egrets, golden oriel, and green fly-catchers.

2. The Local Government having, by Notification No. 2834M., dated the 16th July 1894, declared that the provisions of section 3, Act XX of 1887, shall apply to hares, the following rules will apply to that animal as well as to wild birds.

3. The breeding season for the purposes of these rules shall extend from 15th March to the 1st of October.

4. Whoever during the breeding season has in his possession, within the limits of the Municipality of Dumraon, any wild birds or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird, or the fur or skin of every such hare. In the case of a second conviction, the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realized under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for breach of any of the above rules.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5687*L.S.-G.*—*The* 10*th December* 1894.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to reappoint the Magistrate of Patna to be the Chairman of the Patna District Board.

J. A. BOURDILLON,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5715*L.S.-G.*—*The* 11*th December* 1894.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to reappoint the Magistrate of Hoohly to be the Chairman of the Hooghly District Board.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5658*M.*—*The 7th December* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Cuttack Municipality for a public purpose, viz., for widening the lane from Nimchowri to Babu Prio Nath Chatterjee's house in the village of Balubazar, pargana Bakhrabad, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 10½ poles of standard measurement, is required. The land is bounded on the north and south by municipal roads; on the east by the house of Kusim Sahoo and others, and on the west by the house of Kapil Sahoo and others.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

Bankipur, the 6th December 1894. (788—1) BOHODA PROSONNO SHOME, Subordinate Judge.

PROCLAMATION OF SALE.

[SECTION 287 OF THE CODE OF CIVIL PROCEDURE.]

DISTRICT CUTTACK.

In the Court of the Subordinate Judge at Cuttack

EXECUTION CASE No. 717 OF 1894.

ORIGINAL SUIT No. 62 OF 1889.

Chowdhuri Krutibas Das of Bhingarpur, pargana Kotdesh, decree-holder, against Goluk Chandra Bose and Hem Chandra Bose, both of Srikreesnapur *alias* Kuopal, pargana Matkatnagar, judgment-debtors.

NOTICE is hereby given that under section 284, Act XIV of 1882, an order has been passed by this Court for the sale of the properties mentioned in the annexed schedule in satisfaction of the claim of the decree-holder in the suit mentioned above, amounting with costs and interest up to date of sale to the sum of Rs. 8,444-1-1

The sale will be by public auction, and the properties to be put up for sale in the lots specified in the sale schedule. The sale will be of the properties of judgment-debtors above named as mentioned in the schedule below, and the liabilities and claims attaching to the said properties, so far as they have been ascertained, are those specified in the schedule against each lot.

In the absence of any order of postponement, the sale will be held by this Court at the monthly sale commencing at 12 o'clock on the 15th January 1895. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid either personally or by duly authorized agents. No bid by or on behalf of the judgment creditors above mentioned, however, will be accepted, nor will any sale to them be valid without the express permission of this Court previously given.

The Calcutta Gazette.

WEDNESDAY, DECEMBER, 12, 1894.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 239.

[First Publication.]

COASTS OF CHINA AND JAPAN—TAMSUI AND KELUNG, FORMOSA.

Caution respecting navigational marks.

WITH reference to Notice to Mariners No. 212, dated 2nd November 1894, the British Admiralty has given further notice (No. 606 of 1894) that information has been received from the Commander-in-Chief on the China station, that the lights and buoys at Tamsui and Kelung, Formosa, are not to be depended on; and mariners are warned that during the continuance of hostilities between China and Japan, no reliance should be placed on finding any navigational marks in position on the coasts of either belligerent; and that, moreover, obstructions may be placed in the channels leading to any of the ports.

[First Publication.]

NEW ZEALAND—NORTH ISLAND, EAST COAST.

Hauraki gulf—Sunken rock northward of Waiheke island.

THE British Admiralty has given notice (No. 609 of 1894) of the existence of a rock, on the north side of Waiheke island, on which the yacht *Spray* recently struck.

This rock, now named Spray rock, has been examined by the Commander of the Government steamer *Terranora*, and found to be about 100 feet in extent east and west, with a least depth of 3 feet on it at low water springs, 13 fathoms to seaward, and 9 to 10 fathoms between it and Waiheke island.

From the rock Horuhoru island centre bears N.N.E. $\frac{3}{4}$ E. (N. 27° E.), distant 2 $\frac{6}{10}$ miles; and southern D'Urville rock W. by N. $\frac{1}{2}$ N. (N. 73° W.).

Approximate position, lat. 36° 45′ 30″ S., long. 175° 9′ 15″ E.

[Second Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Depths of water found in the river channels on the dates noted.

THE Port Officer, Chittagong, has given notice that the following depths of water were found in the river channels by soundings taken on the 21st and 22nd November, and reduced to zero :—

	Ft.	In.
Outer bar.—The disc a little open to the eastward of Leading tree...	11	6
Inner bar.—Disc on Leading tree	9	6
Disc open well to the eastward of Leading tree and on with a flag in the Bush, showing over the top of the Hill (which will be substituted by a mark later on)	10	6 reduced.

Owing to the extension of the Guptakhally sand to the eastward, No. 3 track is now closed and the lower buoy has been moved 200 feet east into 16 feet reduced.

The Upper Guptakhally buoy has been moved 600 feet north and relaid in 16 feet reduced.

From 12 to 13 feet reduced will be found on the Guptakhally crossing by hauling over midway between the Tripod and Lower crossing mark.

The Upper Patunga buoy has been moved 250 feet W.N.W. and relaid in 16 feet reduced.

[Second Pulication.]

JAPAN—KIUSIU, WEST COAST.

Goto islands—Flashing light on Koshiki sima (Koshi no se).

THE British Admiralty has given notice (No. 588 of 1894) that on 13th September 1894 a light was exhibited from a light-house recently erected on Koshiki sima (Koshi no se), north-eastward of Uku sima, Goto islands :—

Koshiki sima light is a fourth order *white flashing* light *every thirty seconds*, elevated 212 feet above the sea, and visible in clear weather from a distance of 16 miles.

The light-house, 22 feet high, is constructed of wood, rectangular in shape, and painted white.

Approximate position on Chart No. 140, lat. 33° 18′ 20″ N., long. 129° 10′ 25″ E.

AUSTRALIA, NORTH COAST—TORRES STRAIT.

Prohibited anchorage between Thursday island and Horn island.

THE British Admiralty has given notice (No. 602 of 1894) that two submarine cables have been laid across Ellis channel from Horn island to Thursday island, and vessels are prohibited from anchoring near these cables.

The prohibited area is marked by beacons on Horn island; the southern limit by two red beacons in line, bearing E. ¼ S. (S. 87° E.); the northern limit by two white beacons in line, bearing E. ¼ S. (S. 87° E.)

Landing is not permitted on Horn island within the limits of the prohibited anchorage area.

Anchorage is also prohibited near the cables across Aplin pass, and between Hammond and Goode islands; the shore ends of these cables being marked by red cable houses.

[Second Publication.]

GULF OF ADEN, NORTH SHORE—ADEN HARBOUR.

Intended light on the edge of Marbat Shoal—Uniform System of Buoyage and lighting up of the Inner Harbour Buoys at night.

INFORMATION has been received from the Port Officer, Aden, dated 10th instant, that on 15th January 1895 two lights will be shown from a light-vessel moored in 22 feet water half a cable west of the Marbat Shoal buoy at the entrance of Aden Harbour.

The lights will be two fixed red vertical lights, 3 feet apart, the lower light being 20 feet above the sea-level and visible in clear weather from a distance of 8 miles.

The light-vessel will be painted red, and will carry a red ball at her mast-head during the day, and is intended to enable vessels to clear Ras Tarshein, also to mark the edge of Marbat Shoal.

Aden light-vessel bears N 27° E (magnetic) from the position.

The Marbat Shoal Buoy will be removed.

Directions.—Vessels entering Aden Harbour from the eastward should not shoal under six fathoms low water spring tides until Aden Light-vessel is well open to the westward of the Marbat Shoal Light-vessel, then haul in for any point between the Marbat Shoal Light and the 'Anadyr' wreck light, in a direct line between these two marks and 300 feet to the westward of the former, the depth being not less than 26 feet low water spring tides.

Buoyage of the Inner Harbour.—The Inner Harbour will be buoyed in accordance with the International System on or about the 15th January 1895,—red conical buoys carrying red lights at night on the starboard hand and black can buoys carrying green lights on the port hand.

The entrance channel will probably have been dredged to 26 feet low water spring tides by 15th January 1895, enabling steamers drawing 25½ feet to enter at low water.

CHINA—YANG TSE KIANG.

Temporary withdrawal of buoys in the vicinity of Lang shan crossing.

THE British Admiralty has given notice (No. 572 of 1894) that all the buoys in Confucius and Harvey point channels, and in Lang shan crossing, up to North tree, have been temporarily withdrawn.

Also, that the remarkable single high forked tree, westward of Confucius channel, has been cut down.

Approximate position : Forked tree, lat. 31° 42′ 30″ N., long. 121° 6′ 30″ E.

PHILIPINE ISLANDS—PANAY.

Intended flashing light on Manigonigo.

THE British Admiralty has given notice (No. 577 of 1894) that, on 15th November 1894, a light will be exhibited from a lighthouse recently erected on the north-east side of Manigonigo, off the north-east point of Panay :—

Manigonigo light will be a sixth order, catadioptric, *flashing white* light *every five seconds*, elevated 68 feet above the sea, 29 feet above the ground, and visible in clear weather from a distance of 14 miles.

The lighthouse, situated 33 yards from the cliff, is a cylindrical iron tower on a rectangular base, the whole painted gray. The keeper's dwellings, adjoining the lighthouse, are of brick and gray stone with iron roofs.

Approximate position on Chart No. 2577, lat. 11° 37′ N., long. 123° 11½′ E.

FINANCIAL RESOLUTION.

FINANCIAL DEPARTMENT—FINANCE.

Calcutta, the 8th December 1894.

RESOLUTION No. 6133F.

AT the close of the first six months of the financial year 1894-95 the Lieutenant-Governor takes the opportunity of examining the financial position of the province. The Accountant-General's memorandum on the final accounts of 1892-93 has now been received, as well as the Appropriation Report for the year 1893-94 which, although the accounts are still open to adjustments, furnishes results sufficiently approximate for all practical purposes. Lastly, the figures of the revenue and expenditure of the first six months of the current year have also been received from the Accountant-General, and these three sets of figures afford sufficient data for the usual review of the closed accounts of 1892-93, an examination of the approximate actuals for 1893-94, and a revised estimate of the probable position of the province during the remainder of the year 1894-95.

PART I.

CLOSED ACCOUNTS OF 1892-93.

2. The revised estimates adopted in the Financial Resolution No. 5032F., dated the 21st November 1893, assumed that the year 1892-93 had opened with a credit balance of Rs. 23,53,000 and closed with a credit balance of Rs. 22,47,000; that the total amount available for expenditure was Rs. 4,48,15,000, and that Rs. 4,25,68,000 had been spent. The actual result was more favourable than this estimate by Rs. 7,741. The amount available for expenditure was Rs. 4,47,98,997, and the amount actually expended Rs. 4,25,43,825, so that the closing credit balance was Rs. 22,55,172. The following statement shows the figures of actual expenditure furnished by the Accountant-General, Bengal,

in his memorandum on the accounts of the year as compared with the revised estimates adopted in November 1893:—

Receipts.	Revised Estimate adopted in November 1893, for 1892-93.	Actuals, 1892-93.	Expenditure.	Revised Estimate adopted in November 1893, for 1892-93.	Actuals, 1892-93.

3. The actual receipts were less than the estimate by Rs. 16,434, of which Rs. 10,066 were under Land Revenue adjustments, due chiefly to a debit of Rs. 9,259 against Provincial Funds, that being the Government share of the contribution from the 1st July 1890 to 31st March 1892, to the Provident Fund established for the Bengal and North-Western and Tirhut Railways. On the representation of the Local Government, this amount has since been written back to Provincial Funds in the accounts of 1893-94. The remainder of the decrease was under "Jails" (Rs. 5,864) and under "Miscellaneous" (Rs. 1,825).

4. The actual expenditure in 1892-93 was less than the revised estimate by Rs. 24,175. The largest fluctuations appear under the heads of Refunds and Drawbacks (—12,351), Interest (—2,401), Jails (—5,468), Political (—5,499), Stationery and Printing (+2,309).

PART II.

APPROXIMATE ACTUALS, 1893-94.

5. The following table compares the approximate actuals for 1893-94 with the revised estimates as passed by the Government of India in March last, and they show that, according to the latest information, the receipts were less than the revised estimate by Rs. 1,31,757, while the expenditure exceeded the revised estimate by Rs. 2,36,846. Taking into consideration a small increase of Rs. 172 in the opening balance, the net result is a reduction of the closing balance by Rs. 3,68,431. The details of these fluctuations are discussed in the following paragraphs:—

Receipts.	Revised estimate passed by the Government of India, 1893-94.	Approximate actuals, 1893-94.	Expenditure.	Revised estimate passed by the Government of India, 1893-94.	Approximate actuals, 1893-94.

RECEIPTS.

6. *Land Revenue.*—The latest return from the Accountant-General shows that the total collections under this head during 1893-94 amounted to Rs. 3,87,06,849, against Rs. 3,87,50,000 passed by the Government of India as the revised estimate for the year. The actuals include Rs. 403 on account of recoveries for Survey and Settlement charges, which are wholly Imperial. The 12 per cent. on collections from Government estates aggregated Rs. 4,78,504, and the Provincial share of Land Revenue was therefore one-fourth of (Rs. 3,87,06,849—403—4,78,504), plus Rs. 4,78,504 or Rs. 1,00,35,489. The adjustments between Imperial and Provincial will probably result in a net deduction of Rs. 14,56,419 from the Provincial share of Land Revenue as shown below:—

	Revised estimate passed by the Government of India.	Approximate actuals.
	Rs.	Rs.
Fixed contribution to Imperial Revenues under the terms of the contract	(—)14,39,000	(—)14,39,000
Interest on the sums already advanced for remodelling the Hidgellee Tidal Canal	(—)20,000	(—)18,856
Write back of the excess credit (Rs. 44,629—32,456) taken in 1892-93 on account of Imperial buildings made over to local agencies for maintenance and execution	.. ...	(—)12,173
Cost of maintenance and execution of ditto in 1893-94	(+)41,000	(+)53,327
Advance for remodelling the Hidgellee Tidal Canal	(+)32,000	(—)8,279
Compensation for loss sustained by the Provincial revenues on account of the reservation of the Western Duars for the Khedda Department ...	(+)14,000	(+)10,806
Write back to Provincial Funds of the contribution to the Provident Fund of the Tirhut State Railway charged in the accounts of 1892-93 ...	(+)9,000	(+)9,259
Salary of Mr. H. Davies, the gardener who has newly arrived at the Royal Botanic Gardens, Calcutta	... ..	(+)256
Outfit allowance of ditto granted by the Secretary of State	.....	(+)325
Compensation to the Government of North-Western Provinces and Oudh for the loss sustained by that Government through the importation of Shajehanpur rum under bond	... ..	(—)52,084
Total ...	(—)13,63,000	(—)14,56,419

7. The expenditure incurred by the local agencies in the execution of Military and Imperial Civil Works, including the percentage charges for establishment and tools and plant during the year 1892-93, amounted to Rs. 32,456, against the estimate of Rs. 44,629, for which credit had been taken in the accounts of that year. The difference of Rs. 12,173 has now been written back to Imperial Funds in the accounts of 1893-94. The actual expenditure on Military and Imperial Civil Works in 1893-94, including the percentage charges for establishment, &c., as reported by the Public Works Department, amounted to Rs. 53,327, for which a credit has been taken provisionally and subject to final authorisation by the Government of India against Rs. 41,000 passed in the revised estimate for the year. The claim of the Government of the North-Western Provinces and Oudh for the sum of Rs. 52,084 as compensation for the loss sustained by the Provincial revenues of that Government in consequence of the action of the Board of Revenue, Bengal, prohibiting the importation of Shahjehanpur rum into Bengal, except under bond, has been accepted, and a debit of this amount against the Bengal Provincial Funds has accordingly been afforded in the estimate of 1893-94 now adopted.

8. *Salt.*—The original estimate of receipts under this head was Rs. 90,000, which was reduced to Rs. 80,000 in the revised estimate with reference to the actuals of 1892-93 amounting to Rs. 84,536. The actual collections in 1893-94, however, proved to be lower still and reached Rs. 77,265 only. The decrease

was in "Rent of warehouses," and was due to the stocks of bonded salt in store throughout the year falling very low.

9. *Stamps*.—The total receipts under this head amounted to Rs. 1,59,76,710 against Rs. 1,60,50,000, the revised estimate passed by the Government of India. Three-fourths of this sum, or Rs 1,19,82,533, have accordingly been taken as the Provincial share of the receipts, as against Rs. 1,20,38,000 in the revised estimate, a falling off of Rs. 55,467. The decrease was under "Commercial and other Stamps."

10. *Excise*.—The Provincial receipts under this head amounted to Rs. 30,37,041 against Rs. 30,25,000, the revised estimate of the Government of India. The increase was mainly under the head "Duty on ganja." The duty on all kinds of this drug was raised by one rupee per seer from the commencement of the year, and although an increase of Rs. 1,14,000 on the actuals of 1892-93 was provided on this account, in the revised estimate, the realizations in 1893-94 were still better than the revised estimate by Rs. 38,000. There was also an increase under "Distillery fees," owing to a change in the system of levying the fee in most of the districts towards the latter part of the year, liquor issued from central distilleries being charged $2\frac{1}{2}$ annas per gallon London-proof, instead of one anna per gross gallon as hitherto.

11. *Provincial Rates*.—The receipts under this head represent principally the proceeds of the Public Works Cess, but they include also two other items, viz., the recoveries from District Funds of part of the cost of collecting the Road Cess, and the proceeds of the rate for the general management of Private Estates under Act X of 1892. The total collections amounted to Rs. 46,13,061 against Rs. 46,05,000, the revised estimate, the details being as follows:—

	Revised estimate.	Actuals.
	Rs.	Rs.
Public Works Cess	41,40,000	41,34,309
Proportionate cost of collecting road cess	3,40,000	3,47,201
General rate for the management of Private Estates	1,25,000	1,31,551
Total ...	46,05,000	46,13,061

12. *Assessed Taxes*.—The revenue under this head showed a progressive increase up to 1891-92, and the estimate for 1893-94, which was based on the revised estimate for 1892-93, was originally placed at Rs. 43,30,000. The actuals of 1892-93, however, amounted to Rs. 42,27,964, and in consideration of the falling off in the collections during the first five months of the year, the revised estimate was reduced to Rs. 42,30,000 in the Financial Resolution No. 5032F., dated the 21st November 1893. That estimate was, however, subsequently raised by the Accountant-General to Rs. 43,00,000 with reference to the actuals of 12 months ending February 1894, and his action has been justified by the fact that the actual collections of the whole year amounted to Rs. 43,50,415. Half of this sum or Rs. 21,75,208, has been taken as the Provincial share of the receipts. The increase was under "Ordinary Collections," and appears to have been due to a careful revision of assessments.

13. *Forests*.—The receipts under this head amounted to Rs. 8,01,612 against Rs. 7,82,000, the revised estimate passed by the Government of India, and Rs. 7,44,882 the actuals of 1892-93. The increase was under the head "Timber and other produce removed from the forests by consumers or purchasers." The Provincial share of the receipts (one-half) amounts to Rs. 4,00,806, and the increase to Rs. 9,806.

14. *Registration*.—The revenue under this head, which had steadily improved for some years past, showed a falling off for the first time in 1893-94. The Provincial share (one-half) of the receipts under this head amounted to Rs. 6,94,568 against Rs. 7,16,901 the actuals of 1892-93, and Rs. 7,15,000 the revised estimate passed by the Government of India, the decrease being Rs. 20,432. The falling off occurred in the last two months of the year, and was due to the reduction of the minimum *ad valorem* fee on documents not exceeding Rs. 50 in value from twelve annas to eight annas.

15. *Principal Heads of Revenue*.—To sum up the figures contained in paragraphs 6 to 14, the total Provincial receipts under these major heads have

proved to be Rs. 3,16,18,382 against a revised estimate of Rs. 3,17,44,000, showing a loss of Rs. 1,25,618.

16. *Interest.*—The actuals amounted to Rs. 1,38,187 against Rs. 1,36,000, provided in the revised estimate ; the details are shown below :—

		Revised estimate.	Actuals.
		Rs.	Rs.
Class	I.—Interest on advances to cultivators ...	36,000	31,735
„	II.— ditto under special laws	4,000	1,300
„	III.—Interest on loans to landholders and other notabilities	10,000	21,182
„	IV.—Interest on loans to Municipalities, District Boards and other Public Bodies	22,000	24,644
	Interest on Government securities	13,000	12,672
	Miscellaneous	51,000	46,654
	Total ...	1,36,000	1,38,187

17. *Jails.*—In view of the large increase in the receipts under this head in 1891-92 and 1892-93, amounting to Rs. 9,27,642 and Rs. 9,13,136 respectively, and with reference to the orders of the Secretary of State directing that the requirements of the public consuming departments should, as far as possible, be supplied by the Jail Department, the original estimate for 1893-94 was placed at Rs. 9,59,000. Smaller supplies to the Military and Opium Departments caused, however, a falling off of income, and the actual receipts amounted to Rs. 8,08,117 against Rs. 9,10,000, the revised estimate of the year.

18. *Marine.*—The receipts under this head amounted to Rs. 9,33,731 against Rs. 9,12,000, the revised estimate passed by the Government of India. The increase was solely under pilotage receipts.

19. *Medical.*—The fluctuations in the receipts of the Medical Department are shown below :—

	Actuals, 1892-93.	Revised estimate, 1893-94.	Actuals 1893-94.
	Rs.	Rs.	Rs.
(1) Medical schools and colleges ...	32,891	38,000	41,847
(2) Hospital receipts	80,614	85,000	86,098
(3) Receipts from Lunatic Asylums...	23,459	24,000	28,702
(4) Medicines sold by Civil Surgeons	11	.....	213
(5) Contributions from municipalities and private persons ...	31,350	31,000	31,950
(6) Miscellaneous	1,938	2,000	1,762
Total ...	1,70,263	1,80,000	1,90,572

The receipts under head (1) show a progressive annual increase since 1888-89. The increase under head (2) was partly due to the enhancement of the rate of payments from the Hospital Port Dues Fund on account of sick seamen sent to hospitals, and partly to larger receipts from paying patients.

20. *Scientific and other Minor Departments.*—The receipts under this head amounted to Rs. 1,82,883 against Rs. 1,75,000, the revised estimate passed by the Government of India. The increase was chiefly under "Emigration fees," which amounted to Rs. 33,798 against Rs. 27,000, the revised estimate of the year.

21. *Miscellaneous.*—The actuals amounted to Rs. 8,62,995 against Rs. 8,97,000 the revised estimate, as shown below :—

	Revised estimate.	Actuals.
	Rs.	Rs.
(1) Unclaimed deposits	3,80,000	2,92,137
(2) Treasure Trove	.....	119
(3) Sale proceeds of Durbar presents ...	8,000	5,130
(4) „ of old stores and materials ...	35,000	33,244
(5) „ of land and houses ...	26,000	27,134
(6) Fees for Government audit	80,000	70,097
(7) Rents	26,000	27,972
(8) Miscellaneous fees, &c.	1,69,000	2,13,016
(9) Miscellaneous	1,73,000	1,94,146
Total ...	8,97,000	8,62,995

The estimate under (1) was based on the average actuals of past years, but there was an extraordinary falling off in the deposits lapsing to Government. The increase under (8) was chiefly due to exceptionally high receipts from fees in partition cases, which were realized during the closing months of the year.

22. *State Railways.*—The following statement compares the revised estimate passed by the Government of India with the actuals of the year, and shows a falling off of Rs. 90,158 in the Provincial shareof the receipts:—

	Revised estimate passed by the Government of India.	Actuals.
	Rs.	Rs.
Gross receipts	1,26,00,000	1,24,94,814
Working expenses	53,50,000	54,25,131
Net receipts ...	72,50,000	70,69,683
Provincial share ...	36,25,000	35,34,842

23. *Irrigation Major Works.*—The total collections amounted to Rs. 16,72,626 against Rs. 15,00,000, the revised estimate for the year. The increase was distributed among all the great Canal systems in the province as shown below:—

	Revised estimate.	Actuals.
	Rs.	Rs.
Orissa Project	3,40.000	3,76,575
Midnapore Canal	2,30,000	3,04,943
Tidal ,, ...	55,000	59,196
Sone Project	8,75,000	9,31,912
Total ...	15,00,000	16,72,626

The increase was principally due to larger traffic on the Orissa Canals, to the recovery of old outstandings on the Midnapore Canal, and to the more punctual recovery of current demands on the Midnapore and Sone Canals.

24. *Irrigation—Minor Works and Navigation by Public Works Department.*—The revenue from the various canals, rivers and embankments which are classed under this head was estimated at Rs. 8,00,000, while the actuals amounted to Rs. 7,44,667. The short realizations upon the Calcutta and Eastern Canals were due to much of the jute crop having been carried by rail and steamers, and in the case of the Nadia rivers to the continued unsatisfactory state of the entrance to the Mathabhanga river from the Ganges.

25. *Buildings and Roads—Civil Works by Public Works Department.*—The original estimate of receipts under this head was Rs. 1,70,000, which was raised to Rs. 2,55,000 in the Financial Resolution dated the 21st November 1893, as the Government share of the profits of the Darjeeling-Himalayan Railway for three years ending the 30th June 1893 was paid during the year, and it was expected that payment for the year ending the 30th June 1893 would also be made before the 31st March 1894. The actual receipts, however, aggregated Rs. 3,07,209, or Rs. 52,209 better than the revised estimate, owing to a gross profit of Rs. 30,439 on the working of the Calcutta work shops, not anticipated in the revised estimate, and to the realization of Rs. 25,395 in excess of the sum estimated (Rs. 40,000) as the probable rental of buildings during the year.

26. *Summary of Receipts.*—Thus the total Provincial revenue of the year amounted to Rs. 4,32,78,243, against a revised estimate of Rs. 4,34,10,000, a falling off of Rs. 1,31,757.

EXPENDITURE.

27. *Land Revenue.*—The total Provincial charges under this head amounted to Rs. 35,30,079 against Rs. 34,88,000, the revised estimate passed by the Government of India, there having been an advance under each main head as shown below:—

	Revised estimate.	Actuals.
	Rs.	Rs.
(1) Charges of District Administration	30,22,000	30,46,248
(2) Management of Government estates ...	3,89,000	4,02,872
(3) Land Records and Agriculture	77,000	80,959
Total ...	34,88,000	35,30,079

The increase under (1) was partly under the item of partition establishment, which was more than covered by the fees realised, and partly under salaries of general establishment due to the payment of exchange compensation allowance. The increase under (2) was caused by a larger outlay on improvements.

28. *Salt.*—The original estimate under this head, amounting to Rs. 41,000, was reduced to Rs. 35,000 in the revised estimate of the year. The actual charges, however, were smaller still, amounting to Rs. 26,731, an effect due chiefly to the provision for improvements of the golahs and warehouses at Sulkea, Chittagong, and Narainganj not having been fully utilized.

29. *Stamps.*—The cost of "Stamp paper supplied from Central Stores" amounted to Rs. 3,14,803 against Rs. 3,43,000, the revised estimate of the year, and largely owing to this reduced expenditure, the Provincial share of the total charges of the Stamp Department aggregated Rs. 4,73,780 against a revised estimate of Rs. 4,97,000.

30. *Customs.*—The actual charges amounted to Rs. 5,42,498 against Rs. 5,56,000 passed by the Government of India as the revised estimate of the year. The saving was in Calcutta, and was due to the municipal tax on the Customs House buildings not being paid during the year on account of a disputed charge.

31. *Law and Justice—Courts of Law.*—The total charges amounted to Rs. 88,19,530 against Rs. 87,60,000, the revised estimate passed by the Government of India. The increase was due to the payment of exchange compensation allowance at a higher rate than was allowed for in the revised estimate, and also to larger payment of fees to pleaders in criminal cases.

32. *Jails.*—The revised estimate under this head was Rs. 20,30,000, but the total charges amounted to Rs. 20,75,478. The excess expenditure was under rations and clothing and bedding in both Central and District Jails, and was attributed partly to the rise in jail population and partly to the high prices of food-grains.

33. *Police.*—The total charges under this head amounted to Rs. 55,97,974 against Rs. 55,50,000, the revised estimate passed by the Government of India. The details are these:—

	Revised estimate.	Actuals.
	Rs.	Rs.
(1) Presidency Police	7,20,000	7,37,216
(2) Superintendence	1,46,000	1,51,894
(3) District Executive Force	40,25,000	40,79,531
(4) Municipal Police	37,000	36,257
(5) Village ,, ...	20,000	22,507
(6) Special ,, ...	4,93,000	4,61,791
(7) Railway ,, ...	1,03,000	1,01,033
(8) Cattle-pounds	4,000	4,533
(9) Refunds	2,000	3,212
Total ...	55,50,000	55,97,974

The saving under item (6) was chiefly in rations of the Lushai Hill Police; there was larger outlay under item (1) on account of hospital charges and arrear payments of contribution to the Port Commissioners of Calcutta for River Police, and under item (3) for larger payments of exchange compensation allowance.

34. *Marine.*—There was an increase of expenditure under "Purchase and hire of ships and vessels" The total charges amounted to Rs. 9,39,253 against Rs. 9,15,000, the revised estimate passed by the Government of India.

35. *Education.*—The total expenditure was Rs. 25,72,090 against Rs. 25,45,000, the revised estimate for the year, the increase being chiefly under "Government Colleges."

36. *Medical.*—There was larger expenditure under "Hospitals and Dispensaries" than had been provided for in the revised estimate, and the total outgoings of the department were Rs. 17,13,997 against Rs. 17,00,000, the revised estimate for the year.

37. *Scientific and other Minor Departments.*—The total expenditure under this head amounted to Rs. 4,51,978 against Rs 4,23,000, the revised estimate. The increase was under "Cinchona Plantation," "Botanical Gardens" and "Veterinary charges."

38. *Stationery and Printing.*—The value of "Stationery supplied from Central Stores" amounted to Rs 6,11,506 against Rs. 7,75,000 provided for in the revised estimate of the year and largely on account of this saving, the total charges amounted to Rs. 12,60,355 only against the revised estimate of Rs. 14,06,000, passed by the Government of India.

39. *Miscellaneous.*—There were increases under "Petty Establishments" owing to the adjustment under this head of the charges on account of Khedda establishment and contingencies; under "Rents, Rates and Taxes" for the payment of arrear allowance to Omrao Begum Shahazada Mohamed from December 1881 to March 1893, for the maintenance of the tomb of Khaja Anwar Sahib; and under "Miscellaneous Refunds." The total expenditure aggregated Rs. 2,87,604 against Rs. 2,36,000, the revised estimate for the year.

40. *Irrigation—Major Works.*—The actual charges amounted to Rs. 14,55,178 against Rs. 14,25,000 provided for in the revised estimate. The increase was in the cost of maintenance of the Orissa canals.

41. *Buildings and Roads—Civil Works in charge of the Public Works Department.*—The outgoings were originally estimated at Rs. 27,43,000, but owing to the transfer of various sums to the Civil Department for expenditure by District Boards, the amount accepted by the Government of India as the revised estimate was Rs. 25,38,000. The actuals, however, aggregated Rs. 25,59,450. The increase was chiefly caused by certain expenditure having been debited in the accounts by transfer from the suspense heads.

42. *Buildings and Roads—Civil Works in charge of the Civil Department* —The grant of Rs. 41,451 for improvements in Hastings was not expended, and the grant for Contributions to Excluded Local Funds and Municipalities was not fully drawn during the year. The total charges amounted to Rs. 1,21,558 against Rs. 1,90,000, the revised estimate for the year.

43. *Contributions.*—The revised estimate of contributions in aid of Incorporated Local Funds for the year was Rs. 12,55,000, but the total amount drawn was Rs. 13,57,715. The increase was due to several additional grants made at the latter part of the year to Local Funds for the construction of Provincial Civil Works, which were not included in the estimate, and also to the adjustment of Rs. 24,856, being the starting balance of the Village Chaukidari Fund opened in the Chota Nagpur Division. which was passed on to the local fund by a debit to Provincial Funds.

44. *Closing balance.*—To sum up, the total expenditure of the year was anticipated to be Rs. 4,26.78,000, and turned out to be Rs. 4,29,14,846, an excess of Rs. 2,36,846. Adding this to the falling off in revenue of Rs. 1,31,757, the province was worse off at the end of the year than was anticipated by Rs. 3,68,603. The result is that the closing balance of the past year will stand at Rs. 26,18,569 against Rs. 29,87,000 anticipated by the Government of India when passing the estimate for the current year. Out of these 26 lakhs have to be taken during 1894-95 the three lakhs contributed to the Supreme Government's Resources to meet the anticipated deficit of the current year.

PART III.

REVISED ESTIMATE, 1894-95.

45. Turning now to the estimates of the current year based upon the latest information available, the following table compares the figures which were passed by the Government of India and those which the Lieutenant-Governor has now resolved to adopt. They show that there is an anticipated increase of Rs. 5,29,000 in receipts, but against that has to be set an actual reduction of Rs. 3,68,000 in the opening balance, and an expected increase of expenditure of Rs. 3,64,000, so that the closing balance will fall from Rs. 22,17,000 to Rs. 20,14,000. The cause of the variation in each case is examined in the following paragraphs:—

Receipts.	Estimate passed by the Government of India.	Estimate now adopted.	Expenditure.	Estimate passed by the Government of India.	Estimate now adopted.

Receipts.

46. *Land Revenue.*—The Government of India accepted the estimate of total collections under this head as passed by the Local Government amounting for 1894-95 to Rs. 3,85,00,000 against Rs. 3,87,06,849, the actuals of 1893-94. The collections in the first seven months of the current year amounted to Rs. 1,32,86,000, against Rs. 1,34,02,000 in the corresponding period of last year, showing a falling off of Rs. 1,16,000. The average receipts for each of the past five years amounted to Rs. 3,87,17,000, and the Lieutenant-Governor does not

think that there are any grounds for apprehending that the receipts during the year will not come up to the original estimate of Rs. 3,85,00,000, which will accordingly be retained. The adjustments between Provincial and Imperial will probably result in a net reduction of Rs. 16,01,000 in the Provincial share of revenue under this head, as shown below :—

	Estimate passed by the Government of India.	Estimate now adopted.
	Rs.	Rs.
Lump contribution under the Provincial contract	(—)14,39,000	(—)14,39,000
Interest payable on advances received for the remodelling of the Hidjili Tidal Canal	(—)23,000	(—)21,000
Special contribution to Imperial Funds ...	(—)3,00,000	(—)3,00,000
Further advance to be drawn for remodelling the Hidjili Tidal Canal ...	+1,26,000	+1,26,000
Grant for expenditure on Imperial Civil and Military Works transferred to local bodies	+10,000	+14,000
Grant for loss sustained consequent on the reservation of the Western Duars for the Khedda Department	+18,000	+18,000
Salary of Mr. Davies, the probationary gardener at Sibpur	.....	+1,000
Total ...	(—)16,08,000	(—)16,01,000

47. When the estimates for 1893-94 were passed, it was anticipated that the capital expenditure of the year on the remodelling of the Hidjili Tidal Canal would amount to Rs. 1,00,000. This was reduced to Rs. 32,067 in the revised estimate in March last, in consequence of half the cost of the Bhograi Supply and Sluice Channel being written back and charged to the accounts of the Orissa Coast Canal instead of to the Hidjili Tidal Canal as had been anticipated. The ultimate result of this transfer was that instead of Provincial revenues receiving the estimated amount of Rs. 32,067, the sum of Rs. 8,279 was actually paid back from Provincial to Imperial revenues. This adjustment also accounts for the reduction of the charge for interest payable from the Provincial revenues on the capital advanced for the work from Rs. 23,000 to Rs. 21,000. The Government of India, while passing orders on the budgets for 1894-95, allowed a credit of Rs. 10,000 on account of the transfer of certain Imperial Civil and Military works to the management of local agencies. Since then the care of several other Imperial buildings has been made over to local bodies, with additional grants aggregating Rs. 4,000; so that the grant on this account amounts to Rs. 14,000.

48. *Salt.*—The miscellaneous receipts under this head during the first half of the current year amounted to Rs. 53,786, against Rs. 37,586 in the corresponding period of 1893-94, showing an increase of Rs. 16,200. The actual receipts of 1893-94 were Rs. 77,265, and as some further increase is expected in the second half of the current year owing to the increasing importation of salt, for which sheds have been provided in the Kidderpore Docks, the total estimate under this head has been raised from Rs. 80,000 to Rs. 1,10,000.

49. *Stamps.*—The estimate of total revenue under this head, as passed by the Government of India, amounts to Rs. 1,60,50,000. The Comptroller-General's latest statement shows that the receipts during the first six months of the current year exceeded those of the corresponding period of last year by Rs. 1,92,000, the increase being entirely under "Court-fees." The actual receipts in 1893-94 amounted to Rs. 1,59,76,710, and the Lieutenant-Governor thinks that the estimate for 1894-95 may be safely raised to Rs. 1,61,60,000. The Provincial share will be Rs. 1,21,20,000, against Rs. 1,20,38,000 passed by the Government of India.

50. *Excise.*—The estimate for 1894-95 amounted to Rs. 1,21,00,000 against Rs. 1,21,48,165, the actuals of 1893-94. The result of the settlement of excise shops for 1894-95 shows an increase of Rs. 5,29,179 in "License fees" as compared with the figures of the previous year, and the Comptroller-General's return shows that the receipts in the first seven months of the current year were Rs. 2,93,000 in excess of the receipts of the corresponding period of 1893-94. In view of these figures the estimate of total revenue under this head will be

raised from Rs. 1,21,00,000 to Rs. 1,25,00,000. The Provincial share of one-fourth will stand at Rs. 31,25,000, against Rs. 30,25,000 originally estimated.

51. *Provincial Rates.*—The following statement compares the estimates under this head with the actuals of the last two years:—

	Actuals, 1892-93.	Approximate actuals, 1893-94.	Estimate, 1894-95.	Revised estimate, 1894-95.
	Rs.	Rs.	Rs.	Rs.
(1) Public Works Cess ...	41,94,726	41,34,309	42,00,000	41,40,000
(2) General rate for the management of private estates ...	77,209	1,31,551	1,40,000	1,50,000
(3) Proportionate cost of collecting Road Cess	3,44,332	3,47,201	3,20,000	3,40,000
Total ...	46,16,267	46,13,061	46,60,000	46,30,000

The latest return from the Accountant-General shows a falling off of Rs. 17,000 in the collections under Public Works Cess in the first six months of the current year, as compared with those of the corresponding period of last year. The actuals in 1893-94 amounted to Rs. 41,34,309, and the Lieutenant-Governor thinks that it will not be safe to place the estimate for the current year at a higher figure than Rs. 41,40,000. The Board of Revenue have recently raised the estimate of receipts under item (2) from Rs. 1,40,000 to Rs. 1,50,000, which has been accepted. Under head (3) the recoveries in the first six months show a falling off of Rs. 6,000 only, and as the actuals of 1892-93 and 1893-94 amounted to Rs. 3,44,332 and Rs. 3,47,201 respectively, the estimate for 1894-95 will be raised from Rs. 3,20,000 to Rs. 3,40,000. The total estimates under Provincial Rates will therefore stand at Rs. 46,30,000.

52. *Assessed Taxes.*—The Government of India placed both the revised estimate for 1893-94 and the estimate for 1894-95 at Rs. 43,00,000. The receipts in 1893-94 amounted to Rs. 43,50,415, and the collections in the first six months of the current year show an increase of Rs. 2,07,211 as compared with those of the corresponding period of last year. The increase is attributable partly to better assessments, and partly to prompter payments, which will necessarily decrease to some extent the receipts in the second half-year: it will therefore not be safe to place the estimate at a higher figure than 44,00,000 instead of Rs. 43,00,000. The Provincial share will stand at Rs. 22,00,000.

53. *Registration.*—The Provincial share of the receipts under this head during the first six months of the current year amounted to Rs. 3,62,637, against Rs. 3,94,064 obtained in the corresponding period of last year, showing a decrease of Rs. 31,427. The falling off has been attributed chiefly to the orders reducing the minimum *ad valorem* fees from annas 12 to annas 8, which took effect from the 1st July 1893. The actuals in 1893-94 were Rs. 6,94,568. The estimate for the current year has been reduced from Rs. 7,25,000 to Rs. 6,70,000.

54. *Law and Justice—Courts of Law.*—The Government of India placed the revised estimate for 1893-94 at Rs. 9,00,000, and the estimate for 1894-95 at Rs. 9,04,000. The actuals in 1893-94 amounted to Rs. 8,96,595, and the receipts in the first six months of the current year show a decrease of Rs. 31,000 as compared with those of the corresponding period of last year. In view of these figures the estimate has been reduced to Rs. 8,70,000.

55. *Jails.*—The original estimate under this head amounted to Rs. 9,55,000 against Rs. 8,08,117, the approximate actuals of 1893-94, and Rs. 8,55,000, the average actuals of the past five years. The receipts in the first six months of the current year show a falling off of Rs. 5,000, but there was an increase of Rs. 28,000 in September 1894. Looking to these results, the estimate will be placed at Rs. 9,00,000.

56. *Police*—The approximate actuals in 1893-94 amounted to Rs. 2,43,600, and the receipts during the first six months of the current year show an increase of Rs. 14,000 as compared with those of the corresponding period of last year. The estimate will be raised from Rs. 2,40,000 to Rs. 2,56,000.

57. *Marine.*—The original estimate under this head amounted to Rs. 9,19,000 against Rs. 9,33,731, the approximate actuals of 1893-94. The receipts in the first six months of the current year show an increase of Rs. 9,000 as compared

with those of the corresponding period of last year. The estimate for 1894-95 will be placed at Rs. 9,40,000.

58. *Medical.*—The receipts under this head in 1893-94 amounted to Rs. 1,90,572, and the realizations in the first six months of the current year show an increase of Rs. 19,000 over those of the corresponding period of last year. The estimate will be raised from Rs. 1,77,000 to Rs. 2,00,000.

59. *State Railways.*—Under the terms of the Provincial contract with the Government of India, the net receipts of the entire Eastern Bengal State Railway system are divided equally between the Imperial and Provincial Governments. The following statement compares the estimate passed by the Government of India for 1894-95 with the actuals of 1893-94 :—

		Actuals for 1893-94.	Estimate passed by the Government of India for 1894-95.
		Rs.	Rs.
Gross receipts	...	1,24,94,814	1,22,00,000
Working expenses	...	54,25,131	55,00,000
Net receipts	...	70,69,683	67,00,000
Provincial share	...	35,34,842	33,50,000

The approximate gross earnings of the Eastern Bengal State Railway system from the 1st April to the 27th October 1894 amounted to Rs. 75,52,000, against Rs. 69,12,000 obtained from the 1st April to the 28th October 1893, showing an improvement of Rs. 6,40,000. If the average receipts of one day are added to this, the total increase in six months and 28 days will be nearly Rs. 6,90,000. The earnings for a later week, however, show a small falling off of Rs. 9,000; and, in view of all these figures, the Lieutenant-Governor thinks that the estimate of gross receipts may be raised from Rs. 1,22,00,000 to Rs. 1,31,00,000, and the working expenses from Rs. 55,00,000 to Rs. 57,00,000, so that the net receipts may be taken at Rs. 74,00,000. The Provincial share of these receipts will therefore be Rs. 37,00,000.

60. *Irrigation—Major Works.*—The latest returns received from the Examiner of Public Works Accounts show that there has been a falling off of Rs. 1,26,000 in the actual collections of the first five months of the current year as compared with the receipts of the corresponding period of last year. The high actuals of 1893-94 (Rs. 16,73,626) are accounted for by the fact that large arrears were collected in that year. The estimate for 1894-95, amounting to Rs. 15,00,000, which contemplated a considerable falling off, will be retained.

61. *Irrigation—Minor Works.*—The returns of the Examiner of Public Works Accounts show that the receipts during the first five months of the current year from Minor Works in charge of the Public Works Department amounted to Rs. 2,25,127, against Rs. 2,78,500 realized in the corresponding period of last year. The total receipts in 1893-94 amounted to Rs. 7,44,667, and the estimate for 1894-95 has, upon the advice of the Public Works Department, been reduced, from Rs. 8,15,000 to Rs. 7,45,000. On the other hand, the estimate of receipts by Civil Officers will be raised from Rs. 1,16,000, to Rs. 1,26,000, the actual collections in the first six months of 1894-95 being Rs. 1,21,216.

62. *Buildings and Roads—Civil Works.*—The original estimate of receipts for Civil Works under the Public Works Department amounts to Rs. 1,50,000, which will be raised by Rs. 61,000 on account of the sale proceeds of certain buildings and lands. The estimate of receipts for Civil Works in charge of officers of the Civil Department amounts to Rs. 2,28,000. The actuals in 1893-94 were Rs. 2,38,000, and the receipts during the first six months of the current year very nearly correspond with those obtained in the same period of last year. The estimate will be raised to Rs. 2,37,000.

63. *Contributions.*—A contribution of Rs. 10,000 has been made from the Darjeeling Improvement Fund towards the cost of a bridge over the Balasun river. The amount will be adjusted under this head and made over to the Public Works Department in addition to another Rs. 5,000 by reduction of the grant for the management of Government estates, to enable that department to undertake the work.

64. *Summary of Receipts.*—The total estimated revenue of 1894-95, is now fixed at Rs. 4,33,57,000, an increase of Rs. 5,29,000 over the original estimate. Of this increase the prosperous traffic of the Eastern Bengal State Railway accounts for three-and-a-half lakhs.

EXPENDITURE.

65. Out of the net estimated additional expenditure of Rs. 3,64,000, as much as Rs. 1,68,000 is caused by the payment of additional exchange compensation allowance, and it will be convenient, before examining the major heads in detail, to show in one view the total expenditure likely to be entailed on the Provincial Revenues by the payment of exchange compensation allowance in 1894-95 as compared with the actuals of 1893-94. The estimates for 1894-95, as passed by the Government of India, included a provision of Rs. 6,36,000 for exchange compensation allowance, based upon a rate of exchange of 1*s.* 2*d.* for the rupee; but owing to the fall in the exchange value of the rupee, the Accountant-General has reported that the total charge will probably amount to Rs. 8,04,000, as shown below in details of the major heads—

	Actuals, 1893-94.	Estimate passed by the Government of India, 1894-95.	Estimate now adopted, 1894-95.
	Rs.	Rs.	Rs.
Land Revenue	58,937	99,000	1,06,000
Stamps and Excise	1,898	5,000	3,000
Customs	9,795	17,000	11,000
Assessed Taxes	383	...	...
Forest	4,065	7,000	6,000
Registration	625	1,000	1,000
General Administration ...	49,228	74,000	76,000
Courts of Law	1,60,449	2,30,000	2,85,000
Jails	11,493	17,000	19,000
Police	51,313	68,000	1,08,000
Marine	6,195	6,000	30,000
Education	31,195	44,000	62,000
Medical ...	41,970	58,000	83,000
Minor Departments	6,681	9,000	10,000
Stationery and Printing ...	1,326	1,000	4,000
Total ...	4,35,553	6,36,000	8,04,000

Increased provision on this account will now accordingly be made in the proper place in the estimates under the several major heads.

66. *Land Revenue.*—The estimate under this head, amounting to Rs. 35,36,000, will be raised by Rs. 7,000 for exchange compensation allowance as noted in the previous paragraph; by Rs. 5,000 for the additional establishment sanctioned to enquire into irregularities in the *tauzi* accounts of the Burdwan District; and by Rs. 2,260, being the amount granted for the management of private estates in the Chittagong Hill Tracts and Angul. Against this addition a reduction of Rs. 5,000 will be made in the grant for the management of Government estates, that being the sum transferred to the Public Works Department for the construction of a bridge over the Balasun river in the district of Darjeeling as stated in paragraph 63 above. The estimate will now stand at Rs. 35,45,000 instead of Rs. 35,36,000.

67. *Salt.*—Owing to the unusually large importations of salt this year, two sheds at the Kidderpore Docks have been rented at Rs. 600 per mensem each. Some temporary increase in the establishment has also been sanctioned, as well as temporary partitions in the Sulkea Salt Golah sheds at a cost of Rs. 2,000. The total estimate will therefore be raised from Rs. 33,000 to Rs. 43,000.

68. *Excise.*—A grant of Rs. 14,000 has been sanctioned to the District Board of Rajshahi for constructing two godowns for the storage of ganja at Nowgong, the charge being met by transfer from the grant for the construction of excise buildings. A reduction of Rs. 4,000 will be made this on account in the Provincial share of the excise charges, and the Provincial share of the estimate will now stand at Rs. 1,63,000.

69. *Provincial Rates.*—The estimate under this head, amounting to Rs. 3,96,000, will be raised by Rs. 17,000 to meet the cost of cess revaluation

in the district of Patna. The estimate will now stand at Rs. 4,13,000: the approximate actuals of 1893-94 were Rs. 4,27,711.

70. *Customs.*—Since the budget was passed, placing the estimate under this head at Rs. 5,79,000, considerable additional establishment has been entertained in the Calcutta Custom House on the introduction of the new Tariff Act; but as the additional charge will be met by an assignment from the Imperial Revenues, for which no credit has been taken under Land Revenue adjustments, no provision for the additional expenditure will now be made in the Provincial Budget. The dispute with the Calcutta Municipality regarding the payment of taxes for the Custom House buildings having now been concluded, a provision of Rs. 10,837 will be added to the revised estimate to meet this charge which, as explained in paragraph 30 above, was saved in 1893-94.

71. *Assessed Taxes.*—On the recommendation of the Board of Revenue, the total grant for establishment in the Income-Tax Department in 1894-95 has been reduced from Rs. 1,77,144 to Rs. 1,72,992, and the grand total from Rs. 1,88,144 to Rs. 1,83,992. The Provincial share will stand at Rs. 92,000, against Rs. 94,000 originally estimated.

72. *Forests.*—Owing to the number of officers on leave, the Conservator of Forests has reduced the original estimate by Rs. 10,000 under the head of Salaries and Travelling Allowances of superior officers. The Accountant-General has recently reported that a provision of Rs 11,000, against a budget grant of Rs. 14,000, may be sufficient on account of exchange compensation; so that the total reduction amounts to Rs. 13,000. The Provincial share will stand at Rs. 2,23,000, against Rs. 2,30,000 in the original estimate.

73. *Registration.*—The Provincial share of the charges during the first six months was Rs. 2,14,000, against Rs. 2,05,000 in the same period of last year, showing an increase of Rs. 9,000. The actuals of 1893-94 were Rs. 3,92,748, and it will not be safe to place the estimated Provincial share at a lower figure than Rs. 4,00,000.

74. *Jails.*—The estimate passed by the Government of India amounts to Rs. 22,44,000 against Rs. 20,75,478, the approximate actuals of 1893-94. The estimates of receipts and charges under this head are compared below with the actuals of the two preceding years:—

	Actuals, 1892-93.	Approximate actuals, 1893-94.	Budget estimate, 1894-95.	Estimate now proposed, 1894-95.
1	2	3	4	5
	Rs	Rs.	Rs	Rs.
Jails .. Receipts ...	4,055	5,433	5,000	5,000
Jails .. Charges ...	14,08,045	14,55,589	14,86,600	15,00,000
Net Expenditure ...	14,03,990	14,50,156	14,81,600	14,95,000
Manufactures ... Receipts ...	9,09,081	8,02,684	9,50,000	8,95,000
Manufactures ... Charges ...	7,05,487	6,19,889	7,57,400	7,00,000
Net Receipts ...	2,03,594	1,82,795	1,92,600	1,95,000

The estimate for 1894-95 provides for a net expenditure of Rs. 14,81,600 under Jails and for a net profit of Rs. 1,92,600 from Jail manufactures. The actual charges for Jails in the first six months of the current year show an increase of Rs. 38,000. Looking to all these figures, it will not be safe to place the estimate of expenditure under Jails lower than Rs. 15,00,000. In view of the actual charges in past years, a provision of Rs. 7,00,000 will probably be sufficient under Jail manufactures, and the total expenditure of the Jail Department for 1894-95 may be estimated at Rs. 22,00,000.

75. *Police.*—The estimate under this head, amounting to Rs. 58,92,000, will be raised by Rs. 20,000 for an increased grant under contract contingencies and by Rs. 40,000 for the payment of additional exchange compensation allowance. The total grant will now stand at Rs. 59,52,000.

76. *Marine.*—The grant under this head will be raised by Rs. 3,000 for an annual provincial contribution towards the cost of a pilot chart of the Indian Ocean; by Rs. 2,207 the contribution of the Bengal Government towards the claim of Messrs. Macneill & Co. for the carriage of non-service parcels by the mail steamers running on the Brahmaputra river during the years 1885 to 1893, and by Rs. 24,000 to meet the cost of additional exchange compensation allowance. The total estimate will therefore be raised by Rs. 29,000, and will stand at Rs. 9,28,000.

77. *Education.*—The estimate under this head, amounting to Rs 26,46,000, will be raised by Rs. 50,000 for additions and alterations to the workshop attached to the Sibpur Engineering College; by Rs. 4,300 for the printing of the Lepcha Dictionary; by Rs. 1,000 for the purchase of tools and raw materials for the Ranchi Industrial School; and by Rs. 18,000 for the payment of additional exchange compensation allowance. Against these further grants, amounting to Rs. 73,300, the following reductions aggregating Rs. 33,634 will be made by transfer from this to other heads:—

	Rs.
(*a*) A grant to the District Board of Noakhali for repairing the houses and furniture of the four Government middle vernacular schools in that district damaged by the cyclone of October 1893	411
(*b*) A grant to the District Board of Pabna for the construction of two wings of the Pabna Zilla School building	6,926
(*c*) A grant to the District Board of Backerganj for the purchase of books, maps, &c., for the Government middle vernacular schools in that district	150
(*d*) Grants to the several District Boards for grants-in-aid to primary schools	25,500
(*e*) A grant to the District Board of Bankura for opening out the lower parts of two windows in the Bankura Zilla School ...	66
(*f*) A grant to the Public Works Department for the erection of iron fencing with iron gates in the Nawab's Madrassa at Murshidabad	581
Total ...	33,634

The total estimated expenditure will now stand at Rs. 26,46,000+73,300—33,634=Rs. 26,85,666, or Rs. 26,86,000 in round numbers.

78. *Scientific and other Minor Departments.*—The estimate under this head will be raised by Rs. 4,300, or from Rs. 4,42,000 to Rs. 4,46,000 to meet certain minor charges.

79. *Superannuation.*—The following table shows the Provincial charges under this head during the past six years:—

	Rs.	Increase.
1888-89	13,70,000	...
1889-90	14,36,000	66,000
1890-91	15,13,000	77,000
1891-92	16,00,000	87,000
1892-93 ...	17,03,000	1,03,000
1893-94	17 40,000	37,000
Estimate 1894-95	18,50,000	1,10,000

The increase during the last five years has averaged Rs. 74,000 a year. The actuals in the first six months of the current year show an increase of Rs. 22,000 compared with the payments during the same period of last year; but out of this sum the increase in September 1894 alone amounted to Rs. 11,000. In view of these figures, the Lieutenant-Governor thinks that the estimate may be safely reduced from Rs. 18,50,000 to Rs. 18,00,000.

80. *Miscellaneous.*—A grant of Rs. 6,061 has already been sanctioned to the District Charitable Society to meet the cost of the repairs to the Alms House buildings, and applications for grants-in-aid from some of the Charitable Societies are under consideration. The estimate under this head will be raised from Rs. 2,27,000 to Rs. 2,36,000.

81. *Irrigation—Minor Works and Navigation.*—The estimate of the Government of India, amounting to Rs. 15,72,000, will be raised by Rs. 35,000 on account of the estimated cost of clearing the Gaighatta khal and the Balighai drain. The total grant will thus stand at Rs. 16,07,000.

82. *Civil Works in charge of the Public Works Department.*—The grant for Provincial Civil Works for the current year was originally fixed at Rs. 26,36,000. It has been reduced to Rs. 24,82,314 as the net result of certain additions and deductions sanctioned during the past eight months. An additional grant of

Rs. 10,483 will now be made for percentage charges for establishment, tools and plant on Imperial works transferred to the management of local funds in 1892-93 and 1893-94, as shown below :—

	Rs.
Grant for percentage charges in 1892-93	6,386
Ditto ditto in 1893-94	10,474
	16,860
Deduct amount already granted in 1893-94	6,377
	10,483

The Lieutenant-Governor has also determined to make a further additional grant of Rs. 40,000 to enable the Public Works Department to undertake several urgent works which can no longer be postponed. The total grant will therefore stand at Rs. 25,33,000.

83. *Civil Works in charge of Civil Officers.*—The sum of Rs. 41,451 sanctioned by Government for the improvements at Hastings was not drawn by the Calcutta Municipality in 1893-94. The amount should therefore be provided in the current year. A provision of Rs. 50,000 will also be made to meet the Government contribution towards the cost of acquiring land in the northern part of the town of Calcutta for a recreation ground for young men. The total grant under this head will therefore be raised from Rs. 1,38,000 to Rs. 2,29,000.

84. *Contributions.*—The grants made to several District Boards to establish equilibrium between the receipts and charges of departments transferred to their management amount to Rs. 4,45,035, and the special grants made to the several Boards for the maintenance of roads transferred to their charge now amount to Rs. 2,29,720. Against these sums must be set Rs. 20,000 restored to the Public Works Department by the retransfer of the roads in the district of Gaya. The annual grants to the District Boards for the maintenance of Imperial and Provincial civil works, including establishment and allowances to Engineers, &c., amount to Rs. 1,48,267, and the annual grants to the District Road Accounts and Road Funds aggregate Rs. 82,942. The grand total of these various grants is Rs. 8,85,964. The following further expenditure has been sanctioned for the current year :—

	Rs.
To Local Funds for the construction and maintenance of Imperial works	3,855
To Local Funds for the construction and maintenance of Provincial works by reduction of the Public Works Department grant	1,83,450
To Local Funds for the construction and maintenance of Provincial works for which no corresponding reduction of the Public Works Department grant has been made	3,859
To Local Funds for the construction and maintenance of Provincial works by reduction of Irrigation Minor Works	107
To the District Board of Rajshahi for ganja golahs ...	14,000
Grants to the District Boards for the extension of primary education and other charges by reduction of the Education grant as in paragraph 77 above ...	33,053
Additional grant for the District Road Accounts, Sonthal Parganas, for Public works	10,000
Grant to the District Board of Howrah in compensation for the loss of tolls arising from the retransfer of the Gaighata Khal Ferry to Government ...	2,500
Grant to the District Board of Muzaffarpur for primary education	1,000
Grant to the District Board of Noakhali for retransfer of cattle-pounds	350
Grant to the District Board of Mymensingh for revaluation charges	7,314
	2,59,488

The estimated expenditure of grants to Incorporated Local Funds now, therefore, amounts to Rs. 8,85,964+2,59,488=11,45,452, and as some provision is necessary to meet unforeseen demands, the estimate under this head will be placed at Rs. 11,70,000.

85. *Closing balance.*—According to the estimates passed by the Government of India, it was expected that the year would close with a balance of Rs. 22,17,000. According to the estimates now adopted, the closing balance will be Rs. 20,14,000. The manner in which this total has been arrived at has been explained in paragraph 45 above.

86. *Conclusion*—The budget estimates passed early in the year by the Government of India contemplated an excess of Rs. 7,70,000 in expenditure above receipts, but owing chiefly to the large increase in Railway receipts and Stamps and Excise, the estimated excess expenditure will be only Rs. 6,05,000. This saving of Rs. 1,65,000, however, is more than absorbed by the unexpected reduction of Rs. 3,68,000 in the opening balance, due chiefly to the larger payments of exchange compensation allowance in 1893-94, and the difference about 2 lakhs, represents the extent to which the closing balance of 1894-95 is expected to be reduced. It is anticipated that the estimate of expenditure sanctioned by the Government of India for 1894-95 will be exceeded by $3\frac{1}{2}$ lakhs, which includes nearly $1\frac{3}{4}$ lakhs for additional exchange compensation allowance and more than a lakh and-a-half on account of grants to District Boards, provided in great part by corresponding reductions of the Public Works grant.

ORDER.—Ordered that a copy of this Resolution be submitted to the Government of India, Department of Finance and Commerce, for information.

Ordered also that a copy of the above Resolution be forwarded to the Board of Revenue; to all Commissioners of Divisions; to the Accountant-General; to the Inspectors-General of Civil Hospitals, Police, Jails, and Registration; to the Directors of Public Instruction and Land Records and Agriculture; to the Conservator of Forests; to the Port Officer, Calcutta; to the Superintendent of the Royal Botanic Gardens, Calcutta, to the Manager of the Eastern Bengal State Railway and to all Departments of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Govt. of Bengal.

FINAL REPORT ON THE WINTER RICE CROP OF BENGAL 1894.

The following is published for general information.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

REVENUE DEPT.,
The 11th December 1894.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final report on the winter rice crop of Bengal, 1894.

1. *Explanatory.*—The final forecast of the winter rice crop has not been received from the Sonthal Parganas, Angul and Khondmals and Puri. For these districts the preliminary forecasts have been retained in the consolidated district returns appended to this note.

2. *Character of the Season.*—The character of the season up to the middle of September last was described in the Preliminary Forecast issued on the 4th October 1894. The rainfall had been on the whole favourable to the cultivation and growth of the winter rice crop in most districts of Bengal. The crop suffered, however, slightly from insufficiency of rain in July in North Bengal and North Bihar, from floods in parts of Burdwan, Nadia, Murshidabad, Patna, Muzaffarpur, Cuttack and Balasore, and from excessive accumulation of water in the Contai sub-division of Midnapur. Since the middle of September abundant rain has been received in every part of these provinces. The rainfall during October and the first week of November was, indeed, unusually heavy, especially in Bihar, Chota Nagpur and North Bengal, but as fortunately there was no wind, the crop was not damaged to any appreciable extent. On the contrary the continuance of the monsoon to a later period than usual proved to be of great benefit to the crop in general, and in particular to the crop in North Bengal, where, owing to the scanty rainfall during June and July, transplanting was very late. It will be seen, on comparison of the present returns with the preliminary estimates, that in 22 districts the prospects of the crop have improved since the submission of the preliminary forecast; in 18 the preliminary estimates have been maintained, while in one only, namely Murshidabad, the preliminary estimate of outturn has been slightly reduced.

3. *Area cultivated.*—The district estimates of area cultivated with winter rice in the current and last year, as reported in the first forecast, remain unaltered with a few exceptions. The total area in Bengal, estimated to have been cultivated with winter rice this year, amounts to 31,388,600 acres against 30,798,100 acres in 1893. Owing to some misconceptions still existing with regard to the term "normal area," no strict comparison between the current year's area and the normal is yet possible; probably the area cropped this year has been in excess of the normal.

4. *Character of the crop.*—Out of the 45 districts in these Provinces, as many as twenty-five* have reported the crop to be a full average or better than a full average crop; 15† have reported the crop as varying from 14 to 16 annas, and five‡ from 12 to less than 14 annas. No district, as a whole, returns less than a 12-anna crop, and no sub-division less than an 11-anna crop. Twenty-nine out of the 45 districts report this year's crop to be better than last year's; six report the crop to be equal to that of the last year, and ten districts report worse crops. The current year's crop is no doubt better than the crop of 1893. The outturn of the crop of 1893 was estimated at the full average or 16 annas; that of the present crop may safely be estimated at 17 annas or 1 anna more than the full average. Probably no better crop has been reaped in these provinces in recent years.

* viz., Birbhum, Bankura, Jessore, Khulna, Rajshahi, Bogra Backergunge, Faridpur, all the three districts of the Chittagong Division, Patna, Gaya, Saran, all the five districts of the Bhagulpur Division, all the Chota Nagpur districts except Singhbhum, Puri, Angul, and Khoudmals.

† Burdwan, Midnapore, Hooghly, 24-Parganas, Murshidabad, Rangpur, Pabna, Darjeeling, Dacca, Mymensingh, Shahabad, Champaran, Darbhanga, Balasore, Singhbhum.

‡ Nadia, Dinajpur, Jalpaiguri, Muzaffarpur, and Cuttack.

5. *Gross outturn.*—The statement of gross outturn, given in Appendix II, has been prepared for these provinces as a whole. The attempt to prepare estimates of gross outturn for every district has been abandoned owing to the absence of reliable estimates of average outturn to the acre of winter rice. The gross outturn for Bengal, as a whole, has been obtained, as in previous years, by multiplying the total acreage cultivated by 15 maunds or 1,280lbs., which has been assumed to be the average yield of clean rice to the acre in the case of the winter rice crop. The gross outturn of clean rice thus obtained amounts to 366,258,700cwt. against 338,229,100cwt. estimated to have been produced in the previous year.

B. C. BASU,

Assistant Director of Land Records and Agriculture, Bengal.

CALCUTTA,
The 5th December 1894.

Countersigned.

W. C. MACPHERSON,

Director of Land Records and Agriculture, Bengal.

The 5th December 1894.

APPENDIX I.

District Returns appended to the Final Report on the Winter Rice Crop of Bengal, 1894.

1	2	3	4	5	6	7	8	9	10	11
District.	Subdivision.	Total area of subdivision in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn.	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
Burdwan	Sadar	794,880	633,500	434,300	424,300	434,200	Annas. 14	Annas. 15	In the Sadar subdivision, owing to good and seasonable rains, the outturn of winter rice is good this year. Sufficient rainfall in the beginning was very favourable to the outturn in the Kalna subdivision, but owing to floods the outturn is expected to be the same as was last year.	
	Kalna	276,480	224,000	128,000	128,000	128,000	13	12		
	Katwa	225,280	169,600	140,800	140,800	140,800	16	16		
	Raniganj	439,440	256,700	225,300	225,300	236,300	16	16		
	District Total ...	1,736,080	1,283,800	928,400	918,400	928,300	15½	15½	The prospects were very good. The recent rainfall did no harm to the aman crop.	
Birbhum	Sadar	1,124,023	900,000	413,000	413,000	413,000	18	18		
	Rampurhat ...			241,000	241,000	241,000	18	18		
	District Total ...	1,124,023	900,000	654,000	654,000	654,000	18	18		
Bankura ...	Sadar	1,229,440	428,800	364,800	364,800	364,800	16	19	I consider the figure 16 annas in the Vishnupur subdivision is too low. I would make it 17 annas, but as the Subdivisional Officer has seen far more of the subdivision than I have, I retain his figures.	
	Vishnupur ...	448,000	214,000	185,600	185,600	185,000	16	16		
	District Total ...	1,677,440	642,800	550,400	549,800	549,800	16	17½		

1	2	3	4	5	6	7	8	9	10	11
District.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn.	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
Midnapore	Sadar	2,120,960	1,222,100	709,640	612,100	756,900	16	17	The normal area at the Sadar sub-division as now shown has been ascertained by latest enquiry, and the outturn is better than was expected at the first instance. The area brought under cultivation at Contai has considerably increased owing to a large tract having been brought under cultivation since the submission of the first forecast. The late rain is reported to damage the crops of Tamluk and Ghatal sub-divisions to a certain extent, but the forecast of Contai is far better than was anticipated in the first instance.	
	Tamluk	380,400	279,600	254,300	205,100	239,500	16	14		
	Contai	513,300	456,300	416,000	325,300	315,000	14	14		
	Ghatal	238,080	149,500	121,500	130,000	122,700	14	13		
	District Total ...	3,252,800	2,111,500	1,372,100	1,280,500	1,433,400	16	15		
Hooghly ...	Sadar	282,880	176,600	141,460	141,400	141,900	20	16	The Serampore report alleged much damage by the rains at the end of October and beginning of November, but from personal observation I could see no damage whatever—rather the reverse, as there was no wind. I have therefore maintained the original estimate. In the Howrah sub-division the outturn is better than that of the previous year owing to the sufficient and timely rainfall. The estimated outturn of the district as a whole will be 15 annas.	
	Serampore	219,520	169,000	160,540	80,640	95,000	12	14		
	Jahanabad	220,320	167,740	143,800	79,360	80,000	14	16		
	Howrah	148,440	69,800	61,100	55,400	50,100	12	15		
	Ulubaria	193,920	128,040	106,400	61,200	90,000	8	16		
	District Total ...	1,065,080	702,300	623,300	397,900	445,500	14	15		
24-Parganas	Sadar	600,5 6	402,700	303,800	251,100	283,910	14	16	The normal area has been revised. The prospects of outturn this year are more favourable on account of seasonable rainfall. The difference between the normal acreages and this year's acreages under winter rice is due to submersion of low lands under water.	
	Baraset	313,680	199,400	117,100	103,400	101,000	14	14		
	Basirhat	359,20	251,610	213,900	203,400	213,800	16	16		
	Diamond Harbour ...	228,350	219,900	235,400	246,100	147,000	12	14		
	District Total ...	1,671,856	1,223,600	970,100	784,400	867,700	14	15½		

Nadia	Sadar	497,920	362,800	65,200	34,400	65,200	10	12	The increase in the area sown this year is due to the timely and normal rainfall during the ploughing and sowing season. The increase in the expected outturn is also due to the normal rainfall and to the late rise of the rivers. I should have estimated a still larger outturn had not a certain amount of damage been done by the floods and the abnormal rainfall during the month of November.
	Kushtia	382,660	278,400	23,000	21,000	23,000	8	11	
	Meherpur	634,880	462,000	24,400	18,000	24,400	8	12	
	Ranaghat	273,280	199,200	12,800	10,600	12,800	16	16	
	District Total ...	1,788,160	1,303,000	130,400	83,000	130,400	9	12½	
Murshidabad.	Sadar	538,240	395,100	82,000	82,200	82,200	16	12	Heavy rainfall in the middle of October affected the outturn to some extent.
	Kandi	405,760	279,600	189,200	18.,960	189,600	14	16	
	Jangipur	330,160	3.0,000	40,3.0	43,300	43,300	16	11	
	District Total ...	1,373,160	985,500	312,200	314,400	313,300	17½	14½	
Jessore ...	Sadar	503,960	304,000	166,400	160,000	160,000	8	16	The rainfall was favourable to the winter rice crop of this season. No difference between this and the preliminary forecast.
	Jhenida	344,000	204,800	64,000	64,000	64,000	6	14	
	Magura	272,000	171,500	69,6 0	68,000	78,000	10	16	
	Narail	311,.80	187,500	128,000	128,000	128,000	12	18	
	Bangaon	415,340	240,000	130,000	55,000	100,000	19	14	
	District Total ...	1,872,000	1,116,800	578,000	475,000	530,000	9	16	
Khulna ...	Sadar	1,006,336	293,400	228,600	210,000	215,000	18	17	Good outturn is due to well-distributed rainfall this year. Even after the bad weather at the beginning of November the crop is above the average.
	Satkhira	814,643	259,5.0	223,400	200,000	232,400	14	17	
	Bagerhat	986,523	277,100	214,100	190,000	200,000	15	17	
	Area of boundary, khals, rivers of the Sundarbans in this district.	317,440	.....	.....	.....	.....	.....	.....	
	District Total ...	3,103,942	870,000	673,100	600,000	647,400	16	17	
Rajshahi ...	Sadar	631,152	386,700	199,200	199,300	199,500	18	18½	Nothing transpired after the submission of the preliminary forecast to change the prospects of the crop, except in Nator, where the outturn shows a little better, owing to proper distribution of rainfall from the middle of the season up to this time.
	Nator	532,960	402,100	240,300	189,700	189,700	12	16	
	Naogaon	365,920	297,100	234,3 0	223,500	223,500	18	16	
	District Total ...	1,530,952	1,085,900	673,900	612,500	612,700	16	17	

1	2	3	4	5	6	7	8	9	10	11
District.	Subdivision.	Total area of subdivision in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn.	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
							Annas.	Annas.		
Dinajpur...	Sadar	2,068,800	1,377,600	1,090,400	1,090,400	1,005,400	21	12		
	Thakurgaon ...	564,880	367,400	218,100	218,100	218,100	20	12		
	District Total ...	2,634,880	1,745,000	1,308,500	1,308,500	1,223,500	20	12		
Jalpaiguri	Sadar	1,072,150	557,500	329,500	324,400	281,900	15	14	The decrease in outturn is due to insufficient fall of rain at the sowing season.	
	Alipur	823,731	427,700	250,200	193,700	157,900	16	13		
	District Total ...	1,895,881	985,200	579,700	518,100	439,700	15½	13½		
Darjeeling	Sadar, including Kalimpong.	464,640	61,400	10,200	11,500	11,500	14	14	The difference in area in the Sadar subdivision is due to ordinary fluctuation in cultivation. In the Siliguri subdivision, owing to late rains at sowing time, land could not be fully cultivated. The untimely rainfall of the year will cause a decrease in the outturn.	
	Kurseong	118,400	12,800	.....	...	... ...	.....	.....		
	Siliguri	161,929	115,200	57,600	57,600	57,600	16	14		
	District Total ..	744,969	189,400	67,800	69,100	69,100	15½	14		

Rangpur ...	Sadar ...	730,540	498,900	365,100	265,100	291,400	13	14	The distribution of rain this year has been favourable for aman paddy. There was deficient rain during July, the transplanting season, and excessive rain in October and the beginning of November, when fine weather was required. I think the outturn in the preliminary forecast was underestimated.		
	Kurigram ...	369,680	468,900	284,500	220,000	117,000	13				
	Gaibanda ...	466,400	571,200	321,000	281,000	234,700	13				
		414,720	276,800	92,900	105,000	60,000	13				
	District Total ...	2,281,340	1,824,700	974,000	967,700	691,700	13	14			
Bogra ...	Whole district ...	929,600	451,000	250,000	250,000	200,000	13	13	The heavy rain since the submission of the preliminary forecast has been beneficial to the winter rice crop. A large quantity of aus land having been transplanted with aman this year, owing to the lateness of the monsoon, the area under aman is in excess of normal.		
Pabna ...	Sadar ...	864,460	455,000	250,000	400,000	400,000	16	14	Owing to copious rainfall in the latter part of October and first week of November, a more than average outturn of crop is expected from the Sirajganj subdivision. The crop in the low lands of Dulai thana suffered from flood at an early stage in the growth of the plants, the estimate of outturn of the Sadar subdivision is thus somewhat low. The figure in column 7 appear to be approximately correct on a comparison with the total area of the district and the total area under cultivation, and the figures in column 8 have been revised. It appears that for some years the same lands have continuously been cultivated with the winter paddy crop. The normal area is thus increased and is more correctly represented by the figures now shown in column 5.		
	Birajganj ...	612,460	469,500	300,000	216,300	216,530	15	17			
	District Total ...	1,176,920	924,500	550,000	624,300	624,530	15	17			
Dacca ...	Sadar ...	810,240	475,100	270,100	243,100	213,100	13	16	The normal area has been corrected from 163,000 acres to 653,700 acres. The high price of paddy last year, the demand for rice, and the favourable weather at the time of ploughing and sowing were the reasons for increase in the area sown this year as compared with last year's. The outturn was better than last year's, owing to sufficient and timely rainfall, and also to the gradual rise of the rivers till August. With such favourable conditions a fail crop was expected, but the outturn was slightly affected by the high floods of September and the heavy rains in the beginning of November.	With such favourable conditions it is probable that at least the full normal area was cropped with winter rice this year. The figures in column 6 therefore appear to be excessive.
	Manikganj ...	512,160	254,200	202,200	170,000	150,000	13	14

	District Total ...	2,705,920	2,027,000	1,298,200	1,298,200	1,298,200	17	17½		
Purnea ..	Sadar	1,616,080	790,000	290,000	282,000	282,000	14	16	The increase in outturn (from 14 and 16 annas respectively as estimated in the preliminary forecast) in the Sadar and Kishanganj subdivisions is due to favourable rainfall. But for the rain which fell in the latter half of October (known locally as the *sewati* rain), and which is slightly injurious to the paddy, the outturn in the Araria subdivision would have been even greater.	
	Kishanganj ...	857,600	530,000	352,000	242,900	240,900	16	18		
	Araria	668,160	410,000	220,000	320,000	320,000	16	16		
	District Total ...	3,171,840	1,730,000	962,000	844,900	842,900	15½	16½		
Malda ...	Whole district ..	1,216,640	811,500	275,200	277,600	265,000	16	16	The decrease in area is due to the deficiency of rainfall at the time of transplanting.	
Santhal Parganas.	Dumka	914,560	422,200	181,800	181,800	181,800	18	18		
	Deoghar	616,560	165,100	69,100	69,100	69,104	16	16		
	Godda	618,880	432,900	74,300	73,000	74,340	18	16		
	Jamtara	445,440	124,800	64,000	64,000	64,000	20	20		
	Pakour	497,120	227,000	262,400	262,400	262,400	20	20		
	Rajmahal	475,680	359,200	243,800	243,000	243,000	16	13		
	District Total ...	3,568,160	1,827,200	895,400	893,300	894,644	18	17		

Cuttack ...	Sadar	612,960	293,100	289,400	339,500	358,700	12	16	Since the submission of the preliminary forecast the prospects improved on account of the seasonable rainfall in September and October. Hence the difference between the estimated outturn shown in this and that shown in the preliminary forecast.
	Jajpur	706,560	320,700	288,000	250,000	288,000	9	11	
	Kendrapara ...	911,360	410,200	327,700	300,000	298,000	10	12	
	Banki	75,030	37,200	23,000	23,000	23,000	12	14	
	District Total ...	2,324,910	1,161,200	1,028,100	912,500	967,700	11	13	
Balasore ...	Sadar	741,120	448,000	409,600	357,200	353,100	15	15	The estimate of acreage under this year's crop has been approximately made as far as possible. The large discrepancy between the figures for normal acreage and this year's acreage is due to the arable lands lying waste for want of seed plants, which had been prepared for transplantation but were destroyed by excessive rain fall followed by heavy floods. The increase of acreage under current year's crop now given as compared with that shown in the preliminary forecast is due to some lands having been brought under cultivation by transplantation afterwards.

NOTE ON THE EARLY COTTON CROP IN BENGAL, 1894.

THE following is published for general information.

C. E. BUCKLAND,
Secy. to the Govt of Bengal.

REVENUE DEPT.,
The 7th December 1894.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Note on the early Cotton Crop in Bengal, 1894.

Explanatory.—The *early* cotton crop in these Provinces is sown during the monsoon rains and harvested during the cold weather by the end of December. The *late* crop is sown towards the close of the rainy season and harvested during the hot weather in the months of May and June. In the A districts noted in the margin, only an early crop is reported to be grown. In the B districts noted in the margin, both the early and late varieties are cultivated. This report deals with the area and prospects of the early crop only.

A. Jalpaiguri, Chittagong Hill Tracts, Sonthal Parganas, Hazaribagh, Lohardaga and Palamau.
B. Midnapur, Monghyr, Bhagalpur, Cuttack, Balasore, Puri, Angul and the Khondmals, Manbhum and Singbhum.

The cultivation of cotton in these Provinces is insignificant as compared with that of other Provinces. The produce is for the most part believed to be consumed locally, the Chittagong Hill Tracts being the only district where cotton is grown for export.

Character of the season.—The rainfall of the monsoon of 1894 has been generally above the normal. In July and August heavy rain fell throughout most of the early cotton-growing tracts. The only districts which received less than the normal rain in these two months were Midnapore, Jalpaiguri, Puri and Singbhum. In September, the rainfall was light. In October and the first half of November, the rainfall was again heavy.

Area sown.—The District Returns appended to this note show that the total area sown with early cotton this year has been estimated at 96,400 acres against 101,700 acres estimated to have been under early cotton last year. The decrease of 5 per cent. in the area sown is chiefly due to the excessive rain which characterised the last monsoon season, and which must have interfered with sowing operations. In Cuttack only is the decrease ascribed to want of rain at the sowing season.

Character of the crop.—The general prospects of the early cotton crop closely correspond with the rainfall. It will be seen from the appended statement that in only one district, viz., Angul and the Khondmals, is the crop said to come up to a full average one of 16 annas. *Six out of the fourteen districts, from which estimates of outturn have been received, report crops varying in character from 12 up to 16 annas, and the remaining seven† districts report crops varying from 8 to 12 annas. In three districts, the crop is estimated

* Jalpaiguri (12), Chittagong Hill Tracts (12), Monghyr (12), Bhagalpur (14), Cuttack (12), and Singbhum (14).

† Midnapur (8), Sonthal Parganas (9), Balasore (10), Hazaribagh (11), Lohardaga (10), Palamau (9), and Manbhum (8).

to be the same as that of last year, in four it is said to be better and in seven worse. The outturn of early cotton last year was estimated by this Department in the note published on the 19th April 1894 as 10½ annas or about ⅔rds of an average crop. This year the outturn appears likely to be slightly lower. The arithmetical mean of the District Returns show a crop of 10·2 annas. This low outturn may be attributed to the heavy rainfall of the season.

N. N. BANERJEI,

Asst. Director, Dept. of Land Records and Agriculture, Bengal.

Countersigned.

W. C. MACPHERSON,

Director of the Dept. of Land Records and Agriculture, Bengal.

CALCUTTA.
The 30th November 1894.

Forecast of the early cotton crop of Bengal, 1894.

1	2	3	4	5	6	7	8	9
Division.	District.	Approximate normal area under *early* cotton in acres.	Approximate area sown last year in acres.	Estimated area sown this year in acres.	Taking 16 annas to represent the average outturn per acre, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn per acre, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
					Annas.	Annas.		
Burdwan ...	Midnapur	2,000	2,000	2,000	9	8	This year's outturn is estimated at half of the average. This low outturn is attributed to the excessive rainfall which stunted the growth of the plants.	
Rajshahi ...	Jalpaiguri	500	300	500	12	12	The tahsildars of the Government estates in this district have raised the area this year, and they assign the reason to be general increase of cultivation.	
Chittagong ...	Chittagong Hill Tracts	17,000	17,000	17,000	4	12	The outturn is less owing to late heavy rains. The increase in the outturn is due to seasonable weather this year.	
Bhagalpur ...	Monghyr	400	400	400	8	12	The timely rains were beneficial to this crop.	
	Bhagalpur	11,800	11,800	11,800	16	14		
	Sonthal Parganas ...	12,900	12,900	12,500	11	9	The decrease in the area sown is due to heavy rainfall in July and August 1894. The outturn will not be good for the same reason.	The Deputy Commissioner does not assign any reasons for changing figures in columns 3, 4 and 6 from 12,800 acres, 12,800 acres and 13 annas as shown in the revised forecast of the early cotton crop, published on the 19th April 1894, to 12,900 acres, 12,900 acres and 11 annas respectively.

Orissa ...	Cuttack	5,100	1,900	1,800	10	12	The decrease in area is due to the want of rain at the sowing season. As the weather for the past two months has been very seasonable, a better outturn is expected this year.	
	Puri	1,500	10,000	10,000	12	.....	.....	Not received; last year's gures have been repeated.
	Balasore	1,000	900	900	12	10	The decrease in the outturn for the district is due to excessive rainfall at the sowing season followed by floods in Bhadrak sub-division.	
	Angul and Khondmals	1,500	1,500	1,200	16	16	The figures given for this year are approximate. The decrease is due to heavy rainfall in July, which not only prevented cotton sowing, but led to the cultivators devoting all their attention to their *sarad* crops. In the Khondmals sub-division no cotton is grown.	
Chota Nagpur	Hazaribagh	7,500	7,500	7,500	12	11	The decrease in the outturn is due to incessant and heavy rains.	
	Lohardaga	8,800	11,600	8,800	12	10	The decrease in area sown this year as well as in the outturn is owing to the excessive rainfall during the months of July to September 1894.	The Deputy Commissioner has changed the normal average from 11,600 acres as shown in the revised forecast of the early cotton crop published on the 19th April 1894 to 8,800 acres, but has ascribed no reason for the alteration.
	Palamau	12,000	5,500	3,300	11	9	The decrease in area and outturn is due to the heavy rains at the sowing and reaping time.	The figures in columns 4 and 5 appear improbable. The Deputy Commissioner states that he will call for an explanation.
	Manbhum	12,000	12,000	12,000	7	8	Excessive rain is the cause of poor outturn.	
	Singhbhum	7,200	7,200	7,200	14	14		
	Total ...	189,700	181,700	96,400	10¾	10¼		

N. B.—Twenty annas represent a bumper crop, 16 annas an average crop, 12 annas three-fourths of an average crop, and so on.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 8th December, 1894.

a In the subdivisions the retail prices of salt per rupee are :—Madhubani 10 seers, Samastipur 10 seers.
b In the Begusarai and Jamui subdivisions the retail price of salt is 10 seers per rupee.
c In the subdivisions the retail prices of salt per rupee are :—Supaul 10, Banka 9 seers and Madhipura 10 seers.
d In the subdivisions the retail prices of salt per rupee are :—Kushanganj 9 seers and Araria 10 seers.
e In the subdivisions the retail prices of salt per rupee are :—Deoghur 10½ seers, Godda 9 seers, Jamtara 9 seers, Pakur 10½ seers and Rajmahal 9 seers.
f In the subdivisions the retail prices of salt per rupee are :—Jajpur 9 seers, Kendrapara 9 seers, and Banka 11 seers.
g At Bhadrak the retail price of salt is 9 seers per rupee.
h At Giridi the retail price of salt is 10 seers per rupee.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of November 1894.

	Inches.	Date.	Hour.
The mean pressure of the month	29·998		
The average pressure of November from 24 years' registers ...	29·970		
The highest pressure in the month	30·170	22nd	10
The lowest pressure in the month	29·799	1st	16
The range of pressure	0·371		
	Hours.		
The total number of hours of bright sunshine during the month	236·8		
The maximum possible number of hours of sunshine ...	330 8		
	⊖		
The mean temperature of the month	71·6		
The average temperature of November from 24 years' registers	74·8		
The highest temperature in the month	85·6	1st	
The lowest temperature in the month	59·2	25th	
The range of temperature during the month	26·4		
The mean daily range of temperature	15·2		
The greatest range of temperature in one day	19·2	22nd	
	Per cent.		
The mean humidity of the month	80		
The average humidity of November from 24 years' registers ...	72		
	Inches.		
The mean vapour tension of the month	0·619		
The average vapour tension of November from 9 years' registers	0·616		
The mean cloud proportion of the month	2·13		
The average cloud proportion of November from 17 years' registers	2·51		
	Inches.		
The total rainfall of the month	3·04		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	1·73?		
The average fall of November from 48 years' registers ...	0·65		
The greatest fall in 24 hours	1·67	3rd	
	Days.		
The number of rainy days in the month	4		
The average number of rainy days in November from 24 years' registers	2		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	133·5		
The mean difference of sun and air temperatures	53·8		
The greatest sun temperature	146·8	5th	
The greatest excess of sun over air temperature	61·7	11th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	58·7		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	5·9		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	8·1	23rd	
	Miles.		
The mean movement of the wind per day	45·6		
The greatest movement of the wind in one day	97·0	1st	
The greatest movement of the wind in one hour	12·0	1st 9 to 10 a.m.	

The number of hours with winds from each of the 8 points—
N. 317, N.E. 13, E. 46, S.E. 17, S. 16, S.W. 11, W. 34, N.W. 45,
Calm 221.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1894.

THE principal features which have characterised the meteorology of November have been—

1. Pressure was in small to moderate excess, the mean excess varying from 0·05 inch at the south-eastern stations to about 0·03 inch in the extreme west of the province.

2. The average day or maximum temperatures have been about 2° below the normal, while the night or minimum temperatures have been in excess by slightly smaller amounts, except at the southern and south-eastern stations, where small defects have been recorded. Hence the mean average temperature of the province has been nearly normal, though slight defects of usually less than a degree have been registered at the great majority of stations; indeed the mean temperature of both Bengal and Assam has been 0·5° in defect of the normal.

3. Humidity and cloud proportion have been in decided excess of the normal at almost all stations, the excess in the humidity being particularly marked.

4. Very heavy rain was received during the first week or ten days of November, due to the effect of a large cyclonic storm which crossed the Madras coast on the morning of the 2nd. For the remainder of the month no rain fell at the stations in the plains, but showers and snow-storms were received in the hills from the 14th to 20th.

5. The weather in the first eight or ten days of November was very disturbed over the province owing to a cyclonic storm which formed in the Bay and advanced across the Madras coast between Coconada and Masulipatam on the morning of 2nd November, and broke up shortly afterwards. The cyclonic circulation of winds extended over the whole of Bengal, and gave very disturbed weather for the first five days, after which the disturbed conditions were slowly driven back by a north-westerly wind current, which gradually established fine settled weather of ordinary cold season character from about the 10th of the month, and these conditions continued up till the close of November.

The following is a very brief summary of the conditions during November :—

A very large and extensive cyclonic storm had formed in the Bay of Bengal at the end of October, and after advancing in a north-westerly direction had crossed the Madras coast between Coconada and Masulipatam about 6 A.M. on November 2nd. The history of this storm has been already given in the summary for October, where it was shown that although it was a large storm giving rather stormy weather over a very large area, no less than from East and North Bengal to Ceylon, yet it was not accompanied by any inner zone of hurricane winds, as is usually the case in storms in October and November. The influence of the storm was felt considerably in Bengal from November 1st, when cloud proportion and humidity rapidly increased and winds had become part of a large cyclonic circulation, so that they were easterly and north-easterly at practically all stations, while winds were strong at the head of the Bay. Pressure was also falling rapidly in Orissa, and local rain was reported in that district, and in South and North Bengal, while in East Bengal rainfall was becoming general. On the 2nd the whole of the southern half of Bengal had become largely influenced by the storm, and strong winds forming part of the large cyclonic circulation were blowing at the head of the Bay, and also at some of the inland stations, and indeed the winds over the whole province were affected by the storm. Skies had become almost overcast, and rain had also recommenced and was general in all divisions except Bihar and parts of Assam. On the 3rd, though the storm had again moved away in a north-westerly direction and was rapidly filling up, yet in Bengal winds continued to form part of the cyclonic circulation, and fairly general rain was still being received over a large part of the province except in Bihar and Assam. This disturbed weather continued on the 4th. Moderately strong and very moist easterly winds were blowing over the whole province, temperature was rising and was unusually high, the sky was almost overcast, and humidity was also excessive, while the changes of pressure were unimportant. On the 5th, however, conditions began to change, and westerly winds appeared in the south-western districts, and hence began to slowly drive back the moist easterly winds which had been previously blowing. Pressure also began to rise slowly to moderately, and temperature had again risen and had become in excess by from 3° to 4°. With the commencement of westerly winds the sky began to clear in Orissa and Chota Nagpur, where rainfall was also light, though it was still fairly general over the remainder of the province, except in North Bengal. On the 6th, again, the westerly winds had extended and prevailed over the western half of the province, while irregular winds were blowing elsewhere. Pressure had also risen moderately over the west of the province, though it was falling over the eastern half, while temperature, humidity, and cloud proportion commenced to decrease in Bihar and at the western stations generally. The rainfall on this day also was confined practically to Assam, East Bengal, and Bihar. On the 7th, the dry north-westerly and westerly winds had swept over the whole province, and hence fine settled weather was setting in. Pressure was, however, still below the normal, while temperature, humidity, and cloud proportion were rapidly decreasing, the decrease being largest at the western stations. Rainfall had again been received in East Bengal and

Assam, but the remainder of the province was practically rainless.* On the 8th a brisk increase of pressure occurred, and pressure became in excess in all districts. A further brisk fall of temperature occurred, humidity and cloud proportion also decreased, and no rainfall was reported, except a few showers in Assam and Orissa. On the 9th the same changes again occurred, and the fall of temperature was very pronounced, and at such stations as Chaibassa the fall in the mean temperature equalled 10° from the 5th to the 9th instant, and exceeded 5° at many other stations, and hence the mean temperature of the province on the 9th was in considerable defect, the variation ranging up to from 4° to 6° in the south-west of the province. The sky also became practically cloudless, and humidity again decreased, and the air became unusually dry over the western half of the province. Pressure had also become in excess by amounts ranging up to a tenth of an inch at False Point, and the whole province was rainless. Similar conditions again obtained on the 10th. Thus during the period from the 5th to the 10th the disturbed conditions were rapidly driven back, and fine settled weather rapidly commenced over the province, and the cold weather conditions became established.

From the 10th to the end of the month the meteorological changes were small and unimportant, and were of the small oscillatory character which usually accompany fine settled weather. For the period the 10th to the 17th pressure continued above the normal, while temperature was in defect, and the same was the case for the week from the 17th to the 24th, but in the last week of the month slightly defective pressures were recorded, and temperature at the close of the month had become in small, but distinct excess. Throughout the period from the 10th to the end of the month, however, a steady northerly wind current was blowing over the whole province, humidity was comparatively low, skies were cloudless or only lightly clouded, and rainfall was entirely absent except in the hills, where slightly disturbed weather existed from about the 14th to the 20th, when snow-storms and rain were reported on several days. This disturbed weather, however, practically did not extend to the plains.

Pressure.—The mean pressure for the month has varied from 30·03″ in the north-west of the Province to 29·99″ at the south-eastern stations, so there has been a distinct gradient favouring northerly winds. The gradient, however, has not been quite as steep as usual, for an excess pressure of 0·05″ has been registered at all the south-eastern stations, while in the extreme north-west of the province the excess has only equalled 0·03.″

Temperature was unusually high for the first week or eight days, and was then in defect up till nearly the close of the month, when again an excess was registered. For the whole month a defect in the mean temperature of 0·5° has been recorded. The day or maximum temperatures have been about 2° to 3° in defect at the great majority of stations except in the south of the province, where the defects have been from 1° to 1·5°. In the case of the minimum or night temperatures slight defects have been recorded at the southern and south-eastern stations, and excess amounts of about 2° over the remainder of the province.

Rainfall.—The falls of rain due to the effect of the storm in the Bay have varied from between four and four-and-a-half inches in South-West and East Bengal, and three-and-a-third inches in Orissa, to falls of an inch to an inch-and-a-half in Chota Nagpur, Bihar and North Bengal. The falls have hence been in large excess of the normal in all divisions, and have varied from about twice the usual amount in Orissa to ten and twelve times the ordinary fall in Bihar and South-West Bengal. The number of rainy days was also very much larger than usual in November, and where the falls of rain were usually about three or four times as frequent as in normal years.

The following table gives in a condensed form the rainfall information for each of the six large meteorological divisions of Bengal for the present year up to the close of November. The numbers there given, as in the case of the former months of the year, are the actual average rainfalls in each division expressed as a percentage of the normal fall for the period, and the last column also gives the total rainfall up to the close of November expressed in the same way. The rainfall for the year, it will be seen, has been either normal or rather largely in excess of the normal in all divisions.

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	Actual rainfall of first eleven months of 1894 expressed as a percentage of the normal fall for the period.

The average fall of the corresponding period for 24 years, Surveyor-General's Office		0·04
The total fall from 1st January to 8th December 1894		48·66
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·49

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6 h., 10 h., 16 h., and 22 h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≈ fog; o, overcast; d, drizzling rain.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for th
The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. Th
means of the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in questio
stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 8th of December 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1894. Mean for district.	Normal mean.	Variation.	District.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the 11th December* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 8TH OF DECEMBER 1894.

ORDINARY cold season conditions continued to exist over Bengal up till the close of the previous week, though the second-half of that period had been marked by steadily falling pressure, which had become in defect on the 1st of December by amounts ranging between 0·04 inch and 0 06 inch. Temperature had also steadily risen, and on the same date had also become in excess by about 2° to 3°. On the 2nd of December a barometric depression formed in East Baluchistan, and commenced to advance eastwards into Upper Sind and the South-West Punjab. The depression was too far distant on this day in any way to affect the conditions in Bengal, where pressure was increasing slowly, while the changes of temperature were variable. On the 3rd the depression had advanced moderately rapidly in an easterly direction, and the centre was near Bikanir, where the defect of pressure equalled about a quarter of an inch. Pressure on the 3rd commenced to fall slowly to moderately in Bengal, while as is usual in front of such depressions, temperature began to increase rather briskly, while the changes of humidity were small and variable. On the 4th the centre of the depression had advanced to near Sutna, but it had partially filled up, and on this day it was a rather shallow diffused low pressure area covering a large tract of country. Pressure had again fallen slowly in Bengal, while temperature had also increased briskly, while humidity was generally increasing on that day. On the morning of the 5th the depression had moved eastwards into Bihar and the adjacent districts, and pressure was again falling slowly over the province, while a further brisk increase of temperature and a moderate increase of humidity had occurred, and at many stations in Bengal the night temperatures were from 5° to 7° and in some cases 10° and 11° higher than the normal. Skies had also clouded over to a moderate extent, and a few and in some cases rather heavy local showers were reported, while Gnatong experienced a snow-storm. On the 6th pressure had risen briskly in Bengal, and the depression was passing away, having either filled up over Bengal, or perhaps it had passed in a very feeble form over the Bay; pressure was, however, still generally in small to moderate defect over Bengal. Temperature had also again risen, and at many stations the night temperatures were 8° and 9° above the normal, but humidity on the other hand had commenced to fall. A few showers had also been reported in the southern districts on this day. The barometric depression having thus passed away from the province on the 6th, the changes on the 7th and 8th were those which again re-established the cold season conditions in Bengal, for pressure rose moderately on both days, and became again above the normal; temperature on the other hand fell quickly, the fall in the mean temperature at several stations equalling about 5° in the two days; humidity also decreased rapidly, and the sky cleared, while rain ceased, and weather on the 8th had again become fine and settled.

Pressure.—Owing to the passage of the depression over the province, the mean pressure for the week has been below the normal. The defect has been largest at the western stations, where the depression had the most marked effect, and where it has equalled about 0·05″ to 0·06″. On the other hand, in the east and south of the province the defect only has equalled about 0·02″ to 0·03″.

Temperature has been on the other hand in rather large excess over the normal, the excess equalling about 3° and 4° in Orissa and Chota Nagpur, while the excess has been small in East Bengal. For the whole of Bengal the excess in the mean temperature has averaged 2·1°.

The actual temperatures registered during the week and their variations from the normal temperature of the present season are clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations, it will be seen, have been considerable in the day or maximum temperatures, which have been generally in excess, while on the other hand the night or minimum temperatures have in most cases been largely in excess, the average excess at such stations as Cuttack, Patna, Gaya and Purnea equalling about 4° and 5° :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 8th of December 1894.

	Normal mean maximum temperature for the week ending 8th December.	Actual mean maximum temperature for the week ending 8th December 1894.	Variation of actual mean from the normal. Darjeeling	50·0	48·3	−1·7	36·2	37·4	−0·8	44·6	43·3	−1·3

Rainfall.—Local showers have occurred in connection with the depression in East, North and South-West Bengal and in Chota Nagpur. The heaviest falls have occurred in East Bengal, but even here the falls have only averaged 0·15 inch, and in North Bengal 0·10 inch. In South-West Bengal and Orissa the falls have been much smaller, and they have only averaged 0·03 inch.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 8th of December 1894:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.

REVENUE DEPARTMENT,—(FORESTS.)

NOTIFICATION—No. 5684-For.

The 18th December 1894.—Mr. G. A. Richardson, Deputy Conservator of Forests, Buxa Forest Division, is granted privilege leave for three months, under article 291 of the Civil Service Regulations, with effect from the 13th December 1894, or any subsequent date on which he may be relieved.

Mr. W. F. Perree, Assistant Conservator of Forests, attached to the Darjeeling Forest Division, is posted to the charge of the Buxa Forest Division, during the absence, on leave, of Mr. Richardson, or until further orders.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—LAND REVENUE.

NOTIFICATION—No. 5595L.R.

The 14th December 1894.—Mr. J. E. Phillimore, I.C.S., is appointed to be an Assistant Settlement Officer in the district of Muzaffarpur, with effect from the date on which he may join his appointment.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5598L.R.

The 14th December 1894.—Mr. J. E. Phillimore, I.C.S., is authorized, under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, to discharge the functions of a Revenue Officer, in the district of Muzaffarpur, under the provisions of that Act so far as they relate to Revenue Officers. He is also vested with the powers of a Settlement Officer under rule 1, Chapter VI of the Rules under the Bengal Tenancy Act.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5624L.R.

The 15th December 1894.—Babu Sasi Bhusan Dutt, Assistant Settlement Officer, Western Duars, is appointed to be an Assistant Settlement Officer in the districts of Cuttack and Puri.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5627L.R.

The 15th December 1894.—Babu Sasi Bhusan Dutt, Sub-Deputy Collector, is authorised, under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, to discharge the functions of a Revenue Officer, in the districts of Cuttack and Puri, under the provisions of that Act so far as they relate to Revenue Officers. He is also vested with the powers of a Settlement Officer under rule 1, Chapter VI of the Rules under the Tenancy Act.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5633L.R.

The 15th December 1894.—Under the powers conferred upon him by section 101, sub-section 2, clause (*d*), of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of char Jizira, Santipur, tauzi No. 903, in pargana Ukhra, taraf Santipur, in the district of Nadia.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each proprietor, with the character and extent of his interest.
(*b*) The situation, quantity and boundaries of the proprietors' private land as defined in chapter XI of the Act.
(*c*) The name of each tenant.
(*d*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, whether his tenure is binding against Government or not, and whether his rent is liable to enhancement during the continuance of his tenure.
(*e*) The situation, quantity and boundaries of the land held by him.
(*f*) The name of his landlord.
(*g*) The rent payable.
(*h*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.
(*i*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
(*j*) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5634L.R.

The 15th December 1894.—Under the powers conferred upon him by section 101, sub-section 2, clause (*d*), of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respects of all lands included within the boundaries of char Manikdihi, tauzi No. 2453, in pargana Plassy, in the district of Nadia.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each proprietor, with the character and extent of his interest.
(*b*) The situation, quantity and boundaries of the proprietors' private land, as defined in chapter XI of the Act.
(*c*) The name of each tenant.
(*d*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat, or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, whether his tenure is binding against Government or not, and whether his rent is liable to enhancement during the continuance of his tenure.
(*e*) The situation, quantity and boundaries of the land held by him.
(*f*) The name of his landlord.
(*g*) The rent payable.
(*h*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.
(*i*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
(*j*) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,

[Sixth Publication.

The 13th November 1894.

No. 336.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following amended rule in supersession of the rule now in force in the revised water-rate rules for the Sone Canals :—

Present Rule.	*Proposed Rule.*
56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall pay the whole amount due, less 7½ per cent., making, with 5 per cent. payable under the preceding rule, 12½ per cent. on the assessment.	56. The contractor may, if he prefers, in which case it shall be so stated in the application, take the responsibility of collecting the entire sum due under the application, in which case he shall be entitled to a deduction of 2½ per cent. on all sums collected by himself in addition to the deduction of 5 per cent. to which he is entitled under rule 53, *i.e.*, to a total deduction of 7½ per cent.

C. W. ODLING,
Secretary to the Government of Bengal.

[Seventh Publication.]

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

The 6th November 1894.

No. 330.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B. C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa canals. These rules and rates will supersede those now in force.

C. W. ODLING,
Secy. to the Govt. of Bengal.

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible, except so far as is otherwise expressly provided, for the assessment and collection of water-rates accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee or to a person in whose favour a provisional license under rule 15 has been issued. Such Application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional and Sub-divisional Canal Officers. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than seven years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions:—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—When a village is divided by drainage channels into distinct blocks, each block shall be recognized as a separate village for the purpose of this and all other rules under the Irrigation Act.

III.—All leases within one block shall be granted, so that they shall expire on the same date.

IV.—No permit shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which in the opinion of the Subdivisional Canal Officer will deliver water without waste across the unleased area.

V.—That water will be supplied at the level at which it is ordinarily maintained in the distributary from which water is taken off, and that no earthen bunds or other works will be constructed to raise the level of the water in the distributary. No right to flow irrigation is conferred, unless existing appliances admit of it.

8. The rates to be charged for water supplied on a long term lease between the 16th of June and the 30th November, whether by flow or lift, to lessees on application shall be—

I.—For a term of seven years—Re. 1-8 per *man* for each season.

II.—For water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per *man*.

III.—Provided that the leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of blocks as explained above, Rule 7-III, shall be charged Re. 1-8 per *man* only.

IV.—*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season. No special arrangements to supply water will, however, be made.

V.—Lowlying lands forming part of the rice cultivated area of a village which do not ordinarily benefit by canal water, though requiring irrigation in years of drought, will be charged at one-third of the usual rate, *i.e.*, at eight annas per *man* for each season. Lands which never under any circumstances require water will be altogether excluded from the lease.

9. The rates for water supplied otherwise than on a lease for a term of years are those detailed in schedule I. In all cases fractions of a *goont* shall be charged as a *goont*.

10. For the unauthorized use of canal water a rate of Rs. 5 per *man* or such less rate as may be sanctioned by the Divisional Canal Officer, shall be charged.

11. Application for water-leases under section 74 of the Act shall be presented to the Subdivisional Canal Officer of the division in which the applicant's land lies.

12. Every application for a permit for a term of years shall be in the form Appendix I to these rules, provided that a provisional license may be granted, where water is urgently required, on an application in the form Appendix II. Application for a season lease shall be in the form Appendix III.

13. A separate application must be presented for each village, but *tehsilalaida* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Subdivisional Canal Officer. Subject to the above conditions permits may be issued by *silladars* under the orders of the Deputy Collector. A copy of the permit shall on the day of issue be forwarded to the Deputy Collector for transmission to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment, modified if necessary in accordance with rules 8, 4, and 5.

15. When a water-lease is granted, a permit shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may, with the written consent of the Subdivisional Canal Officer, issue a provisional license for the supply of water to an area covered by an application.

16. The Subdivisional Canal Officer is authorized to supply water for seed beds in a long term lease before the 20th June, if a supply of water is available in the canal.

17. When it comes to the knowledge of the Subdivisional Canal Officer, that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Canal Officer. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Divisional Canal Officer shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in rule 10, the land irrigated without authority.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant-Governor. Persons charged under rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer, with the concurrence of the Collector, to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due and shall be paid on the 1st February following, but the Subdivisional Canal Officer may require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied at other times shall be paid on the dates mentioned in schedule I.

22. Water-rates imposed under rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five years lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates,

and by the Divisional Canal Officer for—

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

25. The Divisional Canal Officer may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Divisional Canal Officer may commute rates charged under rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The chowkidar of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates included in his *jaghir* provided he gives efficient and willing assistance to the canal officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields.

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the silladars and distributing them.

VI.—In being present when complaints are investigated by Canal Officers and giving information regarding the matters under investigation.

VII.—In reporting to the silladars any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle.

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage, or is liable to overflow from the accumulation of water from natural causes.

IV.—No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of the above rules.

32. No person shall without the permission in writing of the Divisional or Subdivisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches, as are provided by the Divisional Canal Officer.

33. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

34. Except as provided in the Act and in these rules no appeal shall lie from any order passed by a Canal Officer; but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

35. In appeals to the Collector under section 91 of the Act, other than those specially provided for in rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

SCHEDULE I.

Rates to be charged for water supplied from the Orissa Canals on leases otherwise than on a lease for a term of years.

		Rate, flow or lift, per *man*.		
		Rs.	A.	P.
I.	For water supplied for the irrigation of rice between the 16th of June and the 30th November ...	3	0	0
II.	For water supplied for the irrigation of *dalwa* rice ...	1	8	0
III.	For water supplied for the irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo, and garden produce	1	8	0
IV.	For water supplied for the irrigation of linseed, oil-seed, and all pulses	1	0	0
V.	For water supplied for the irrigation of sugarcane ...	5	0	0

VI. The charge for filling tanks or for water used for manufacturing purposes is Re. 1 per 10,000 cubic feet of water supplied, and the same charge will be made if water is taken into a tank without authority or if used in an unauthorized manner.

NOTE.—Water-rates due under item I shall be paidon or before the 1st of February, under items II and IV on or before the 1st of June, under items III and IV on or before the 1st of April, and under item VI one moiety before the water is supplied, and the other moiety within 15 days of the water being supplied.

APPENDIX I.

Application for a long term lease. Rate per man Re. 1-8, *Dhoya lands per man As.* 8. *Water to be supplied each year from the* 16*th June to the* 30*th November only, fractions of a goont to be charged as a goont.*

WE the undermentioned cultivators of mauza , pargana , submit this application for the supply of water from the distributary of the canal for a term of years, commencing on the 16th of June 18 , and ending on the 30th November 18 . We agree to pay water-rates as may be determined by the Canal Officer at the rates mentioned above on all rice lands which may, on enquiry, be found to be irrigable in mauza . The amount thus assessed will be paid to the Deputy Collector, according to demand statements which may be issued in our names, on or before the 1st of February each year. We appoint , of mauza , pargana , to collect and pay the water-rate assessed on us. We agree to be bound by all rules which are passed by the Lieutenant Governor of Bengal under the Irrigation Act, and to keep in proper order the ridges on our lands, so that no water may pass into unleased areas.

NAME AND RESIDENCE OF APPLICANTS.			AREA OF LAND ACCORDING TO APPLICANT'S STATEMENT.			Signature of applicants.	QUANTITY OF LAND AS FOUND ON MEASUREMENT.						Amount assessed.			Situation and size of outlets.

													Rs.	A.	P.	

APPENDIX II.

Application for granting water prior to issue of permit.

WE, the principal cultivators of mauza
pargana , on our own behalf and that of the other cultivators of the mauza, hereby certify that we have presented an application for the execution of a seven-year lease of all the irrigable land in mauza
in area about *mans.*

To enable us to obtain water before the regular permit is issued, we severally and jointly bind ourselves to pay water rates for the whole area which on measurement shall be found to included in the block. The water-rate will be Re. 1-8 per *man*, but in the event of a seven-year lease not being concluded, Rs. 3 per *man* will be charged and paid by us on or before the 1st February next.

In token of our obligation in this agreement we have annexed our signatures below.

Dated 18 .

APPENDIX III.

Application for a season lease, kharif, rabi or sugarcane.

1. WE, whose names are attached, cultivators of mauza , pargana , apply for water to be supplied from the distributary of the canal for the irrigation of the areas named below.

2. The approximate areas to be irrigated by each cultivator is stated in the schedule following, but each of us agree to pay water-rates at the rate of Rs. ——— per *más* on the area found to be in his occupation by measurement, with the proviso that only areas actually irrigated will be charged, fractions of a *goont* being charged as a *goont*.

3. We agree to prevent water being wasted or used in an unauthorized manner, and to abide by all the rules passed by the Lieutenant-Governor of Bengal under the Irrigation Act.

4. We agree to pay the water-rates due on this application on the of———

NAME OF CULTIVATOR.	Description of crop.	Area more or less to be irrigated on máns and goonts.	Signature of cultivator.	AREA FOUND ON MEASUREMENT.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

The 8th December 1894.

No. 118*Marine.*—It is hereby notified that, under the powers conferred upon him by section 29 of the Inland Steam-Vessels Act, 1884, as amended by subsequent enactments, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor sanctions the following revised rule in supersession of rule 3 of the rules for regulating the grant of certificates of competency to Second-class Engine-drivers of inland steam-vessels, which were sanctioned under Notification No. 178Marine, dated the 24th August 1891, and published in Part I, page 806, of the *Calcutta Gazette* of the 26th idem:—

"He must have served an apprenticeship of at least four years if in India, or three years in the United Kingdom, and have served for one year in the engine-room of a steamer, or he must have served four years in the engine-room of a steamer at sea or on inland waters under a certificated engineer or first-class engine-driver, one year of which service must have been as principal serang, tindal, or fireman, when one only is employed, or have been for two years in charge of the engine of a factory or mill under a European manager or engineer, as well as served one year in the engine-room of a steamer as principal serang or tindal or fireman, when one only is employed."

2. Under the provisions of the Act quoted above, and with the previous sanction of the Governor-General in Council, His Honour also sanctions the following revised forms for the grant of certificates of competency and service to Second-class Masters, Serangs, First-class Engine-drivers and Second-class Engine-drivers of inland steam-vessels:—

C. W. ODLING,
Secy. to the Govt. of Bengal.

By the Honourable the Lieutenant-Governor of Bengal.

Government of Bengal.

Certificate of Competency

AS

SECOND-CLASS MASTER OF AN INLAND STEAM-VESSEL UNDER ACT VI OF 1884.

To

Mr._____

Whereas *it has been reported to the Lieutenant-Governor that you have been found, after examination, duly qualified to fulfil the duties of Second-class Master of an Inland Steam-vessel, having engines of* 30 *nominal horse power or upwards, but of less than* 80 *nominal horse power, under Act VI of* 1884, *I do hereby grant you this CERTIFICATE OF COMPETENCY as such Second-class Master.*

By order of the Government of Bengal,

Given under my Hand and Seal.

Under-Secy. to the Govt. of Bengal.

A. CROFT,
Director of Public Instruction, Bengal.

Civil Engineering College, Sibpur.

Apprentice Department.

THE date for admission to this Department is 4th February 1895.

Candidates must be at least 15 and not more than 17 years of age.

They must have passed Standard VII of the Code for European Schools, or the University Entrance Examination in English and Mathematics. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January 1895. No applications will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be three vacancies on the free list for Christian apprentices in February next and thirteen on the reduced* fee list.

* Rupees 5 per mensem.

For natives there will be at least 12 vacancies, possibly more, on the reduced† fee list. These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

† Rupees 2 per mensem.

J. S. SLATER, *Principal, Civil Engineering College.*

SIBPUR; *the 22nd November* 1894.

On or about Monday, 1st July	,,	...	1,510	1,595	3,105
On or about Thursday, 1st August	,,	...	1,510	1,595	3,105
On or about Monday, 2nd September	,,	...	1,510	1,595	3,105
On or about Monday, 7th October	,,	...	1,510	1,595	3,105
On or about Friday, 1st November	,,	...	1,510	1,595	3,105
On or about Monday, 2nd December	,,	...	1,510	1,595	3,105
	Total	..	18,120	19,140	37,260

The following are the conditions of sale :—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1893-94, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

N. K. BOSE,

Offg. Secretary.

FORT WILLIAM, *the 21st November* 1894.

No. 2186B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1892-93 and 1893-94, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Thursday, the 3rd January 1895, at 11 A.M., and will comprise 3,105 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of 909 chests of season 1892-93 and 601 chests of season 1893-94 ...	1,510
Ditto ditto at the Ghazipur Factory, consisting of 370 chests of season 1892-93 and 1,225 chests of season 1893-94 ...	1,595
Total ...	3,105

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 21st November 1894, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th January 1895 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th January 1895, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 18th January 1895.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1895 about the date specified below. The Board of

Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.—No. 5745Med.

The 13th December 1894.—In continuation of notification dated the 23rd July 1887, published at pages 188-189, Part 1B. of the *Calcutta Gazette* of the 27th idem, it is hereby notified for general information that under clause (2), section 252 of the Bengal Municipal Act, III of 1884, as amended by Act IV of 1894, the Lieutenant-Governor is pleased to make the following addition as a note to Rule 3 of the rules framed under the provisions of the Act for the examination of, and grant of certificates to, compounders:—

"Candidates will be examined in Materia Medica, Pharmacy, the reading of prescriptions, and the writing in English of the directions contained in prescriptions."

J. A. BOURDILLON,
Offg Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5752L.S.-G.—The 13th December 1894.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Babu Ram Jadub Maitra to be a member of the District Board of Jalpaiguri, *vice* Babu Guru Govinda Sarkar, resigned.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal

NOTIFICATION.

No. 5776M.—The 17th December 1894.—It is notified for general information that the declaration No. 3884M., dated the 11th December 1893, published at page 214, Part IB of the *Calcutta Gazette* of the 13th idem, for the acquisition of a plot of land required by the Muzaffarpur Municipality for a public purpose, viz., for a latrine and depôt in the village of Mohamedpur Kazi, chakla Nai, pargana Bisara, within the Municipality, is hereby cancelled.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5778M.—The 17th December 1894.—It is notified for general information that the declaration No. 3885M., dated the 11th December 1893, published at page 214, Part IB of the *Calcutta Gazette* of the 13th idem, for the acquisition of a plot of land required by the Muzaffarpur Municipality, for a public purpose, viz., for a latrine and depôt in the village of Kanhowliganj, pargana Bisara, within the municipality, is hereby cancelled.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5779*M.*—*The* 17*th December* 1894.—Whereas a Notification No. 3468, dated the 22nd August 1894, declaring the intention of the Lieutenant-Governor to revise the boundaries of the Muzaffarpur Municipality, was published at page 205, Part IB of the *Calcutta Gazette* of the 29th idem, and whereas no objection has been raised to the proposal, it is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Muzaffarpur Municipality, made at a meeting, and in exercise of the power conferred upon him by section 9 of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, the Lieutenant-Governor is pleased to declare that the boundaries of the said Municipality shall be as follows:—

On the North.—The river Buri Gandak.

On the West.—The western edge of the Daudpur unmetalled road from its junction with the Daudpur embankment to the north-western corner of the Daudpur Indigo Factory; thence a line running south-west and south by the boundary line of the villages of Berhampura and Damodarpur up to the junction of its boundary with the railway line; thence eastward along the north of the railway line up to the Sareya road; thence along the eastern edge of the Sareya road to a distance of 2,667 feet; thence south-east along the boundary line of village Damodarpur to the Sadar distillery; thence along the Ghanipur village road to its junction with the Tirhut State Railway, Hajipur Extension; thence along the railway line to Buldeo Babu's tank.

On the South.—The boundary line continues along the south towards the east by the old boundary line of the villages of Bhukhinipur, Attardah, and Sherpur up to the Mithanpura unmetalled road.

On the East.—The boundary line runs along the western edge of the Mithanpura unmetalled road from its junction with Sissu road to its junction with Patchrang Patti road, then turning east and then northwards by the western edge of the Patchrang Patti road up to its junction with the Kali Bari Road; thence turning eastward by the northern edge of the unmetalled road called Road to Triloke Babu's garden up to its junction with Opium Godown Road; thence by the eastern boundary of the Opium Godown compound to the old bed of the river Buri Gandak; thence westward and north along the eastern edge of the old bed to its junction with the present river Buri Gandak at Chandwara.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5787*M.*—*The* 17*th December* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Howrah Municipality for a public purpose, viz., for widening Madu Sudan Dhara's Lane, in the village of Howrah Panchanantala, pargana Boro, district Howrah, within the area of the Municipality of Howrah, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 chitaks and 40 square feet of standard measurement, is required. The land is bounded on the north by the south drain of Panchanantala Road; on the east and the south by the land of the owner named Annada Charan Deuti; and on the west by Madhu Sudan Dhara's Lane.

This declaration is made under the provisions of section 6 of Act I of 1894 to all whom it may concern, and cancels declaration No. 3917M., dated the 24th September 1894, published at page 225, Part 1B of the *Calcutta Gazette* of the 26th idem.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5803*M.*—*The* 18*th December* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for a flushing chamber in Banstolla Street, it is hereby declared that for the above purpose a piece of land No. 23, Kalaker Street, in the town of Calcutta, district 24-Parganas, measuring, more or less, one chitak and forty-one square feet only, is required.

The boundaries of the land are as follows:—On the North premises No. 3-1, Bysack's Lane, and premises No. 22, Kalaker Street; on the South a public ditch, and portion of premises No. 23, Kalaker Street; on the East portion of premises No. 23, Kalaker Street; and on the West a public ditch.

Plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5810*M.*—*The* 18*th December* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Darbhanga Municipality for a public purpose, viz. for the establishment of pounds in mahalla Chak Hashim *alias* Moulvieganj and Jianganj in Darbhanga town, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 10 cottahs and 7 dhoors by local measurement, equivalent to 1 rood and 32 poles, are required.

The lands are bounded as follows:—

(*i*) The first piece in Chak Hashim *alias* Moulvieganj is bounded on the North by the bamboo clumps of Syed Aliahsan; on the South by the public road; on the East by the dwelling-house of Mohiuddin Momin and bari of Mahmood Khan; and on the West by the bari of Etwari Pasi and house of Mahomed Khan.

(*ii*) The second piece in Jianganj is bounded on the North by the house of Bholi Pasi; on the South and West by the main road, and on the East by the house of Mahbub Daftari.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5814*M.*—*The* 18*th December* 1894.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Rampur Boalia Municipality for a public purpose, viz, for a public latrine in Kadirganj (Bangalpara) in the village of Kadirganj, pargana Garerhat, zilla Rajshahi, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah 12 chitaks of standard measurement, is required. The land is bounded on the North by the land and ditch of Dighapatia Estate; on the South by the waste land of Shrinibash Pal; on the West by the waste land of Shrinibash Pal; and on the East by Saroda Charan Mazumdar's ditch.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

PUBLIC DEBT OFFICE, BANK OF BENGAL,
Calcutta, 8th December 1894.

(823—1)

W. D. CRUICKSHANK,
Secretary and Treasurer.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 „ 2-4 „
Under 7 feet „ 2 „

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8, „ „ „ „ 8-8.
¼ „ „ „ 4, „ „ „ „ 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four ounce tin, *Rs.* 2, *ans.* 8; per eight-ounce tin, *Rs.* 5; per pound tin, *Rs.* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs.* 3; per eight-ounce tin, *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Lost.

THE Government Promissory Note No. A 016818 and No. A 016819 of the reduced 4 per cent. of 1879, for Rs. 500 and 700 respectively, originally standing in the name of Protap Chunder Ghose, the proprietor, by whom it was never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

PROTAP CHUNDER GHOSE Bhaddreswar Post Office, E. I. Railway, district Hooghly. (751—3)

Lost.

A RECEIPT numbered 87 to 89, dated 19th July 1894, granted by the Treasury Officer, Hooghly, on tendering Government Promissory Notes Nos. 230726 to 230728 of the 4 per cent. loan of 1842-43 for Rs. 500 each, by their proprietor, Ganga Charan Ghose of Chandernagore, for reduction of interest, has been lost. Intimation of loss has been given to the Treasury Officer, Hooghly, and the proprietor is about to apply for surrender of the securities.

(771—3)

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 17th December, 1894:—

A bill to amend the Indian Tariff Act, 1894.

WHEREAS it is expedient to amend the Indian Tariff Act, 1894; It is hereby enacted as follows:— VIII of 1894.

Substitution of new Schedules for Schedules II to V of Act VIII of 1894.

For Schedules II to V, both inclusive, appended to the said Act, the Schedules appended to this Act shall be substituted.

SCHEDULE II.

SCHEDULE II.—(IMPORT TARIFF.)

Arms, Ammunition and Military Stores,

including also any articles, other than those included in Nos. 1 to 12 of this Schedule, which are "arms" within the meaning of the Indian Arms Act, and any articles which the Governor General in Council may, by notification in the Gazette of India, declare to be "ammunition" or "military stores" for the purposes of this Act.

XI of 1878.

Names of Articles.	Duty. R	a.
1. Firearms other than pistols, including gas and air guns and rifles, for each	50	0
2. Barrels for the same, whether single or double, for each	30	0
3. Pistols, for each	15	0
4. Barrels for the same, whether single or double, for each	10	0
5. Springs used for firearms, including gas and air guns and rifles, for each	3	0
6. Gunstocks, sights, blocks and rollers, for each	5	0
7. Revolver-breeches, for each cartridge they will carry	2	8
8 Extractors, nippers, heel-plates, pins, screws, tangs, bolts, thumb-pieces, triggers, trigger-guards, hammers, pistons, plates and all other parts of a firearm (including a gas and air gun or rifle) not herein otherwise provided for, and all tools used for cleaning or putting together or loading the same, for each	1	8
9. Machines for making, loading, or closing cartridges, for each	10	0
10. Machines for capping cartridges, for each	2	8

Exception I.—Articles falling under the 5th, 6th, 8th, 9th or 10th head of the foregoing list, when they appertain to a firearm falling under the 1st or 3rd head, and are fitted into the same case with such firearm, are free.

Exception II.—The following are also free, namely:—

(*a*) Arms forming part of the regular equipment of an officer entitled to wear diplomatic, military, naval, or police uniform;

(*b*) a sword, a revolver, or a pair of pistols, when accompanying an officer of Her Majesty's Regular Forces, or a commissioned officer of a volunteer corps, or certified by the commandant of the corps to which such officer belongs, or, in the case of an officer not attached to any corps, by the officer commanding the station or district in which such officer is serving, to be imported by the officer for the purposes of his equipment;

(*c*) swords and revolvers which are certified by an Inspector-General of Police to be part of the ordinary equipment of members of the Police force under his charge;

(*d*) swords forming part of the equipment of native commissioned officers of Her Majesty's Army;

(*e*) swords for presentation as army or volunteer prizes;

(*f*) arms, ammunition and military stores imported with the sanction of the Government of India for the use of any portion of the military forces of a Native State in India which may be maintained and organised for Imperial Service;

(*g*) Morris tubes and patent ammunition when imported by officers commanding British and Native regiments or volunteer corps, for the instruction of their men.

Proviso 1.—No duty in excess of ten per cent *ad valorem* shall be levied upon any of the articles numbered 1 to 10 in the foregoing list when they are imported in reasonable quantity, for his own private use, by any person lawfully entitled to possess the same.

Proviso 2.—When any articles which have been otherwise imported, and upon which duty has been levied or is leviable under numbers 1 to 10 are purchased retail from the importer by a person lawfully entitled as aforesaid, in reasonable quantity for his own private use, the importer may apply to the Customs-Collector for a refund or remission (as the case may be) of so much of the duty thereon as is in excess of ten per cent *ad valorem*; and if such Collector is satisfied as to the identity of the articles, and that such importer is in other respects entitled to such refund or remission, he shall grant the same accordingly.

	Tariff valuation. R	a.	Rate of duty.
11. Gunpowder, common, per lb	0	5	10 per cent.
" sporting, "	1	0	
" rifle "	2	0	
" smokeless "	4	8	
12. All other sorts of arms, ammunition, and military stores	*ad valorem.*		

SCHEDULE III.—(IMPORT TARIFF.)

LIQUORS, OPIUM, SALT, AND SALTED FISH.

No.	Names of Articles.	Per	Rate of duty.
			R a.
1	LIQUORS—		
	Ale, beer, and porter	Imperial gallon or six quart bottles . .	0 1
	Cider and other fermented liquors . .		
	Liqueurs	"	6 0
	Spirit intended to be used exclusively in arts or manufactures, or in chemistry, and which has been rendered effectually and permanently unfit for human consumption	*ad valorem*.	Five per cent.

	Name of Article.	Rate of duty.
	RICE, husked or unhusked, including RICE-FLOUR, but not including RICE-BRAN and RICE-DUST, which are free	Three annas per Indian maund of 82⅔ avoirdupois weight.

STATEMENT OF OBJECTS AND REASONS.

In the Tariff Act passed in March last cotton yarns and piece goods remained exempt from duty. The existing state of the finances is such as to render necessary the revenue to be derived from the duties on these classes of goods, and this Bill is introduced to authorize the levy of them. The opportunity has been taken of introducing several detailed amendments which the experience of the past eight months has shown to be desirable, and of which the object is to make the Tariff classifications more clear and precise and more easy of application.

J. WESTLAND.

The 17th December, 1894.

J. M. MACPHERSON,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 17th December 1894:—

A Bill to provide for the Imposition and Levy of certain Duties on Cotton Goods.

WHEREAS it is expedient to impose certain duties on cotton goods; It is hereby enacted as follows:—

PRELIMINARY.

Title, extent and commencement.

1. (*1*) This Act may be called the Cotton Duties Act, 1894;

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force at once.

2. In this Act, unless there be something repugnant in the subject or context,

Definitions.

VIII of 1878. (*1*) "The Principal Act" means "The Sea Customs Act, 1878.

(*2*) "Chief Customs Authority" means, in the Presidency of Fort St. George, and the territories respectively under the administration of the Lieutenant-Governors of Bengal and the North-Western Provinces and the Chief Commissioner of Oudh, the Board of Revenue; in the Presidency of Bombay outside Sind, the Commissioner of Customs; in Sind, the Commissioner; in the Punjab and Burma, the Financial Commissioner; and elsewhere the Local Government or such officer as the Local Government may, by notification in the official Gazette, appoint in this behalf by name or in virtue of his office:

(*3*) "Collector" means the Customs Collector mentioned in the Principal Act, and includes—

(*a*) in any place for which there is no Customs Collector appointed, the Collector or Deputy Commissioner of the district, unless the Local Government shall otherwise so direct, and

(*b*) every officer for the time being duly authorised to perform all or any of the duties of a Collector under this Act:

(*4*) "Mill" means any building or place where cotton fibre is spun or otherwise converted into yarn, or where yarn is woven, by machinery, or by the use of any motive force other than manual labour:

(*5*) "Warehouse" means a place licensed for the storage of yarn under this Act, and includes every public or private warehouse duly appointed or licensed under section 15 or 16 of the Principal Act, or under section 2 of the Inland Bonded Warehouses Act, 1887; and XXI of 1887.

(*6*) "Cotton yarn" means yarn wholly or partly composed of cotton fibres.

3. The officers subordinate to a Collector shall, unless the Local Government shall otherwise so direct, for the purposes of this Act perform the duties imposed and exercise the powers conferred upon officers of Customs under the Principal Act.

Performance of duties of Customs Officers and subordinate Officers.

PART I.

EXCISE.

Application of Sea Customs Act.

4. In the application of the Principal Act or any particular section or sections thereof to this Part the following modifications shall be made therein, *viz.*:—

Modifications to be made in Sea Customs Act as applied to this Part.

(*a*) "The owner of the goods" shall include the managing agent or other principal officer of a mill.

(*b*) For "the bill-of-entry or shipping-bill" shall be substituted "the return required by this Act;"

(*c*) Every reference to a warehouse, or warehousing, shall be construed as referring to a "warehouse" as hereinbefore defined.

Duties.

5. There shall be levied and collected at every mill in British India upon all cotton yarns produced in such mill, a duty at the rate for the time being prescribed in the Indian Tariff Act, 1894, for the levy of duty in respect of cotton yarns imported by sea: VIII of 1894.

Imposition of duties on cotton yarns produced in British Indian Mills.

Provided that no duty shall be levied upon yarns of the count or number of 20 or less:

Provided also that the Governor-General in Council may, by notification in the *Gazette of India*, exempt from duty any yarns of any count or number not exceeding 24.

Explanation.—Yarn is said to be "produced" within the meaning of this Act—

(*a*) in the case of yarn which is reeled and bundled in the mill in which it is spun—when it is so bundled;

(*b*) in the case of yarn which is woven in the Mill in which it is spun—when it is passed from the spinning into the weaving section of the mill;

(*c*) in any other case—when it is issued out of the premises of the mill

Power to Governor-General in Council to fix tariff values of such yarns.

6. (*1*) The Governor-General in Council may from time to time, by notification in the *Gazette of India*, fix, for the purpose of levying the said duties, tariff values of all such yarns as aforesaid or of any particular count or counts thereof, and alter any tariff values for the time being in force.

(*2*) In the absence of any Notification under sub-section (*1*), the tariff values for the time being fixed for the purpose of the levy of duty in respect of such yarns when imported by sea shall be the tariff values for the purpose of the levy of duty under this Act.

(*3*) Such tariff value shall, for the purposes of this Act, be deemed to be the "real value" of the yarns to which it applies, but save as aforesaid all yarns shall be assessed under this Act at their real value as defined in section 30 of the Principal Act.

Delivery of monthly returns of yarn produced by millowners.

7. (*1*) The owner of every mill shall prepare and deliver, or cause to be prepared and delivered, to the Collector, on or before the fifteenth day of each month, a return of all cotton yarn produced at his mill during the preceding month, whether liable to duty or not; and shall subscribe a declaration of the truth of such statement at the foot of such return.

(*2*) Every such return shall state for each count or number of yarn the quantity produced during the preceding month under each of the three heads mentioned in the explanation to section 5, and in the case of dutiable yarn the real value of such yarn.

(*3*) Every such return shall also contain such further information and be in such form and be subject to such conditions as to verification and otherwise as may be prescribed by any rules under this Act.

Assessment of duty and notice requiring payment.

8. (*1*) The Collector shall thereupon assess the duties, if any, payable in respect of the month to which the return relates, and unless the amount thereof is immediately tendered shall cause a notice, in such form as may be prescribed by any rules under this Act, to be served on the owner requiring him to make payment of the amount assessed within ten days of the date of service of the said notice.

(*2*) A notice under sub-section (*1*) may be served on the owner of a mill by delivering or tendering to him or his agent at his ordinary place of business a copy of the notice, or, if this cannot be conveniently done, by fixing a copy of the notice on one of the outer doors of the mill.

Application of certain sections of Sea Customs Act to assessment and recovery of duties under this Act.

9. Sections 30 to 34, 37, and 39 to 41, all inclusive, of the Principal Act, shall apply to the assessment and recovery of the duties imposed by this Act.

Provided that the rate of duty and the tariff valuation applicable to any yarn which has not been warehoused as hereinafter provided shall be those in force at the time when the yarn was produced, and not when the return was delivered as provided by the said section 37.

Recovery of unpaid duty.

10. (*1*) If any duty payable under this Act is not paid within the time fixed by any such notice as aforesaid for the payment thereof, the Collector may, in lieu thereof, recover any sum not exceeding double the amount of duty so unpaid, which he shall, in his discretion, think it reasonable to require.

(*2*) All sums recoverable under the last foregoing sub-section shall be recovered in the manner provided in Act II of 1880, section 30, sub-sections (*1*), (*2*) and (*3*) with respect to the sums therein referred to.

Warehousing.

Licensing of warehouses for storage of yarn, and fees for same.

11. (*1*) The Chief Customs Authority may from time to time license any room or place as a warehouse for the storage of yarn, and for the purposes of this Act every such place shall be deemed to be a warehouse and to have been duly licensed under the Principal Act.

(*2*) There shall be payable in respect of every such warehouse such and the like licensing fees and other payments as may for the time being be payable in respect of a private warehouse licensed under the Principal Act.

Provided that the Chief Customs Authority may remit the whole or any part of such fees or other payments in respect of any particular warehouse.

Permission to deposit yarn in warehouses.

12. (*1*) The owner of any mill may apply for leave to deposit in a warehouse any yarn in respect of which duty has become leviable under section 5 and which has not been issued out of the mill,

(2) Such application shall be in writing signed by the applicant, and shall be in such form as may be prescribed by the Chief Customs Authority.

Application to yarn so deposited of provisions of Chapter XI of Sea Customs Act.

13. All the provisions of Chapter XI of the Principal Act, so far as the same are applicable to imported goods of a similar description, shall apply to all yarn in respect of which an application has been made under section 12.

Exemption from assessment of yarn so deposited.

14. When any yarn has been deposited in a warehouse, the quantity and particulars thereof shall be specified as so deposited in the return made under section 7 for the month in which the yarn was produced, and the said yarn shall be omitted in the assessment and collection of duty.

Inspection.

Power to Collector to inspect mills, and take copies of records and accounts.

15. (1) The Collector, or any officer duly appointed by the Local Government in that behalf, shall have free access at all reasonable times during working hours to any mill.

(2) Any such officer may at any time, with or without notice to the owner, examine the working records, sale records, and accounts of any mill, and take copies of, or extracts from, all or any of the said records or accounts, for the purpose of testing the accuracy of any return, or of informing himself as to any particulars regarding which information is required for the purposes of this Act or any rules thereunder.

Information acquired to be deemed official secrets within meaning of Act XV of 1889.

16. (1) All such copies and extracts, and all other information acquired by any such officer on the inspection of any mill or warehouse, shall be regarded as strictly confidential, and shall be deemed to be official secrets

(2) If any such officer shall disclose to any person other than a superior officer any such official secret as aforesaid without the previous consent in writing of the Chief Customs Authority, he shall be guilty of a breach of official trust, and shall, upon conviction thereof, be punishable in the manner provided by section 4 of the Indian Official Secrets Act, 1889.

XV of 1889.

(3) The restriction imposed by section 5 of the last-mentioned Act shall not apply to a prosecution for a breach of an official trust under this Act.

Export and Drawback.

Grant of certificate when dutiable yarn is to be exported to Foreign Port.

17. If any dutiable yarn is exported by sea to any Foreign Port before the return in respect of it has been delivered to the Collector under section 7, the owner of the mill in which it was produced may apply to the Collector at the Port of Shipment, who, on being satisfied that such yarn has actually been shipped for export, shall grant him a certificate stating the quantity and particulars of such yarn, and that it has actually been so shipped.

When certificate granted, yarns to be exempt from duty.

18. When any certificate has been granted under section 17, the quantity and particulars of the yarn stated therein shall be specified as so shipped in the return made under section 7 for the month to which the yarn relates, and the said goods shall be omitted in the assessment and collection of duty.

Repayment of duties paid in case of yarns exported to Foreign Ports.

19. When any yarn upon which duty has been paid under this Act is exported by sea from any Customs Port to any Foreign Port, such duty shall, except as otherwise herein provided, be repaid as drawback:

Provided that in every such case the yarn has not been woven into cloth or otherwise altered in character since the payment of duty, and is identified to the satisfaction of the Collector at the Port of Shipment, and that the export is made within two years from the date of payment of the duty, or within such further time as the Chief Customs Authority on sufficient cause shown may in any case determine.

Repayment of duties in case of certain cotton fabrics exported to Foreign Ports.

20. (1) When any cotton fabrics woven in a mill in India and composed in whole or in part of dutiable counts of yarn are exported by sea from any Customs Port to any Foreign Port, the exporter may apply to the Customs Collector at the port of shipment for the repayment as drawback of any duty which may have been paid under this Act in respect of such yarn.

(2) In every application made under sub-section (1) the applicant must state—

(a) the quantities and counts of yarns in respect of which drawback is claimed, the mill at which they were produced, and, as nearly as possible, the dates on which they were produced;

(b) the mill at which, and, as nearly as as possible, the dates on which the fabric was woven.

When such refunds may be granted.

21. The drawback shall be allowed by the Collector if it is proved to his satisfaction—

(*a*) that the said fabric has been woven within six months of the date on which it is shipped for export;

(*b*) that the yarns in respect of which drawback is applied for have paid duty within the said six months.

Power to prohibit repayment of duty in case of exportation to certain ports.

22. The Governor-General in Council may, from time to time, by notification in the *Gazette of India*, prohibit the payment of drawback on the exportation of yarn or cotton fabrics to any specified Foreign Port.

No repayment of duty to be granted in certain cases.

23. Notwithstanding anything herein contained, no drawback shall be allowed in respect of any yarn or cotton fabrics on which duty has been paid—

(*a*) when the goods are of less value than the amount of drawback claimed, or

(*b*) when the claim is for drawback amounting to less than 5 rupees in respect of any single shipment.

Application of sections 51 and 52 of Sea Customs Act to claims under this Act.

24. Sections 51 and 52 of the Principal Act shall apply to every claim for drawback under this Act.

Offences and Penalties.

Punishments for offences.

25. The offences mentioned in the first column of the following schedule shall be punishable to the extent mentioned in the second column thereof with reference to such offences respectively:—

1. Contravening any rule made under this Act.	Penalty not exceeding five hundred rupees.
2. Concealing or attempting to conceal, or knowingly permitting or procuring to be concealed, any yarn liable to duty under this Act with intent to evade payment of the duty or any part thereof.	Such yarn shall be liable to confiscation, and every person convicted of the offence shall be liable to a penalty not exceeding *three times the value of the yarn.*
3. Omitting to make any return required by section 7 or refusing to sign or complete the same.	Penalty not exceeding one thousand rupees.
4. Making and delivering any such return containing any statement not true to the best of the information and belief of the person making the same.	The penalty provided in the Indian Penal Code, section 199, for making a false statement in a declaration.
5. Altering or falsifying any record or book of account kept in the mill with the intention of defrauding the revenue.	The penalty provided in the Indian Penal Code, section 465, for the commission of forgery.
6. Omitting to keep such proper records and books of account as may be prescribed by any rule under this Act.	Penalty not exceeding five hundred rupees and a further penalty of twenty rupees for every day after the date of the conviction during which the offence is continued.
7. Omitting to make and deliver any return which by any rule under this Act ought to have been made and delivered.	Penalty not exceeding one thousand rupees.
8. Intentionally obstructing any Collector or other Officer in the exercise of any powers given under this Act.	Imprisonment for a term not exceeding six months or fine not exceeding one thousand rupees, or both.
9. If any yarn in respect of which a certificate has been obtained under section 17, or on the entry of which for export drawback has been paid, are not duly exported or are unshipped or relanded at any Customs Port, not having been duly entered and discharged under the provisions of the Principal Act.	Such yarn, together with any vessel used in the unshipping or relanding them, shall be liable to confiscation, and the master of the vessel from which such yarn is so unshipped or relanded, and any person by whom or by whose orders or means such yarn is so unshipped or relanded, or who aids or is concerned in such unshipping or relanding, shall be liable to a penalty not exceeding three times the value of such yarn, or not exceeeding one thousand rupees.
10. If any yarn or cotton fabrics are entered for drawback which are of less value than the drawback claimed.	Such goods shall be liable to confiscation.
11. If any yarn is found concealed in any place, box or closed receptacle in any mill and is not duly accounted for to the satisfaction of the Collector.	Such yarn shall be liable to confiscation.
12. If any yarn is found in any mill in excess of the quantity entered in the return or not corresponding with the statement therein contained.	Such yarn shall be liable to confiscation or to be charged with such increased duty as the Chief Customs Authority may direct.

XLV of 1860.

LV of 1860.

13. If when any cotton goods are passed by tale or by package any omission or misdescription thereof tending to injure the revenue be discovered.	The person guilty of such omission or misdescription shall be liable to a penalty not exceeding ten times the amount of duty which might have been lost to Government by such omission or misdescription, unless it be proved to the satisfaction of the Collector or other officer that the variance was accidental.
14. The offences described in the Principal Act, section 167, Schedule Nos. 41—53, both inclusive, in reference to warehousing of dutiable goods.	The penalties prescribed in the same Schedule in respect of such offences respectively.

Magistrates having jurisdiction.

26. All offences against this Act may be tried summarily by a District or Presidency Magistrate or a Magistrate of the First Class.

Application of section 68 of Sea Customs Act to cases of confiscation under this Act.

27. Section 168 of the Principal Act shall apply to all cases of confiscation of goods under this Act.

Application of certain provisions of same Act to proceedings under this Act.

28. All the provisions of Chapter XVII of the Principal Act except sections 169, 170, 177, 182, 184, 185, 187, 190, 191 and 193, shall apply to all proceedings under this Act.

Power to Local Government to reverse or modify orders under Act.

29. The Local Government may, on the application of any person aggrieved by any decision or order passed under this Act, reverse or modify such decision or order.

Miscellaneous.

Power to take samples.

30. (*1*) The Collector or any officer appointed under section 15 may at any time take samples of any yarn for examination or for ascertaining the count or value thereof, or for any other necessary purpose.

(*2*) Every such sample shall, if practicable, be restored to the owner, or, at his option, sold by the Collector, and the proceeds accounted for to the owner.

Provisions of section 198 of Sea Customs Act to apply to proceedings under this Act.

31. The provisions of section 198 of the Principal Act shall apply to all proceedings for anything purporting to have been done in pursuance of this Act.

Power to make rules.

32. The Governor-General in Council may from time to time make rules under this Act—

(*a*) prescribing the form of any return required by this Act and the particulars to be contained therein respectively, and the manner in which the same is to be verified, and all such other conditions in respect thereof as may be necessary:

(*b*) prescribing the form of the notice to be issued by the Collector under section 8:

(*c*) regulating the inspection of mills, and the powers and duties of Collectors in respect thereof:

(*d*) regulating the provision of warehouses under this Act, and the deposit and discharge of yarn therein and therefrom, and the powers and duties of the Collector in respect thereof:

(*e*) prescribing the records and books of accounts to be kept by owners of mills under this Act:

(*f*) prescribing arrangements under which the requirements of section 21 shall be deemed to have been sufficiently complied with: and

(*g*) generally for carrying into effect the provisions of this Act.

Certain provisions of Sea Customs Act to be incorporated in this Part.

33. The provisions of sections 201, 204, 205 and 206 of the Principal Act shall be deemed to be incorporated in this Part.

PART II.

INLAND CUSTOMS DUTIES.

Levy of duties on cotton yarns and manufactures passing into British India from foreign territory.

34. (*1*) Duties of customs shall be levied at the rates for the time being prescribed in the Indian Tariff Act, 1894, upon cotton yarn, and upon cotton manufactures of all kinds, passing into British India out of any territory declared, under the power hereinafter in this section conferred, to be foreign territory. VIII of 1894.

(*2*) The Governor-General in Council may, by notification in the *Gazette of India*, declare that the territory of any Native Prince or Chief under the Suzerainty of Her Majesty not forming part of British India, shall be deemed for the purposes of this section to be foreign territory.

(*3*) The Governor-General in Council may from time to time, by notification in the *Gazette*

of India, prohibit or restrict the bringing of cotton yarns or cotton manufactures into British India, from any such foreign territory, or may prescribe the routes by which alone they may be brought.

Application of provisions of Sea Customs Act as to drawback to yarn taxed under this Part

35. The provisions of the Principal Act as to drawback on export shall apply to all yarns upon which duty has been paid under this Part.

STATEMENT OF OBJECTS AND REASONS.

The finer classes of cotton manufacture in India enter into direct competition with the cotton manufactures imported from England. As it is intended to weight these last with an import duty, it is considered necessary to levy at the same time a countervailing duty upon the competitive classes of Indian manufactures.

J. WESTLAND.

The 17th December, 1894.

J. M. MACPHERSON,
Offg. Secretary to the Government of India.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER, 19, 1894.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 241.

[First Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Further deterioration of the Guptakhally Crossing.

WITH reference to Notice to Mariners No. 234, dated the 30th ultimo, issued by this office, the Port Officer, Chittagong, has given further notice that the soundings over the Guptakhally Crossing have again deteriorated, and only 10 feet reduced can be depended upon. The sand has also extended considerably into the channel between the Guptakhally buoys, and a cask buoy has been laid in 12 feet reduced to mark the same. Great caution must be used in navigating the river in this vicinity, as the sand is evidently in a state of transition.

There is no change on the outer bars.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

NOTICE TO MARINERS—No. 242.

[First Publication]

EASTERN ARCHIPELAGO—GILLOLO ISLAND.

Reef in Weda road.

THE British Admiralty has given notice, (No. 613 of 1894,) of the existence of a reef, now named Seamew reef, lying in Weda road with the south-east extreme of Uga Yef, bearing about N. W. by W. (N. 56° W.), distant 5 cables.

Approximate position, lat. 0° 16′ N., long. 127° 53′ E.

NOTE.—The approximate latitude of the flagstaff at Weda is 0° 16′ N., and not 0° 19′ N., as stated in sheet of plans, No. 912.

[First Publication.]

AUSTRALIA—CAPRICORN GROUP.

Non-existence of the single tree on One-tree islet.

THE Portmaster, Brisbane, has given notice (No. 20 of 1894) that the single tree, 40 feet high, on One-tree islet, Capricorn Group, no longer exists. The islet is about 5 feet above high water, and has a number of pandanus trees about 15 feet high growing thereon. Cocoanuts have recently been planted on this islet, and also on North Reef, Wilson Wreck and Rocky islets.

Chart affected, No. 345, and Australia Directory, volume 2.

B. P. CREAGH, *Comdr.*, R.I.M.,

NOTICE TO MARINERS—No. 246.

[First Publication.]

AUSTRALIA.—TORRES STRAIT, INNER ROUTE.

Rocky patch south-westerly from Claremont island light-ship—Rocky patches west of Eel reef (6)—Amended position, northern extremity of Eel reef, and beacon thereon.

THE Portmaster, Brisbane, has given notice (No. 21 of 1894) that a depth of 26 feet at low water, with rocky bottom, has been found to exist where 5¼ fathoms is shown on the Admiralty Chart south-westerly from the Claremont island light-ship.

Position—

Latitude	...	...	...	... 13° 29′ 30″ South.
Longitude	...	...	...	... 143° 41′ 15″ East.

Chart affected, No. 2921 and Australia Directory, volume 2.

As there may be a little less water hereon, care must be taken to avoid passing too near this position.

A 4-fathom rock, small in extent, has been found west of Eel reef, in the following position—

Latitude ... ... 12° 26′ 40″ South.
Longitude ... ... 143° 19′ 55″ East,

with Middle Reef Beacon bearing S E. by S. ½ S., distant 5$\frac{3}{10}$ miles. From this rock two pinnacle rocks lie N. 42° W. distant 4 cables, and N. 32° W. distant 3 cables, having depths of 4½ and 5½ fathoms respectively over them, with deep water between and around.

The position of Eel Reef Beacon has been ascertained to be 7 cables S.W. by S. ½ S., and the extremity of the reef 5 cables W. by S. ½ S., from the position of the beacon shown on Chart No. 2920.

From the beacon the reef trends in a S. E. ½ S. direction.

Bearings are correct magnetic.

Chart affected, No 2920, and Australia Directory, volume 2.

The foregoing positions are approximate only.

NEW ZEALAND—NORTH ISLAND, EAST COAST.

Hauraki gulf—Sunken rock northward of Waiheke island.

THE British Admiralty has given notice (No. 609 of 1894) of the existence of a rock on the north side of Waiheke island, on which the yacht *Spray* recently struck.

This rock, now named Spray rock, has been examined by the Commander of the Government steamer *Terranora*, and found to be about 100 feet in extent east and west, with a least depth of 3 feet on it at low water springs, 13 fathoms to seaward, and 9 to 10 fathoms between it and Waiheke island.

From the rock Horuhoru island centre bears N.N.E. $\frac{3}{4}$ E. (N. 27° E.), distant 2 $\frac{6}{10}$ miles; and southern D'Urville rock W. by N. $\frac{1}{2}$ N. (N. 73° W.).

Approximate position, lat. 36° 45′ 30″ S., long. 175° 9′ 15″ E.

NOTICE TO MARINERS—No. 234.

[Third Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Depths of water found in the river channels on the dates noted.

THE Port Officer, Chittagong, has given notice that the following depths of water were found in the river channels by soundings taken on the 21st and 22nd November, and reduced to zero :—

	Ft.	In.
Outer bar.—The disc a little open to the eastward of Leading tree...	11	6
Inner bar.—Disc on Leading tree	9	6
Disc open well to the eastward of Leading tree and on with a flag in the Bush, showing over the top of the Hill (which will be substituted by a mark later on)	10	6 reduced.

Owing to the extension of the Guptakhally sand to the eastward, No. 3 track is now closed and the lower buoy has been moved 200 feet east into 16 feet reduced.

The Upper Guptakhally buoy has been moved 600 feet north and relaid in 16 feet reduced.

From 12 to 13 feet reduced will be found on the Guptakhally crossing by hauling over midway between the Tripod and Lower crossing mark.

The Upper Patunga buoy has been moved 250 feet W.N.W. and relaid in 16 feet reduced.

AUSTRALIA, NORTH COAST—Torres strait.

Prohibited anchorage between Thursday island and Horn island.

The British Admiralty has given notice (No. 602 of 1894) that two submarine cables have been laid across Ellis channel from Horn island to Thursday island, and vessels are prohibited from anchoring near these cables.

The prohibited area is marked by beacons on Horn island; the southern limit by two red beacons in line, bearing E. ¼ S. (S. 87° E.); the northern limit by two white beacons in line, bearing E. ¼ S. (S. 87° E.)

Landing is not permitted on Horn island within the limits of the prohibited anchorage area.

Anchorage is also prohibited near the cables across Aplin pass, and between Hammond and Goode islands; the shore ends of these cables being marked by red cable houses.

GULF OF ADEN, NORTH SHORE—Aden Harbour.

Intended light on the edge of Marbat Shoal—Uniform System of Buoyage and lighting up of the Inner Harbour Buoys at night.

Information has been received from the Port Officer, Aden, dated 10th instant, that on 15th January 1895 two lights will be shown from a light-vessel moored in 22 feet water half a cable west of the Marbat Shoal buoy at the entrance of Aden Harbour.

The lights will be two fixed red vertical lights, 3 feet apart, the lower light being 20 feet above the sea-level and visible in clear weather from a distance of 8 miles.

The light-vessel will be painted red, and will carry a red ball at her mast-head during the day, and is intended to enable vessels to clear Ras Tarshein, also to mark the edge of Marbat Shoal.

Aden light-vessel bears N 27° E (magnetic) from the position.

The Marbat Shoal Buoy will be removed.

Directions.—Vessels entering Aden Harbour from the eastward should not shoal under six fathoms low water spring tides until Aden Light-vessel is well open to the westward of the Marbat Shoal Light-vessel, then haul in for any point between the Marbat Shoal Light and the 'Anadyr' wreck light, in a direct line between these two marks and 300 feet to the westward of the former, the depth being not less than 26 feet low water spring tides.

Buoyage of the Inner Harbour.—The Inner Harbour will be buoyed in accordance with the International System on or about the 15th January 1895,—red conical buoys carrying red lights at night on the starboard hand and black can buoys carrying green lights on the port hand.

The entrance channel will probably have been dredged to 26 feet low water spring tides by 15th January 1895, enabling steamers drawing 25½ feet to enter at low water.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL DURING 1893-94.

MUNICIPAL DEPARTMENT.—MUNICIPAL.

Calcutta, the 13th December 1894.

RESOLUTION No. 5825 M.

READ—

The reports from the several Commissioners of Divisions on the working of Municipalities in the Lower Provinces of Bengal (except Calcutta) during the year 1893-94.

Read again—

The Resolution reviewing the Divisional Commissioners' reports on the working of Municipalities during the year 1892-93

The following Resolution treats of the working of municipalities in this Province during the year ending with the 31st March 1894. It is necessary year by year, in order to secure punctuality in the submission of the reports, to draw attention to the dates on which they have been despatched by the Commissioners of Divisions. They are due to Government on July 31st, and it is with satisfaction that the Lieutenant-Governor notes that five out of the nine reports were submitted on or about the proper date, and of the remaining four the latest was only a little more than a fortnight behind time. It is true that they were not all received in a complete state in the first instance, but still there has been an improvement. Several District Officers complain of the late receipt of reports from the Municipal Chairmen, and it is certain that punctuality in their case can only be attained by strenuous efforts on the part of District Magistrates.

2. *Amendment of the Bengal Municipal Act III of* 1884.—The Bill to amend the Municipal Act of 1884, which was first introduced into the Bengal Legislative Council in July 1892, was passed on the 28th April 1894, and received on the 15th August 1894 the sanction of His Excellency the Viceroy and Governor-General. The main provisions of the Act have been so fully discussed during the proceedings in Council, as well as in the explanatory circular No. 34 of the 27th August last, that no detailed notice is required in this place. Time will show what the practical effect of the changes introduced by the new law will be, but they are numerous and important enough to make the year under review a notable one in the municipal history of Bengal.

3. *The number of Municipalities, population and rate-payers.*—The number of municipalities—146—was the same as in the previous year. No new municipalities were established nor were any abolished. It has been decided since the close of the year, on the representation of certain of the rate-payers at Titaghar, to separate that ward from the South Barrackpore Municipality to which it now belongs, and to constitute it a separate municipality. The population of municipal towns amounted to 2,727,620 as against 2,731,182 in the previous year, the decrease being due mainly to the exclusion from the recorded population of Cuttack of the persons who live within cantonment limits.

4. The number of rate-payers was 463,960, or 840 less than in 1892-93, and the percentage they bore to the total municipal population was 17. The Presidency Commissioner reports that a uniform system of calculating the number of rate-payers in the municipalities of that Division is not observed, a rate-payer who pays for more than one holding, being counted in some towns as one and sometimes as more than one rate-payer. To avoid mistakes of this kind, instructions were issued during the year to the Commissioners of Rajshahi and Patna, but it seems necessary to repeat them for general information and guidance. An individual, although paying taxes for different holdings, should be shown as one rate-payer, and should not be counted as a separate rate-payer for each of his holdings. Conversely if in one house there are more persons than one who pay municipal rates, each of them should be reckoned as a separate rate-payer.

5. The percentage of rate-payers to the municipal population varied from 4·9 in Kurseong to 34·7 in Meherpur, a small town in the Nadia district. In the margin are given the names of the towns which were specially mentioned in last year's resolution on account of the relatively small number of rate-payers they contained; the percentage of rate-payers in 1892-93 and 1893-94 is given in each case. The improvement in Muzaffarpur, Motihari, and Bhagalpur is satisfactory. That in Cuttack is due merely to a rectification of the number of the municipal population; the rate-payers would still appear to be very few; the Chairman's explanation is that there is a larger number of beggars in Cuttack than in the other towns of Orissa. The falling off in Raniganj, too, requires further explanation: the Magistrate of the district does not think that the presence of a large number of day-labourers sufficiently accounts for the low proportion, and has called for a report from the Chairman. In Darjeeling the already low percentage has fallen to 7·4, and in Kurseong there has been a similar decline which has reduced the percentage of rate-payers to the absurd figure of 4·9. The percentage in Narayanganj (11·8) is also small. In Bankura, Motihari, Darbhanga, Cuttack and Hazaribagh the tax on persons is in force, and in these towns at any rate it is hardly conceivable that the number of adult males is comparatively so low or the poverty of the general public so great as to justify the figures given. In all the towns the Lieutenant-Governor trusts that the assessment and rating lists will be looked into during the current year and revised, if necessary, and the result set forth in next year's report.

	1892-93.	1893-94.
Bankura	12·8	13·
Raniganj	9·8	7·8
Darjeeling	11·3	7·4
Dacca	11·7	11·6
Motihari	11·3	13·1
Muzaffarpur	12·7	14·4
Darbhanga	9·7	10·3
Monghyr	12·1	12·3
Bhagalpur	10·7	14·2
Cuttack	8·3	10·8
Hazaribagh	12·4	12·4

6. *The elective system and the results of elections held during the year.*—In 117 municipalities the rate-payers have the privilege of electing two-thirds of

the Commissioners, and in 103 the Commissioners elect their Chairmen; elsewhere the Commissioners or Chairman, as the case may be, or both, are appointed by Government During the year under report the fourth general election of Commissioners took place. In 113 towns, that is to say in all except four, to which the right to elect their Commissioners has been given, elections were held. In some municipalities one election was held for the whole town, others have been divided into wards for election purposes, and one Commissioner or more has been chosen separately for each ward. In all 550 elections were held (besides bye-elections) Only in six instances did the constituents fail to elect the full number of Commissioners. In 282 instances the elections were uncontested, and in 262 cases contests took place. The percentage of ratepayers who attended and voted at the contested elections amounted to 43·2, a very considerable improvement on that attained at previous general elections, which amounted in 1887-88 to 33·8 and in 1890-91 to 39·4. There can be no room for doubt that these elections excite an increasing though slowly growing interest.

7. A considerable number of disputes arose out of the elections, and in the seven cases mentioned in the margin references were made to Government. But as the Lieutenant-Governor has no authority under the existing election rules to interfere in the result of an election once it has been declared, the disputes had to be left to the decision of the Civil Court or allowed to drop. In the amending Act passed during the current year Government has been invested with power to declare the authority who shall decide election disputes, and the experience of the general elections having shown that the election rules required amendment in several particulars, their revision is now under the consideration of Government.

8. *Constitution of Committees.*—The following table shows how in each Division the Municipal Committees were constituted, and compares the percentages of the total figures for each class with those of the previous year:—

Name of Division.	Number of Members.			Race.		Occupation or profession.								
	Nominated.	Elected.	Total.	Europeans.	Natives.	Government servants.	Zamindars and landholders.	Pleaders and mukhtears.	Planters.	Merchants, traders and money-lenders.	School-masters (other than Government employés).	Medical practitioners.	Government pensioners.	Unspecified.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Burdwan	140	225	365	27	338	54	76	79	1	62	43	12	8	30
Presidency	226	338	564	21	543	77	104	78	1	56	19	46	84	73
Rajshahi	67	96	163	20	140	30	33	40	7	16	13	2	4	25
Dacca	115	111	226	12	214	34	47	71	...	16	14	10	3	31
Chittagong	33	40	73	8	65	14	12	25	...	11	3	...	1	7
Patna	176	196	370	48	322	59	102	100	2	46	9	7	5	36
Bhagalpur	73	94	167	23	144	25	40	31	2	15	8	5	6	41
Orissa	45	33	78	5	70	26	9	25	...	3	3	...	3	4
Chota Nagpur ...	75	40	115	18	97	22	14	34	...	17	2	3	3	11
Total ...	950	1,171	2,140	194	1,946	360	533	479	13	243	110	84	67	262
Percentage on total .	45·2	54·7	...	9·0	90·9	16·8	24·9	22·3	·6	11·3	5·1	3·9	3·1	12·7
Ditto in 1892-93 ...	46·2	54·1	...	9·0	90·9	17·2	23·4	23·7	·6	13·6	3·8	5·3	3·6	11·1

It will be seen that although the general elections afforded an opportunity for a change in the class of Municipal Commissioners the proportion of members drawn from each of the various classes has altered very little for the whole Province. Taking single Divisions some changes are found; for instance, the proportion of Commissioners belonging to the legal profession increased 6 per cent. in the Presidency Division, nearly 4 per cent. in the Rajshahi Division, while in Patna, Chittagong, Bhagalpur and Chota Nagpur it fell off considerably. In the three Divisions last named and in Burdwan, the representation

of the landed classes increased. Lawyers were most largely represented in Chittagong (34·3), Orissa (33·3), Presidency (32·6), and Dacca (31·4); the landed interests in Patna (28 1) and Bhagalpur 23·9); trade in Burdwan (17·2) and Chittagong (15·1).

9. *Attendance at Meetings.*—There were in all 2,359 meetings held during the year against 2,534 in 1892-93. Of these meetings 206, or 8·7 per cent., were unsuccessful or adjourned, as against 228, or 9 per cent., in the previous year. The falling off in the number of meetings possibly implies that the Commissioners felt less interest in their work, as their period of office was drawing to a close. The Satkhira Municipality in the Khulna district held the largest number of meetings, namely 38, of which five had to be adjourned, Cossipore-Chitpur comes next with 36, which were all successful. In 1892-93 forty-one Municipal Boards were summoned more than twenty times, and only fifteen failed to hold at least twelve meetings. During the year under report only twenty-five municipalities held more than twenty meetings, while twenty-four held less than twelve.

10. Section 38 of the Municipal Act provides that there shall be at least one meeting a month unless there is no work to lay before the Commissioners in each municipality. It is incredible that in important townships, such as the South Suburban Municipality (population 69,642, meetings 11), Tangail (17,973, meetings 11), Narainganj (17,715, meetings 10), Muzaffarpur (49,192, meetings 11), Jamalpur (18,089, meetings 7), and Kendrapara (17,647, meetings 9), any month could pass without some work arising which required the attention of the Commissioners, and in the absence of further information it would seem that the Chairmen of these municipalities have neglected their statutory duties in failing to summon more meetings. Attention was drawn in last year's Resolution to the small number of meetings held at Jagdispur, Tangail, Kotrang, Nadia and Jamalpur, and everyone of these towns has again failed to attain the statutory limit. There may be adequate reasons for the default, but they have not been stated. The Lieutenant-Governor desires that the Commissioner of the Division will call for an explanation in each case.

11. In ninety-three towns, as against eighty-six in 1892 93, more than half the number of Commissioners attended at each meeting. The highest percentage of attendance was 88·3 in Jamui (Monghyr). In only two towns were less than one-third of the Commissioners habitually present, namely, in Vishnupur (Bankura) and Baduria (24-Parganas), but in Patna and Chapra this proportion was only just exceeded.

12. *Ward Committees.*—Opinion generally is still unfavourable to the formation of Ward Committees, and the system was not further extended during the year except to the towns of Maniktola in the 24-Parganas and to Kotchandpur in Jessore. It is in force in twenty-four municipalities only in the whole Province, and of these, twelve are in the districts of the 24-Parganas and Jessore. In six of these towns—Maniktola. Barnagor, Jainagar, South Barrackpore, Birnagar and Kushtia—the Ward Committees are said to have done good work, and in the other six to have worked badly. The reports are silent as regards their work in other towns. An alternative system, viz., that of putting Commissioners in executive charge of the wards for which they are elected was commended in the Resolution of 1891-92. This system, a feature of which is the issue of counterfoil books to Commissioners for the purpose of reporting to the Chairman any irregularities that come to their notice, was in operation in nineteen towns in the Burdwan, Presidency, Dacca and Patna Divisions, and to a modified extent in the Balasore Municipality. In Motihari and Rosera Municipalities the introduction of the system is reported to have been followed by good results. The Lieutenant-Governor is satisfied that one or the other of these systems could be beneficially extended to a great many towns in Bengal. The complaint most commonly levelled against Commissioners is that they take no interest in the executive work of the municipality ; any plan that will give them definite duties and a regular system of carrying them out, must increase their interest in outdoor work, bring them into closer contact with the people, enable them better to control the executive staff, and induce them to bring irregularities to notice. But the Lieutenant-Governor would take this opportunity to point out one error

which appears to have been committed in almost every municipality in which Ward Committees have been established, and which must seriously interfere with their smooth working, and that is to entrust Ward Committees with the duty of assessing the inhabitants of their wards. It is extremely difficult for any one, even with the best intentions, to deal in a perfectly impartial spirit with questions relating to the taxation or assessment of his neighbours. All such matters, if not decided by the main body of Commissioners, should be entrusted to a Sub-Committee of persons selected for their position or acknowledged impartiality, and should not be left to the members of a Ward Committee whose only qualification very often for this difficult and delicate task is the accidental proximity of their dwelling to that of the assessee.

13. *Assessments and taxation.*—The rate on holdings was in force in twenty-five municipalities, a tax on persons being levied in the remainder. The maximum rate at which the former tax can be levied is 7½ per cent., except in Dacca and Darjeeling, where 10 per cent. is the limit. In last year's resolution the names of the twelve towns were mentioned in which the tax is not assessed at the maximum rate. The Lieutenant-Governor regrets to observe that none of these have increased the rate during the year under report. In the Bill to amend the Municipal Act which was passed in the Provincial Legislative Council during the current year, the limit of taxation in the important towns of Howrah and Patna has been raised to 10 per cent., thus placing them in the same category as Dacca and Darjeeling.

14. The average incidence of taxation throughout the municipalities of Bengal (except Calcutta) was 12 annas 9 pie per head, or one pie more than in the previous year. This figure, low as it is, does not represent the real incidence of direct municipal taxation, for the sum total, on which the calculation is based, includes tolls on ferries, a tax on carts (a large proportion of which is paid by persons who live outside municipal limits), as well as sums raised as fines and penalties, and a very large amount paid by Government for the taxes on public buildings. The statement in the margin compares the incidence of municipal taxation in Bengal with the results in some of the other provinces of the Empire during 1892-93, the latest year for which figures are available, and the comparison shows the municipalities in this province to be very lightly taxed.

	Rs.	A.	P.
North-Western Provinces	0	12	10
Panjab	1	3	5
Bombay	1	6	6
Assam	1	2	6
Bengal	0	12	9

15. In twenty-eight towns the incidence of taxation exceeded one rupee per head of the population; the list of these towns is identical with that given in paragraph 14 of last year's Resolution, save that Raniganj and Nator have dropped out, and Pabna is now included in it. With the exception of Chittagong all the towns in the list are in the Burdwan, Presidency, Rajshahi, or Dacca Division. In sixty-eight towns as against sixty-three in the previous year, the incidence of taxation was less than 8 annas per head. It was highest in Darjeeling (Rs. 4-1-5) and lowest in Debhatta (3 annas). The following important towns which form the headquarters of districts continue to be lightly taxed:—

Name of Municipality.	Incidence of taxation. 1892-93.		1893-94.		Name of Municipality.	Incidence of taxation. 1892-93.		1893-94.	
	As.	P.	As.	P.		As.	P.	As.	P.
Bankura ...	6	10	6	10	Cuttack ...	10	11	13	3
Gaya ...	9	5	9	6	Puri ...	12	1	13	8
Arrah ...	5	1	7	0	Balasore ...	8	6	8	6
Muzaffarpur ...	10	4	10	9	Hazaribagh ...	5	1	5	5
Darbhanga ...	5	7	5	8	Ranchi ...	8	11	9	2
Chapra ...	7	2	7	5	Daltonganj ...	6	10	6	1
Motihari ...	7	7	8	0	Purulia ...	8	8	9	4
Monghyr ...	10	7	10	5	Chaibassa ...	7	3	6	7
Purnea ...	13	9	13	7					

16. A revision of assessment, general or partial, came into force in 35 towns during the year, which resulted in an increase of the demand in all but four cases, viz., North Dum-Dum, Sherpur (Mymensingh), Bhabhua, and Old Malda.

The results were most satisfactory from a financial point of view in the towns mentioned in the margin. In Naihati the increase will probably be reduced before all the objections, of which a large number are pending, have been disposed of. In Berhampore and Motihari general revisions were made which improved the revenue by Rs. 3,186 and Rs. 1,133 respectively, but the new assessments did not come into force until 1st April 1894. The improvement in Patna is, no doubt, largely due to the judicious action of the Commissioners in appointing an official assessor; now that under section 46 of the Act provision has been made for the appointment of such an officer, a similar course would appear to be advisable in Darbhanga, Muzaffarpur, and other towns mentioned in paragraph 15, and the Lieutenant-Governor hopes that the Commissioners of these places will consider the propriety of taking action under that section. Municipal Commissioners should also everywhere consider whether it would not be to the advantage of the town to alter their system of taxation, or to put in force the provisions of section 85 of the Act as lately amended, and to introduce the tax on persons and the rate on holdings side by side in the same municipality. When the requirements of almost all municipalities in the province for improved sanitation are so urgent, it is a policy of mistaken philanthropy to abstain voluntarily from raising for the execution of these reforms any funds which could be obtained without undue hardship from the persons to be benefitted.

	Increase.
Patna ...	10,152
Bhagalpur ...	3,987
Naihati ...	3,532
Arrah ...	3,052
Nasirabad ...	2,365
Cuttack ...	2,141

17. *Demands, collections, remissions and outstandings on account of taxes.*—Under these heads the following statement compares the totals for the years 1892-93 and 1893-94:—

	Demand.			Collections.				Remissions.				
	Arrear.	Current.	Total.	Arrear.	Current.	Total.	Percentage column 7 on 4.	Arrear.	Current.	Total.	Percentage column 10 on 3.	Outstanding balance.
1	2	3	4	5	6	7	8	9	10	11	12	13
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.		Rs.
1893-94 ...	4,27,889	22,51,279	27,08,968	2,43,143	18,60,939	21,03,773	77·6	50,612	50,378	1,18,984	4·3	4,86,212
1892-93 ...	4,21,000	22,52,676	26,73,682	2,65,052	18,60,231	21,25,283	79·4	65,910	56,840	1,22,750	4·5	4,25,643

With an increase in the demand there has been a general decrease in the collections. The percentage of current collections on current demand has fallen from 82·57 to 81·91, and that of arrear collections on arrear demand from 62·95 to 56·85; so that the percentage of total collections on the total demand has fallen by nearly 2. The outstanding balance has risen by Rs. 60,569. The record is altogether unsatisfactory except that there has been a small decrease in the percentage of remissions. The table below shows for each Division the percentages of collection attained by the municipalities as compared with the previous year:—

Percentage of total collections on total demand.	Number of Municipalities.																			
	Burdwan.		Presidency.		Rajshahi.		Dacca.		Chittagong.		Patna.		Bhagalpur.		Orissa.		Chota Nagpur.		Total.

Total number of Municipalities.	26	26	37	37	11	11	17	17	5	5	25	25	11	11	5	5	9	9	146	146

In the Rajshahi and Dacca Divisions the comparatively good record of the previous year was maintained. There was a very satisfactory improvement in the Patna Division, and in Orissa too the collections have improved. In the Burdwan and Presidency Divisions the record is worse than ever, the

percentage of collections on the total demand being 72·9 and 68·4, and the remissions 4 and 6·1 respectively per cent. In Serampore less than half the total demand was realized, and Maniktola, where in 1892-93 the collections were worse than in any town in Bengal, still retains this undesirable prominence, 40· per cent. only of the demand having been realized; it is reported that in the latter half of the year collections were made over to a contractor and some improvement is expected in the future. The inspection of the accounts of this municipality disclosed many irregularities which the Commissioners should lose no time in correcting.

18. In the thirteen towns noted in the margin the results reflect great credit on the Municipal authorities; the collections in each case exceeded 98 per cent., and this result was obtained without recourse being had to large remissions. It is a matter for regret that excepting Gaya, where for the second year in succession collections have been quite excellent and Naraingan j, this list includes no large towns, and even if the scrutiny is extended to those places which collected 90 per cent. or more, it will be found that the only other large towns which attained that standard were Sirajganj (95·4), Chittagong (94·9), Bihar (96·21), Bettiah (97·5), Muzaffarpur (90·03), and Monghyr (94·9). Of the twenty-one towns in the Province with over 30,000 inhabitants, thirteen failed to realize 80 per cent. of the demand. The good results attained in the five municipalities in the Backergunge district deserve special notice; the percentage-figure of their collections is shown in the margin. In all the towns of the Muzaffarpur district, too, a high standard was reached. These facts show, if further proof is needed, that where method is employed and energy and attention are devoted to the work of collection, the municipal dues can be collected practically in full under the existing rules for the purpose, and that it is not the system but the manner of its application which is in fault.

19. In the matter of remissions which have occasionally been employed in the past as a convenient method of securing apparently good results in collections, the Lieutenant-Governor is glad to find that an improvement is visible everywhere except in the Presidency Division. Only in the six towns named in the margin as against twelve in 1892-93 did the remissions exceed 10 per cent. Five out of the six towns are in the Presidency Division. The two first-named towns on the list have, for the past three years, made large remissions, and it seems probable that the assessments are inequitable, and that a paid assessor should be appointed to revise them as provided in section 46 of the amended Act: the Presidency Commissioner will be asked to report separately on the subject. In Balasore also the remissions amounted to 22·6 per cent. in 1892-93 and again to 9·52 in the year under report—figures which imply unreasonable assessment or a sudden impoverishment of the rate-payers, or both.

20. An explanation of the indifferent collections during the year, suggested in the following remarks of the Presidency Commissioner, deserves quotation :—

"The low percentage of collection is generally ascribed to the high price of food-grains, to the disturbance caused by the general elections held during the year, and also to the insufficiency of the collecting staff. These explanations are, I think, utterly inadequate, the real reasons being a dislike to adopt coercive measures to enforce payments for fear of being unpopular, especially at the time of the general elections which took place during the year, and a want of supervision over and fear of punishing the collecting staff, which is generally inefficient."

The Lieutenant-Governor has little doubt that Mr. Williams' views are correct. The faults indicated are characteristic of municipal government all the world over; but they seem to be particularly rife in Bengal at a time when

elections are imminent. Nothing but the further elevation of the standard of public duty among Municipal Commissioners will serve to eradicate these faults, which meanwhile tend to paralyze municipal administration, since without a punctual collection of municipal dues, and the exaction of the best possible work from the staff, the business of a municipality cannot be carried on with complete success. Since the close of the year the reports of the Examiner of Local Account have disclosed serious irregularities in many cases, and the Lieutenant-Governor must again draw the attention of all concerned to the supreme importance of a scrupulous adherence to the prescribed rules of account.

21. *Fresh imposts levied during the year.*—The following rates and taxes were levied for the first time during the year. The latrine tax in Katwa, license fees for dangerous trades under section 261 of the Act in Midnapore, South Dum-Dum, Khulna and Siwan. In North Barrackpore sanction was given to the levy of burial fees, and in Krishnagar and Lalbagh a tax was imposed on carts and horses and other animals during the year. Fees for the registration of outside carts plying within the municipality are said to have been levied in Siwan for the first time. In paragraph 30 of the resolution on municipalities for 1892-93, attention was drawn to the danger of this means of taxation becoming a source of oppression; its operation should be carefully watched. In towns where the main roads are repaired by the District Board there would appear to be little justification for its imposition.

22. *Income and expenditure.*—The following table shows separately for each Division the opening and closing balances, the income and the expenditure of its municipalities during, 1892-93 and 1893-94:—

Name of Division.	Opening balance.		Income during the year.		Total fund available for expenditure.		Total expenditure.		Closing balance.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.

Total ...	3,97,606	4,16,919	31,43,323	33,15,155	35,40,929	37,32,074	31,21,532	32,20,304	4,19,397	5,11,710

There was a satisfactory increase both in income and expenditure. The difference between the closing balance of 1892-93 and the opening balance of 1893-94 is due partly to an error of Rs. 1,448 in the accounts of Jamalpur Municipality in the Mymensingh district, which had passed unnoticed since 1890-91 until brought to light by Mr. Earle, the Magistrate; there were other small discrepancies elsewhere which call for no special notice.

23. The closing balances in many instances are unduly high; explanations have been given in some cases, but in the following municipalities there

appears to be no reason for keeping in hand a balance so large when compared with the income of the town:—

Name of Municipality.	Opening balance.	Income excluding opening balance.	Closing balance.	Name of Municipality.	Opening balance.	Income excluding opening balance.	Closing balance.

INCOME.

24. The apparent increase of Rs. 1,71,832 in the income of the municipalities shown in paragraph 23 is more than accounted for by the large increase amounting to Rs. 2,39,589 under debt and suspense heads. The income available for expenditure actually decreased.

25. The following table shows the revenue derived from taxation proper in each Division in 1893-94 and in each of the four preceding years:—

Year.	Names of Divisions.									
	Burdwan.	Presidency.	Rajshahi.	Dacca.	Chittagong.	Patna.	Bhagalpur.	Orissa.	Chota Nagpur.	Total.
1	2	3	4	5	6	7	8	9	10	11
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90	5,07,501	3,87,317	1,68,352	2,23,810	45,146	3,58,811	1,40,136	63,884	38,541	19,35,911
1890-91	5,43,474	4,19,602	1,76,072	2,10,760	49,737	3,56,439	1,39,983	67,704	38,189	19,91,960
1891-92	5,43,865	4,56,946	1,75,879	2,29,163	55,208	3,83,542	1,45,281	65,911	40,797	20,96,162
1892-93	5,88,357	4,30,448	2,03,564	2,30,493	51,109	3,81,908	1,59,245	76,310	38,865	21,75,359
1893-94	5,71,793	4,43,554	2,04,781	2,42,967	50,206	3,92,136	1,52,909	82,040	39,445	21,79,901
Increase or decrease since 1889-90.	+64,292	+55,837	+36,529	+19,148	+5,056	+33,323	+12,773	+16,156	+904	+2,43,990

26. The total income from taxation showed an altogether insignificant increase of Rs. 4,542 or ·2 per cent. over that of 1892-93. The considerable decrease of nearly 3 per cent. in the Burdwan Division is distributed among all the districts except Birbhum; it is due to indifferent collections and to a reduction in the demand. Similarly that in the Bhagalpur Division is shared by all districts except Malda, and is solely owing to laxity in collection, as the demand increased. The decrease in the income of the municipalities in the Chittagong Division after 1891-92, and the very small increase during the last five years, are unsatisfactory features, for it is impossible to believe that during that interval assessable income has not risen considerably, there having been no famine or calamity, except a cyclone in Noakhali in October 1893, to account for any general falling off in the material prosperity of the townsfolk.

27. The statement in Appendix E shows the details of income under each head separately for each Division during the years 1892-93 and 1893-94, and the following figures give the difference between the receipts of the two years for the whole province:—

Heads of Revenue.	Total receipts (1893-94).	Comparison with 1892-93.		
		Increase.	Decrease.	Percentage of variation.
1	2	3	4	5
1. Taxation—	Rs.	Rs.	Rs.

Total ...	33,15,155	3,09,780	1,37,948	
Net increase—Rs. ...		1,71,832		

28. *Rate on the value of holdings*—Either this tax or the tax on persons is levied in every municipality, and they form the most important sources of municipal income. The rate on holdings was levied in thirty-five towns during the year, and yielded a revenue of Rs. 7,86,763, which is Rs. 11,041, or 1·38 per cent. less than in the previous year. There was an increase in the Presidency, Rajshahi and Orissa Divisions, and a decrease in the other Divisions (excluding Chota Nagpur, where the tax is not levied). There was a decrease in all the municipalities of the Burdwan Division except in Hooghly, Uttarpara and Howrah. In Burdwan town the audit of accounts and preparations for the elections are said to have hindered collections, but the excuse cannot be accepted. The heavy falling off in Raniganj is due to the large realization of arrears in the previous year, that in Bally to bad collections. In the Presidency Division the increase was largest in the following towns:—Rupees 4,956 in Maniktola, due to the introduction of the system of collecting through a contractor instead of by a paid establishment, Rs. 3,398 in Cossipore-Chitpur, Rs. 2,212 in Santipur, and Rs. 510 in the South Suburban Municipality (due in all three cases to increased collection of arrears), Rs. 629 in Jessore, due to better collections and to an increase in the demand. There was a falling off of Rs. 1,970 in Krishnagar, due to mismanagement of the collections. In Darjeeling and Kurseong an increase occurred, chiefly due to the assessment of new and improved holdings. In Dacca the falling off is said to be due to the high prices of food-grain which have caused a falling off in the collections, but

in the neighbouring town of Narainganj there was not a falling off but an increase. In the Patna Division there was a decrease in the Patna Municipality, due to a dispute between the Railway Company and the Municipality as to the amount of taxes to be paid, and also to the late payment of amounts due on Government buildings. In Siwan, where the tax on persons is in force, the collections show a decrease from Rs. 5,528 to Rs. 704, owing to the receipts in previous years having been wrongly shown under this head. In Hajipur there was an increase of more than 16 per cent. in the collections. There was a decrease in all the towns in the Bhagalpur Division where the tax is levied, due to indifferent collections, for which the explanations offered are inadequate. In Puri an increase of Rs. 1,042 is ascribed to greater energy in collecting.

29. *Tax on animals and vehicles.*—In the Dacca, Chittagong, and Bhagalpur Divisions the amounts realized from this source of revenue varied but little. There was an advance of Rs. 2,256 in Burdwan, due mainly to an increase in the number of vehicles and draft cattle in Burdwan, Baidyabatty, and Howrah. In the Presidency Division the increase is owing to the imposition of a tax on carriages, horses, and other animals in Lalbagh; the collections in that town amounting to Rs. 3,933. Reference was made in last year's Resolution to the large amount (more than half the municipal income) realized in Chanduria Municipality from the registration of carts which belonged to persons outside the town, but plied occasionally within municipal limits, and in consequence of the opinion then clearly expressed that these carts, if they come but once or twice a week into the municipality on market days, ought not to be taxed, the collections have decreased by Rs. 976. In Baranagore the decrease in receipts under this head is again ascribed to the lack of supervision exercised during the period of the elections. In the Rajshahi Division the increase is ascribed to a falling off in the number of carts, carriages and animals registered.

30. *Tax on professions and trades.*—Some doubt exists as to what sums should be credited under this head and what under column 29, (fees for licenses under section 261). The total of these two columns was Rs. 29,663 in 1893-94 against Rs. 31,692 in 1892-93. The falling off under this head is due to the fact that in Howrah and Maniktola the fees levied on warehouses for jute, straw and other inflammable materials have been credited this year under the head of collections under the Licensed Warehouse and Fire-Brigade Act of 1893. In Dacca there was an increase of Rs. 1,317 in the receipts owing to the tax which was first imposed in 1892-93 having come into full operation only during the year under report. In Orissa the considerable increase was due to the taxing of trades not previously rendered liable.

31. *Tolls on Ferries.*—Nowhere in the Province are tolls levied on roads, and in the Chota Nagpur Division there are none on ferries situated within municipal limits. In the Presidency Division the receipts fell off, partly owing to the grant of Rs. 500 out of the receipts of the Government ferry at Ranaghat having been shown under Grants and contributions instead of under "Tolls and ferries," and partly to the reduction of income from the Jiaganj ferry in the Lalbagh Municipality, due to the East Indian Railway Company having opened an out-agency at that place. The decrease of Rs. 2,751 in the Patna Municipality due to a default has since been adjusted out of the security deposit made by the ferry farmers. In other Divisions except Patna and Burdwan, the receipts from tolls increased. In Cuttack town an increase of Rs. 1,007 is ascribed to realizations of arrears and to the large number of pilgrims who used the ferry. In Muzaffarpur the Korlahia Ghat ferry was re-opened owing to the Victoria bridge having become unfit for traffic, and the receipts in consequence partly recovered the falling off that occurred tin 1892-93. No explanation has been given of the fact that there was no revenue from this source during the year under report in the English Bazar Municipality in Malda, whereas in 1892-93 it amounted to Rs. 1,387.

32. *Water rate.*—This was levied as in the previous year in Burdwan, Darjeeling, and Bhagalpur. In Nasirabad sanction was given to the imposition of the tax, but the Commissioners proposed, instead of levying a water-rate, to pay the cost of the water-supply from the general fund. This proposal has been vetoed, and the tax will be levied from the commencement of the current year.

33. *Lighting rate.*—This rate is levied only in Howrah. The decrease is due to remissions on account of vacant holdings.

34. *Conservancy including scavenging and latrine rates.*—The large increase (Rs. 18,861) of income under this head was shared by the seven Divisions named in the margin, whilst the remaining two Divisions, viz., Burdwan and Chittagong, show a falling off of Rs. 2,719 and Rs. 257 respectively. As regards the Burdwan Division, it may be said that in 1892-93 there was a large increase of Rs. 20,526 over the revenue of the previous year, and the present decline may be due to there having been smaller arrears to collect. Chittagong has shown a reduced income during both the years, although the decrease is small. The Lieutenant-Governor is gratified to observe that a large percentage of increase has occurred in the Patna Division during two successive years. The following municipalities show the largest fluctuations in the receipts as compared with the previous year :—

Division.	Amount of increase. Rs.	Percentage of increase.
Presidency ...	5,656	7·6
Rajshahi ...	1,720	3·1
Dacca	3,675	5·5
Patna	7,919	52·2
Bhagalpur ...	496	2·3
Orissa ...	1,767	11·4
Chota Nagpur ...	604	18·2

Name of Municipality.	Amount of increase. Rs.	Name of Municipality.	Amount of decrease. Rs.
Utterpara	1,057	Raniganj	1,112
Cossipore-Chitpur	2,162	Baranagar	1,114
Maniktola	1,153	Dacca	1,021
Krishnagar	2,213		
Patna	7,491		
English Bazar	2,390		
Cuttack	1,277		
Puri	1,160		

The fluctuations of income under this head are obviously due to the same causes which affected the receipts under other forms of taxation in force in these municipalities.

35. *Tax on persons according to their circumstances and property.*—There was on the whole a falling off of income under this head, which was shared by six divisions. The Patna Division shows a satisfactory increase, whilst in Dacca and Orissa there was some slight improvement. The actual difference in income in each division as compared with the previous year, under this important head of taxation, which is in force in most of the municipalities in Bengal (111) is shown in the margin. All the municipalities in the Burdwan Division in which this tax was in force show a falling off except Bankura, Sonamukhi, Ramjibanpur, and Kharar, the last three being very small towns with small incomes. The Commissioner observes that the explanations submitted are generally not satisfactory. In the Presidency Division, more than one-half of the municipalities where this tax is levied show a falling off in income, the most notable among them being Baranagar (Rs. 3,322), Lalbagh (Rs. 2,267), North Barrackpore (Rs. 1,394), and Baduria (Rs. 1,034). Only three municipalities, viz., Naihati, Nadia, and Moheshpur, return an increase of over Rs. 300. Out of the nine municipalities in the Rajshahi Division which rely for their revenue on this form of taxation, six show a decline which in Rampur Boalia amounted to Rs. 1,860: Pabna alone shows a satisfactory increase of Rs. 1,611. In the Dacca Division nine out of fifteen municipalities show an increase, the largest being at Nasirabad where it was of Rs. 1,416. In the Chittagong Division there was a falling off in the Municipalities of Comilla and Brahmanberia. Of the considerable increase in the Patna Division, a portion is apparent only, the income of the Siwan Municipality (Rs. 4,425) having now, as stated above, been correctly shown under this head instead of under "tax on houses and lands:" among the remaining towns of the division, the improvement is most marked in Arrah (Rs. 2,534), Bihar (Rs. 1,351), Bettiah (Rs. 1,147), and Buxar (Rs. 1,026),

Name of Division.	Amount of increase (+) or decrease(—). Rs.
Burdwan ...	—4,800
Presidency ...	—9,966
Rajshahi ...	—1,570
Dacca	+1,192
Chittagong ...	—1,202
Patna	+10,844
Bhagalpur ...	—39
Orissa	+138
Chota Nagpur ...	—20

whilst Siwan and Sasaram show a decrease of Rs. 1,103 and Rs. 945, respectively. In the remaining three divisions the variations are small and call for no comment. The falling off of income is ascribed variously to the general elections, to the decreased prosperity of the people in some towns, to desertion and death of rate-payers, to the changes in, or reduction of, the collecting staff, to smaller arrears left from previous years, and to high prices of food-grains: but the Lieutenant-Governor is disposed to doubt whether there was much reason for the decrease beyond laxity in supervising collections, which was no doubt enhanced by the near approach of the elections.

36. *Other sources of revenue.*—Of other sources of revenue the rate levied in Howrah, Maniktola, Cossipur-Chitpur and Madaripur for the maintenance of the Fire Brigade under Bengal Act I of 1893 yielded an income of Rs. 35,368 against Rs. 42,546 in the previous year. Revenue from pounds shows a falling off from Rs. 65,361 to Rs. 61,281; the fluctuations are most noticeable in the towns of Midnapur and Dinajpur, where receipts decreased by Rs. 1,324 and Rs. 502 respectively, and in Rangpur, where there was a large increase of Rs. 642. The amount of fines shows a falling off from Rs. 40,717 to Rs. 33,423, which is due probably to lack of energy in prosecutions, for the Lieutenant-Governor can hardly suppose that there has been a sudden decrease in the number of offences.

37. *Grants from Provincial and Local Funds.*—The table in Appendix L shows the grants received by municipalities from Provincial and Local Funds, and also contributions from other sources in 1893-94 and in the previous year. The total amount of the grants and contributions from each of the different sources, and the purposes for which they were made, are shown in the table below:—

Purposes for which made.	Provincial.	District Fund.	Other Funds and public charity.	Total.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Medical	2,594	21,120	22,897	46,611
Education	5,890	...	550	6,440
Public Works ...	37,559	20,133	25,539	83,231
Other purposes	700	...	11,586	12,286
Total ...	46,743	41,253	60,572	1,48,568

The most important of the items shown in Appendix L are the following:—A grant of Rs. 25,000 from the Provincial Funds, being an instalment of a total contribution of Rs. 50,000 made for the improvement of the town of Khulna; a contribution of Rs. 20,000 by the Mymensingh District Board, towards the construction of the Raj Rajeswari water-works in Nasirabad; and two sums of Rs. 9,000 and Rs. 10,200, the former of which was given by Babu Udit Narain Singh for the water-works in the town of Bhagalpur, and the latter by Raja Surya Kanta Acharjee Chaudhury, Bahadur, for those at Nasirabad, being instalments of their contributions for the works.

38. *Gifts by Private Individuals.*—Besides those mentioned in Appendix L, other gifts have been made by private persons, and the Lieutenant-Governor is glad to take this opportunity of acknowledging the liberality which prompted the execution of the following works. In Raniganj the excavation of a tank to be reserved for drinking purposes was begun, the cost, estimated at Rs. 6,000, being borne by a private gentleman; Babu Bhuban Mohan Mukherji paid Rs. 3,849 for the improvement of a lane in the Howrah Municipality. In the

South Barrackpore Municipality Babus Trannath Banerji and Kalinath Pramanik have constructed public bathing ghats. Two large tanks in Jessore were re-excavated at the cost of the Dighapattia Estate and of the Narail zamindars, respectively. In Khulna, Babu Barada Kanta Rai, a Municipal Commissioner, maintained a school and the "Sripur Hitashadini Sabha," supported a dispensary and library in Debhata. Babu Radha Gobinda Das, of Enaetganj, constructed a pucca ghat for the cremation of the dead at Dacca. In Comilla two tanks were excavated by private persons for the benefit of the public. In the Bihar Municipality liberal contributions were made by private persons for the repair of the Bayley sarai. Babu Ram Bhagwan Chaube, of Sikraul, built a pucca ghat in the Buxar Municipality, and another was constructed from public subscriptions. The late Maharaja of Dumraon gave Rs. 3,600 for the construction of an operation ward in the Bankipore dispensary. The following liberal contributions were received towards the cost of the Muzaffarpur drainage scheme :—

		Rs.
1.	Maharaja of Darbhanga	10,000
2.	Babu Rameshwar Narain Mahta	5,000
3.	„ Nandan Lal	5,000
4.	„ Bishwa Nath Prashad Mahta	2,500
5.	„ Gajraj Sahai	2,000
6.	„ Baldev Sahu	2,500
7.	„ Dewa Dass Mahanta, of Motihari ...	2,000
8.	Raja Peruddin Khan, of Parsanee	2,000
9.	Babu Chowdhry Mahadev Parshad	1,000

EXPENDITURE.

39. The total expenditure in the municipalities of the province (excluding Calcutta) amounted during the year to Rs. 32,20,364 against Rs. 31,21,532 in 1892-93, and the closing balances of the two years were respectively Rs. 5,11,710 and Rs. 4,19,397. The statement in Appendix F shows the percentage that the expenditure under each of the principal heads bears to the total outlay (excluding debt and suspense heads). For the whole province the percentages for the two years are as follows :—

	Conservancy.	Public Works.	Establishment.	Medical.	Lighting.	Education.	Drainage.	Vaccination.
	1	2	3	4	5	6	7	8
1892-93	29·07	10·21	11·4	9·47	5·28	4·8	3·56	0·6
1893-94	27·9	18 2	10·9	9·4	5·5	4·5	9·5	0·6

40. Looking first to the figures for each Division it appears that the highest proportionate expenditure on conservancy is in the Burdwan and Orissa Divisions and the lowest in the Patna, Chittagong, and Dacca Divisions. Compared with other Divisions, establishment absorbs the largest share of the expenditure in Orissa, Rajshahi, and Bhagalpur, while in Dacca and Patna it is smallest. The largest proportionate sum is devoted to the medical needs of the people in Chota Nagpur, Bhagalpur, Dacca, and Chittagong, while the Burdwan and Presidency Divisions are at the bottom of the list in this respect. As in the previous year, Chittagong shows the highest and the Presidency Division the next highest percentage of expenditure on education. The Municipalities in the Dacca Division would appear to be least heedful in this respect. These comparisons are useful only as a rough guide and cannot be relied on for exact conclusions; for instance, in the year under report the heavy expenditure in the Patna and Muzaffarpur Municipalities on drainage schemes raised the percentage of expenditure of the Division under Drainage from 2·4 to 29·5 and proportionately reduced that under all other items; but as the cost was met from extraordinary sources of income, there was no corresponding reduction in the actual expenditure under the other various heads.

41. The following table shows the expenditure of 1893 94 under its main heads, and also shows how these totals have varied from those of the previous year:—

Heads of expenditure.	Total expenditure in 1893-94.	Comparison with 1892-93.		
		Increase.	Decrease	Percentage of variation.
1	2	3	4	5
	Rs.	Rs.	Rs.

Total	32,20,364	2,23,079	1,24,247	3·1
Net increase	...	98,832		

42. *Office and Collection Establishment.*—The total expenditure on office establishment shows a small increase of Rs. 2,450, and that on collecting establishment a decrease of Rs. 4,409. The result is satisfactory and indicates that the insidious growth of establishment charges, which is the main danger of all local bodies, has been checked for the present. There is, however, an unexplained increase of Rs. 443 in the expenditure of the North Barrackpore Municipality on establishment, which merits the attention of the Divisional Commissioner. In fourteen municipalities as compared with fifteen in 1892-93, the cost of the office and collecting establishment exceeded one-quarter of the whole expenditure of the year. In all towns the total expenditure was less than Rs. 5,000, and in eight of them it was less than Rs. 3,000. In such cases Rule 2 of the Account Rules framed under section 82 of the Act, which is quoted in the margin, makes any large reduction in establishment impossible. The Commissioner

Kotrang	... 29·1	Debhatta	... 42·3

Moheshpur	... 29·1	Jhalda	... 25·5

"In no case shall the same person compile the municipal accounts and superintend the collection of the rates and other municipal income."

of Dacca during the year under review drew attention to this rule, and suggested that towns the income of which was small should be exempted from its operation. In view, however, of the fact that defalcations are especially frequent in small municipalities, which are usually far removed from head-quarters and necessarily receive but little official supervision, the Lieutenant-Governor was unwilling to remove this important safeguard against embezzlements and malpractices.

43. *The Prevention of Fire.*—The decrease of expenditure under this head from Rs. 37,116 to Rs. 27,406 was due to the fact that the contribution formerly made by the Cossipur-Chitpur Municipality to the Calcutta Fire Brigade was reduced to nearly one-half by the passing of the Licensed Warehouse and Fire Brigade Bill of 1893. In the city of Patna a considerable sum, amounting to Rs. 3,038, was for the first time shown under this head.

44. *Lighting.*—The expenditure increased from Rs. 1,52,825 in 1892-93 to Rs. 1,66,167 in the year under report. The increase was shared by all Divisions except those of Chittagong and Patna, and was due chiefly to the increase in the number of lights. In thirty-three towns there was no expenditure under this head. Whatever opinion may be held as to the advisability of street-lighting in small rural municipalities, there can be no room for doubt as to its necessity in the towns named in the margin, in all of which the population exceeds 10,000, but in which nevertheless nothing was spent on street lighting during the year: especially is this neglect a matter for wonder in North and South Barrackpore, each of which contains a population of over 20,000 persons.

South Barrackpore.	Madhubani.
North Barrckpore.	Rosorah.
Nasirabad.	Jajpur.
Barh.	Hazaribagh.

45. *Water-supply.*—Under this head Rs. 1,55,684 were spent against Rs. 2,16,467 in the previous year. The decrease was in capital expenditure only. In the Burdwan Division the considerable falling off was due to less outlay having been incurred during the year on the extension of the water-works in the Burdwan Municipality. In the Dacca Division the heavy decrease was owing to the fact that but little capital expenditure was required to complete the water-works at Nasirabad which were opened during the year. The increase in the Presidency Division from Rs. 5,753 to Rs. 31,479 arises from the cost incurred in connecting Maniktola with the Calcutta system. The only other towns in which water-works exist are Dacca, Darjeeling, Kurseong and Bhagalpur. The water-works at Arrah, the cost of which is to be met partly by the Municipality, partly by the District Board, and partly from contributions, were completed and opened by His Honour the Lieutenant-Governor shortly after the close of the year under review. No expenditure, however, on this account appears under this head in the accounts of 1893-94, as the work is being carried out by a joint committee of representatives from the District Board and the Municipality, and not by the Municipality itself, and the contribution of the Municipality was not paid over until after the close of the year.

46. It was thought desirable during the year to appoint a committee to enquire into the purity of the water supplied by the Darjeeling Municipality, of which Mr. Nolan, the Commissioner of the Division, was chosen President. Since the close of the year the Municipal Commissioners have applied to Government for a loan to enable them to carry out the recommendations of the Committee.

47. The Hooghly Municipal Commissioners have completed an agreement with the East Indian Railway Company under which water drawn from the river by the Company will be conveyed into municipal tanks when required at a cost of 4½ annas per thousand gallons, but Mr. Duke, the Magistrate, writes that he fears the Commissioners do not seriously intend to raise the funds necessary to carry out the scheme. The extensive scheme for the supply of filtered water to Howrah made some progress, and Rs. 14,627 were spent in surveying a site for the head works and on other preliminary arrangements: since the close of the year the detailed plans have been approved, a contract with Messrs. Burn and Company has been concluded, and a loan of fifteen lakhs for carrying out the work sanctioned. Negotiations for the supply of water to the Cossipur-Chitpur Municipality from the Calcutta mains hvae long been in progress, and there at length seems to be some prospect of

their satisfactory conclusion. Mr. Kimber, the Engineer of the Calcutta Corporation, was engaged during the year in working out a comprehensive scheme for the supply of water to the suburban Municipalities on the left bank of the Hooghly. The experiments which were conducted last year at Gaya, in order to ascertain whether a sufficient supply of water could be obtained beneath the sandy bed of the river Falgu to provide the town with pure water, were prosecuted during the year under report, and the result is said to be very promising.

48. The schemes described in the foregoing paragraph are expensive and ambitious, and of a character which can only be attempted in large and prosperous Municipalities. Those which more nearly affect the health and welfare of the masses in most towns are the construction and repair of tanks and wells and their cleansing and protection from contamination. It is satisfactory to note that this class of expenditure rose from Rs. 38,678 in 1892-93 to Rs. 46,417 during the year under review. Besides the Raniganj and Jessore tanks already mentioned in paragraph 38, the most important works are as follows. The Municipal Commissioners of Khulna pumped up water from tanks into settling reservoirs, and two new reservoirs were constructed during the year. In Rangpur one of Norton's tube-wells was sunk. The water-supply of the town of Pabna is said to be very defective, and a scheme for its improvement has been prepared by the Municipal Commissioners. There are reserved tanks in all the municipalities of Backergunge, and the Magistrate reports that the inhabitants of these places now appreciate the good water thus provided.

49. The purity of the water-supply of the town of Puri, which is derived solely from tanks and wells, is a matter not of local but of provincial if not imperial importance, since upon it largely depends the well-being of hundreds of thousands of Hindu pilgrims from every part of India. Surgeon-Captain Dyson, Officiating Sanitary Commissioner of Bengal, inspected the town in August 1893, and wrote as follows: "The inferior quality of the water which those wells contain is now, as it has been for years past, the great sanitary evil of Puri"; and of the Svetgunga, the most important tank in the town, resorted to by thousands of pilgrims who drink of the water and wash in it, he writes: "When I examined the tank the water was of a rich green colour, giving off a most offensive smell, and the Chemical Examiner, who has recently analysed it, reports that it 'resembles liquid sewage,' which is not surprising considering the various forms of the worst pollution to which it has been subjected for seven centuries." Some steps have since been taken towards improving the wells: the owners of some have been induced to clean and improve them, and six wells belonging to the municipality have been condemned and closed. The attempts made to cleanse the Svetgunga tank have been less successful. The Sanitary Commissioner recommended the purchase of a pump in order to empty the tank, and the Rani of Puri, the Superintendent of the temple, to whom the tank belongs, promised in October 1893 to contribute Rs. 3,000 to the cost of the operation. The Lieutenant-Governor regrets to hear that, notwithstanding renewed promises, she has as yet paid nothing, and in consequence the pump has not yet been purchased. It is impossible to allow the proprietor of any tank by neglect of this character to endanger, not merely the health and lives of neighbouring inhabitants, but that of every town of India from which the pilgrims come. It may be necessary to adopt coercive measures under section 200 of the Municipal Act, to compel the proprietress to cleanse the tank, but His Honour trusts that before action is taken the Superintendent of the temple will recognise her responsibility in the matter.

50. To the provision and maintenance of a good water-supply in every town the Lieutenant-Governor attaches the greatest importance, for he considers that Municipal Commissioners can confer no greater benefit on their fellow-townsmen. The researches of medical science year by year establish more clearly the close connection between zymotic diseases and a contaminated water-supply, while on the other hand the measures which are required to place potable water within the reach of the public are in most cases simple and inexpensive and call for little other expenditure than that of energy, forethought and care. In Bihar it is from wells that the public water-supply

is chiefly drawn, and on this subject the Commissioner of Patna writes:—"In most municipalities in Bihar a good supply of wholesome drinking water can, I have no doubt, under proper arrangements, be obtained from wells. I am of opinion that all that is necessary is that selected wells among those existing should be thoroughly cleaned out and care taken to keep them in order in future, and that new wells should be sunk on sites well removed from contaminated surroundings. Some simple and popular means should also be adopted for raising the water, in place of the miscellaneous collection of ropes and utensils, brought from no one knows what nest of uncleanliness and disease, which is at present used for the purpose." In Bengal tanks are more generally used, and the Lieutenant-Governor fears that the following remarks of the Commissioner of the Presidency Division are only too true:—"Many of the municipal towns have apparently never had a good supply of drinking water, but in many there are capital tanks which could easily have been preserved for drinking purposes. Often no attempt has been made to do this. New tanks are asked for and taken in hand, but stringent measures to keep the tanks free from pollution, when made, are equally needed, and on that very point the Municipal Commissioners often show themselves completely indifferent." Once the urgent necessity of reform has been recognised, no municipality which fails to introduce it will be able to rebut the charge of apathy:—the best methods of preserving water from pollution are well known, and in case of doubt or difficulty the Sanitary Department will readily render advice or assistance: the amended Municipal Act has defined and largely increased the powers of Municipal Commissioners over the water-supply; a new body of Municipal Commissioners has lately been formed which for three years will control the destinies of the municipalities in these provinces, and the Lieutenant-Governor lays upon them as a grave and important responsibility the paramount duty of providing for their fellow-townsmen the inestimable benefit of a pure water supply.

51. *Drainage.*—Out of the large sum of Rs. 2,86,684 devoted to drainage the greater portion was spent in the Patna and Muzaffarpur municipalities; namely, Rs. 1,58,962 in the former and Rs. 32,008 in the latter. If these two towns are left out of consideration, it appears that the capital expenditure on drainage works amounted to Rs. 30,051 in 1893-94, and the cost of maintenance to Rs. 65,663, as compared with Rs. 33,876 and Rs. 69,311, respectively, in the previous year. Again, if the expenditure in each Division is examined, it will appear that besides Patna, Dacca alone shows any considerable increase (Rs. 5,823), while Burdwan, Rajshahi, and Orissa devoted considerably less than in the previous year to this purpose.

52. The total expenditure in the city of Patna was Rs. 1,59,063. The progress made appears to be satisfactory and the Commissioner writes:—

"A thorough system of drainage on scientific principles is being carried out in Patna city under the supervision of Mr. Salmon, the District Engineer. A very considerable portion of the work has already been done, and it is hoped that the remainder will be finished very shortly. The necessity of some system of flushing the drains regularly is being already felt, and the subject must at once receive the careful attention of the Commissioners."

The cost of the drainage works in progress in the town of Muzaffarpur is estimated at Rs. 99,080, which is being met partly by a loan of Rs. 60,000 from Government, and partly from subscriptions. Excluding these two towns, only the nine municipalities noted in the margin incurred any considerable expenditure on drainage, and in all but the first four, the expenditure falls under the head of maintenance and repairs. In Burdwan the scheme commenced in 1892-93 appears to have made little progress. The Baradanda drainage work in Puri is said to have been nearly completed. The new main channel from Serampore to Konnagar was completed during the year, but the Commissioners instead of rendering it effective by connecting it with the internal drainage of the town have spent on other objects a sum Rs. 10,000 saved out of the Government loan granted for the main channel. The Commissioner will be asked to report separately on the subject.

	Rs.
Manicktola	2,495
Darjeeling	8,102
Dacca	6,818
Puri	6,120
South Barrackpore ...	3,156
Berhampore	3,145
Nasirabad	5,598
Gaya	2 108
Cuttack	2,018

53. In last year's Resolution the Lieutenant-Governor noticed the activity of the Municipal Commissioners in several towns in having levels taken and drainage schemes prepared, and he is glad to find that this activity is unabated. In Hooghly, Dainhat, Bally, Badyabati, Uttarpara, Baruipur, Ranaghat, Nadia, Kushtia, Kumarkhali, and Bogra, levels have been taken, and in the first four towns and in Krishnagar schemes have been actually prepared. But the Lieutenant-Governor regrets to notice in many cases a great unwillingness to proceed further, so that the schemes are suspended, and on the survey no action is taken. There are indeed noteworthy exceptions; both Dinajpur and Jalpaiguri have taken loans and intend to push through the work, and in Comilla, also, matters are progressing. The plea put forward for inaction usually is that the schemes are too expensive. It cannot be expected that capital expenditure can be met from current income; either it must be paid for from savings, or a loan must be taken from Government, and of the two plans the latter is obviously preferable. A perusal of the Divisional reports, however, discloses many cases in which the alleged inability of the Commissioners to take a loan could apparently be removed by the more efficient administration of their existing resources. In many cases municipal dues are not collected, or considerable sums are spent on higher education, while in others the Commissioners, even if they administer judiciously the funds available, are unwilling to increase taxation even where it is admitted to be unreasonably low, as in Darbhanga. Where these conditions prevail it no doubt becomes hard to find money for improvements, but the Lieutenant-Governor trusts that the new body of Commissioners will take a broader view of their duties and will endeavour to administer their resources to the greatest advantage of the Municipality, not hesitating to ask for a loan which can be repaid on easy terms when an important reform necessitates a special effort.

54. *Conservancy (including road watering) and latrines.*—The expenditure under this head amounted to Rs. 8,40,849, as compared with Rs. 8,41,573 in 1892-93. There was an increase in all Divisions except those of the Presidency, Orissa, and Chota Nagpur, but the variation in each case was unimportant, save for the decrease of Rs. 19,637 in the first-named Division and an increase of Rs. 13,253 in that of Burdwan. In that Division all the towns except six spent more than in the previous year, and in none of the six was the falling off such as to call for special notice. The increase is most noticeable in Midnapore (Rs. 1,799), and Howrah (Rs. 7,321). It is said in the local reports that the work of removing the night-soil in Howrah is carried on with a fair degree of efficiency, but this is hardly in accord with the report of the Officiating Sanitary Commissioner, who inspected the town in September 1893, nor with that of Surgeon-Captain Vaughan, Deputy Sanitary Commissioner, who inspected the trenching-grounds after the close of the year. After conclusively showing that the existing provision for the cleansing of privies and the removal of sewage was entirely inadequate, the Officiating Sanitary Commissioner made in the closing paragraph of his report certain definite recommendations, the most important of which related to the increase of the number of mehtars and of sewage carts employed by the Municipality. This report was forwarded for the consideration of the Commissioners, and after some hesitation and delay caused by the opposition of some of their number, the Board, in March of the current year, decided to adopt the enhanced scale of latrine fees required to meet the cost of these improvements. The Lieutenant-Governor is gratified to learn that since the close of the year the Commissioners have given further evidence of the sincerity of their desire to improve the sanitary state of the town, by applying for a loan from Government, part of which is to be used in carrying out the most important improvements suggested in Dr. Dyson's report.

55. In the Presidency Division several towns show a considerable decrease in expenditure, notably Cossipore-Chitpur (Rs. 10,545), Maniktola (Rs. 9,387); in both cases it is ascribed to abnormal outlay in the year 1892-93 for trenching-grounds and other matters connected with conservancy. All the districts of the Dacca Division show an increase except Backerganj, where there was an unusual expenditure in 1892-93. In Chittagong the variations in expenditure are insignificant. Patna and Gaya alone of the towns in the Patna

Division show an increase, due in the former case to the sweepers' establishment having been strengthened and in the latter to the purchase of new conservancy and water-carts. The Lieutenant-Governor is pleased to notice that a very considerable number of municipalities purchased conservancy carts during the year, and thus avoided what the Commissioner of Burdwan justly terms "the objectionable system of conveying the night-soil on the heads of mehtars."

56. The proportion of expenditure on conservancy seems generally sufficient except in the following towns:—

Khirpai	...	4·5	Satkhira	...	4·6
Chandrakona	...	8·3	Debhatta	...	3·2
Baruipur	...	6·	Chanduria	...	2·1
Joynagar	...	5·8	Bazitpur	...	1·01
Baduria	...	9·3	Jhalokati	...	9·3
Taki	...	4·8	Patuakhali	...	3·5
Meherpur	...	9·4	Cox's Bazar	...	5·4
Moheshpur	...	9·2	Sitamarhi	...	9·54

The Lieutenant-Governor trusts that more attention will be paid to this important branch of municipal work in these towns during the current year.

57. In compliance with the orders contained in Circular No. 2M., dated the 12th January 1894, all the Commissioners, except those of Rajshahi and Chota Nagpur Division, have given some account of the systems in vogue for the disposal of nightsoil. The immediate cause which led to the issue of the circular was a report by Surgeon-Captain Moir, the Deputy Sanitary Commissioner, on the disgraceful state of the South Suburban and South Dum-Dum trenching grounds. The Lieutenant-Governor does not propose to review in this place the important information thus collected under this head, but will forward for the information of the Sanitary Commissioner the remarks of the Divisional Commissioners on the subject. His Honour is satisfied, on the whole, with the increased attention paid to this matter during the year. Much, however, remains to be done, and it is hoped that the blots pointed out in the Commissioners' reports will be removed during the current year.

58. *Hospitals and Dispensaries.*—In the year under review Rs. 2,82,189 were spent from municipal funds on hospitals as compared with Rs. 2,74,125 in 1892-93. The increase occurred in all Divisions except Rajshahi, Chittagong, and Bhagalpur, and was most noticeable in the Dacca Division, where it amounted to Rs. 7,332, or 19·5 per cent. In Chittagong the falling off was largest, namely Rs. 3,073. The towns noted in the margin show the most considerable fluctuations as compared with the expenditure of the previous year. A new dispensary was opened in Cossipore-Chitpur and an in-patient ward at Satkhira. A ward for Europeans was added to the Mitford Hospital at Dacca, a cholera ward to the Sitamarhi Hospital, and a female ward to the Nasirabad dispensary, the building being constructed in the latter case at the cost of a lady zamindar of Muktagacha. In Chittagong it is proposed to construct a general hospital on the Rangmehal Hill, at the joint expense of the Municipality, the District Board, and the Port Trust, and a loan of Rs. 45,000 was granted to the Municipality for the purpose: the plans are now under the consideration of Government. In paragraph 49 of the Resolution on the reports for 1892-93, attention was drawn to the fact that in nineteen municipalities no expenditure was incurred on medical relief; this description applies now only to the fifteen municipalities in the margin. For some of these towns it may be urged that they are too small to keep up a dispensary, but this plea cannot be accepted in behalf of such a town as Sonamukhi, where there is a population of 13,462, and where Rs. 665 or 14 per cent. of the expenditure was devoted in 1893-94 to higher education. In even the smallest municipalities the Lieutenant-Governor hopes to see a dispensary opened, unless one is already in existence supported from other sources, and when the funds of the Commissioners will not suffice for its entire support, they should apply for assistance to the District Board.

Kotrang.	Moheshpur.	Tikari.
Baranagor.	Debhatta.	Lalganj.

59. Besides Nasirabad which has been referred to above, other towns have during the year provided further facilities for giving medical aid to women. At Berhampore a hospital for secluded ladies has been started by the liberality of the mother of the Kassimbazar ward. The Municipality of Khulna has sanctioned a contribution of Rs. 100 and an annual subscription of Rs. 60 towards the cost of a zenana hospital in that town, and in Jessore a female ward is to be added to the dispensary, both the District Board and Municipality having agreed to contribute to the cost. A plan and estimate for a female ward in the Krishnagar dispensary have been sanctioned, and Babu Nafar Chandra Pal Chaudhury has offered a contribution of Rs. 2,500 for the work. Arrangements were made in Hooghly town for opening a hospital in connection with the Lady Dufferin Fund, and since the close of the year it has been opened. The Balasore Municipality also contributes to the support of a newly-opened dispensary for women.

60. *Vaccination.*—The statement in Appendix H gives all information in regard to vaccination. Two hundred and six vaccinators were entertained at a cost of Rs. 18,713. They performed 90,502 operations, of which 83,373 were primary and 7,129 revaccinations; of the primary operations 85 per cent. are reported to have been successful. Each operator vaccinated on an average 439 persons, and the average cost of each operation was 3 annas 10 pies. As compared with the previous year, the number of vaccinators and the number of operations was fewer; the average cost was higher; the number of operations performed by each man was larger. Of the total municipal population 3·05 per cent. were vaccinated (omitting revaccinations) as compared with 3·1 in the previous year. The provisions of the Compulsory Vaccination Act were in force in all municipalities in the province, but they require to be more effectually worked. With a total municipal population of 2,727,620, the annual number of births (at the low rate of 40 per mille) cannot be less than 1,09,100, and the number of primary vaccinations ought not to fall below that figure.

61. *Public Works.*—The expenditure on Public Works decreased from Rs. 5,56,127 in 1892-93 to Rs. 5,47,823 in the year under review. The following statement shows how this sum has been spent in the two years:—

	Establishment.	Buildings.	Roads.	Stores.	Total.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
1892-93 ...	61,028	46,358	4,40,297	8,444	5,56,127
1893-94 ...	64,490	45,940	4,31,451	5,942	5,47,823

There is always a certain amount of uncertainty as to what expenditure should be debited to Public Works establishment. The Commissioner of Chittagong, for instance, reports that during the year under report Rs. 1,013 were transferred to this head in the Comilla Municipality on account of the pay of the sub-overseer hitherto shown under a different head. The instructions given to District Boards in Circular No. 2TM., dated the 27th June 1894, should be followed as far as possible in the case of municipalities. The fluctuations in establishment in no case call for special comment. The fluctuations in expenditure on roads occurred mainly in the Burdwan, Presidency, and Bhagalpur Divisions, there having been an increase of Rs. 12,751 in the first-named, and a decrease of Rs. 10,197 and Rs. 13,029 in the two last-named Divisions. Expenditure under this head must necessarily vary from year to year, but it is hard to believe that the roads in Jangipur required no repairs; no money, however, appears to have been spent on them. The heavy falling off in the various towns of the Bhagalpur Division is said to have been due to repairs being unnecessary in Monghyr, Jamalpur, and Purnea, to the failure on the part of the contractor in the Bhagalpur Municipality to supply stones, to the want of funds in English

Bazar and Sahibganj and to the unusual expenditure incurred in Old Malda in 1892-93 for the purchase of a roller. The Magistrate of Monghyr, however, does not endorse the Chairman's opinion as to repairs to roads being unnecessary, and if in fact the roads required repair, it will prove false economy to have neglected them. On buildings the following towns showed comparatively large expenditure:—Darjeeling (Rs. 6,792), Narainganj (Rs. 4,269), Gaya (Rs. 4,091), Patna (Rs. 2,522). In Darjeeling the municipal office was enlarged at a cost of Rs. 4,804; most of the expenditure in Narainganj was also devoted to the construction of a new municipal office. Expenditure in Gaya appears to have been on repairs only; that in Patna partly on the construction of a slaughter-house and partly on alterations to the municipal office. Dainhat and Tamluk also spent money on new municipal buildings.

62. *Public Instruction.*—The expenditure on education, as shown in Form III, will not agree with the figures in Appendix I, as the former represents the gross expenditure, including what is met from the fees paid by scholars, whereas the latter shows the net expenditure only, together with the class of school to which it was granted. It is satisfactory to note that but for a few insignificant variations, the figures in Appendix I agree with the subsidiary table appended to the report of the Director of Public Instruction. The total expenditure amounts to Rs. 93,201 as compared with Rs. 91,504 in 1892-93; that on primary education to Rs. 48,379 as against Rs. 33,024 in the previous year. The following statement will show that in every Division there was a marked increase under this head:—

Division.	Total expenditure on primary education.		Increase.	Percentage of increase.	Ratio of expenditure on primary education to total ordinary income.
	1892-93.	1893-94.			
1	2	3	4	5	6
	Rs.	Rs.	Rs.		
Burdwan	8,113	8,940	827	10·1	1·9
Presidency	7,193	10,313	3,120	43 3	3·7
Rajshahi	1,981	3,627	1,646	83·0	1·8
Dacca	942	2,354	1,412	149·8	1·1
Chittagong	536	1,215	679	126·6	2·1
Patna	7,691	12,416	4,725	61·4	2·9
Bhagalpur	3,049	4,402	1,353	44·3	3·02
Orissa	2,464	3,225	761	30·8	4·2
Chotta Nagpur	1,055	1,887	832	78·8	3·0
Total ...	33,024	48,379	15,355	46·4	2·3

63. On more than one occasion the wishes of Government in respect of primary education have been clearly expressed. It has been laid down as an approximate standard for the guidance of municipalities that provision should be made for the primary education of not less than half the male population of school-going age at the rate of 10 annas a head, which the returns show to be the average yearly net cost of the education of pupils of this class in Bengal. At the same time, in recognition of the many and various objects among which municipal funds have to be distributed, it was prescribed that any municipality which devoted as much as 3·2 per cent. of its ordinary annual income to this purpose might fairly be held to have performed its duty. The statement above shows that there has been a satisfactory increase in the contributions to this very important object, and this advance the Lieutenant-Governor cordially acknowledges: he is further gratified to learn from reports received from Commissioners in reply to a circular issued on the subject, that a still further advance is to be looked for in the current year. The prescribed minimum of 3·2 per

cent. has, it is true, not yet been attained throughout the province, but on the whole the progress is satisfactory. In only one municipality, namely the South Suburban, as compared with seventeen in the previous year, was no expenditure incurred on primary education; but in the following towns less than one per cent. of the income was devoted to this object:—

Burdwan.	Cossipur-Chitpur.	Darjeeling.	Muktagacha.
Uttarpara.	Baranagar.	Dacca.	Nasirabad.
Howrah.	Naihati.	Narainganj.	Muzaffarpur.
			Lohardaga.

The whole matter has been fully treated in the Resolution of the General Department, No. 3394, dated the 1st October 1894, and it is only necessary here to say that the Lieutenant-Governor trusts that in all municipalities where due provision was not made in the year under report for the education of the rising generation, the Commissioners will use their best endeavours to carry out the wishes of Government in the current year.

64. *Loans.*—The following new loans to municipalities were sanctioned and drawn during 1893-94:—Rs. 8,000 for acquiring a tank in Howrah, Rs. 25,000 for the provision of a filtered water-supply in Maniktala, Rs. 60,000 for drainage works in Muzaffarpur town, Rs. 20,000 for the Baradanda drainage works in Puri. Of the two last, only Rs. 45,000 and Rs. 5,000 respectively were taken up during the year. Altogether Rs. 2,98,000 were drawn as loans during 1893-94; this sum including, besides those above mentioned, Rs. 1,58,000 the first instalment of the loan for the Patna drainage works, and Rs. 12,000 taken by Howrah to pay off old gas bills. A loan of one lakh to the Arrah Municipality for water-works was sanctioned during the year, and Rs. 18,000 for the drainage scheme in Jalpaiguri, but the amounts were not drawn until after the close of the year.

65. *Embezzlements.*—Few embezzlements are reported to have occurred during the year, but it is feared that the list given below is not exhaustive, as the reports of the Commissioners of Rajshahi, Chittagong, Bhagalpur, Orissa, and Chota Nagpur are silent on the subject. No defalcations were discovered in the Burdwan Division. In the Presidency Division three are mentioned, which are still under enquiry. In Debhatta the tax-daroga committed suicide, and on enquiry being made, his account books and a sum of Rs. 209 were found to be missing. The Commissioner's inspection in Satkhira brought to light an embezzlement of Rs. 60 by the clerk, and further defalcations are feared. Two sircars are reported to have made away with municipal money in Maniktala, but no details have been given. In Dacca and Mymensingh two tax-collectors embezzled Rs. 296 and Rs. 50-8 respectively. Both have since died. From Jhalokati in the Backergunge district, the municipal accountant, who was also head-master of the English school, took leave for three days, and did not again return; on his accounts being examined, a sum of Rs. 32 was found to have been misappropriated. A tax-collector in Patna embezzled Rs. 535 and absconded. In most cases the Municipal Commissioners have no one but themselves to blame when these defalcations occur. They are engendered by laxity in enforcing the rules of account, and are fostered by neglect to take proper security from officers entrusted with the handling of money. The duty of the Commissioners in this matter is clearly set before them in Rule 7 of the Account Rules published by the notification of the Government of Bengal, dated the 7th February 1891, and until those orders are vigorously enforced, some municipalities every year will have to bewail the irretrievable loss of public money.

66. *Working of the Porters and Dandiwallahs' Act in Darjeeling.*—The Deputy Commissioner reports as follows:—"This law is carefully worked, and there is a close supervision of porters and dandiwallahs. A special officer is employed to look after and prosecute offenders, and complaints are growing less." The number of porters and dandiwallahs registered was 980 in 1893-94 against 1,021 in the previous year; the prosecutions numbered 51, and the fines Rs. 52-12, which is less than in the previous year.

67. *Inspections.*—In paragraph 61 of the resolution on the working of municipalities during 1890-91, it was suggested that Magistrates and Subdivisional Officers should make inspections of the Municipalities within their

jurisdiction and submit their reports to Divisional Commissioners, and that similarly Commissioners when they made inspections should forward a copy of their notes to Government. In pursuance of this suggestion the Commissioner of Dacca submitted five reports on towns which he had inspected, the Commissioner of Chota Nagpur four, the Commissioner of Rajshahi three, the Commissioners of the Orissa and Presidency Divisions two each, and the Commissioner of Burdwan one. The reports generally were instructive and carefully prepared, particularly those of the Commissioner of Dacca (Mr. Luttman-Johnson), but in some instances it was found that the recommendations made to the Municipal Commissioners were not sufficiently definite; and in order to cure this defect, and to enable the Lieutenant-Governor to see at a glance what action had been taken on the recommendation, Sir Antony MacDonnell, who was then officiating as Lieutenant-Governor, directed in circular No. 10T.M., dated 1st July 1893, that the reports should be accompanied by a statement which should show categorically the points in regard to which the Commissioner thought that reform was needed, together with a note by the Chairman explaining what has been done in pursuance of the recommendation. This statement has since been prepared and forwarded in most cases; and though the procedure naturally delays the submission of the report to Government, the result in the end is to save much correspondence. The Lieutenant-Governor trusts that the Commissioners of Patna, Bhagalpur, and Chittagong, who submitted no reports during the year under review, will endeavour to do so during the current year.

68. *General working of the Act during the year.*—The following observations are taken from the report of Mr. Dutt, the Officiating Commissioner of Burdwan:—

"My opinion of municipal administration in this Division is embodied in the remarks which I have made in this report, especially under the heads of Drainage, Tanks, Conservancy, and Public Health. Municipal Commissioners are slow in taking the initiative, especially in matters which require special or scientific knowledge, or necessitate much outlay; but I have generally found them willing and even anxious to accept our suggestions and friendly help, and animated by a sincere desire to do the work which they have undertaken. The slow progress in sanitary improvements is considered the weak point in municipal administration; but officers who were District Magistrates ten or twelve years ago know that the progress was not quicker when we were Chairmen. Dirty tanks are private properties, and cannot be filled up or cleaned without a great deal of difficulty, and schemes of drainage require time to prepare and money to carry out. I have stated before that in some instances the schemes of drainage prepared by municipalities have been rejected by the Sanitary Board, and that in other instances the schemes approved by the Board are so expensive as to be utterly beyond the means of the towns for which they were intended. It is not the fault of the municipalities concerned that these schemes have not yet been carried into execution. I have suggested what appears to me the proper remedy. Large municipalities will be willing, I believe, to appoint special sanitary engineers, selected by the Sanitary Board, for preparing practicable schemes of drainage, and the improvement of tanks, of conservancy, and general sanitary arrangements. And such officers will bring these municipalities into closer contact with the Sanitary Board, and thus facilitate the reforms required by the Board and the Sanitary Commissioner. I believe Municipal Commissioners are sincerely anxious to accept all practicable schemes of improvement."

69. Mr. Williams, Officiating Commissioner of the Presidency Division, writes as follows:—

"I did not take charge of the Division till after the close of the year, and have not, therefore, seen as much of the working of the municipalities as I should have liked. Judging, too, by the district officers' reports, I have not inspected the best, and perhaps I was wrong in anticipating that municipalities near Calcutta would set an example in municipal government to their comrades in the mufassal. Some of those that I have seen are not a success, not so much by reason of any misgovernment as of their situation, and many of those which are in existence at the present time ought never to have been constituted municipalities. * * * * Again, the position of others is such that they should have been formed into two or more municipalities instead of one. * * * *

"In this Division, as elsewhere, I find many gentlemen keen and earnest in their work, and anxious to improve matters, but often helpless through the force of circumstances. Nevertheless, it seems that municipal administration is advancing, though often in spite of the Commissioners themselves. Drains are gradually being extended. The water-supply is by degrees being improved. Primary education is being insisted on in every municipality. Conservancy arrangements are slowly developing, but how slowly the unwillingness of a progressing town like Ranaghat to abolish well privies is an example. More money is being allotted to dispensaries.

"The great drawback to municipal improvements is the fear the Commissioners stand in of their servants and of their constituents. Many of them freely acknowledge that the taxation per head in their towns is far below what it should be, yet they do not dare to submit a properly-revised assessment list. They equally admit that the bad collections are often due to the laziness or incompetency or dishonesty of the collecting staff, but one very seldom finds them fining or otherwise punishing them. If not checked by a supervising authority, one would often find the establishments steadily increasing, and also the individual's pay, without any corresponding reason."

* * * * * * * *

70. Mr. Nolan, Commissioner of Rajshahi, says shortly:—

"My own opinion is that the municipalities worked well during the year. The people are much attached to the form of local government."

71. The following are the comments of Mr. Luttman-Johnson, Commissioner of Dacca:—

"Further experience confirms me in the view I expressed last year. Our municipal administration is not by any means perfect. We have been, I think, too ambitious. But some administration is better than none—than mere chaos. I think, so far as Eastern Bengal is concerned, the inhabitants of the tracts to which Act III (B.C.) of 1884 has been applied, * * * * * * have many advantages over the inhabitants of other tracts. For instance, if they want a well, they can, through their Municipal Board, get one dug. * * * * And on the whole I think the gentlemen, who are good enough to devote their time free of charge to the good of their neighbours by serving on Municipal Boards, perform the duties of their office in a manner, when all the circumstances are considered, highly creditable to them."

72. Mr. Waller, Officiating Commissioner of Chittagong, concludes his report with these words:—

"As remarked by Mr. Oldham, municipal self-government has not so far taken kindly to the soil of this division of Eastern Bengal. Comilla has retrograded, owing to the want of a dictator; while Chittagong is coming to the front under the guidance of a popular but self-reliant Chairman, who thinks less of rules and sanctions than of producing some desirable result. The Noakhali Commissioners have probably, under the influence of a Bengali District Officer, done something, but still, while they admit that the introduction of Part IX has become a necessity, have not, as the present Officiating District Officer expresses it, the courage of their convictions and default in their duty for fear of incurring unpopularity among the rate-payers. Perhaps it is hardly fair to expect them to undergo the risk of being boycotted, until public opinion among the people generally has begun to assimilate the idea that there is such a thing as duty, and that persons who honestly try to do it on principle should not be persecuted, but considered more worthy of honour."

73. The following is extracted from the report of Mr. Forbes, Commissioner of Patna:—

"During my inspection tours and in disposing of budget proposals, I have given as much time and attention as possible to municipal matters. There has, I consider, on the whole, during the past year, been a distinct improvement generally in municipal administration; although it is no doubt very true, as remarked by Mr. Marindin, that everything depends upon the energy with which the Chairman and Vice-Chairman throw themselves into the work and the lead they give in the right direction to their fellow-Commissioners. As a rule I have found that the Municipal Commissioners are ready to listen to advice and to support any proposals which they see to be just and proper and conceived in the public interests. As an example, I may instance the wisdom and good feeling shown by the Commissioners of the Patna Municipality in accepting my own and the District Magistrate's recommendation to appoint a salaried assessor, although when first mooted the proposal was not regarded with favour. The experiment has succeeded, and the propriety of the measure is, I believe, now recognized on all sides. In other municipalities in many various matters, such as conservancy, drainage, dispensary administration, the question of primary education, the supply of oil for the lanterns of the Municipal Police, the reduction of expenditure on establishments and the like, I have almost invariably found that the District Officers and myself have met with willing and effective support. The only municipalities which merit unfavourable notice in this regard are Darbhanga and Muzaffarpur, especially the former, as will be observed from the remarks in certain foregoing paragraphs of this report. In both cases, however, I have every hope that the Commissioners will, on reconsideration, listen to wiser counsels."

74. Mr. Toynbee, Officiating Commissioner of Bhagalpur, writes:—

"As I took charge of the Division only fifteen days before the close of the year under report, my remarks are based chiefly on those of the District Officers and on what I have seen of the municipal administration to date. The weakest points of it appear to be—(1) the neglect

of outdoor supervision, (ii) the want of some uniform plan of assessment, and (iii) laxity in making collections. There seems to be a tendency to an increase of establishments without a corresponding increase in their efficiency, and in the results of their work. It is not reasonable to expect that either an official or unofficial Chairman or Vice-Chairman can spend every morning out-of doors looking after all the municipal arrangements. The best solution of the difficulty appears to be—where any municipality can afford it—to appoint a paid Secretary or Vice-Chairman, who is also something of an Engineer, and who would also look after collections. In the matter of assessment it is hoped that the new Municipal Act will provide a remedy for the present unsatisfactory state of affairs. For the execution of any real and lasting municipal improvements, such as drainage and water-works, the only feasible plan seems to be to raise loans, and it is to be regretted that Municipal Committees in general should hesitate to adopt this mode of raising the necessary funds, and of making the next generation pay for the advantages it will derive from such works. Monghyr is badly in need of a drainage scheme, but the Municipal Commissioners hesitate to incur the responsibility of raising the necessary funds. Speaking generally, it does not seem that municipal administration has made any real progress towards increased efficiency during the year under report."

75. Mr. Cooke, the Officiating Commissioner of Orissa, writes:—

"On the whole, the Act seems to have worked well in all the municipalities in the Division. In the case of the Cuttack Municipality I was not favourably impressed with the office work; the office appeared to be under-manned, and not to have any clerk of the requisite ability to deal with the affairs of a large office. On the other hand, I can compliment the Chairman, Dr. Zorab, on the state of the roads and drains, and on the manner in which, with the assistance of some of the Uriya Commissioners, he contrives to widen roads without recourse to the Land Acquisition Act."

76. Mr. Grimley, the Commissioner of Chota Nagpur, sums up the year's work with these remarks:—

"In a backward country like Chota Nagpur, municipal rule is an exotic of necessarily slow growth, and with alien administrators, mostly pleaders, mukhtears, petty traders or money-lenders, who have their own business to attend to, and who, by virtue of their occupation, are not brought into close sympathetic relations with the people, it was hardly to be expected that the rate of development would be otherwise than moderate. The rate-payers themselves do not appear to be much impressed by what is being done for them by the Municipal Commissioners, for in the few contested elections the paucity of voters shows how little they value the privilege of the franchise; they are not sufficiently advanced to understand the system, and the advantages it confers upon them, and in civic matters are wont to look for aid and protection to the Deputy Commissioner or Commissioner instead of gathering round the City Fathers as their natural guardians and protectors. But notwithstanding this lack of keen and stirring interest in municipal affairs, there has been a certain amount of progress—prominently in Daltonganj—thanks to the Chairman, Mr. Bright, and the business of the year has generally been conducted in a satisfactory manner, and without any unreasonable display of party feeling. There is still, however, room for improvement in some municipalities in various respects, such as road-making, conservancy arrangements, the extended application of funds to the requirements of primary education, and especially the punctual collection of the taxes. More outdoor supervision by the Commissioners themselves, or some one who can be trusted to exercise strict authority on their behalf, is also desirable. The subordinate establishments want constant overlooking to keep them up to the mark, and this is the kind of work which the Commissioners individually as a rule do not appreciate."

77. The Lieutenant-Governor has been impressed with the care and attention which mark the reports of the Divisional Commissioners on the municipal administration of the past year, and with the general sagacity of the remarks they have recorded: occasionally in the extracts quoted above and in the observations which occur in this Resolution, unfavourable comment has found a place, but it is never to be forgotten that those are the best friends of local government who most honestly indicate its failings. The results of this year's administration fully vindicate this principle: many of the suggestions made in previous resolutions have been cordially adopted; in places where medical expenditure was insufficient, it has been increased; a broader view has been taken of the duty of municipalities in respect of elementary education; something has been done towards improving drainage and water-supply; and increased activity has been shown in the preparation of schemes for the execution of these important reforms. It is likely that still greater progress would have been made along these lines had not the counsels

of the Commissioners been clouded by the shadow of impending elections; but when it is remembered that municipal business throughout the province is conducted by gentlemen who, with few exceptions, give gratuitously time and trouble which they can often ill spare, the Lieutenant-Governor recognises that a great measure of success has been attained, and that as a whole the Commissioners have deserved well of their fellow-countrymen. At the present moment a vista of still further usefulness opens before them. The amendments of the Municipal Act have been designed to improve their position, and the new body of Commissioners enter upon their period of office with larger opportunities and a fairer horizon than their predecessors. The Lieutenant-Governor repeats his aspiration that more general attention should be paid to the four cardinal requirements of a municipal population—water-supply, drainage, conservancy, and primary education; and that greater vigour should be thrown into the administration generally by the more punctual collection of municipal dues, by a closer observance of account rules and a more complete supervision of subordinates.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

FORM I.—*Statement showing the Constitution of the Municipalities in Bengal during the year* 1893-94.

1	2	3	4	5	6							7	8	9	10

RESOLUTION ON THE FOREST ADMINISTRATION REPORT OF THE LOWER PROVINCE OF BENGAL FOR THE YEAR 1893-94.

REVENUE DEPARTMENT—FORESTS.

Calcutta, the 17th December 1894.

RESOLUTION—No. 5671—F.—R.

READ—

The Progress Report of the Forest Administration in the Lower Provinces of Bengal for the year 1893-94.

Read again—

The Progress Report of the Forest Administration in the Lower Provinces of Bengal for the year 1892-93, and Government Resolution thereon.

General.

This report is submitted by Mr. A. E. Wild, who joined the circle as Conservator of Forests on the 8th April 1894, and is the first embracing the new forest year from the 1st July to the 30th June. It was due on the 1st October, and reached the hands of Government on the 9th November 1894. The delay is attributed partly to the short acquaintance of the Conservator with the details of the working of the Circle, and partly to the fact that it was necessary for purposes of comparison to reduce many of the figures given in last year's report, which covered a period of 15 months, from the 1st April 1892 to the 30th June 1893, to an average of 12 months, or to prepare actuals. The report is tinged by criticism of the past administration of the department, and without wishing to discourage reform or to imply that forest administration in Bengal is not capable of much improvement, the Lieutenant-Governor regrets that the attitude adopted by Mr. Wild should have led in some instances to invidious prominence being given to mistakes of a trivial character, occurring in the time of his predecessor. It is necessary also to say that the report is twice the length prescribed in section 266 of the Forest Department Code, and somewhat technical and bewildering in its minute sub-division. On the other hand it is evident that much pains have been bestowed on its preparation, and it bears witness in several places to the attention which Mr. Wild is devoting to the careful scrutiny of forest statistics and accounts and the correct preparation of prescribed returns.

Extension and Constitution of Forests.

2. The following statement shows the areas of the several classes of State Forests at the close of the year:—

	At commencement of the year.	Added.	Excluded.	At close of the year.	Percentage—	
					Of total forest area.	Of the area of the provinces.
1	2	3	4	5	6	7
	Sq. miles.	Sq. miles.	Sq. miles.	Sq. miles.		
Reserved	5,703	460	332	5,831	45	3·7
Protected	3,071	.....	12	3,059	24	1·9
Unclassed	4,034	1	1	4,034	31	2·6
Total ...	12,808	461	345	12,924	100	8·2

Reserved Forests.

3. The reservation of the Ramgarh-Sitakund Forests in the district of Chittagong added 133 square miles to the area of Reserved Forests, bringing the total to 5,831 square miles against 5,703 square miles at the beginning of the year, the net increase being reduced by recomputation to 128 square miles.

Protected and Unclassed State Forests.

4. The area of Protected Forests was reduced from 3,071 square miles at the commencement of the year to 3,059 square miles at its close, by the transfer of 12 square miles of land in the Sundarbans Forests to the Civil Department for purposes of cultivation. The areas of the Protected Forests in the districts of Chota Nagpur except Singhbhum are still unknown, and are not included in the foregoing figures. Since the close of the year all waste lands, the property of Government in the Sonthal Parganas, have been declared "Protected

Forests," and rules have been approved for their management, but the area thus brought under the Forest Act is again unknown. A small area of 364 acres in the Kurseong Division, acquired by the Public Works Department for the prevention of landslips at the Paglajhora on the Darjeeling-Himalayan Railway, and made over to the Forest Department for conservation, was added to the "Unclassed State of Forests," which cover 4,034 square miles, lying, with the exception of this addition, entirely in the Chittagong Hill Tracts.

Settlements.

5. In the present report the Conservator has eliminated from the total area shown in former reports as finally settled those areas not actually settled under the Forest Act, which it was customary to place in this category, because no detailed settlement of them under that Act was considered necessary The area finally settled as shown in the present report is thus 2,827 square miles against 5,498 square miles in the previous report. This is possibly a more precise statement of the facts, but it must not be forgotten that much of the unsettled area has been Government Forest for so long that it is now unnecessary to apply to it the formal settlement procedure of the Forest Act. As regards the Forests of the Palamau Division, the Conservator appears to be mistaken in saying that they are not settled under the existing law. It was decided not to carry out a settlement under the Forest Act, because these forests are practically settled already under other laws. In the case of the Sunderbans Forests, which were reserved in 1879, there can be little question now of outstanding rights in them, and their settlement under the Act, which had been ordered, was therefore countermanded. In fine, if it is necessary to be precise, State Forests may for the present purpose be divided into three categories:—

1. Areas which do not require settlement under the Forest Act.
2. Areas finally settled under that Act.
3. Areas remaining to be settled.

It may be added, for the Conservator's future guidance, that an Annual Report is not the place in which to discuss such a question as whether a particular forest should or should not be brought under settlement.

6 Turning now to the actual work of the year, 667 square miles were in course of settlement at the beginning of the year, and 741 square miles were subsequently taken up. Out of the total of 1,408 square miles, 477 square miles were settled during the year including the Ramgarh-Sitakund Forest in Chittagong, all the unsettled Reserves of the Jalpaiguri Division, and most of those of the Buxa Division. The remainder includes other extensive forest areas in Chittagong aggregating 733 square miles, which it is proposed to reserve under the Act.

Survey.

7. No new survey work was done during the year by either the Survey Department or the Forest Survey Branch of the Government of India. Mr. Wild has made a praiseworthy attempt to prepare form No. 49, which illustrates the state of survey work in the circle, and the Lieutenant-Governor shares his hope that it may be found possible to prepare the statement with greater accuracy in future. It would appear that only 447 square miles of Reserved Forest in the Jalpaiguri and Buxa Forest Divisions, recently mapped by the Survey Department, have been specially surveyed with interior details, while 2,092 square miles of Reserved and 2,248 square miles of Protected Forest in the Sundarbans are included in ordinary District Surveys. Boundaries have been laid down by the Forest Survey Branch for 532 square miles of Reserved Forest in Singhbhum, and by local officers for 1,706 square miles of Reserved Forest and one square mile of Unclassed Forest. The total area which has not been surveyed in any way is 6,086 square miles, viz 1,242 of Reserved, 811 of Protected, and 4,033 square miles of Unclassed Forest.

Working Plans.

8. Some progress was made in this branch of forest administration. As in the previous year, there are 4,378* square miles of forests under regulated management and 1,822 square miles which do not require regular plans. Plans were in course of preparation during the year for 225 square miles, and there remain 2,465 square miles of Reserved and Protected Forests, and 4,034 square miles of Unclassed State Forests, for which Working Plans have still to be prepared.

* Excluding 12 square miles transferred from the Sundarbans Forests to the Civil Department.

Communications and buildings.

9. The expenditure incurred under this head during the year, as compared with the preceding 15 months, is shown in the table below extracted from the Conservator's Report :—

	Buildings		Roads and Bridges.		Total.	
	1892 93.	1893 94.	1892-93.	1893-94	1892-93.	1893-94.
1	2	3	4	5	6	7
	Rs.	Rs	Rs.	Rs.	Rs.	Rs.
New construction .. .	8,778	21,757	10,049	5,998	18,827	27,755
Repairs	9,675	10,435	3,721	6,885	13,596	17,320
Unapportioned	168	.. ...	4,721	1,633	4,889	1,633
Total ...	18,621	32,192	18,491	14,516	37,112	46,708

The increased cost on buildings is chiefly due to the construction of the Forest office at Khulna, on which a sum of Rs. 9,080 was spent. Little progress was made in the construction of new roads, only 51 miles having been completed against 114 miles in the 15 months ending June 1893. This falling off is to be regretted, as the opening of communications is essential to the development of the forest revenue—a fact which is recognized in paragraph 72 of the report, which contains the following remarks :—"There is no doubt that although the extraction of forest produce is and may continue to be entirely in the hands of purchasers, still the want of communications is one of the great drawbacks the forests in Bengal have to contend with in the matter of disposal of the material they produce." The attention of the Conservator's is invited to the observations on this subject made in paragraph 9 of the Resolution recorded by Government last year.

Breaches of Forest Law.

10. The number of cases taken to Court was 126, against 175 in the previous 15 months (reducible to an average of 140 for 12 months), and convictions were obtained in 109 cases, or 86 per cent., against 88 per cent. The number of cases compounded under section 67 of the Indian Forest Act was 982 (involving 1,516 persons), and the amount of compensation received was Rs. 5,753, giving an average of Rs. 5-13-9 for each case and Rs. 3-12-9 for each person, against Rs. 1,179 (reducible to an average of 945 for 12 months) in the previous 15 months. There was a large increase in the number of such cases in the Tista Division, attributed to the practice of rewarding informers. A considerable decrease in the Sundarbans Division is ascribed to a better observance of the law.

Forest fires.

11. Protective measures against fire were adopted in 1,871 square miles, or 32 per cent. of the total area of Reserved Forests in the Circle, against 1,889 square miles specially protected in the preceding year.

The most important event of the year was the failure of these protective measures. The total area burnt amounted to 689 square miles, or 37 per cent. of the area protected, against 17 square miles, or one per cent. in the previous year. This unfortunate result, which the Conservator describes as abnormal and unprecedented, is not to be ascribed solely to want of success in the Singhbhum Division. Large areas were burnt in Palamau and Angul, and almost every Division contributes something to the general failure.

The following remarks are taken from the Conservator's report :—

"A little consideration of the above figures, aided with the statement given in Appendix B, showing the results of fire protection for the last 18 years, will show what little effect special measures have so far attained, and that from a practical point of view we are yet almost entirely at the mercy of the seasons. Moral persuasion and the power of the law seem, however, to have been but little used, and it is hoped, when the incalculable amount of damage such disastrous fires must do is fully realized by the district authorities, that with their help and in such degree as energy and determination is shown by them, coupled with a firm administration of the law, success in our endeavours will be ensured, and the amelioration of the evil attained. Fire-protection is essentially a measure in which the cordial co-operation and aid of District Officers must be enlisted. Without the influence such officers can and ought to bring to bear on the surrounding ignorant population, the expenditure

of lakhs of rupees on the part of the Forest Officers in special protective measures must remain as futile as previous records show it to have done. It is not sufficient to preserve a forest from fire for one year; to be of real use the protection must be permanent, and that we cannot relax our attention, it must be remembered that in a few hours the work, care and expense of years may all be lost.

"The importance and magnitude of the matter are clearly evident when it is realized that during the last 18 years no less a sum than Rs. 2,07,749 has been spent on the safeguarding of 1,889 square miles of forest, with the result that in the eighteenth year no less than 689 square miles of this area has been burnt."

In regard to Singhbhum the Conservator observes:—

"In Singhbhum, where the whole area of the reserved forests, 732 square miles, was attempted to be protected, the disasters of the year were by far the heaviest; in spite of an expenditure of Rs. 1,535 or Rs. 2 per square mile on 869 miles of fire-paths, and the employment of 72 special watchers, no less than 86 per cent., or 629 square miles of the area taken in hand, was burnt as against 8 acres last year. There seems no doubt that this misfortune was due to the lawlessness of the surrounding population, which, seizing the opportunity of, it cannot but be thought, a lax establishment and of a most unusual dry season, and so a most favourable one to it, appears to have carried out its wilful designs without hindrance in a most thorough, but to us most ruinous, manner, for no more reason than that it should thereby obtain ample employment in the collecting of a more abundant crop of sabai grass. Not a single arrest has been made, and the damage sustained by Government has gone without the slightest punishment; nor does it seem that the aid of the district authorities was invoked or given, except in the distribution, at the beginning of the season, of notices which have been mere waste paper. The Divisional Officer, Mr. Chester, was, however, in very bad health, and not equal to his duties, though he had the help of two assistants."

The Lieutenant-Governor is surprised to learn that in Singhbhum no effectual attempt was made to check this enormous waste. Even if his aid was not invoked, the Deputy Commissioner should have brought offenders to justice if they could be identified, or failing that, he should have adopted other measures for the control of the population. His Honour observes that the Conservator has taken steps to keep himself informed of the occurrence of such cases and in view of the gravity of the circumstances disclosed, His Honour desires that until further orders a special report may be submitted to Government concerning every serious fire in a State Forest, as it occurs, showing how it originated and what measures were taken to punish the offenders. His Honour also approves of the Conservator's order that in respect of offences by fire compensation should not be accepted under section 67 of the Forest Act.

Gross yield and outturn of forest produce.

12. The outturn of timber from all sources exceeded 47 lakhs of cubic feet and that of fuel 133 lakhs of cubic feet, while 171 lakhs of bamboos, and minor produce other than bamboos to the value of Rs. 1,22,990 complete the tale of the produce of the Bengal forests during the year. Reducing the figures for the 15 months covered by the report for 1892-93 to an average for 12 months, the corresponding quantities for the previous year are for timber nearly 65 lakhs, for fuel 117½ lakhs, for bamboos 141½ lakhs, and for other minor produce Rs. 98,565. The foregoing figures exclude the estimate made of the consumption of forest produce by the Government raiyats in the Khurda Estate, which is a mere guess. Of the total outturn, departmental operations accounted for only 81,133 cubic feet of timber, 69,052 cubic feet of fuel, and 8,584 bamboos, while 46 lakhs of cubic feet of timber, 132 lakhs of cubic feet of fuel, and 171 lakhs of bamboos were removed by purchasers.

Mica.

13. Among the items included under the head "Minor produce other than bamboos" is mica, regarding which the Conservator writes:—

"The Hazaribagh mica mines, chiefly situated in the reserved and protected forests of that district, form the principal source of supply for the export trade. In 1890 the mines of the Hazaribagh district employed 11,163 persons during the working season, or an average of 1,819 persons daily, and gave an outturn of 4,020 maunds valued at Rs. 1,07,146. The majority of the mines are worked by Messrs. Christian and Company, under leases granted by the Deputy Commissioner of Hazaribagh, at an aggregate rental credited to the Forest Department of Rs. 9,692. They cover a total area of 22·57 acres, the total output for the year under report being estimated at 2,710 maunds, the revenue realized amounting to Rs. 8,029."

It may be observed that the so-called mica mines are not under the control of the Forest Department, and that mica would not ordinarily be regarded as a forest product if the Government of India had not directed that it should be so classed.

Financial Results.

14. The receipts for the forest year amounted to Rs. 7,73,096 against a expenditure of Rs. 3,98,389, leaving a balance of Rs. 3,74,707, and compare with those of the preceding five years thus:—

Year (Financial).	Receipts. Rs.	Charges. Rs.	Surplus. Rs.
1888-89	6,76,907	3,75,471	3,01,436
1889-90	7,68,718	3,90,265	3,78,453
1890-91	7,27,392	4,14,005	3,13,387
1891-92	7,89,553	4,22,930	3,66,623
1892-93	7,44,882	3,81,608	3,63,274
1893-94	8,01,611	4,04,043	3,97,568

The revenue and surplus are the highest on record since the formation of the Department.

15. The following table shows the results in each division for the past two financial years:—

Divisions.	Receipts.		Charges.		Surplus.		Deficit.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Kurseong	19,706	18,4 6	21,039	21,719	.....	...	1,333	3,313
Jalpaiguri	29,189	40,195	2 ,040	25,705	.....	14,480	460	..
Buxa	12,856	10,185	23,293	23,185	.....	.....	10,739	12,980
Direction	16,176	11,456	40,324	42,901	.....	.....	24,148	29,905
Palamau	1,134	2,318	10,808	9,637	.. ..	... ..	9,674	7,319
Singhbhum	35,354	26,838	32,791	45,115	2,563	... ..	...	18,892
Angul	2,771	4,741	9,941	12,176	...	.....	7,170	7,435
Puri	15,528	20,953	13,294	13,705	2,234	7,158	.....	.....
Sundarbans	4,33,368	4,01,163	80,987	1,06,156	3,46,381	2,85,007	.....	.... .
Chittagong	85,798	97,261	35,906	27,202	52,893	69,959	... ..	.....
Kusi Drift	13	.....	.....	.....	13	. . ..	.. ..	....
Total ...	7,44,882	8,01,611	3,81,608	4,04,043	4,20,523	4,82,058	57,251	84,529
Net surplus ...	.....	.....	.....	.....	3,63,274	3,97,568	.....	..

With reference to the preceding table, the Conservator observes that the Sunderbans and Chittagong Divisions have mainly contributed to the success of the year, while the remaining Divisions, with the exception of Darjeeling and Puri, which did little more than pay their way, were worked at a loss. It is apparent, therefore, that the most profitable Divisions were those in which least has been done by the Department to improve the resources of nature and in which those resources were the largest. The forests of Darjeeling, which have a considerable demand for fuel to supply, should prove more remunerative.

Miscellaneous.

16. The Circle was in charge of Mr. E. G. Chester from the 1st to the 13th July 1893, during the absence on privilege leave of Mr. E. P. Dansey. The latter held charge from the 14th July 1893 to the 22nd February 1894, when he proceeded on 8 months' furlough and was succeeded temporarily by Mr. Davis. Mr. Wild, the present Conservator, took charge on the 8th April 1894. The tours made by these officers covered a period of 158 days, during which seven Divisional Offices were inspected. In the previous 15 months the Conservator was on tour for 293 days.

The Lieutenant-Governor regrets that so many changes should have been necessary in the *personnel* of the officers in charge of the different Forest Divisions. Only four Divisions were under the same officer throughout the year, and in Chittagong no less than six officers held successive charge. As the Conservator observes, constant changes of this nature are detrimental to good work. But in a service numerically weak, the members of which are liable to be incapacitated by ill-health, it is difficult to avoid them. The Conservator writes:—

"Out of a Controlling Staff of 15 Deputy and Assistant Conservators and 7 Extra Assistant Conservators,—22 officers,—by no means excessive, even when all are effective, one Extra Assistant Conservatorship was unfilled, one Deputy Conservator was away for the whole year and one Assistant for eleven months, while six others were absent for periods of two to three months; one death during the yearha salso again to be recorded."

17. In conclusion the Lieutenant-Governor desires to thank Mr. Wild for the evident zeal with which he has entered upon his duties as Conservator of this Circle.

Order.—Ordered that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

WEATHER AND CROP REPORT.

For the week ending 17th December 1894.

Burdwan.—Rainfall nil. Weather seasonable. Harvesting of *aman* rice continues. *Rabi* crops doing well. Price of common rice 10 to 19 seers per rupee in the district. Fodder and water sufficient. Condition of cattle satisfactory.

Midnapore.—Rainfall nil. Winter rice being reaped. *Rabi* sown. Sugarcane good. Outlook bright. Price of common rice 14 to 21 seers per rupee. Water and fodder abundant.

24-Parganas.—Rainfall nil. Weather seasonable, but cloudy in the latter part of the week. Prospects of crops good. Harvesting of *aman* going on. *Rabi* crops progressing well. Rice sells at—

		Srs.	
Sadar	11 to 13		
Barasat	15		
Basirhat	14½		per rupee.
Diamond-Harbour	16		

Condition of cattle good. Fodder and water sufficient.

Murshidabad.—Rainfall nil. Weather dry and cool. Harvesting of *aman* continues. Sowing of *rabi* crops finished. Indigo, mulberry and sugarcane doing well. Common rice sells at 14 seers per rupee. Fodder and water sufficient.

Khulna.—Rainfall nil. Weather seasonable. Harvesting of *aman* going on. Prospects of crops good. Cultivation of *rabi* still continues. Common rice sells at from 14 to 18 seers per rupee. Fodder and water sufficient.

Dinajpur.—Rainfall nil. State and prospects of crops good. Price of common rice 13 to 14 seers per rupee. No outbreak of any disease among the cattle, nor any complaint for fodder and water.

Rangpur.—Rainfall nil. Weather seasonable. Prospects of *aman* good. It is being reaped. Sowing of mustard and potato nearly finished, and transplanting of tobacco going on. Common rice 9 to 17 seers per rupee.

Pabna.—Rainfall nil. Weather clear and cool. Prospects of standing crops good Harvesting of *aman* rice continues. Common rice sells at 13 seers per rupee. Fodder and water-supply sufficient.

Dacca.—Rainfall nil Harvesting of *aman* continues; prospects good. *Rabi* crops thriving, but recent rain has done some damage to them. Price of common rice 12 to 18 seers per rupee. Fodder available. No cattle-disease.

Chittagong.—Rainfall 1·44. Weather variable, being latterly cloudy and rainy. Reaping of *aman* continues, but crops somewhat damaged by rain. *Rabi* cultivation in progress. Prices have slightly risen. Water and fodder sufficient.

Patna.—Rainfall nil. Paddy still being harvested. Threshing has commenced in most villages. *Rabi* and poppy sowings approaching completion. Rice selling at—

			Srs.	
Sadar	...	18		
Barh	(Old) ...	13		
	(New) ...	18		per rupee.
Dinapore	...	11 to 14½		
Bihar	...	20½		

Gaya.—Rainfall nil. Weather seasonable. Harvesting of paddy, pressing of sugarcane, irrigation of *rabi* and weeding of poppy fields continue. Prices about normal. Fodder and water sufficient.

Champaran.—Rainfall nil. Weather cool with foggy mornings. Paddy harvest progressing. Weeding of *rabi* commenced. Poppy seedlings germinating. Prospects fair. Common rice selling at 18 seers per rupee. Fodder and water-supply sufficient.

Darbhanga.—Report not received.

Bhagalpur.—Rainfall nil. Weather seasonable. *Rabi* sowings completed; prospects good. Harvesting of paddy in progress; outturn satisfactory.

Purnea.—Rainfall nil. Harvesting of *aghani* going on. Prospects of *rabi* promising. Common rice 15 to 20 seers per rupee. No cattle-disease.

Cuttack.—Report not received.

Hazaribagh.—Rainfall nil. Weather cold and fair. Poppy doing well. Prospects of *rabi* crops good. Common rice selling from 15 to 25 seers per rupee.

General Summary.—Little rain fell during the week except in parts of East Bengal, where it is reported to have done some injury to the crops. In other respects agricultural prospects continue favourable. The harvesting of winter rice is in progress, and a satisfactory outturn is expected. *Rabi* crops and poppy are nearly all sown, and the young plants are doing well. Sugarcane and other standing crops are promising. No cattle-disease is reported. The price of common rice continues generally normal.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 18th December 1894.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

The total fall from 1st January to 15th December 1894	48·66
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·52

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V, of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; = fog; o, overcast; g, gloomy.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last seventy years. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 15th of December 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1894. Mean for district.	Normal mean.	Variation.	District.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the* 18*th December* 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 15TH OF DECEMBER 1894.

THE cold wave of dry air following in the rear of a barometric depression had reached Bengal at the end of the last week, and hence conditions were of fairly strongly pronounced cold weather character. At the commencement of the present week, therefore, on the 9th instant, pressure was rising moderately in Bengal, and was in considerable excess, while a steady dry northerly wind current was giving decidedly low temperature and humidity, and these were also steadily decreasing, while the sky was almost cloudless, and rainfall was absent except perhaps in the hills. On the 9th, however, the first indications of a new barometric depression approaching Lower Sind were shown. On the 10th the changes were of little importance in Bengal, but the depression had advanced from Lower Sind into Rajputana, and the centre was near Ajmere. On the 11th the depression had advanced in an east-south-easterly direction, and was near Sutna, while a secondary depression of moderate depth had formed in the North-West Punjab, so that weather was very disturbed over North-Western India. Conditions in Bengal also began to show the effects of this disturbance, and pressure fell briskly over the province, the fall at some stations equalling more than a tenth of an inch, while temperature and humidity began to increase briskly. On the 12th the two depressions in North-Western India began to fill up, or pass away in an easterly direction, and pressure fell moderately over West and South-West Bengal. The temperature and humidity changes on this day were variable, but cloud proportion increased largely in Bengal. On the 13th the low pressure over Bengal began to fill up slowly, though the pressure was still in considerable defect over the province generally. Temperature had increased rapidly, and humidity and cloud proportion remained high. On the 14th the increase of pressure continued briskly at the great majority of stations, and pressure became in slight excess except over Orissa, where pressure was still decidedly low. Temperature also continued high and was usually in excess by from about 2° to 3°. Skies were moderately clouded, and humidity was very high, and a few local showers were reported at the eastern stations. On the 15th, or the last day of the week, pressure had fallen generally at the central and eastern stations, and again weather continued disturbed and showers were rather numerous at the eastern stations. The sky also continued moderately clouded, and humidity was very high, while temperature had increased, and the mean for the day had become in excess at many stations by more than 5°.

Pressure.—The mean pressure for the week, notwithstanding the influence of the depression and disturbed weather, has been nearly normal, for the variations at different parts of the week have been of almost opposite character. Indeed about twenty stations report slightly defective pressure for the week, and almost the same number slight excess pressure. The variations do not, however, average more than 0·01 inch; hence the pressure for the province has been practically normal.

Temperature.—The mean temperature of the province for the week has been 0·5° above the normal, the excess having been largest in North Bengal and Bihar. This excess has to a great extent been brought about by high night or minimum temperatures, for the day temperatures have been usually in defect.

The actual temperatures registered during the week and their variations from the normal temperature of the present season are clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations, it will be seen, have been considerable in the day or maximum temperatures, which have been generally in defect by about 1° or 2°, while on the other hand the night or minimum temperatures have in most cases been rather largely in excess, the average excess at such stations as Cuttack, Patna, Gaya, Purnea and Darjeeling equalling about 3° or 4°.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 15th of December 1894.

	Normal mean maximum temperature for the week ending 15th December.	Actual mean maximum temperature for the week ending 15th December 1894.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 15th December.	Actual mean minimum temperature for the week ending 15th December 1894.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 15th December.	Actual mean daily temperature for the week ending 15th December 1894.	Variation of actual mean from the normal.

Rainfall.—The average rainfall at the stations in East Bengal has only equalled 0·20 inch and in Orissa 0·02 inch. All other divisions have been rainless.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 15th of December 1894:—

Meteorological Divisions.	Temperature.						Rainfall.							
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4998J.

The 18th December 1894.—Under the provisions of section 45A. of the Code of Criminal Procedure, Act X of 1882, as amended by Act X of 1894, the Lieutenant-Governor is pleased to frame the following rules under which District Magistrates may appoint village headmen for the purposes of section 45 of the Code in any village for which there is no such headman appointed under any other law:—

1. In all villages in which Act VI (B.C.) of 1870 has been introduced, the Magistrate of the district may appoint the principal member of the chaukidari panchayat, or the collecting member where there is one, to be village headman.

2. In villages where Act VI (B.C.) of 1870 has not been introduced, the Magistrate of the district may appoint the principal resident landowner or rent receiver, or his representative, or the principal resident cultivator to be village headman.

3. In the case of a principal or collecting member of a chaukidari panchayat, a clause shall be added to the appointment order under section 3 of the Chaukidari Act, to the effect that he has also been appointed to be village headman under section 45A. of the Criminal Procedure Code. When a person other than a member of a chaukidari panchayat is appointed, he shall receive a special sanad from the Magistrate.

4. The Magistrate shall keep a register of all persons who have been appointed village headmen, showing their names and fathers' names, and the villages for which they are responsible, and shall take measures to effect mutations in this register from time to time when one headman dies and is succeeded by another.

The above rules extend only to the districts of the Patna, Dacca, and Orissa Divisions, excluding the subdivision of Khurda in the district of Puri, and will come into force with effect from the 1st January 1895.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

COMMR.'S OFFICE, PRESY. DIVN. CALCUTTA, *the 22nd December* 1894.

EDUCATION DEPARTMENT, BENGAL.

Civil Engineering College, Sibpur.

Apprentice Department.

THE date for admission to this Department is 4th February 1895.

Candidates must be at least 15 and not more than 17 years of age.

They must have passed Standard VII of the Code for European Schools, or the University Entrance Examination in English and Mathematics. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January 1895. No applications will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

* Rupees 5 per mensem.

There will be three vacancies on the free list for Christian apprentices in February next and thirteen on the reduced* fee list.

For natives there will be at least 12 vacancies, possibly more, on the reduced† fee list.

† Rupees 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. SLATER, *Principal, Civil Engineering College.*

SIBPUR; *the 22nd November* 1894.

On or about Monday, 2nd December	„	...	1,510	1,595	3,105
	Total	.	18,120	19,140	37,260

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to

any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1893-94, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

N. K. BOSE,

FORT WILLIAM, *the* 21*st November* 1894. *Offg. Secretary.*

No. 2186B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1892-93 and 1893-94, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Thursday, the 3rd January 1895, at 11 A M., and will comprise 3,105 chests, viz.—

	Chests.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.

22	,,	,,	2-12	,,
23	,,	,,	2-14	,,
24	,,	,,	3	,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—

1 pound tin Rs. 16, or, post free, Rs. 16-12.								
½	,,	,,	,,	8,	,,	,,	,,	,, 8-8.
¼	,,	,,	,,	4,	,,	,,	,,	,, 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs.* 2, *ans.* 8; per eight-ounce tin, *Rs.* 5; per pound tin, *Rs.* 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs.* 3; per eight-ounce tin. *Rs.* 6; per pound tin, *Rs.* 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 *oz.* tin, eight annas per 8*oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Notice.

BABU CALLY KISSEN TAGORE of Calcutta, zamindar, now residing at Dehra Dun, North-Western Provinces, hereby gives notice that he, having made ample provision for the support of his household and also for the maintenance of all the members of his family, will not be responsible for any debts which may be contracted or incurred by any member of his family.

MADHAB CHANDRA CHAKERDUTTY,
Sub-Judge, 1st Court.
Arrah, the 10th December 1894. (869—1)

In the Court of the Munsif of Giridih, district Hazaribagh.

NOTICE UNDER SECTION 30 OF CIVIL PROCEDURE CODE.

WHEREAS (1) Babu Shikur Chund, (2) Roy Bolak chand Bahadur, (3) Babu Joybunt Sahay (4) Babu Udaychund; (5) Babu Moonshi Lalji (6) Babu Nundkishore, (7) Babu Ram Kumar Prosad (8) Babu Lakshmi Chand; (9) Babu Jagmandil Das (10) Babu Mondil Das, (11) Babu Joy Kumar Chand (12) Kunth Das, (13) Babu Sruinsha Das,—all of Arrah district Shahabad, and (14) Babu Hazarimal of Giridih district Hazaribagh, have instituted, on behalf of the Upperali *Kothi* of Madhuban, in the district of Hazaribagh of the Digambari Bishpantho Jain Sect, a Civil suit, No. 849 of 1894, in the Court of the Munsif of Giridih, district Hazaribagh, against (1) Raja Paras Nath Sing, proprietor of Gadi Palganj; (2) Bakshi Debi Pursad; (3) Raghubir Sahay; (4) Widow of Bhayaban Lal, name unknown, for setting aside a rent decree of the Court of the Deputy Collector of Giridih, dated the 10th November 1894, for ejectment from mauza Bandh, alleged to be the mokrari property of the aforesaid *Kothi*, and lying within the aforesaid Gadi, which decree is alleged to be fraudulent, collusive and passed without jurisdiction, therefore notice is hereby given to all whom it may concern.

LALGOPAL SEN, Munsif of Giridih.
The 21st December 1894. (870—1)

The Calcutta Landing and Shipping Company, "Limited."

NOTICE is hereby given that the debenture loan of 1882 for Rs. 2, 0,000, bearing interest at 6 per cent per annum, will be paid off at the Registered Office of the Company on the 30th June 1895 with interest to that date. Holders of debentures of this issue are given the option of exchanging such debentures as they hold for debentures of a fresh issue of 200 debentures of Rs. 1,000 each, bearing interest at 5 per cent. per annum, and to be secured by a mortgage to Trustees over the Block and fleet of the Company. The new issue will have a currency of 10 years, subject to the Company's right to pay off all, or so many of the debentures as the Company may think fit, at any time or times after the 1st July 1898 on giving six months' notice. If the Company shall determine to pay off a portion only of the debentures of the said issue at any time after the 1st July 1898, the particular debentures to be redeemed and paid off on each occasion will be determined by drawings to be made at the Registered Office of the Company. The option hereby given to the holders of the existing debentures must be availed of and declared in writing, on or before the 31st March 1895, to the undersigned, from whom forms of application for exchange can be obtained.

SIMPSON & Co., Managing Agents.
Calcutta, the 21st December 1894. (868—3)

Road Cess Notification.

DISTRICT BOGRA.

IT is hereby notified for general information that under section 46, Act III (B.C.) of 1885, and section 38, Act IX (B.C.) of 1880, the District Board of Bogra have, at a Special Meeting held on the 5th December 1894, determined that the road cess in the district for the cess year 1895-96 (from 1st April 1895 to 31st March 1896) shall be levied at the maximum rate, viz., one-half anna on each rupee of the annual value and annual net profits as described in section 6, Act IX (B.C.) of 1880.

ASUTOSH BAGCHI, Vice-Chairman.

Bogra, the 18th December 1894.

Revised Notification.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878), that on or about 1st July 1894, the following articles were found under ground by Petta Swami and Dasa Ammanna while erecting a wall forming the boundary of the sites of Nittala Subbanna and Magapa Matalakshmi in the village of Magam, Amalapur taluk, Godaveri district:—

Description.	Estimated.	
	Weight.	Value.
		Rs. A. P.
1 Gold junka	1 tola	19 0 0
1 „ pagoda	...	7 0 0
1 „ duddu	½ tola	4 0 0
1 Silver ball	1½ „	0 13 0
		30 13 0

All persons claiming the said treasure or part thereof are hereby required to appear personally or by agent before the Collector of the Godaveri district, at Peddapur, on the 8th April 1895, in view to the matter being enquired into and determined according to the provisions of the said Act.

W. J. H. LEFANU, Collector.

Wanted

SEVEN unpaid Apprentices for the Nadia Magistracy and Collectorate. Applications accompanied by certificates on the 4 following points will be received by the undersigned up to the 10th proximo:—(*i*) that the candidate has passed the Entrance examination or read up to the Entrance Standard or received as high an education as can be had under local conditions; (*ii*) that he is of good health and sound constitution; and (*iii*) that he is of good moral character. The health certificate must be signed by a Government medical officer.

J. H. E. GARRETT, Offg. Collector of Nadia.

The 22nd December 1894.

Irrigation Department, Bengal.

NOTICE.

IT is hereby notified for general information that the portion of the Gaighatta and Buxi khals, known as the Gaighatta khal, from village Gaighatta on the Damudar, to its junction with the Jeypur khal, in village Khulla, a length of five miles, will be closed on and from 1st January to 31st March 1895, or later, for silt clearance.

K. H. STEPHEN,

Under-Secy. to the Govt. of Bengal.

Calcutta the 18th December 1894.

Notice.

SEALED tenders in Form No. 3 will be received by the undersigned up to the 6th January next for renewing the roof of the Zilla School building, Dinajpur.

Contractors are requested to submit their tenders in sealed covers with Treasury challan (receipt) for Rs. 100 as earnest-money. Other information regarding the work can be obtained from the District Engineer's office. Rules for accepting tenders in Public Works Department will be observed. The Chairman of the District Board reserves the right of rejecting the lowest or any tender. The full deposit of 10 per cent. on the estimated cost of the work, amounting to Rs. 4,070, will have to be paid by the successful contractor, failing which his earnest money will be forfeited

ATUL KRISHNA MUKERJI, District Engineer, Dinajpur.

(8—)

Notice.

IT is hereby notified for general information that the District Board of Purnea, at its meeting held on the 3rd of December 1894, has fixed the maximum rate of half-anna per rupee to be the rate at which road cess will be levied during the year 1895-96.

(Illegible) for Chairman

Purnea, the 21st December 1894.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER, 26, 1894.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 241.

[Second Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Further deterioration of the Guptakhally Crossing.

WITH reference to Notice to Mariners No. 234, dated the 30th ultimo, issued by this office, the Port Officer, Chittagong, has given further notice that the soundings over the Guptakhally Crossing have again deteriorated, and only 10 feet reduced can be depended upon. The sand has also extended considerably into the channel between the Guptakhally buoys, and a cask buoy has been laid in 12 feet reduced to mark the same. Great caution must be used in navigating the river in this vicinity, as the sand is evidently in a state of transition.

There is no change on the outer bars.

B. P. CREAGH, *Comdr.*, R.I.M.,

NOTICE TO MARINERS—No. 242.

[Second Publication.]

EASTERN ARCHIPELAGO—GILLOLO ISLAND.

Reef in Weda road.

THE British Admiralty has given notice, (No. 613 of 1894,) of the existence of a reef, now named Seamew reef, lying in Weda road with the south-east extreme of Uga Yef, bearing about N. W. by W. (N. 56° W.), distant 5 cables.

Approximate position, lat. 0° 16′ N., long. 127° 53′ E.

NOTE.—The approximate latitude of the flagstaff at Weda is 0° 16′ N., and not 0° 19′ N., as stated in sheet of plans, No. 912.

[Second Publication.]

EASTERN ARCHIPELAGO—BORNEO, WEST COAST.

Shoal south-west of Pulo Datu.

THE British Admiralty has given notice (No. 625 of 1894) that the Master of the United States barque *Belmont* reports that on 27th June 1894 he passed a shoal, about half a mile in length, E.N.E. and W.S.W., by a quarter of a mile broad, with apparently depths of not more than 10 to 12 feet water over it, lying with Pulo Datu, bearing N.N.E. $\frac{3}{4}$ E. (N. 29° E.), distant about 25 miles, or approximately in lat. 0° 15′ S., long. 108° 23′ E.

[Second Publication.]

AUSTRALIA—CAPRICORN GROUP.

Non-existence of the single tree on One-tree islet.

THE Portmaster, Brisbane, has given notice (No. 20 of 1894) that the single tree, 40 feet high, on One-tree islet, Capricorn Group, no longer exists. The islet is about 5 feet above high water, and has a number of pandanus trees about 15 feet high growing thereon. Cocoanuts have recently been planted on this islet, and also on North Reef, Wilson Wreck and Rocky islets.

Chart affected, No. 345, and Australia Directory, volume 2.

[Second Publication.]

AUSTRALIA.—TORRES STRAIT, INNER ROUTE.

Rocky patch south-westerly from Claremont island light-ship—Rocky patches west of Eel reef (v)—Amended position, northern extremity of Eel reef, and beacon thereon.

THE Portmaster, Brisbane, has given notice (No. 21 of 1894) that a depth of 26 feet at low water, with rocky bottom, has been found to exist where $5\frac{1}{4}$ fathoms is shown on the Admiralty Chart south-westerly from the Claremont island light-ship.

Position—

Latitude	...	...	...	... 13° 29′ 30″ South.
Longitude	...	...	...	... 143° 41′ 15″ East.

Chart affected, No. 2921 and Australia Directory, volume 2.

As there may be a little less water hereon, care must be taken to avoid passing too near this position.

A 4-fathom rock, small in extent, has been found west of Eel reef, in the following position—

Latitude ... ... 12° 26′ 40″ South.
Longitude ... ... 143° 19′ 55″ East,

with Middle Reef Beacon bearing S E. by S. ½ S., distant 5$\frac{3}{10}$ miles. From this rock two pinnacle rocks lie N. 42° W. distant 4 cables, and N. 32° W. distant 3 cables, having depths of 4¾ and 5½ fathoms respectively over them, with deep water between and around.

The position of Eel Reef Beacon has been ascertained to be 7 cables S.W. by S. ½ S., and the extremity of the reef 5 cables W. by S. ½ S., from the position of the beacon shown on Chart No. 2920.

From the beacon the reef trends in a S. E. ½ S. direction.

Bearings are correct magnetic.

Chart affected, No 2920, and Australia Directory, volume 2.

The foregoing positios are approximate only.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

[Third Publication.]

COASTS OF CHINA AND JAPAN—TAMSUI AND KELUNG, FORMOSA.

Caution respecting navigational marks.

WITH reference to Notice to Mariners No. 212, dated 2nd November 1894, the British Admiralty has given further notice (No. 606 of 1894) that information has been received from the Commander-in-Chief on the China station, that the lights and buoys at Tamsui and Kelung, Formosa, are not to be depended on; and mariners are warned that during the continuance of hostilities between China and Japan, no reliance should be placed on finding any navigational marks in position on the coasts of either belligerent; and that, moreover, obstructions may be placed in the channels leading to any of the ports.

[Third Publication.]

NEW ZEALAND—NORTH ISLAND, EAST COAST.

Hauraki gulf—Sunken rock northward of Waiheke island.

THE British Admiralty has given notice (No. 609 of 1894) of the existence of a rock on the north side of Waiheke island, on which the yacht *Spray* recently struck.

This rock, now named Spray rock, has been examined by the Commander of the Government steamer *Terranora*, and found to be about 100 feet in extent east and west, with a least depth of 3 feet on it at low water springs, 13 fathoms to seaward, and 9 to 10 fathoms between it and Waiheke island.

From the rock Horuhoru island centre bears N.N.E. $\frac{3}{4}$ E. (N. 27° E.), distant 2 $\frac{6}{10}$ miles; and southern D'Urville rock W. by N. $\frac{1}{2}$ N. (N. 73° W.).

Approximate position, lat. 36° 45′ 30″ S., long. 175° 9′ 15″ E.

FINAL REPORT ON THE BHADOI CROPS IN BENGAL, 1894.

The following is published for general information.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

REVENUE DEPT.,
The 21st December 1894.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Bhadoi Crops in Bengal, 1894.

Explanatory.—The classification of crops adopted in this report differs from that given in the final report of the *bhadoi* crops in Bengal, 1893. The change has already been explained in the first forecast of this year's *bhadoi* crops, which was published on the 24th September 1894. The present report furnishes a review of all the *bhadoi* or rainy season crops grown in these Provinces. These may be considered under the two heads—*bhadoi* food crops and *bhadoi* non-food crops. Of the former, the most important are *bhadoi* paddy, Indian corn, and millets. The cultivation of *bhadoi* paddy prevails chiefly in Bengal proper and Orissa, and that of Indian corn and millets in Bihar and Chota Nagpur. Among *bhadoi* non-food crops, the most important are jute, indigo, and cotton. No separate figures have been furnished for jute and cotton in the present return, as special reports are published by this Department on these crops.

2. *Character of the season.*—The character of the season up to the middle of September last was described in the summary of the district returns given in the preliminary forecast of the *bhadoi* crops issued last September. Up to that time, the rainfall was on the whole favourable, though in some parts slightly deficient. A slight contraction was estimated in the area sown this year as compared with the corresponding area of 1893; but it appears from the revised estimates now furnished by District Officers, that there has been in fact a slight increase. It would thus appear, that the want of rain at the time of sowing, referred to in the preliminary report, did not appreciably affect the area cultivated with *bhadoi* crops, and it is probable that the area brought under *bhadoi* cultivation this season is much the same as that of last year.

In the preliminary forecast of September, the prospects of the crop were reported to be good. From the returns now received from District Officers, it appears that the prospects were not overrated. On comparing the present returns with the preliminary estimates, it will be seen that better yields have been reported for 14 districts; for 29 districts, the previous estimates have been repeated, while for two districts only (Murshidabad and Hazaribagh) is the outturn less than was anticipated.

3. *Area cultivated.*—The district estimates of the area cultivated with *bhadoi* crops in the current and last year, as reported in the preliminary forecast, remain unaltered with a few minor exceptions. The total area sown this year would appear from the appended returns to be 15,682,100 acres against 15,587,600 acres estimated to have been cultivated last year. The same returns show that the *bhadoi* food crops of the current year occupy about 77 per cent. of the total *bhadoi* area, the *bhadoi* non-food crops about 23 per cent., and *bhadoi paddy* about 46 per cent. These percentages differ slightly from those shown in the first forecast; the difference is due to a revision of estimates by District Officers.

4. *Character of the crop.*—On reference to the statement attached to the report, it will be seen that out of the 45 districts of these Provinces, seven districts report a full average (16 annas) or more than a full average crop; 26 others report the crop as varying from 12 to less than 16 annas, and 11 as varying from 8 to less than 12 annas. There is only one district, viz. Manbhum, where the crop is reported to be less than 8 annas. The Deputy Commissioner of this district reports an excessive rainfall and want of clear weather. On comparing the district estimates of outturn this year with those for 1893, it will appear that 33 districts report the crop to be better than the crop of 1893, four districts report it to be equal, and eight report it to be worse. The general yield of *bhadoi* crops is thus considerably better than that of last year. In the preliminary forecast, the outturn was estimated at 15 annas; this figure has certainly been reached, and the crop may be considered as about an average one.

N. N. BANERJEI.

Assistant Director of the Dept. of Land Records and Agriculture, Bengal.

Countersinged.

R. NATHAN.

For Director of the Dept. of Land Records and Agriculture, Bengal.

The 11th December 1894.

Final Report on the Bhadoi Crops of Bengal, 1894.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Total area of district in acres.	Total area in district estimated to be under cultivation in acres.	Names of *bhadoi* crops.	Approximate normal area *under each specified bhadoi crop* in acres.	Approximate area *last year under each specified bhadoi crop* in acres.	Estimated area *this year under each specified bhadoi crop* in acres.	Taking 16 annas to represent the average outturn, *how many annas* represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
							Annas.	Annas.		
Burdwan ...	1,726,080	1,253,800	*Bhadoi* paddy ..	173,700	171,300	172,700	12½	12½	Owing to sufficient rain this year, there has been a good outturn of *bhadoi* crops in the Sadar, Kalna, and Ranigunj subdivisions. In the Kalna subdivision, a 16-anna outturn of *bhadoi* paddy was expected, but about 12½ per cent of the crop sown was submerged by flood. In the Katwa subdivision, heavy rainfall, just before the harvesting season with floods in the Bhagirathi and Adjai, affected the outturn to a certain extent.	
			Indian corn (maize).	3,000	3,000	3,000	14	14		
			Other cereals and pulses.	8,100	7,400	7,700	13½	13½		
			Other food-crops (*e.g.*, vegetables).	700	500	600	14	14		
			Indigo	6,000	4,300	5,800	11	12		
			Other non-food-crops including jute and cotton, as shown in the special forecasts.	19,200	18,400	18,800	11½	13		
			Total ...	210,700	205,000	208,600	12½	13½		
Birbhum ...	1,134 023	909,800	*Bhadoi* paddy	150,000	165,000	150,000	16	16	The falls of September and October were so beneficial that, had it not been for the recent rain which has done some injury to the standing crops, the outturn of *aus* paddy would have been 20 annas in spite of the late sowing and deficient rainfall at the sowing time.	
			Indian corn (maize) ..	2,000	2,000	2,000				
			Other food-crops (*e.g.*, vegetables).	1,500	1,500	1,500				
			Other non-food-crops including jute and cotton, as shown in the special forecasts.	2,500	2,500	2,500				
			Total ...	156,000	171,000	156,000	16	16

							Annas.	Annas.		
Bankura ...	1,677,440	642,800	*Bhadoi* paddy	44,300	44,300	43,200	16	14	Owing to scanty rainfall in March, April, and May, and excessive rainfall in subsequent months, the outturn has been injured.	
			Indian corn (maize)...	300	300	300		11		
			Other cereals and pulses.	5,000	5,000	3,000		12		
			Other food-crops (*e.g.*, vegetables).	500	500	300	16	12		
			Indigo	2,900	2,900	2,700		12½		
			Other non-food-crops including jute and cotton, as shown in the special forecasts.	3,900	3,900	3,600		12		
			Total ...	56,900	56,900	53,100	16	13		
Midnapore ...	3,292,800	2,111,800	*Bhadoi* paddy ...	343,800	100,800	110,200	11	11	The explanations given in the preliminary forecast hold good in this case.	
			Bajra		6,000	6,000	.....	14		
			Mandua		1,800	1,800	.....	14		
			Indian corn (maize)...		24,000	21,000	12	14		
			Other cereals and pulses.		9,400	46,400	9	10		
			Other food-crops (*e.g.*, vegetables).		8,700	28,500	10	11½		
			Indigo		36,300	40,800	10	11		
			Other non-food-crops including jute and cotton, as shown in the special forecasts.		47,800	43,200	10	11		
			Total ...	343,800	283,800	294,700	11	12		

Hooghly ...	1,066,660	702,300	*Bhadoi* paddy ...	22,300	50,300	51,500	11	11	The outturn will be the same as was shown in the preliminary forecast. It might have been higher had not the recent heavy rains damaged the crops. In the Howrah Sub-division, the area cultivated this year is less than that of last year, owing to insufficient rainfall at the time of sowing, but the outturn is better and is due to subsequent rainfall.	The Collector remarks that his impression is that Sub-divisional Officers have shown the maximum area cultivated last year as the normal, while in fact the area cultivated this year is probably quite normal. He is making an enquiry on the subject.
			Indian corn (maize) ..	100	100	100		12		
			Other cereals and pulses.	2,300	2,300	1,800		10		
			Other food-crops (*e.g.*, vegetables).	6,000	4,900	4,000		13		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	40,400	25,700	24,000		10		
			Total ...	141,100	83,300	81,400	11	11		
24-Parganas ...	1,671,626	1,223,600	*Bhadoi* paddy ...	103,700	87,500	107,200	8	13	This year's outturn is better than that of the last year owing to seasonable rainfall.	
			Other cereals and pulses.	3,000	700	700	.....	10		
			Other food-crops (*e.g.*, vegetables).	4,900	4,600	4,600	.....	8½		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	46,600	41,200	35,400	8	12½		
			Total ...	158,200	134,000	147,900	8	11		
Nadia	1,788,160	1,303,000	*Bhadoi* paddy ...	200,000	229,500	200,600	11	14	The increase in the area sown this year is due to timely and normal rainfall during the ploughing and sowing seasons. The increase in the outturn is also due to normal rainfall and to late rise of the rivers.	
			Indian corn (maize)	1,000	.....	1,000	.....	12		
			Other cereals and pulses.	49,200	44,900	49,200	10	14		
			Other food-crops (*e.g.*, vegetables).	20,500	16,900	20,500	10	14		
			Indigo	52,100	48,300	52,100	5	14		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	47,000	46,700	47,000	9	14		
			Total ...	420,400	386,300	420,400	9	13		
Murshidabad	1,372,160	966,500	*Bhadoi* paddy ...	252,900	256,700	251,400	12½	10	The outturn this year is below the normal and last year's in consequence of the early rise of the river Bhagirathi.	
			Indian corn (maize)	300	400	300		10		
			Other cereals and pulses.	5,300	5,200	5,100		12		
			Other food-crops (*e.g.*, vegetables).	12,700	10,400	9,600		11		
			Indigo	59,200	58,700	58,800		10		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts	31,700	30,900	22,500		12		
			Total ...	362,100	363,300	347,600	12½	10		

1	2	3	4	5	6	7	8	9	10	11
District.	Total area of district in acres.	Total area in district estimated to be under cultivation in acres.	Name of *Bhadoi crops.*	Approximate normal area *under each specified Bhadoi crops* in acres.	Approximate area *last year under each specified Bhadoi crop* in acres.	Estimated area *this year under each specified Bhadoi crop* in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
							Annas.	Annas.		
Jessore ...	1,872,000	1,116,800	*Bhadoi* paddy .	314,500	280,900	314,100	10	17	The difference in the areas under "other food-crops" and "other non-food-crops" between this and the preliminary forecast is due to inclusion of lands erroneously excluded in the first instance. The area under indigo has slightly fallen below last year's owing to the closure of a few factories in Magura. The outturn is better than last year's, but worse than normal, owing to incessant rainfall at the manufacturing season. The increase in the outturn of paddy is due to seasonable rainfall.	
			Other cereals and pulses.	9,100	6,500	8,800	10	13		
			Other food-crops (*e.g.*, vegetables).	18,800	15,200	16,800	7	15		
			Indigo ...	17,800	16,900	16,800	4	10		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	48,500	35,130	39,500	7	15		
			Total ...	408,700	354,630	396,000	9¼	16		
Khulna ...	3,163,942, including 317,449 acres of land on account of boundary khals and rivers in Sundarbans.	870,600	*Bhadoi* paddy .	56,400	46,500	52,600	8	17	The better outturn of the crop is due to seasonable and well distributed rainfall this year.	
			Other cereals and pulses.	3,200	3,200	3,200	12	16		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	29,800	26,600	24,600	9	15		
			Total ..	89,400	80,300	80,600	8½	16		

Rajshahi ...	1,539,863	1,054,900	*Bhadoi* paddy	165,500	164,200	164,200	13½	14½	The outturn, as it was expected in the preliminary forecast, is better than that of last year, owing to a comparatively favourable distribution of rain at the time of sowing. Had the favourable weather continued till the end, a 16 annas crop might have been expected in all cases. The cultivation was not like the previous year stopped by the heavy fall of rain at the time of sowing, hence the area sown this year shows a little increase.			
			Other food-crops (*e.g.*, vegetables).	1,600	1,600	1,600	10	13					
			Indigo	9,600	9,000	9,000	14	14					
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	111,800	104,500	169,500	12½	15½					
			Total ...	228,500	219,300	224,300	13	15					
Dinajpur ...	2,634,300	1,745,000	*Bhadoi* paddy	128,000	125,000	129,600	18	9	There was no alteration in the weather conditions noted in the first forecast.				
			Jowar	7,000	7,000	7,000	...	18					
			Mandua	7,000	7,000	7,000	.....	10					
			Indigo	100	100	100	...	10					
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	99,500	105,500	107,600	16	12					
			Total ...	241,600	246,600	249,700	17	13					
Jalpaiguri ...	1,295,351	985,300	*Bhadoi* paddy	138,700	131,400	136,100	14	13	The decrease in the outturn is due to want of rain in some parts and to excessive rain in other parts of the district. In the preliminary forecast, the areas under cotton were not included under those for non-food-crops. They are now included.				
			Indian corn (maize) ...	2,000	1,000	2,000	10	10					
			Other cereals and pulses.	4,500	1,500	4,500	10	11					
			Other food-crops (*e.g.*, vegetables).	5,200	.....	8,300	...	11					
			Other non-food-crops, including jute and cotton, as shown in the special forecast.	85,900	83,700	86,100	13	13					
			Total ...	234,300	277,600	283,000	13	13					
Darjeeling ...	744,960	189,400	*Bhadoi* paddy	29,300	32,500	33,500	14	13	Want of seasonable rainfall accounts for the decrease in outturn this year.				
			Mandua	7,700	5,300	5,300	14	14					
			Indian corn (maize)	17,700	22,200	23,200	15	14					
			Other non-food-crops, including jute and cotton, as shown in the special forecast.	15,300	15,300	13,300	14	12					
			Total ...	73,600	75,300	75,300	14½	13

Approximate normal area under each *specified bhadoi crop* in acres.	Approximate area last year under each *specified bhadoi crop* in acres.	Estimated area this year under each *specified bhadoi crop* in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
							Annas.	Annas.		
Rangpur ...	3,251,040	1,622,720	*Bhadoi* paddy ...	275,400	286,100	275,400	16	15	Owing to insufficient rainfall, the outturn is below the average. The estimate in the preliminary forecast was much below the mark.	
			Indian corn (maize) ...	100	150	100	16	16		
			Other cereals and pulses.	91,000	91,500	91,000	13	13		
			Other food-crops (*e.g.*, vegetables).	23,700	23,700	23,700	12	12		
			Indigo	6,600	6,600	6,600	16	14		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	7,700	296,300	296,300	13½	14		
			Total ...	654,300	704,000	693,100	14½	13½		
Bogra ...	929,600	451,000	*Bhadoi* paddy ...	140,000	176,000	165,000	10	8	The decrease in the area sown this year is due to insufficient rainfall at the time of sowing; the decrease in the outturn is due to the damage done to the plants by the continued drought which immediately followed the sowing. The scanty rainfall of June and July did not allow the plants to grow healthy, but, subsequent showers, however, especially those that fell during the month of August, greatly benefited the lowland plants.	
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	74,000	75,000	75,000	13	14		
			Total ...	214,000	250,000	240,000	14½	10½		

Pabna	1,176,960	588,500	*Bhadoi* paddy	121,200	123,500	124,000	10	11	There is nothing to add to the remarks made before in the preliminary forecast of *bhadoi crops*.
			Other cereals and pulses.	20,400	18,400	18,400	8	9	
			Other food-crops (*e.g.*, vegetables).	108,000	108,800	108,800	9	10	
			Indigo	100	100	100	4	12	
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	212,800	226,100	203,100	12	14	
			Total ...	460,500	476,900	454,400	10½	11	
Dacca	1,799,080	997,700	*Bhadoi* paddy	174,900	162,500	165,500	7½	15½	As explained in the preliminary forecast, the decrease in the area of other cereals and pulses is owing to increase in area under paddy, other food-crops and jute. Owing to timely and sufficient rainfall, and also to floods having risen slowly till August, the outturn was better than last year's.
			Other cereals and pulses.	1,000	500	500	6	9	
			Other food-crops (*e.g.*, vegetables).	62,700	37,200	43,300	11	12	
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	219,300	208,700	211,300	9½	14	
			Total ..	457,900	408,900	420,600	9	14½	
Mymensingh ..	4,053,450	2,405,700	*Bhadoi* paddy ..	320,400	353,600	353,600	12	15	This year's outturn will be better than last year's, owing to the better distribution of rain. The cultivation of jute increased owing to the favourable weather.
			Other cereals and pulses.	58,900	56,900	56,900			
			Other food-crops (*e.g.*, vegetables).	41,500	36,500	36,500			
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	572,300	514,900	560,600			
			Total ...	1,033,100	963,900	1,009,600	12	15	
Faridpur .	1,450,880	1,097,500	*Bhadoi* paddy ...	343,200	249,400	303,300	6	16	No noticeable change since the submission of the preliminary forecast. Both the sowing and the growing seasons were favourable, hence the increase in area sown, and better outturn than previous year.
			Other cereals and pulses.	100	100	100	6	16	
			Other food-crops (*e.g.*, vegetables).	500	500	500	4	16	
			Indigo	1,000	1,000	1,000	5	16	
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	85,300	80,100	88,300	7	16	
			Total ...	430,100	331,100	393,200	6	16

Estimated area *this year* under each specified *bhadoi* crop in acres.	Taking 10 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Backergunge...	2,338,880	1,343,290	*Bhadoi* paddy ...	263,500	265,600	283,500	Annas. 5½	Annas. 14	Owing to seasonable and moderate rainfall, the outturn this year is expected to be far better than that of last year.	
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	6,400	6,400	6,400	8	13		
			Total ...	269,900	272,000	289,900	5½	13½		
Tippera ...	1,894,240	1,167,300	*Bhadoi* paddy ...	241,100	241,100	303,000	7	20	As reported in the preliminary forecast, the increase in the area under heads *bhadoi* paddy and cereals and pulses is due to the fact that owing to distress and the high price of rice last year, many lands formerly cultivated with non-food crops, such as jute, *&c.*, were sown this year with *bhadoi* paddy and pulses. The increase in the outturn is chiefly due to timely rainfall and the deposit of silt left by last year's flood.	
			Other cereals and pulses.	300	300	12,500	9	15		
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	93,300	261,600	229,300	6½	18		
			Total ...	335,400	603,000	544,800	8½	17½		

Noakali ...	1,050,240	313,200	*Bhadoi* paddy ...	206,600	167,000	206,600	7½	13	Owing to a better distribution of rainfall, the outturn this year is much better than that of the previous year.
			Other cereals and pulses.	2,600	2,600	2,600	6	8	
			Other non-food-crops, including jute and cotton, as shown in the special forecasts.	11,000	10,800	11,000	7½	10	
			Total ...	220,200	201,000	220,200	7½	17½	
Chittagong ...	1,594,900	306,600	*Bhadoi* paddy ...	92,200	77,200	78,000	9	15	The increase in area under *bhadoi* paddy is due in a great measure to the higher price of rice now demanded in the markets. The increase in outturn is due to copious and timely rainfall during the months of May and June. The figures for Indian Corn have been omitted, as the area sown is very trifling.
			Other cereals and pulses.	3,000	2,600	2,560	12	10

REGULATIONS FOR 1895 OF THE FOREST SERVICE BRANCH IN COOPER'S HILL COLLEGE.

No. 5781For.

THE following is published for general information.

REVENUE DEPT., FOREST,
The 24th December, 1894.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

Circular No. 29 F.

Extract from the Proceedings of the Government of India, in the Department of Revenue and Agriculture (Forests), dated Calcutta, the 7th December 1894.

READ the following extract from a despatch from Her Majesty's Secretary of State, forwarding copies of the Regulations for 1895 of the Forest Service Branch in Cooper's Hill College:—

No. 186 (Revenue), dated London, the 20th September 1894.

From—THE RIGHT HON'BLE H. H. FOWLER, *Her Majesty's Secretary of State for India,*

To—His Excellency the Right Hon'ble the Governor General of India in Council.

I FORWARD, herewith, for the information of Your Excellency's Government, ten copies of the Regulations for admission to the Forest Service Branch at Cooper's Hill College for the year 1895.

* * * * *

Regulations for the Forest Service Branch of the Royal Indian Engineering College Cooper's Hill, for 1895.

[*Post Town, Staines. Railway Station, Egham. Telegraph Station, Englefield Green.*]

STAFF OF THE COLLEGE.*

President, General Sir ALEXANDER TAYLOR, G.C.B., R.E.
Secretary, Lieutenant-Colonel W. J. BOYES.
Bursar, J. P. PASCO, Esq., R.N. (retired).
Chaplain, Rev. C. CROSLEGH, D.D.

Engineering Branch.

Assistant Professor of Engineering, A. H. HEATH, Esq., Assoc. Mem. Inst. C.E.
Professor of Surveying, Major-General E. H. COURTNEY, R.E.
Instructor in Geometrical Drawing, ARTHUR HICKS, Esq.
Lecturer in Accounts, J. C. HURST, Esq.
Instructor in Freehand Drawing, RUSSELL DOWSON, Esq.

Mathematical Branch.

Professor of Applied Mathematics, G. M. MINCHIN, Esq., M.A.
Professor of Pure Mathematics, A. LODGE, Esq., M.A., Fereday Fellow of St. John's College, Oxon.

Natural Science Branch.

Professor of Chemistry, HERBERT MCLEOD, Esq., F.R.S.
Professor of Physics, W. N. STOCKER, Esq., M.A., Fellow of Brasenose College, Oxon.
Lecturer in Geology and Mineralogy, Professor H. G. SEELEY, F.R.S.

Forestry Branch.

Principal Professor of Forestry, W. SCHLICH, Esq., Ph.D., C.I.E., late Inspector-General of Forests to the Government of India.
Assistant Professor of Forestry, W. R. FISHER, Esq., B.A., late Conservator of Forests, Northern India.
Professor of Botany, H. MARSHALL WARD, Esq., M.A., S.D., F.R.S., F.L.S., Fellow of Christ's College, Cambridge.
Lecturer on Entomology, W. F. H. BLANDFORD, Esq., M.A., Fellow of Christ's College, Cambridge.
Lecturer on Chemistry of Soils and Vegetation, A. H. CHURCH, Esq., M.A., F.R.S.
Instructor in German, T. H. DITTEL, Esq.
Lecturer on Forest Law, B. H. BADEN POWELL, Esq., C. I. E., late of the Indian Civil Service.
Director of Practical Study in Forestry on the Continent, Sir DIETRICH BRANDIS, K.C.I.E., Ph.D., F.R.S., late Inspector-General of Forests to the Government of India.†

* The staff of the College is only given in so far as it concerns the Forest Branch.
† Sir D. Brandis is not on the staff of the College.

[*The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.*]

1. The Royal Indian Engineering College is primarily maintained, under the orders of the Secretary of State for India in Council, for the education of candidates for the service of Government in the India Public Works, Telegraph, and Forest Departments; but it is open, to the extent of the accommodation available, to all persons desirous of following the course of study pursued in it.

India Forest Department Appointments.

2. The examination usually takes place towards the end of June, and candidates may undergo the written part of their examination in London, Edinburgh, or Dublin, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. A list of the probable centres may be obtained from the Civil Service Commissioners at any time after March 1895. The oral and practical parts of the examination will be held in London only.

3. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India; the figures as regards each particular year will be advertised from time to time. *In 1895 there will be six appointments offered for competition. It is possible that after 1895 recruits for the Indian Forest Service will be selected from Cooper's Hill College students at the end of their first year's course of study.*

4. Candidates for the Indian Forest Department are selected under the following arrangements:—

(*a*) An applicant must be a natural-born British subject, and must be above 17 and under 20 years of age on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India, he will forfeit his appointment.

(*b*) An applicant must send * to the Revenue Department of the India Office, on or before the 15th day of May of the year in which he proposes to compete:—

(1) His name and parentage, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.

(2) A statement of the places of education at which he may have been, accompanied by testimonials of good conduct during the last four years.

(*c*) Applicants will have to appear before a Medical Board † at the India Office, particular stress being laid upon good vision and hearing. A physical test will also be imposed, so as to ensure the selection of persons of active habits and powers of endurance.

(*d*) The applicants who have sucessfully passed the medical examination and the physical test, will be required to undergo an examination before the Civil Service Commissioners** in the following subjects†† (Classes I to III), marks being assigned as follows:—

CLASS I.—OBLIGATORY SUBJECTS.‡

	Marks.	
1. Mathematics (lower), *viz.* Algebra up to and including the Binomial Theorem; the theory and the use of logarithms; Euclid, Books I to IV and VI; Plane Trigonometry up to and including the solution of Triangles; and Mensuration	2,500	In each of these subjects a candidate must obtain not less than one-third of full marks in order to qualify.
2. English composition	1,000	
3. German (400 for colloquial)	2,000	

* There is no form of application; the documents specified in clauses (1) and (2) should be enclosed in a covering letter addressed to the Secretary, Revenue Department, India Office, London.

† With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Forest Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the following points:—

1. A weak constitution.
2. Defective vision.
3. Impaired hearing.
4. The existence of any congenital defect.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

On the subject of the standard of eyesight required for the Indian services, a pamphlet has been published, under the authority of the Secretary of State in Council, by Messrs. Churchill and Sons, 11 New Burlington Street.

** A fee of 2*l.* is required from candidates at the written examination in London, and 3*l.* from candidates examined elsewhere. Candidates examined at a college or school will probably be required to pay a local fee (in order to defray the expenses of superintendence), as to which they should obtain early information from the college or school authorities. The fee payable to the Civil Service Commissioners must be paid by means of stamps of the specified amount. Instructions on this point will be issued to candidates about ten days before the examination.

†† Reprints of the papers set at previous examinations, together with tables of the marks assigned to the candidates, are published by the Civil Service Commissioners, and can be obtained through any bookseller. The price of each reprint is one shilling.

‡ Attention is invited to the appended Syllabus, giving further details regarding the extent and character of the examination.

	Marks.	
Class II.—Optional Subjects.		
4. Mathematics (higher), including Analytical Geometry, Conic Sections, Statics, and Dynamics	2,000	A candidate may take any two, but not more than two, of the optional subjects. Under "Optional Subjects" Nos. 9, 10, 11, and 12, the examination will be partly practical.
5. French (400 for colloquial)	2,000	
6. Latin	2,000	
7. Greek	2,000	
8. English History. There will be set: one general paper; one paper limited to a fixed period, which will be from the year 1760 to the year 1815 for the examination of 1895 .	2,000	
9. Botany, *viz.*, the elementary parts of vegetable morphology, histology, and physiology, and the principles of a natural system of classification as illustrated by the more important British natural orders. Candidates will be required to describe plants in technical language. Questions will not be set on vegetable palæontology or on the geographical distribution of plants	2,000	
10. Chemistry, *viz.*, the elements of Inorganic Chemistry .	2,000	
11. Physics. Elementary properties of Electricity, Magnetism, Heat, Light, and Sound	2,000	
12. Physical Geography and Geology, chiefly economic; including the recognition of the more familiar minerals and rocks, and their properties and uses	2,000	
Class III.—Additional Subjects.		
13. Freehand Drawing	500	Either or both of these subjects may be taken in addition to the obligatory and the two optional subjects.
14. Geometrical Drawing	300	

(*e*) From the competitors who attain the abovementioned minima of marks in obligatory subjects, and satisfy the requisite conditions in other respects, the Secretary of State will select candidates in order of merit as probationers to enter the College, where they will be further trained for the Forest Service of India.

(*f*) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons who may satisfy the authorities of the College that he or they are properly qualified to become probationers for the Forest Service.

5. The course of study for candidates for the Indian Forest Service extends over about three years, divided into seven terms and the period of study in foreign forests. During seven terms the candidates will prosecute their studies mainly at the College, and during the period of foreign study, which may last for five or six months, they will visit, under suitable supervision, such Continental forests as may be selected for the purpose. Excursions may also be made for purposes of instruction, both during term time and during part of the vacations.

6. Each annual session begins in September and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer, except at the end of the visit to the Continent, when the vacation will be shorter.

7. A charge of 61*l.* is made for each of the seven terms spent at the College; for the period of foreign study the charge is 150*l.* for each student. The amounts must be paid terminally in advance to the Bank of England for the first seven terms, and the amount due for the period of foreign study must be paid before the period begins. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence or to start for his foreign study of forests until his fee has been paid.

8. A deposit of 5*l.* is required to be paid by each student on admission to the College, as caution money, to cover charges incurred by him for damage to books, instruments, etc., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion 66*l.*

9. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging, with washing, up to a cost of 2*s.* a week, and ordinary medical attendance

while in residence at the College. When students are on tour and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the maximum expenditure on such account being 10*s*. per diem), (2) travelling expenses, and (3) fees to local Forest officers, etc.

Students are required to provide their own class books and drawing instruments. Drawing paper, drawing boards, and surveying instruments are provided by the College.

10. The prescribed course of study at present comprises the following subjects :—

I.—*Auxiliary Subjects.*

1. Geometrical Drawing.
2. Freehand Drawing.
3. Surveying.
4. Forest Engineering.
5. Accounts.
6. German.
7. Mechanics.
8. Physics.
9. Chemistry.
10. Geology and Mineralogy.
11. Entomology.
12. Botany.
13. Drill and Gymnastics.

II.—*Forestry*, theoretical and practical, in all its branches.

11. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required, failing which, or in the event of serious misconduct, he will be liable to be removed from the College, or to be sent back from the foreign study, which may entail the loss of his appointment.

12. During the course of study, the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination. Each student may also, at the discretion of the Secretary of State for India, be required to appear before the Medical Board at the expiration of the first year of residence at the College ; and should the result be unsatisfactory, he cannot claim to be allowed to complete the course.

13. The subjects enumerated in paragraph 10 are grouped in certain main branches of study,* and a fixed minimum of qualification is required in each branch and in the subjects taught during the forest tours, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in Forestry.

14. Candidates who have obtained this diploma and are found to be of sound constitution, and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which points will rest with the Secretary of State for India), will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed, before leaving the College, to state their preference in respect to the Provinces to which they desire to be allotted ; but the distribution will be made at the discretion of the Secretary of State for India, after consulting the President of the College and the Principal Professor of Forestry, to the several Provinces according to the needs of the public service. The distribution will be made on the understanding that officers are at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

15. Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment ; he must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. The pay of an Assistant Conservator of Forests will begin from the date of arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs. 350 a month. It will, however, rest with the President of the College, in consultation with the Principal Professor of Forestry, to decide whether any of the probationers, though they have obtained the College diploma in Forestry, have failed to deserve that rate of initial salary. Such probationers, if any, will begin on a salary of Rs. 250 a month, and this difference of salary will continue until the first departmental examination is passed in India.

17. Promotion, leave, and pension will be regulated by the rules of the Service for the time being. The more favourable pension rules have recently been extended to Forest officers appointed from England, who are thus placed on an equality with Public Works officers appointed from Cooper's Hill College. Any Forest officer who has rendered not less than three years' approved service as head of his department has also been made eligible for an

* For details see Royal Indian Engineering College, Calendar.

extra pension of Rs. 1,000 per annum. A copy of the Regulations relative to these matters can be seen on application either at the Library or the Record Department of the India Office; the principal rules, however, are contained in the Abstract of the Civil Service Regulations as given in the "India Office List" or the "India List" published, respectively, by Messrs. Harrison and Sons, 59 Pall Mall, and Messrs. W. H. Allen & Co., 13 Waterloo Place, S.W., either of which can be procured through any bookseller.

18. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

General Rules.

19. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

20. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the control of the Secretary of State for India.

21. The students are distributed in divisions under personal charge of one of the Professors or Instructors selected by the President, such tutor being responsible for exercising the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

22. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied by the College, but students are required to provide their own towels and bed linen. Meals are taken in hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

23. A chapel is attached to the College, which the students residing in the College are expected to attend, unless specially exempted.

24. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

25. Students are required to wear academical dress under such regulations as may be prescribed from time to time.

Students not nominated for the Indian Forest Service, but desirous of obtaining a Diploma in Forestry from Cooper's Hill College.

26. Students not nominated for the Indian Forest Service may be received into the College as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On attaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College Diploma in Forestry or special certificates showing in what subjects they have followed the instruction, and with what result.

27. Candidates who desire to be admitted under paragraph 26 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

28. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College, about the last week in June of the year for admission. The object of the examination will be to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces an University diploma, or other similar certificate granted by a recognized examining body.

29. Candidates admitted to the College under paragraph 26, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the Indian Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may

be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

INDIA OFFICE:
November, 1894.

FOREST EXAMINATION.

SYLLABUS.

CLASS I.

Mathematics.—The extent of the Examination will be as follows:—

(*a*) Algebra, up to and including the binomial theorem, the theory and use of logarithms;

(*b*) Euclid, Books I to IV and VI;

(*c*) Plane Trigonometry, up to and including solution of triangles, and mensuration.

English Composition.—The standard of positive merit will be looked for in logical arrangement of thought, and in accuracy and propriety of expression, but large deductions of marks will be made for faults of writing and spelling.

Candidates are also warned that, for similar faults in the use of the English language, similar deductions will be made from the marks obtained in the German papers in Class I.

German.—There will be translations of unseen passages from German into English, and from English into German; the passages for translation will be taken, mainly, from standard authors, and a few simple questions may be asked, on the passages set, as to the structure and character of the language, and allusions of obvious and general interest. The *viva voce* examination will include dictation.

CLASS II.

ANY TWO SUBJECTS MAY BE TAKEN UP.

Higher Mathematics.—*** In all the following subjects great importance will be attached to accuracy in numerical results.

Further questions and problems on the subjects of the Examination in Mathematics, Class I.

And in addition—

Statics: The equilibrium of forces acting in one plane and of parallel forces, the centre of gravity, the mechanical powers, and friction. (The graphical or geometrical method of treating such problems should be studied as well as the analytical. No application of the differential calculus to Statics will be required.)

Dynamics: Uniform, uniformly accelerated, and uniform circular motion, falling bodies and projectiles *in vacuo*, collisions and work. (Analytical methods of solution, but not the use of the differential calculus, will be involved.)

Analytical Geometry: Problems on straight line and circle.

Conic Sections: Elementary properties, with easy problems both on the analytical and geometrical methods.

French.—The passages for translation will be taken mainly from standard authors, and in other respects the Examination will proceed on the same lines as in German.

Latin.—Passages selected from the authors usually read in schools will be set for translation into English. Passages from English authors will be given for translation into Latin prose and verse, but candidates will be allowed, in the place of verse composition, to answer questions of a simple character, which will test whether they possess a fundamental knowledge of the grammar of the language, and such an elementary acquaintance with Roman History as is required for the intelligent study of the books they have read.

Greek.—Passages will be set for translation into English from the authors usually read in schools, and in other respects the Examination will proceed on the same lines as in Latin.

English History.—The General Paper in this subject will test whether the candidates are accurately acquainted with the facts of English History, and also possess an intelligent knowledge of the meaning of the facts. The paper on the fixed period will, of course, require from the candidates more minute knowledge than the General Paper.

Botany, Chemistry, Physics, Physical Geography, and Geology.—The standard of Examination in these subjects will be such as may be reasonably expected from the education given at schools possessing appliances for practical instruction, such as a laboratory, etc. A considerable portion of the marks will be allotted for the proficiency shown in the practical part of the Examination.

Chemistry will be limited to elements of inorganic chemistry.

Physics will include elementary properties of electricity, magnetism, heat, light, and sound.

Geology, chiefly economic, including the recognition of the more familiar minerals and rocks, and their properties and uses.

CLASS III.

BOTH SUBJECTS MAY BE TAKEN UP.

Drawing, Freehand.

Drawing, Geometrical.

GENERAL.

Handwriting.—In estimating the papers of candidates, a limited number of marks, namely, 100 out of the maximum allotted to each subject, is assigned for handwriting.

ORDER.—Ordered that a copy be forwarded, for information, to the Governments of Madras and Bombay, the Local Governments and Administrations noted in the margin, the Inspector-General of Forests, and the Comptroller and Auditor General.

Bengal.	Assam.
North-Western Provinces and Oudh.	Coorg.
Punjab.	Ajmere.
Central Provinces.	Andamans.
Burma.	Baluchistan.
	Hyderabad.

Ordered, also, that these papers be published in the Supplement to the *Gazette of India.*

[True Extract.]

E. D. MACLAGAN,

Under-Secretary to the Government of India.

WEATHER AND CROP REPORT.

For the week ending 24th December 1894.

Burdwan.—Rainfall nil. Weather seasonable. Prospects of crops continue favourable. Price of common rice 10 to 19 seers per rupee in the district.

Midnapore.—Rainfall nil. Weather seasonable. Reaping of winter rice continues. *Rabi* germinating well. Prospects of crops continue bright. Rice selling from 16 to 21 seers per rupee. Fodder and water abundant.

24-Parganas.—Rainfall nil. Weather seasonable. Prospects of crops good. Harvesting of *aman* continues. *Rabi* crops doing well. Rice sells at—

	Srs.	Ch.	
Sadar	11 to 13	0	per rupee.
Baraset	15	0	
Basirhat	16	9	
Diamond-Harbour	16	0	

Condition of cattle good. Fodder and water sufficient.

Khulna.—Rainfall nil. Weather seasonable. Harvesting of *aman* continues. Cultivation of *rabi* crops going on. Common rice sells from 14 to 20 seers per rupee. Fodder and water sufficient.

Murshidabad.—Rainfall nil. Weather seasonable. Prospects of crops favourable. Fodder sufficient. Rice 15 seers per rupee.

Dinajpur.—Rainfall 0·04. Harvesting of *haimanti* rice is nearly half over. Rice 13 to 14 seers per rupee. No outbreak of cattle-disease nor any complaint for fodder and drinking water.

Rangpur.—Rainfall 0·59. Weather seasonable. *Aman* harvest in progress. Tobacco and mustard doing well. Prospects favourable. Common rice 9 to 13 seers per rupee.

Pabna.—Rainfall nil. Weather clear and cool. Prospects of crops good. Harvesting of *aman* in progress. Common rice selling at 13 seers per rupee Fodder and water supply sufficient.

Dacca.—Rainfall nil. Harvesting of *aman* continues; prospects good. *Rabi* crops thriving. Fodder available. No cattle-disease. Common rice selling from 12 to 18 seers per rupee.

Chittagong.—Rainfall nil. Weather seasonable. Harvesting of *aman* and cultivation for *rabi* crops continue. Spring crops are being sown in places. Prospects of crops fair. Prices steady. Water and fodder sufficient.

Patna.—Rainfall nil. Harvesting of rice still in progress. *Rabi* and poppy sowings nearly finished. Prospects promising. Common rice selling at—

	Srs.	
Sadar	18	per rupee.
Bihar	20	
Dinapore	11 to 14½	

Gaya.—Rainfall nil. Harvesting of paddy and pressing of sugarcane continue. Poppy promising. *Rabi* crops doing well. Prices about normal. Fodder and water ample.

Champaran.—Rainfall nil. Weather cold and seasonable. Reaping of paddy progressing. Poppy plants healthy. Weeding of *rabi* going on. Common rice selling at 18 seers per rupee. Fodder and water sufficient.

Darbhanga.—Rainfall nil. Harvesting of winter rice almost completed. *Rabi* looks promising. Prices remain stationary. Fodder for cattle plentiful.

Bhagalpur.—Rainfall nil. Weather seasonable. Paddy harvest nearly over, with results above average. *Rabi* sowings completed; young crops germinating well. Coarse rice 20 seers per rupee.

Purnea.—Rainfall nil. Weather comfortably cool. Harvesting of *aghani* in full progress. *Rabi* prospects good. Common rice 17 to 20 seers per rupee. No cattle-disease.

Cuttack.—Report not received.

Hazaribagh.—Rainfall nil. Weather seasonable. Poppy sowings nearly over; prospects good. Harvesting of paddy and *kurthi* completed. *Rabi* crops promise well. Common rice 15 to 20 seers per rupee. Water and fodder ample.

General Summary.—There was no rain during the week with the exception of a few light showers in North Bengal. Agricultural prospects continue favourable. The harvesting of winter rice continues and in some districts is approaching completion. A good outturn is indicated. *Rabi*, poppy and other cold-weather sowings are nearly over. Cattle are in good condition. The price of common rice continues generally normal, and shows a tendency to fall in some districts.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 25th December 1894.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

* Mean of 6 days. † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the The *humidity* of the atmosphere is expressed a' percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 22nd of December 1894.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. — Of week. — Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. — Since 1st of month. — Mean for district.	Normal mean.	Variation.	Since 16th October 1894. — Mean for district.	Normal mean.	Variation.	District

Explanation.—. indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding entries in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, December 1894.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 22ND OF DECEMBER 1894.

DURING the previous week Bengal had again been affected by a barometric depression, the effects of which had not entirely passed away from the province on the 15th or the last day of that week. The sky on that date was moderately clouded, temperature and humidity were high, and indeed the mean temperature for the 15th was in excess at many stations by more than 5°. Rain was also being received at some stations in East Bengal. On the 16th, or the first day of the week under review, these disturbed conditions apparently passed away in an easterly direction, and pressure began to rise and temperature to fall at the western stations, while temperature continued to rise, skies remained rather heavily clouded, and a few local showers were reported at the extreme south-eastern stations. On the 17th pressure increased slowly over the whole province, and conditions began to be more settled, as skies began to clear at the eastern stations, though still a few local showers were reported in South-East Bengal. On this day, however, a brisk fall of temperature set in over the whole province, though temperature was still generally above the normal. On the 18th pressure again rose slowly to moderately, while temperature fell briskly, and the same changes occurred on the 19th, when the temperatures recorded over the province were fairly normal. On the 19th, however, a diffused barometric depression or disturbance appeared, which was affecting Baluchistan and North-Western India, and this on the 20th had advanced rapidly towards the Central Provinces and Bandelkhand. Bengal on this day was scarcely affected by the depression, as pressure and temperature were almost steady. On the 21st, however, the depression from Bandelkhand had advanced very rapidly about 500 miles in an easterly direction, and its centre was in the eastern central district of Bengal. Hence conditions changed considerably in Bengal, and particularly in the northern districts, as there was a rapid increase in humidity, temperature and cloud proportion, and a brisk fall of pressure. Showers were also reported on the morning of the 21st in Chota Nagpur, and during the 21st light to moderate showers were received in North Bengal and particularly in the hills, and light to moderate snow-storms were also reported to have occurred at Darjeeling and Gnatong, which falls were included in the report for the 22nd instant. On the morning of the 22nd apparently the depression over Bengal had either filled up or had again passed away in an easterly direction, for pressure had increased slightly to briskly, while skies were clearing and temperature and humidity were falling considerably. Hence the effects of the depression had again passed away on the 22nd, and fine settled weather again obtained over the province.

Pressure.—The mean pressure for the week has been in excess of the normal usually by about 0·03″ to 0·05″.

Temperature.—The mean temperature for the week for the whole province has been 2° above the normal, and the excess has been largest in East and North Bengal, where it has averaged nearly 3°, and smallest in Orissa, where it has equalled only 1·5°.

The actual temperatures registered during the week and their variations from the normal temperature of the present season are clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations, it will be seen, have been considerable in the day or maximum temperatures, which have been generally in excess by about 1° or 2°, while the night or minimum temperatures have in most cases been rather largely in excess, the excess at such stations as Patna and Chittagong equalling about 5° and 6°.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 22nd of December 1894.

	Normal mean maximum temperature for the week ending 22nd December.	Actual mean maximum temperature for the week ending 22nd December 1894.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 22nd December.	Actual mean minimum temperature for the week ending 22nd December 1894.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 22nd December.	Actual mean daily temperature for the week ending 22nd December 1894.	Variation of actual mean from the normal.

Darjeeling	48·1	50·2	+2·1	36·1	37·6	+1·5	42·1	43·9	+1·8

Rainfall.—The only rainfall of importance which has occurred during the week has been in East Bengal, which has averaged 0·22 inch. In this division the heaviest falls have occurred in the district of Noakhali, which has received 0·99 inch, and in Backergunge which has received 0·61 inch. Over the remainder of the province rainfall has been almost absent, but some local showers of no practical importance have occurred in Chota Nagpur and South-West Bengal.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 22nd of December 1894:—

Meteorological Divisions	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th October 1894.

The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·61
The total fall from 1st January to 22nd December 1894	48·66
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·53

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 66, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

☁, dew.
